In an era of disruptive change, Flinders University is growing its international reputation as a world leader in research, an innovator in contemporary education and a source of enterprising graduates equipped to change the world.

The University acknowledges the traditional owners of the lands Flinders University teaches across (Arrernte, Boandik, Bungarla, Dagoman, Gunditjmara, Jawoyn, Kaurna, Larrakia, Nauo, Ngarrindjeri, Parmamarra, Ramaakjeri, Wardaman, Wiradjuri, Wiradjuri, Yolngu) and honour their Elders past and present.

**THE World University Rankings 2020** as a percentage of the total number of universities in the world according to the International Association of Universities

**The Good Universities Guide 2020** (undergraduate), public SA-founded universities only

*** Staff and student numbers are preliminary figures based on data collected 6 April 2020 and subject to change.

More than 500 undergraduate, postgraduate and research degrees

Over 25,000 students supported by over 2,600 staff***

Over 550 scholarships, worth $2.2m in total
EXPERIENCE A UNIVERSITY LIKE NO OTHER
Our geographic footprint stretches from the tip of the Northern Territory through to South Australia and regional Victoria. Internationally, joint courses are delivered with leading universities in China, Hong Kong, Malaysia, Singapore and Indonesia. Our main campus at Bedford Park is an environment that fosters creativity. Sitting in stunning natural surrounds, it boasts spectacular views to the city and coast and features an award-winning, state-of-the-art student hub that fosters interactive learning in a digitally enabled environment.

JOIN A GLOBAL COMMUNITY
Flinders University graduates are enterprising, innovative and curious thought leaders in over 120 countries around the world. When you graduate from Flinders, you’ll not only join over 106,000 graduates from an amazing variety of fields, you’ll graduate from SA’s No. 1 university for starting salary.**

**The Good Universities Guide 2020 (undergraduate), public SA-founded universities only

GAIN REAL-WORLD EXPERIENCE
Flinders Work Integrated Learning (WIL) enables you to gain work experience while you study. You’ll have the opportunity to gain real-world experience through placements, practicums, field studies, and simulated workplace settings and assessment activities. Flinders aims to provide each and every student with access to a WIL opportunity during their studies.

THINK BIG. MAKE AN IMPACT. DESIGN YOUR FUTURE.
Careers are evolving and the workplace of the future will look very different from today. Powered by Flinders’ New Venture Institute, our suite of innovation and enterprise electives and courses will help you to develop the ‘personal enterprise skills’ that employers are looking for, and equip you with the ability to adapt to whatever life throws at you, personally and professionally. No matter what you choose to study at Flinders, you can embed an innovation and enterprise elective into your degree.

TAKE YOUR STUDIES OVERSEAS
Why wait until you graduate to explore the world? Flinders’ Learn Without Borders could see you studying overseas, gaining a unique perspective and immersing yourself in a different culture, language and lifestyle.

“My exchange was honestly one of the most amazing and rewarding six months of my life. The friends I made, the things I saw and experienced will stick with me for the rest of my life.”

Rebekah Jones
Canada

EXPLORE FLINDERS SCHOLARSHIPS
Flinders offers a generous range of scholarships for students in undergraduate courses. With over 550 available scholarships, including scholarships to students from low socio-economic backgrounds, students from rural and regional areas and Indigenous students, you may be eligible for support that will help you achieve your goals at university.

“The Wyndham Richardson Scholarship Fund has been invaluable to reduce the financial pressure during studies, especially now that I am in the later years of my degree.”

Ryan Howsten, Bachelor of Computer Science
Wyndham Richardson Scholarship Fund

GET THE SUPPORT YOU NEED
Flinders is SA’s No.1 university for student support.* From campus facilities to financial support, mental health and wellbeing resources and services, student grants, counselling services (including careers and financial) and many social opportunities, we offer a range of services to ensure your study experience is everything you want it to be. Find out more about student support on page 49.

* Flinders rating 89.7%, rounded up to 90%. Excellence in Research for Australia, 2018

BE TAUGHT BY LEADERS
At Flinders, you’ll be taught by teachers who are leaders in their fields. They are plugged into industry trends and connected to professional networks. Your future career will take practical shape from the very beginning of your studies as we guide you from the classroom to the workplace through inspired teaching, practical placements, internships, field education and industry projects.

BENEFIT FROM WORLD-CLASS RESEARCH
Flinders University’s research strengths include biomedical and clinical sciences, culture, policy and society, health and medicines, mental health and human behaviour, molecular science and technology, defence, engineering, water and environment. With 90% of Flinders’ research rated world-standard or above,* your studies will be supported by the up-to-the-minute knowledge of highly skilled researchers and lecturers.

* Flinders rating 89.7%, rounded up to 90%. Excellence in Research for Australia, 2018

CHOOSE YOUR DEGREE
From medicine to business, science or arts offerings, Flinders University offers more than 500 undergraduate, postgraduate and research degrees taught by global and national experts focused on the experience and outcomes of their students.

THE WORLD NEEDS ENGINEERS

ENGINEERING

A CAREER POWERED BY CREATIVITY

STUDY ENGINEERING AT FLINDERS

Make a difference to the world around you. Engineers help build the future, and you could be one of them.

DESIGN THE FUTURE OF YOUR DREAMS

There are few fields as broad or as rewarding as engineering. If you can imagine it, chances are you can help bring it to life. From robotics to renewable energy, ship building and defence, civil engineering or creating new medical technologies... the list is long and the opportunities are broad. You can help design and build tomorrow.

A REWARDING CAREER

Engineers are in high demand worldwide. Demand for electrical engineers is increasing. The world of robotics is changing rapidly and large-scale civil engineering projects are being conducted in many areas. A career in engineering can be interesting, challenging and rewarding.

STUDY FOR SUCCESS

Flinders Engineering degrees are offered in close collaboration with industry, giving you specialist knowledge and an up-to-date ‘toolkit’ of skills that will enable you to meet the requirements of industry as it continues to change. You’ll be plugged into our $120m hub of innovation and entrepreneurship at Tonsley, and graduate with a high level of skills, ready to take on the world.

20-WEEK INDUSTRY PLACEMENTS

All Flinders Engineering students have the opportunity to undertake a 20-week Industry placement as part of their degree, helping you graduate work-ready. One of the longest work placements offered in Australia, it enables you to work alongside professional engineers tackling real-world problems.
Bachelor of Design and Technology Innovation

Make your ideas a commercial reality.

Graduate prepared to solve problems and create commercial solutions. This degree prepares you to do this by developing a sound understanding of three areas: design; innovation management; and science, technology and engineering.

You’ll be taught desirable skills that will allow you to design and develop new products or services to solve a range of real-world problems.

Bachelor of Design and Technology Innovation

- **You’ll learn to match a problem with technology to create a commercial solution.**
- **You’ll gain an understanding of industrial design, technology and innovation in one degree.**
- **Enhance your employability with highly attractive, vital skills in the rapidly changing innovation sector.**
- **Gain practical, hands-on exposure to the cutting-edge equipment and facilities of Flinders University’s new technology precinct at Tonsley.**
- **You’ll have the chance to participate in a 12-week industry work-integrated placement.**
- **This degree is recognised by the Design Institute of Australia.**
- **There are opportunities to take your studies overseas with a 12-week practical work experience placement in Europe, Asia or North America.**

CAREER OPPORTUNITIES

Your degree is the first step towards a range of employment opportunities, including:

- product designer
- business development manager
- commercialisation specialist
- graduate consultant
- innovation strategist.

Potential employers include:

- CSR Limited
- CSIRO
- Department of Industry, Innovation and Science
- Clipsal
- Adidas.

Bachelor of Engineering (Biomedical) (Honours)

Build a career designing systems that enhance the quality of human life.

Health care is a large and rapidly growing industry, and your skills could help improve the way we plan, design, manufacture and maintain healthcare systems and equipment. You will gain a solid education in both engineering and medical science, along with important practical skills and the ability to work as part of an effective team that will see you graduate work-ready.

Bachelor of Engineering (Biomedical) (Honours)

- **You’ll study unique topics such as rehabilitation and assistive technology.**
- **Flinders biomedical and materials engineering research is world class, and graduates have won Monash Scholarships, Fulbright Scholarships, Churchill Fellowships and Monash Scholarships.**
- **Choose a specialisation in mechanics-based or electronics-based biomedical engineering.**
- **Our on-campus Medical Device Research Institute and Medical Device Partnering Program bring together some of the leading minds in biomedical engineering and related disciplines.**
- **Through our extensive industry links, undertake a 20-week industry placement program of structured work experience with a local, national or international organisation.**
- **This degree is fully accredited by Engineers Australia at the level of professional engineer and recognised internationally under the Washington Accord.**

CAREER OPPORTUNITIES

Your degree is the first step towards a range of employment opportunities, including:

- biomedical engineer
- clinical support specialist consultant
- customer support engineer
- pathology field service engineer
- instrumentation engineer.

Potential employers include:

- Chemtronics Biomedical Engineering
- Epworth HealthCare
- Bio-Rad Laboratories Pty Ltd
- Brainlab
- The Queen Elizabeth Hospital.
Bachelor of Engineering (Biomedical) (Honours)/Master of Engineering (Biomedical)

Take your career to the next level with a five-year undergraduate pathway to a biomedical engineering masters.

Health care is a large and rapidly growing industry, and your skills could help improve the way we plan, design, manufacture and maintain healthcare systems and equipment. You will gain a solid education in both engineering and medical science, along with important practical skills and the ability to work as part of an effective team that will see you graduate work-ready.

Bachelor of Engineering (Biomedical) (Honours)

**KNOWLEDGE**

- **Prerequisites**: Yes*
- **Assumed Knowledge**: Yes**
- **SATAC Code**: 224861
- **Credit Points**: 90.00
- **Guaranteed Entry Selection Rank**: 95.00
- **TAFELINK**: Diploma or above
- **Adjustment Factors**: Yes

* SACE stage two specialist mathematics, mathematical methods or equivalent.
** Knowledge of SACE stage two physics, or equivalent is assumed.

See the inside back spread for more information on your admission pathways, opportunities to enhance your degree, and how to apply.

Bachelor of Engineering (Civil) (Honours)

Use your creativity and innovation to build a career solving civil engineering problems.

Prepare yourself for a career solving civil engineering problems. You’ll learn how to create innovative solutions that consider social, economic and environmental concerns. This degree covers the four main civil engineering themes of structures, transport, water and geomechanics, then applies them to infrastructure design and construction.

**CAREER OPPORTUNITIES**

Your degree is the first step towards a range of employment opportunities, including:

- biomedical engineer
- clinical support specialist consultant
- customer support engineer
- pathology field service engineer
- instrumentation engineer.

Potential employers include:

- Chemtronics Biomedical Engineering
- Epworth HealthCare
- Bio-Rad Laboratories Pty Ltd
- Brainlab
- The Queen Elizabeth Hospital.

**Bachelor of Engineering (Civil) (Honours)**

**Prerequisites**

- **Assumed Knowledge**: Yes*
- **SATAC Code**: 224791
- **Credit Points**: 75.00
- **Guaranteed Entry Selection Rank**: 80.00
- **TAFELINK**: Diploma or above
- **Adjustment Factors**: Yes

* SACE stage two specialist mathematics, mathematical methods or equivalent.
** Knowledge of SACE stage two physics, or equivalent is assumed.

See the inside back spread for more information on your admission pathways, opportunities to enhance your degree, and how to apply.

Learn to plan, design, build and maintain buildings, infrastructure and resources.

- Learn in purpose built civil engineering labs and facilities in the new technology precinct at Tonsley.
- This degree has been designed in close collaboration with industry to meet future development needs in civil engineering.
- A degree in civil engineering allows for pathways into design, consulting, construction and project management. These are all jobs in ongoing high-demand areas.
- Contribute to growth and development for the urban and rural environment that surrounds us.
- Nationally recognised integrated work placement with a local, national or international organisation gives you practical industry experience.
- There are opportunities to take your studies overseas with a student exchange program.
- This degree is fully accredited by Engineers Australia at the level of professional engineer and recognised internationally under the Washington Accord.

**CAREER OPPORTUNITIES**

Your degree is the first step towards a range of employment opportunities, including:

- stormwater design engineer
- site engineer
- structural design engineer
- geotechnical engineer
- transport systems engineer.

Potential employers include:

- SA Department for Planning, Transport and Infrastructure
- Arup
- Landlease
- Australian Rail Track Corporation
- City of Marion Council.

FIND OUT MORE FLINDERS.EDU.AU/ENGINEERING

“Ever since I was little, it was the STEM subjects that entranced me. It’s always easier to learn something that you are enjoying. I also always wanted to be a part of something new, and there’s plenty of innovation in STEM.”

Salindi Herath,
Master of Biomedical Engineering
Prepare to become a professional engineer in the maritime engineering industry. You’ll learn to design and manage the building of maritime vehicles, coastal engineering projects, ports, hydraulic facilities, and offshore oil and gas installations. You’ll develop practical skills in mechanics and structures, ship design, and fluid mechanics and thermodynamics and energy engineering.

Bachelor of Engineering (Maritime) (Honours)

Use your skills to make waves in the maritime engineering industry.

Bachelor of Engineering (Mechanical) (Honours)

Push mechanical systems to the limit in a challenging and rewarding field.

Bachelor of Engineering (Mechanical) (Honours)/Master of Engineering (Biomedical)

From mechanical engineering to a biomedical engineering masters, engineer your way to a great career.

Bachelor of Engineering (Robotics) (Honours)

Create a career designing the robot workforce of the future.

If you’re a high-achieving student, take a pathway that allows you to complete a program of study in mechanical and biomedical engineering in only five years. You could work towards a career in many areas in the mining, defence, manufacturing, shipbuilding, environmental engineering consulting, building services, automotive and petrochemical industries, or in the design and production of diagnostic and therapeutic medical equipment in hospitals, devices to assist in home-based health care and rehabilitation, and sensory and control systems.

Changes to the way our workforce operates are opening up career opportunities in fields like robotics. This degree will see you graduate with the latest learning in robotics technology, and learn about electronics, computer control, signal processing and programming in the design, development and application of robots, and their integration with other systems in the work environment.

Potential employers include:
- Lockheed Martin
- Smart Automation Systems
- Monadelphous
- Simarita
- Rocket Lab.

You’ll develop practical skills in mechanics and structures, ship design, and fluid mechanics and thermodynamics and energy engineering.

Bachelor of Engineering (Mechanical) (Honours)

Push mechanical systems to the limit in a challenging and rewarding field.

Bachelor of Engineering (Mechanical) (Honours) with an industrial placement program of 20 weeks.

Bachelor of Engineering (Biomedical) (Honours)

From mechanical engineering to a biomedical engineering masters, engineer your way to a great career.

Bachelor of Engineering (Robotics) (Honours)

Create a career designing the robot workforce of the future.
Bachelor of Engineering (Robotics) (Honours) - New in 2021

Create a career designing the robot workforce of the future. This degree will see you graduate with the latest learning in robotics technologies, preparing you to become a key player in developing the robots that will populate our future.

- You’ll study a robotics degree based on key elements of the latest robotics technology, and learn about electronics, computer control, signal processing, development and application of robots.
- Continue to a Master of Engineering (Electrical and Electronic) to open up even more career opportunities.
- Put your robotics engineering skills to the test in a range of national competitions like NICTA, AGVC, and Maritime Robotics Challenge.
- You’ll access purpose-built state-of-the-art teaching and laboratory facilities and heavy engineering pods at Tonsley.
- Undertake a 20-week industry placement program of structured work experience with a local, national or international organisation.
- You’ll learn the fundamental principles of robotics and how to apply them in practice.
- You’ll have access to purpose-built state-of-the-art teaching and laboratory facilities at Tonsley.
- Through our extensive industry links, undertake a 20-week industry placement program of structured work experience with a local, national or international organisation.
- Develop practical skills in programming, testing, network engineering operating systems, design and automation, and signals and systems.
- There are opportunities to take your studies overseas with a local, national or international organisation.
- You’ll have access to purpose-built state-of-the-art teaching and laboratory facilities at Tonsley.
- You’ll undertake an engineering project or industry placement.

CAREER OPPORTUNITIES
Your degree is the first step towards a range of employment opportunities, including:
- robotics engineer
- robotics sensor integration specialist
- mechatronic engineer
- process and automation engineer
- instrument engineer.

Potential employers include:
- Lockheed Martin
- Smart Automation Systems
- Monadelphous
- Simvaria
- Rocklab.

“Widen your career opportunities with this future-oriented course, enabling you to choose a course of study with either an electronics or computer science focus. This degree provides you with a solid foundation in the technical and professional skills and knowledge required to pursue a successful career in the software industry.

- The degree has been specifically created for students looking to work as professional software engineers.
- You’ll develop technical and professional software skills.
- You’ll have access to purpose-built state-of-the-art teaching and laboratory facilities at Tonsley.
- Through our extensive industry links, undertake a 20-week industry placement program of structured work experience with a local, national or international organisation.

THERE’S MORE THAN ONE WAY TO GET INTO AN ENGINEERING DEGREE AT FLINDERS

At Flinders, there are multiple entry pathways you can study to become an accredited engineer, even if you:

- have minimal maths and physics background
- don’t know what area of engineering you want to specialise in
- have a lower ATAR than you had hoped for or
- finished school some years back

Flinders’ engineering courses have a common first year which enables you to get a taste of engineering disciplines and delay your choice of specialisation until you have experienced engineering as a whole, or transfer between courses if you change your mind.

Bachelor of Engineering (Honours) - General Entry
YEARS FULL-TIME 1.5 years
PREQUISITES Yes*
ASSUMED KNOWLEDGE None
SATAC CODE 244411
2020 MINIMUM SELECTION RANK NA
GUARANTEED ENTRY None
SELECTION RANK NA

* SACE stage two general mathematics or equivalent.

A feeder to engineering for those with less mathematics. Flinders’ General Entry pathway to the Bachelor of Engineering (Honours) provides a guaranteed entry pathway for students who have passed SACE Stage 2 General Mathematics or SACE Stage 1 Mathematics. The course includes additional mathematics and physics, enabling students to transfer into and complete any of Flinders’ Bachelor of Engineering (Honours) degrees in 4.5 years or less.

Get a taste of engineering before choosing your specialisation.

Bachelor of Engineering Science
YEARS FULL-TIME 3

2020 MINIMUM SELECTION RANK 75.00
GUARANTEED ENTRY None
SELECTION RANK 80.00

Prerequisites: SACE stage two specialist mathematics or mathematical methods or equivalent.

Gain the foundations for further study in engineering or for a career in an engineering-related field. The degree offers specialisations in biomedical engineering, civil engineering, electrical engineering, electronic engineering, mechanical engineering, software engineering, and design and technology.

Bachelor of Engineering (Environmental) (Honours)
SATAC CODE 244401

Prerequisites: SACE stage two general mathematics or equivalent.

Bachelor of Engineering Technology (Electronic Systems and Security)/Bachelor of Science (Physics)
SATAC CODE 244421

Prerequisites: SACE stage two general mathematics or equivalent.

This 4-year combined degree represents a unique and exciting pathway to work in a cutting-edge high technology area. The pairing of a Bachelor of Engineering Technology with a Bachelor of Science in Physics represents a pathway to a well-paid and life-long career at the forefront of electronic and electromagnetic technologies. The Bachelor of Engineering Technology (Electronic Systems and Security) is unique in Australia.
“We’re lucky to have so much amazing technology at our fingertips at Tonsley. The fact that I get to study where the latest technology is being developed makes me feel like I am part of something bigger.”
Alex Benn, Bachelor of Robotics Engineering (Honours)/Bachelor of Computer Science

Bachelor of Mathematical Sciences

Master mathematics to solve real-world problems.

Mathematics is the foundation of many industries. Demand for mathematics graduates is particularly strong in areas including science, engineering, technology and business, and in areas as diverse as linguistics and health. Your skills and knowledge of mathematics could lead to a challenging, long-term career.

In this degree, you’ll gain a foundation in the principles and techniques of modern mathematics, and learn how to apply these skills to solve today’s problems. The degree is designed to produce industry-focused graduates who are in demand in a range of careers that use mathematics.

- Your studies will focus on both pure and applied mathematics and statistics.
- You can choose topics in other disciplines that use applied mathematics, such as medicine, business, physics and the environment.
- You’ll develop advanced research, communication and technical skills.
- Focus on advanced pure and applied mathematics in our Mathematical Sciences Laboratory.
- The degree is designed to exceed the Australian Mathematical Society’s accreditation standards.
- Join the university that produced Australia’s Fields Medal winner, Professor Terence Tao.

CAREER OPPORTUNITIES
Your degree is the first step towards a range of employment opportunities, including:
- credit bureau analyst
- data and analytics officer
- consultant – data analytics
- quantitative assistant trader
- consumer research executive.

Potential employers include:
- Mercer
- Bureau of Meteorology
- Australian Bureau of Statistics
- The Nielsen Company (Australia)
- Australian Securities and Investments Commission.

Combined degrees
All science and engineering degrees can be combined.

By combining your degree with a qualification in another discipline, you’ll connect diverse knowledge in unique ways and develop specialised abilities to help you stand out from the pack. Studying a combined degree at Flinders is the key to enhancing your career opportunities.

Example degree combination
Bachelor of Design and Technology Innovation/Bachelor of Science (Environmental Science)

SATAC CODE 224772

Develop your scientific skills in order to solve problems in a variety of fields and create commercial solutions.

For a full list of combined degree options visit flinders.edu.au/combineddegrees

Find out more flinders.edu.au/engineering
With more than 150 staff and 2,000 students – and a 2,000 square metre pod for heavy engineering equipment – Tonsley is a place where innovation, collaboration and entrepreneurial spirit combine to create the products and processes of the 21st century and beyond.

Flinders at Tonsley centrally locates computer science, engineering and mathematics at Flinders University, with the New Venture Institute, Medical Device Research Institute and Centre for Nanoscale Science and Technology, alongside some of Adelaide’s biggest businesses and industries.

Tonsley is located centrally between Flinders University’s Bedford Park campus and Adelaide city. It’s connected to the city by train, offering convenient access 15 minutes from the city’s CBD. And Tonsley is a five-minute car ride, a 15-minute ride on the Flinders loop bus, or a 30-minute walk from the Bedford Park campus.

GET MORE OUT OF YOUR STUDY

Combined degrees
Combining your degree with a qualification in another discipline will give you more expertise and expand your career prospects. Studying a combined degree at Flinders will help you stand out from the crowd.

A combined degree is a combination of two Flinders bachelor degrees. As a combined degree graduate you will have two qualifications in just one to one-and-a-half years of extra study.

Our combined degree programs are designed to enhance your educational, academic and professional qualifications while minimising the cost and length of your studies. Flinders’ combined degrees allow you to undertake in-depth study in exciting combinations that aren’t usually available in single degrees.

flinders.edu.au/combineddegrees

Bachelor of Letters
The Bachelor of Letters is available to study alongside any degree at Flinders and enables you to graduate with two qualifications.

The Bachelor of Letters is available in the following disciplines:
- Archaeology
- Creative enterprise
- Creative writing
- Criminology
- English
- Health
- History
- Innovation and enterprise
- Languages (French, Italian, Modern Greek, Spanish)
- Mathematics
- Sports performance coaching
- Theology.

The Bachelor of Letters is normally undertaken part-time over three years to allow concurrent study with your primary bachelor degree, adding one year to your overall study program.
Whatever you decide to study at Flinders, we’re always here to help you succeed.

Careers & Employability Service
The Careers and Employability Service helps give you the edge in your career. CareerHub, our online employment portal, offers personalised job opportunities, career planning, programs to help you broaden your skills and experience, access to employer events and career-related resources. Whatever you are studying, CareerHub can help you find your direction and start your career.

PATHWAYS TO STUDY
Whether you are a school leaver or returning to study at a later date, there are many ways to gain admission to Flinders University. Explore your options and find the entry path that’s right for you.

If you have recent secondary education

Year 12 Entry
Most Year 12 applicants enter university via the traditional entry method, where offers are made to eligible applicants with the highest selection rank until all places in the degree are filled. Your selection rank is used by Flinders to assess your admission to a course and is based on your ATAR plus any adjustment factors for which you are eligible.

Elite Athlete Pathway
If you’ve officially represented your school or state at a national level competition, we’ll consider your school’s recommendation about your academic potential when you apply.

Research Project B Pathway
If you have strong results in the Research Project B subject you will be considered for entry into Flinders on the basis of your Year 12 results and Research Project B performance.

uniTEST
If you’re in Year 12, uniTEST may enhance your chances of getting into Flinders. We will select students based on Year 12 results and uniTEST performance.

If you have some higher education

Tertiary Transfer
If you have completed at least one semester of full-time equivalent study at university, you may be able to transfer to study at Flinders University using your grade point average (GPA).

If you have work and life experience

Foundation Studies
The Foundation Studies program has been designed to introduce you to university study in a supportive learning environment. Open to people from all backgrounds, Foundation Studies provides a pathway to gain entry to most degrees at Flinders and offers guaranteed entry into some degrees.

Military Pathways
Use your military service in the Australian Defence Force as a pathway to a Flinders University degree.

Special Tertiary Admissions Test (STAT)
Adult entry to university via the Special Tertiary Admissions Test (STAT) assesses your ability to study at a tertiary level.

A pathway to all degrees

Bachelor of General Studies
Begin your journey to a successful career. Flinders’ Bachelor of General Studies is a flexible degree designed to prepare you with communication skills, a firm grasp of ethics and the confidence to make connections across geographical, disciplinary, social and cultural boundaries.
