Southern Knowledge Transfer Partnerships

20 ways for business and Flinders University to partner - what can we tell you more about?

Research at Flinders
- New technology/product development and commercialisation
- Clinical trials and studies
- Joint venture/grant applications
- Evaluation of projects
- Trialling new procedures and practices being considered for your industry

Mentoring by Business
- Provide individual or small team mentorship to students
- Provide guest speakers for career days/business events
- Provide on-site tours and visits
- Participate in mock interview panels for graduate readiness

Joint Partnership Activities
- Become involved in Flinders University industry reference groups
- Apply for an environmental audit through Greensteps (free to businesses)
- Develop real world projects in which Flinders students can participate
- Provide work placements
- Provide advice to the University about trends and directions of industry
- Provide industry connections for staff
- Provide scholarships/awards for students
- Provide facilities for trials/meetings/events
- Access professional development programs for your business
- Enhance your staff development through involving junior staff in collaboration projects
- Other activities?
