

Student Profile and Student Calendar information can be viewed by staff with select access permissions. To view Profile or Calendar, choose TechnologyOne (production environment) or TechnologyOne TRAIN via your OKTA dashboard. Note: TRAIN is usually refreshed to Production data weekly on a Sunday.

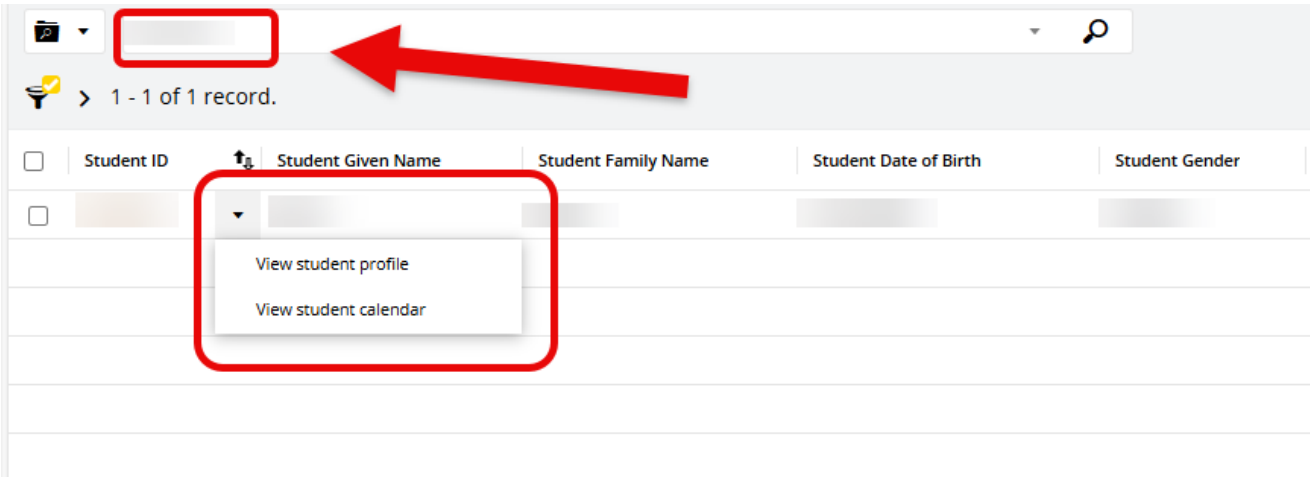

Select the ‘Students’ function from your dashboard or search ‘Students’ in the Enterprise search bar in the top-middle of the screen. Note this screen will look different depending on your staff access level and what functions you have pre-saved to your personal home screen.

Type or paste the student ID in the top search bar, select enter on keyboard or click magnifying glass to search.

On the student record result, click the downwards arrow to the right of the ID number and click View student profile or View calendar.

Note the options available here will differ depending on your staff access level.
