The Golden Rule of Safe Driving

"Set a good driving example even if others don't."

Putting it into practice...

- Use your signals - even when others don't.
- Be considerate when making lane changes and passing people.
- Cooperate when someone wants to pass you.
- Maintain the speed limit. If others cut in front of you, drop back to maintain a proper following distance.
- Don't fight tailgaters. Just get out of their way.
- Respect the elderly driver or those who may drive slowly because of a disability.

When you use the golden rule, you make the road safer for everyone. And you feel good, knowing you've done the right thing.
