In your topic guides, you will generally find a list of readings – these have been selected by your lecturers to give you a greater understanding of the topic.

These references can all be found in the Library.

Some references will be **essential** or **required** readings, which you need to read prior to tutorials or workshops.

The Library has two collections to provide quick and easy access to these high demand items.

### Readings Collection

This is where you can find a copy of:

- Set textbooks
- Highly recommended books
- Topic guides and topic readers

These items can be borrowed for **2 hours to use in the Library** – this means that you don’t need to wait too long to get a copy and do your reading for the week.

### eReadings Collection

eReadings are online readings. They can be:

- Journal articles
- Book chapters
- Cases, etc...

These can be accessed 24/7 from FLO.
