How to get to the
Anatomy & Histology Office (Room 6E121)
from
Flinders University's Carpark 1 (via the Level 5E entrance of FMC)...

The entrance to Carpark 1 is on University Drive, close to the turn off for Ring Road. Carpark 1 has 3 tiers, all of which is permit / ticket parking. Tickets are available for purchase by the public.

*The Ticket machines are located close to the entrance of Carpark 1, approx. 10 metres into Tier 2 and Tier 3. Tickets for full-day parking can be purchased from these machines ($4 as at 3/5/11) and must be clearly displayed on the dashboard of your vehicle. Please note that the ticket machines do not dispense change. All 3 tiers of Carpark 1 have one-way traffic flow.

Once parked, walk back towards the entrance of Carpark 1. You will see a path that runs alongside the mouth of the entrance. Follow this path towards the tunnel that passes under University Drive.

Then proceed through the tunnel towards the Flinders Medical Centre.

Upon exiting the tunnel you will see a small path to the left (this leads to the FMC Child Care Centre) and a set of stairs to the right. Turn right down the stairs and follow the path until you reach a set of glass doors. This is the Level 5E entrance of the Flinders Medical Centre.
Passing through the Level 5E entrance, you will see the Lecture Theatres to your right and a corridor to your left. **Enter this corridor** and almost immediately you will see a set of lifts on the left.

Take these lifts (or the stairs behind them) up one floor to **Level 6**.

Upon exiting the lifts at level 6, **turn right** down the ‘E’ Corridor.

Follow this corridor until you see the overhead sign indicating the Anatomy & Histology Dept (approx. 20 metres).

To the right of this sign is **room 6E121**, otherwise known as the **Anatomy & Histology Office**.
