1. Purpose

This policy provides the framework and principles underpinning the promotion of academic staff. Promotions:
   a. recognise and reward academic staff for sustained excellence across the areas of academic activity, and
   b. support the University to meet the strategic priorities of its 2025 Agenda.

2. Scope

The policy applies to all academic staff employed by the University who meet the eligibility requirements for promotion to Levels B, C, D and E. This policy does not apply to holders of Academic Status.

3. Definitions

The following terms are as defined by the University’s prevailing Enterprise Agreement:
   i. academic staff and types of staff e.g. fixed-term, casual
   ii. academic classification level/s A-E.
4. Policy statement

4.1. Framework

The University commits to a fair, consistent and transparent promotions framework based on:

- merit-based determinations
- due recognition of the breadth of academic roles and career trajectories
- assessment of performance relative to opportunity
- decision-making independent of direct academic supervisors, and
- consistency of standards and practice across discipline boundaries; and with the standards of other Australian universities.

4.2. Timing

Promotion rounds will be held annually.

4.3. Eligibility

All academic staff, other than casual and sessional fixed-term staff, are eligible to apply for promotion except that for staff employed on a fixed-term basis, the cumulative term of appointment must be at least three years.

4.4. Criteria

a. Applicants must demonstrate and provide evidence of the following criteria for promotion:

| Levels B, C and D | i. Contributions made to, and sustained high performance across, the areas of academic activity described in the Academic Profile relevant to the applicant’s current classification level and Position Description; and |
| Level E | ii. Ability to perform at the classification level to which promotion is sought, as described in the relevant Academic Profile and Appendix A in the Policy on Flexibility in Academic Work. |
| Level E | iii. Contributions made to, and sustained high performance across, the areas of academic activity described in the Academic Profile relevant to the applicant’s current classification level and Position Description; and |
| | • [all academics] outstanding performance in two areas of academic activity and evidence of outstanding leadership, scholarly achievement and international eminence or, where appropriate for the discipline, national eminence and impact, and |
| | • [teaching and research academics] substantial contributions in the other area of academic activity. |

b. Poor performance in teaching or research may provide grounds for not approving promotion, notwithstanding the strength of the case in the other areas of academic activity.

c. When assessing performance, particular emphasis will be given to the applicant’s performance over the three years prior to the application being submitted.

1 Promotion to Level D Plus is no longer offered. Academics at Level D Plus on the date this policy came into effect will continue at that level and may apply for promotion to Level E under this policy.
4.5. Promotion Level

a. Promotion determinations are made to the next classification unless the Vice-Chancellor determines, following a request from the applicant, that there are exceptional circumstances and that it is in the best interests of the University for promotion to a higher level to be considered.

b. The same process and other considerations will apply as if the application was being considered for the next classification level, except that the application must be considered by the appropriate committee and the applicant must satisfy the criteria for the higher level.

4.6. Promotions Committees

Each Promotions Committee must consider and determine promotion to the level applied for in accordance with this policy and the supporting procedures.

   - a serious procedural defect in the promotion assessment process, or
   - discrimination against the applicant (as defined under the Equal Opportunity Policy).

b. The hearing of the appeal will be limited to these grounds and will not include a re-assessment or re-hearing of the merits of the matter.

c. The appeals process will be as specified in the supporting procedures.

d. Having considered the appeal, the Appeals Committee may:
   - refer the promotion application back to the relevant Promotions Committee for re-consideration
