What do I need to know about uniTEST?

uniTEST is an aptitude test that has been developed to assess the kinds of generic reasoning and thinking skills that underpin studies at higher education and that are needed for you to be successful at this level. This aptitude test has been designed to assess your abilities and aptitude over the three core areas of Quantitative, Critical and Verbal/Plausible Reasoning, assessing this reasoning across the broad domains of mathematics, science, humanities and social sciences. Additional information can be found at http://unittest.acer.edu.au/

uniTEST is designed for school leavers and will complement our existing selection criteria such as the ATAR.
