

Position Description – Research Fellow

Updated 02 April 2026

POSITION DETAILS	
College/Portfolio	College of Nursing and Health Sciences
Organisational Unit	Health Sciences
Supervisor (Title)	Associate Professor
Classification	Research (Academic) Level B
Employment Type	Fixed Term, Full-Time

POSITION SUMMARY
<p>The Research Fellow will undertake research examining social dimensions of healthcare, with a focus on social interaction. The Research Fellow will primarily work on the project Understanding communication about advance care planning across the lifespan, funded by the Australian Research Council, working under the broad direction of the Chief Investigator.</p> <p>In working with the Chief Investigator and research team, the Research Fellow will bring advanced research skills, including project management, conversation analytic skills, and experience in disseminating and translating research findings. The Research Fellow will actively report on new and current research related to the broad program of research that this project comprises, through generation of high-quality publications and conference presentations. In addition, the Research Fellow will contribute to the preparation of applications for externally funded research funding that build on the current project.</p>

UNIVERSITY EXPECTATIONS AND VALUES
<p>All staff at Flinders are responsible for understanding their obligations and responsibilities as set out in the University's code of conduct and are expected to:</p> <ul style="list-style-type: none"> • demonstrate commitment to the University's values of Integrity, Courage, Innovation and Excellence • demonstrate consistent alignment with the University's strategic priorities through daily decisions, teamwork and behaviours that reinforce the strategic intent. • contribute to the efficient and effective functioning of the team or work unit to meet the University's objectives. This includes demonstrating appropriate and professional workplace behaviours, providing assistance to team members, if required, and undertaking other key responsibilities or activities as directed by one's supervisor; • promote and support an inclusive workplace culture which values diversity and embraces the principles of equal opportunity; • perform their responsibilities in a manner which reflects and responds to continuous improvement; and

- familiarise themselves and comply with the University's *Work Health and Safety, Injury Management and Equal Opportunity* policies.

In addition, it is a requirement of this position that the incumbent maintain a current Working With Children Check which is satisfactory to the University in accordance with the Child Safety (Prohibited Persons) Act 2016 (SA).

A Nationally Coordinated Criminal History Check which is satisfactory to the University will be required by Flinders University before the successful applicant can commence in this position.

KEY POSITION RESPONSIBILITIES

The Research Fellow is accountable for:

- Actively contributing to the research project by collaborating with the Research Team to successfully deliver project milestones and Key Performance Indicators.
- Independently contributing to the planning and execution of research by offering new and innovative ideas, reviewing relevant literature and other sources of information, actively participating in the production of data, contributing to the writing and editing of grant applications and attending seminars, meetings and conferences.
- Playing a lead role in coordinating, planning and executing the project tasks required to collaborate with industry partners.
- Independently contributing to ethical, high quality and innovative research and evaluation through activities such as scholarship, publishing in recognised high quality journals and assisting the preparation and submission of bids for external research funding.
- Perform data management activities including review, data collection and data analysis, applying advanced conversation analytic expertise to these tasks.
- Supervision of honours and post graduate research projects.
- Establishing and maintaining collaborations within the University, and at State, national and international levels in order to improve research outputs, patents and publications.
- Lead the development of reports and produce manuscripts suitable for publication in high quality journals.
- Prepare timely progress and final research draft reports for the project.
- Work collaboratively with colleagues and industry partners.
- Participate in the supervision of postgraduate students.
- Contribute to knowledge translation activities arising from the project.
- Implement and administer University and other relevant policies relating to research governance, ethical conduct of research, and workplace health and safety.
- Some out of hours work (including weekends) as well as rural, interstate and overseas travel to project sites around Australia (e.g., Brisbane, Sydney, and Adelaide).
- Any other responsibilities in line with the level of the position as assigned by the Supervisor and/or the University.
