You are invited to hear a presentation by Dr Peter Wigley
(Manager, Research Ethics & Integrity, Research Services Office, Flinders University)

Dr Wigley will discuss:

Research integrity and the responsible conduct of research, and the handling of research misconduct.

In this country, the prevailing guideline for research integrity is the Australian Code for the Responsible Conduct of Research ('the Code'), published in 2007 by the ARC, NHMRC and Universities Australia (the national Vice-Chancellor's organisation).

The Code discusses the following topics:
* General Principles of Responsible Research
* Management of Research Data and Primary Materials
* Supervision of Research Trainees
* Publication and Dissemination of Research Findings
* Authorship
* Peer Review
* Conflicts of Interest
* Collaborative Research Across Institutions
* Breaches of the Code, Research Misconduct, and the Framework for Resolving Allegations

Friday, 9 May
3 - 4pm
Noel Stockdale Room, Central Library
RSVP Monday 5 May to joy.tennant@flinders.edu.au
