## 4. Procedures

### 4.1. Tuition fees

a. The annual tuition fees for commencing international students, and the percentage increases for continuing students, will be published on the [International Fees](#) webpage.
b. Students will be charged the published fee for their commencing year of study and will be subject to calendar year increases as a continuing student.

c. Students who change course or undertake higher level studies will be subject to the fees applicable to students commencing that year in that course or program of study.

d. Students enrolled in a bachelor/postgraduate double degree will be charged a separate fee for each component of the course, as published in the approved schedule of fees. The postgraduate component will be subject to annual increases, as described in b. above, from the time the student commences the bachelor component. Therefore, the fee charged will be higher than the published postgraduate fee for the commencing year.

4.2. Calculating tuition fee charges for individual students

a. For coursework students, published tuition fees are based on a standard full-time enrolment load, which usually equates to 36 units per year, or 18 units per semester. If a student's enrolment load is more or less than a standard full-time load, the tuition fee will be calculated on a pro-rata basis as follows (excluding students enrolled in a Study Abroad Program):

   Annual course tuition fee x number of units enrolled / 36 units (or standard full-time enrolment load)

   Example 1: for a student enrolled in 27 units of a course which has an annual fee of $30,000 and for which the standard full-time load is 36 units, the tuition fee is:
   $30,000 x 27 units / 36 units = $22,500

   Example 2: for a student enrolled in 40.5 units of a course which has an annual fee of $30,000 and for which the standard full-time load is 36 units, the tuition fee is:
   $30,000 x 40.5 units / 36 units = $34,714

b. For higher degree by research students, the tuition fee is based on the number of days of candidature in each half-year period (1 January to 30 June and 1 July to 31 December).

c. Students enrolled in a Study Abroad Program will be charged the flat rate tuition fee published annually in the fee schedule for each semester of enrolment.

d. Cross-institutional enrolments:

   i. International students enrolled at Flinders University and undertaking approved studies offered by another institution will be required to pay the tuition fees that apply to that institution.

   ii. International students enrolled at an institution other than Flinders University and undertaking approved studies offered by Flinders University, will be required to pay the tuition fees to Flinders University for cross-institutional study.

4.3. Payment of tuition fees

a. Fees must be paid in advance.

b. New students are required to pay fees for their first semester of enrolment before the University will issue a Confirmation of Enrolment.

c. All other fee payments are due by the end of the second week of each semester—early March in Semester 1 and early August in Semester 2. Students enrolled in courses delivered in three study periods per year will have three fee due dates, in February, July and October. Students enrolled in transnational education programs may be subject to different dates, which will be specified in their letter of offer.

d. Payment of all tuition fees and charges is a condition of enrolment and must be made in full by the due date. Failure to pay will result in cancellation of enrolment as set out in the Students with Outstanding Debt Procedures.
e. Students who have had topics cancelled for failure to pay fees may find that the University is unable to extend their Confirmation of Enrolment beyond the original completion date and students may therefore be unable to complete their course.

f. Students studying in Australia on a student visa who have their total enrolment cancelled in any given semester will be reported to the Australian Government.

g. Students whose total enrolment in a semester has been cancelled for failure to pay fees will have a sanction placed on their account in accordance with s.3.1 of the Students with Outstanding Debt Procedures. Students will need to demonstrate their capacity to pay future fees before the sanction can be lifted.

h. Fees paid by a student who subsequently applies to defer their start date to a later intake will be automatically applied to the later intake. Until a written agreement is signed for the later intake, the original agreement will be deemed to apply to the later intake.

4.4. Payment extension or payment by instalments

a. Where there are unforeseen compassionate or compelling circumstances which impact on a student’s ability to pay tuition fees by the due date, the student may apply for a payment extension or payment by instalment plan.

b. If an extension is approved, a revised due date for payment will be determined and advised. If a payment by instalment plan is approved, the first payment of 25% of the tuition fee will be due on the original due date, and the remaining 3 payments of 25% of the fee will be due at monthly intervals thereafter.

c. If payment is not received by a payment due date that is:

   i. prior to the census date, the enrolment will be cancelled effective as at the due date
   ii. after the census date, the enrolment will be withdrawn effective as at the due date.

   The student will remain liable for any remaining outstanding debts.

4.5. Tuition fee refunds

a. Tuition fee refunds will only be given in accordance with the following table, unless there are compassionate and compelling circumstances as provided in Procedure 4.7.

b. To apply for a refund, a student must email askflinders@flinders.edu.au with the details of payments made to Flinders University and their reasons for requesting a refund.

c. If approved, refunds will normally be paid in Australian dollars.

d. If a student who has deferred their start date as per Procedure 4.3.h above subsequently withdraws their application and requests a refund, the refund will be made as though a written agreement were in place.

e. Commencing students who are student visa holders and who wish to withdraw prior to completing six months of their principal course and transfer to another institution are to refer to the International Student Transfer Procedures and must complete a Request for Transfer to Another CRICOS Registered Provider form. Where a student is assessed as meeting the criteria for transfer, refunds will be paid in accordance with the table below. Where a student does not meet the criteria for transfer, no refund will be paid.

f. Commencing students who are student visa holders and who wish to withdraw prior to completing six months of their principal course and who are not transferring to another institution must satisfy Flinders International of their continued compliance with their visa conditions. This may include, but is not limited to, departing Australia or changing to a different visa type.

d. Student submits thesis before the end of a study period | Refund of tuition fees for remaining portion of the study period, calculated from the date of submission

4.7. Compassionate or compelling circumstances

a. In compassionate or compelling circumstances, and where acceptable documentary evidence can be provided, a student may be eligible for a total refund of tuition fees.

b. Examples of compassionate or compelling circumstances relevant to withdrawal before the census date include: inability to obtain a student visa (for students studying in Australia), illness or disability, death of the student or a close family member (parent, sibling, spouse or child) or a political, civil or natural event.

c. Compassionate or compelling circumstances relevant to withdrawal after the census date will be determined according to the principles established under Section 4 of the Refund of Student Contribution Amounts and Tuition Fees and Remission of Higher Education Loan Program (HELP) Debts Policy.

d. Compassionate or compelling circumstances do not include a lack of knowledge or understanding of the University's policies and procedures.

4.8. Refund application reviews and appeals

a. A review of a refund-related decision by the University may be requested in accordance with the Student Review and Appeal Policy and procedures.

b. A student who is dissatisfied with the outcome of the review may appeal to the Student Appeals Committee, if specified grounds are met, in accordance with the Student Review and Appeal Policy and procedures.

4.9. Student Services and Amenities Fees

The Student Services and Amenities Fee is included in the tuition fee for international students. International students are therefore not charged any additional fee for student services and amenities.

4.10. Overseas Student Health Cover (OSHC)

a. Unless specifically approved otherwise, the Australian Government requires all international students studying in Australia to subscribe to Overseas Student Health Cover (OSHC) for the duration of their student visa, and stipulates that overseas students are not permitted to enrol unless they have paid for their OSHC.

b. The University is required to collect the OSHC charge on behalf of its preferred health insurance provider. This charge is payable with the first semester’s tuition fees. The OSHC fee charged covers the period up to, and including, the visa expiry date.

c. Refunds: If a student leaves Australia before the expiry date of their student visa, a partial refund may be available from the insurance provider. Claims must be presented to the insurance provider on the appropriate form, with proof of exit from Australia.

4.11. Students who obtain Permanent Resident status

a. An international student who is granted a Permanent Resident visa is liable to pay the full student contribution amount (subject to the availability of a Commonwealth supported place) or tuition fees as determined by the University in accordance with the Continuity of Study Policy. The change will take effect from the following semester of study.
b. An international student who is granted a Permanent Resident visa prior to accepting an offer may be required to withdraw their international application and apply as a domestic student. If domestic applications have closed, the Continuity of Study Policy will apply.
