"This reader is an education in itself. Bravo"
Immanuel Wallerstein, Senior Research Scholar, Yale University

Globalization
A Reader
Edited by Charles Lemert, Anthony Elliott, Daniel Chaffee, Eric Hsu

“What a marvelous compendium! Globalization: A Reader is a Wunderkammer, a social-critic’s desk-book” David Westbrook, Professor of Law, University of Buffalo, US

Globalization will become a classic work in the field.’ Masataka Katagiri, Professor of Theoretical Sociology, Chiba University, Japan

Globalization destroys the naïve sociological belief that globalization is a recent development. Authoritative and judicious, globalization is a significant achievement.’ Bryan S. Turner, Presidential Professor of Sociology at the Graduate Center, the City University of New York

‘A sparkling collection of gems from global history and from contemporary debates on globalization and society’ Raewyn Connell, Chair of Education, University of Sydney, Australia

Expected to become a classic in the field and the classroom standard for teachers and their students, this book offers the most comprehensive, engaging selection of classic and contemporary readings on globalization currently available.

Here, for the first time in print, is the full historical story of globalization – drawn from original sources, explained by accessible introductions and biographical commentaries, and clearly organized as a comprehensive teaching text to guide students through the ins and outs of globalization. With astonishing social, political and historical depth, the book ranges from the Babylonian and Persian empires in Mesopotamia to the global electronic economy of the 21st century, from ancient Greece and imperial Rome to transformations in contemporary state power and global inequalities. From Kenichi Ohmae to Al Gore, from Osama bin Laden to Timothy Garton-Ash, from Amartya Sen to Abdou Maliq Simone: this is a dazzling collection of the most important academic and public statements on globalization.

Throughout, the Editors expertly guide the reader through the complex terrain of globalization – its engaging histories, its transnational economies, its multiple cultures and cosmopolitan politics.
