

DST Scholarship for Commencing Students

Purpose

The purpose of this scholarship is to provide financial assistance to students commencing the Bachelor of Engineering Technology (Systems and Security), Bachelor of Science (Physics) combined degree.

Source of funds

The scholarship is funded by DST.

Benefits

Each scholarship will have a value of \$3,000 paid in equal instalments after the census date of each semester. 10 scholarships will be available per year for the duration of the funding.

Eligibility

Applicants must be:

- commencing the first year of the Bachelor of Engineering Technology (Systems and Security), Bachelor of Science (Physics) combined degree¹; and
- normally enrolled full-time at Flinders University; and
- Australian citizens or permanent residents.

Applications will be accepted from part-time students who have extenuating circumstances that prevent them from studying full-time (e.g. disabilities, carer responsibilities). Part-time recipients will be paid pro-rata.

Tenure

The tenure is 1 year. The scholarship will be paid in two equal instalments, after the census date of each semester. Scholarships will not be awarded for repeat study.

Leave

Leave will be permitted for the second semester of this scholarship, for a maximum of one semester only.

Selection

The scholarship will be awarded on the basis of academic merit. Eligible scholarship applicants will be ranked according to their ATAR, GPA or other entry pathway. If there is more than one student sharing the highest ATAR or equivalent entry pathway, results in specific school subjects may be taken into consideration.

Scholarship selection will be made in accordance with approved procedures.

Applications

Applications should be submitted online through the Student System by the specified closing date.

¹ Approved alternatives will be listed on the University's Scholarships website.
