1. Governing Policy

Policy Framework

2. Purpose

a. These procedures set out the requirements and responsibilities for:
   i. the development of new and significantly revised policies and procedures
   ii. the review of all policies and procedures.

b. These procedures do not apply to minor revisions to a policy or procedures (i.e. amendments that do not change the substantive content, meaning or intent), but may be used for the development of such revisions, adjusted to the size, nature, complexity etc.
3. Development

3.1. Identifying the need and planning

**Responsible Officer**

a. Determine whether a new policy/procedures or substantive revision of a policy/procedures is needed, taking into account:
   i. whether a University-wide policy/procedures is needed, or whether the issue is better managed at an operational level
   ii. application of external or internal changes (e.g. new legislation, new University activity)
   iii. changes in strategies or circumstances
   iv. the review cycle
   v. problems associated with implementing and interpreting policies/procedures or gaps in policy/procedures coverage identified through feedback and experience.

b. Consult with the Senior Policy and Projects Officer and other relevant stakeholders (which may include the responsible senior executive or the Senior Executive Team (SET)) to:
   i. ensure the matter is not already addressed in another existing policy/procedures
   ii. seek advice about the development, consultation and approval process
   iii. discuss the identified need and planned development process.

3.2. Writing and content

**Responsible Officer**

a. Use the Policy Template or Procedures Template available from the Senior Policy and Projects Officer.

b. Use plain, gender-neutral English, be concise, avoid long jargon and long paragraphs, write from the point of view of the intended audience, and use present tense and active voice where possible.

c. Make mandatory requirements clear through the use of ‘must’ not ‘should’ or ‘shall’.

d. Avoid use of terms such as ‘generally’ and ‘normally’. If an exceptions or discretionary provision is required, provide detail of who can approve.

e. Avoid excessive use of definitions, where possible.

f. To the extent possible, allocate authorities and responsibilities to positions, not organisational units, consistent with the Delegations Policy.

g. Ensure that the content appropriately responds to identified issues.

h. Ensure that communication and implementation plans are developed.
### 4. Consultation

**Responsible Officer**

a. Convene a working group to provide feedback, assist with content development, and assess open consultation responses (if required). The working group is to be a broad representation of key stakeholders and areas most impacted. This may include a representative from:

i. Governance, Legal and Risk

ii. College(s)

iii. Portfolio(s) e.g. People and Culture, Student Administration Services

iv. Students

b. Invite any further consultation deemed appropriate as the policy/procedures is developed, including consultation to ensure any relevant diversity and inclusivity (e.g. Aboriginal and Torres Strait Islander perspectives), academic freedom and freedom of speech considerations are contemplated.

c. Once a new or significantly amended policy or procedures is in near final form, unless the relevant approval authority/responsible senior executive has determined otherwise, provide the draft to the Senior Policy and Projects Officer to make it available online for open consultation.

d. Ensure that consultation feedback is considered for any effect on the policy/procedures or implementation plans before the draft is finalised. Respond to consultation feedback, if appropriate.

e. Refer a finalised draft to the Senior Policy and Projects Officer to review for quality and provide advice on endorsement and approval.

**Senior Policy and Projects Officer**

f. Make draft new or significantly revised policies/procedures available online for open consultation for a period of two weeks, unless the relevant approval authority/responsible senior executive determines a different consultation period.

g. Collate open consultation responses and provide them to the Responsible Officer for consideration.

### 5. Endorsement and approval

**Responsible Officer, in conjunction with the Senior Policy and Projects Officer**

a. Submit the finalised draft to relevant officers and to any relevant committees or stakeholder groups (including SET where appropriate).

b. Once the necessary endorsements are obtained, submit the policy/procedures to the appropriate approval authority.

**Senior Policy and Projects Officer**

c. Provide advice and support to Responsible Officers and approval authorities in relation to endorsement and approval responsibilities and authorities in accordance with the Policy Framework.
