

**Flinders University**  
**Sustainability Advisory Group 2025**  
**Terms of Reference**

The Sustainability Advisory Group was formed with the primary purpose of assisting the University to develop and deliver a strategy and plan to improve our sustainability performance and contribute to delivery of the University Agenda.

**The purpose of the advisory group is:**

1. To advocate and champion sustainability in research, teaching and operations
2. To assist in delivering on the vision and actions of the 2030 Sustainability Strategy
3. To consider new project proposals in context of delivering the Plan
4. To assist with development of internal/external funding requests
5. To participate in delivery of projects consistent with role or research speciality
6. To review project outcomes in line with Plan

**Membership**

Current membership is comprised of interested staff and students with a role in or passion for sustainability in operations, education and research. Current terms will expire at discretion of members.

Future membership will comprise of the following:

- Vice President – Corporate Services
- 2 x Representatives from Property, Facilities and Development
- University Head of Sustainability
- Representative from each College
- Up to 3 x interested general staff members
- FUSA Environment Officer
- Up to 3 x students

A call for membership will be conducted on an on-going basis.

Meetings two per year.

Advisory group members can send a proxy on their behalf.

To constitute an official meeting, a quorum of 50% of members plus 1 (or 7 members) must be present.
