Flinders University Dial-Up
Windows XP Setup Instructions

Configuring the dial up connection

1. Go to the Control panel. You can do this by clicking on the start menu, and clicking ‘Control Panel’.

2. If your control panel looks different to the screen shot below, and does not say ‘Pick a category’ at the top, click ‘Switch to Category View’ on the left of the window. Then click the ‘Network and Internet Connections’ icon.
2. Now click ‘Create a connection to the network at your workplace’. Then chose ‘Dial-up connection’, and click next.
Now type in ‘Flinders University’, and click next.

Now type in our dial up number, **8468 0800**, and click next.
Now tick ‘Add a shortcut to this connection to my desktop’. This will add a shortcut on the desktop.

After, you will have an icon on the desktop called ‘Flinders University’. When you double click this, type in your username and password, and click connect. You can do this every time you want to connect to the university’s dial up network.
