Professional Development for Teachers

Flinders offers the following services for teachers:

- Whole-of-staff training (e.g. university myth buster session, or guest speaker on topical issues)
- New pathways to university information sessions (open to all student advisors/coordinators).

Supporting your Students

Flinders offers the following programs for students:

- Extension Studies (Year 12 students): [Flinders.edu.au/extension](https://flinders.edu.au/extension)
- UniTEST (Year 12 students): [Flinders.edu.au/unitest](https://flinders.edu.au/unitest)

Services for Schools

We provide a diverse range of services and programs to secondary school students, teachers and parents to help guide, inspire and share a greater understanding of what Flinders has to offer. Our information sessions and activities are tailored to suit your preferences and most can be held at your school or on our campuses.

STEM Workshops are adapted to the different year levels and aligned with the SACE curriculum links. These workshops have been developed by academics and are designed to be held at Flinders University campuses.

To make a booking or to discuss your school needs, please contact us:

- Yungkurrinthe Student Engagement : yungkurrinthe@flinders.edu.au or 1800 641 811

MyCareerMatch

MyCareerMatch helps students make confident, informed decisions about their future. Flinders can support students and teachers to use this valuable tool in a way that best suits their needs.

Completing a profile takes approximately 5-10 minutes online and provides students with a personalised report highlighting their strengths, interests, and potential career pathways, aligned with their personality type.

Schools may also find these profiles beneficial when supporting students with subject selection and future pathway planning.

We have a range of guided options available to help students interpret their MyCareerMatch results, explore future study, and pursue their career aspirations with greater clarity.s.
