flinders.edu.au/experience

There is a global focus on the importance of health. You could help people live healthier, happier lives. Our social media feeds are filled with ‘health hacks’. A new superfood pops up every few weeks, and celebrities regularly declare their latest diet/exercise/health secret will ‘break the internet’. The truth is, we need more than fads. We need skilled professionals to teach us how to live healthy lives.

CREATE A HEALTHIER WORLD
We are all growing more and more aware of the importance of living healthy lives. We need trained professionals who can help us become healthier, and stay healthier. This is your chance to make a real difference.

A REWARDING CAREER
Start a career that is rewarding in many ways. Not only will you help others, you could be well rewarded. Health care and social assistance is Australia’s fastest growing industry* and Flinders’ graduates enjoy a median salary above the national average**.

*Dept of Jobs & Small Business 2018 / **QILT Student Experience Survey 2018

MAKE A REAL DIFFERENCE
STUDY HEALTH AT FLINDERS

STUDY FOR SUCCESS
Flinders programs are professionally accredited and globally recognised. We are the only university in South Australia with an on-campus teaching hospital, and we have over 26 globally recognised health and medical research institutes and centres. By studying at Flinders, you’ll graduate job-ready.
Choose a career that can effect positive changes in the lives of others.

**CHOOSE YOUR CAREER**

- Bachelor of Disability and Developmental Education – see page 5
- Bachelor of Exercise Science – see page 5
- Bachelor of Healthy Ageing – see page 10
- Bachelor of Exercise Science/Master of Clinical Exercise Physiology – see page 6
- Bachelor of Health Sciences – see page 6
- Bachelor of Health Sciences – see page 6
- Bachelor of Health Sciences/Graduate Diploma in Environmental Health Practice – see page 9
- Bachelor of Health Sciences (Principles of Occupational Therapy)/Master of Occupational Therapy – see page 9
- Bachelor of Health Sciences (Principles of Physiotherapy)/Master of Physiotherapy – see page 10
- Bachelor of Human Nutrition – see page 11
- Bachelor of Medical Science – see page 11
- Bachelor of Medical Science (Vision Science)/Master of Optometry – see page 12
- Bachelor of Nutrition and Dietetics – see page 12
- Bachelor of Paramedic Science – see page 13
- Bachelor of Speech Pathology – see page 13

**EFFECT POSITIVE CHANGE IN THE LIVES OF OTHERS**

Are you excited about helping people better understand how their bodies work, or teaching them how exercise can change their lives?

Do you love the idea of assisting people with disabilities or vision problems? Can you see yourself saving lives as a paramedic?

Imagine working in an incredibly diverse field that can make a meaningful difference. Flinders Health could be your path to an amazing career.

**Bachelor of Disability and Developmental Education**

You could help shape an inclusive society and assist others to live independently.

Your studies could lead you to an amazing career helping others live rich, fulfilling lives. You’ll gain the skills and knowledge to provide services for people of all ages with diverse needs, including developmental and acquired disabilities.

On graduation, you’ll be qualified to work in a range of disability and related health and human services positions.

- Your studies will focus on disability, developmental education and community needs.
- You’ll be exposed to psychology, philosophy, speech pathology, sociology, health and special education.
- You’ll be able to take advantage of interstate or overseas placement opportunities from your second year.

The Bachelor of Disability and Developmental Education is recognised by Developmental Educators Australia Inc for practice as a developmental educator

CAREER OPPORTUNITIES

Either degree could open up a range of employment opportunities, including:
- developmental educator
- NDIS professional planner/coordinator
- disability employment consultant
- family/behavioural support coordinator.

Potential employers include:
- disability support services
- government sector / NDIS
- non-government agencies
- private sector
- self-employment.

**Bachelor of Exercise Science**

Build a career improving lives through fitness.

If your interest in an active life goes beyond sport, you could begin a career helping others improve health, or enhance exercise, motor skill and movement performance. Study in the area where preventative health meets the fitness industry. This degree will qualify you for a career in the evolving field of exercise science. You’ll undertake study in the basic medical sciences such as human physiology, anatomy, psychology and pathology, and graduate with specialised knowledge and skills in the use of exercise.

- You’ll undertake unique topics in fundamental of exercise science, exercise prescription in motor control and learning, and advanced exercise science.
- You can choose from specialisations in health promotion, behavioural sciences, sports science, business, or allied health, preparing you for a range of allied health postgraduate degrees.
- You’ll take on practical experience that prepares you for the workforce, including a 140-hour placement that will prepare you with skills and knowledge applicable to careers in health, sport and exercise fields.
- There are opportunities to take your studies overseas as part of your practical.
- On graduation, you’ll be eligible to apply for membership with Exercise and Sport Science Australia as an exercise scientist.

CAREER OPPORTUNITIES

Your degree is the first step towards a range of employment opportunities, including:
- exercise scientist
- health and injury prevention advisor
- cardiac technician
- sport and exercise science support officer
- active living project officer.

Potential employers include:
- Bupa
- Komed
- Health By Design
- SA Health
- NIF Wellness Centres.

The Bachelor of Health Sciences will give you exposure to a wide variety of health professions, as well as the opportunity to focus your studies in a particular area with a major.
- • You’ll get industry experience including overseas study options in your third year.
- • This degree provides pathway opportunities into Flinders’ medical degree and a range of allied health degrees.

CAREER OPPORTUNITIES
Your degree could open up a range of employment opportunities, including:
- health promotion officer
- drug diversion assessor
- community health officer
- clinical trials study assistant
- health and aged care support worker.

Potential employers include:
- SA Health
- Australian Institute of Health and Welfare
- Health Outcomes International
- Royal Australasian College of Surgeons
- Southern Cross Care
- Cancer Council South Australia.

The Bachelor of Health Sciences at Flinders gives you the flexibility to build your own study program from a broad range of majors to suit your interests.

MAJORS
The following study areas can be taken as a major:
- Disability and community rehabilitation
- Environmental and public health
- Health promotion
- Health management
- Life sciences
- Nutrition
- Public health
- Therapy studies.

Find out more flinders.edu.au/health
The teachers are very experienced in their fields, and that helps to build up our knowledge with practical experience rather than just looking at theories and textbooks. Studying at Flinders was the best decision I’ve ever made—Flinders met and exceeded my expectations.

Natalie Yee
Bachelor of Healthy Ageing (Online)

Help improve the health of communities.

If you’re fascinated by the ways in which we interact with our environment, then why not build a career exploring the effects of environmental factors on human health?

Occupational therapy is an incredibly rewarding career. You’ll learn skills that will help people rebuild and regain their health through high quality therapy.

With 1000 hours of fieldwork experience, you’ll graduate with the hands-on knowledge required to register and work as an occupational therapist.

First-year placements in organisations such as Flinders Medical Centre, Repat hospital, educational providers and occupational therapy clinics will give you early exposure to work as an occupational therapist.

You’ll enjoy small class sizes and one-on-one tuition with supportive staff.

CAREER OPPORTUNITIES
Your degree could open up a range of employment opportunities, including:
• occupational therapist
• job capacity assessor
• allied health clinician
• community development project officer
• community occupational therapist.

Potential employers include:
• state government departments such as health, disability and education
• large non-government agencies such as Nova
• private hospitals
• aged care providers
• schools.

Find out more flinders.edu.au/health
**Bachelor of Health Sciences (Principles of Physiotherapy)/ Master of Physiotherapy**

Help people of all ages maximise their movement.

If you love the idea of helping people recover from injury, helping them improve their mobility and improve their quality of life, then you’ll find a career in physiotherapy rewarding in many ways.

* Knowledge of SACE stage two biology is assumed.

** Bachelor of Health Sciences (Principles of Physiotherapy)/ Master of Physiotherapy**

** Bachelor of Health Sciences (Online)**

** Bachelor of Healthy Ageing**

Study towards a rewarding career helping older people.

This is your opportunity to contribute to the health and wellbeing of an ageing society, and to work in a field that can greatly improve the quality of life of older people.

* Three years in Bachelor of Health Sciences (available part-time) and two years in Master of Occupational Therapy.

** Bachelor of Human Nutrition**

You could help address the future health needs of Australia and the world.

Human nutrition is one of the most interesting careers in Health. Think about what we eat and why? How our food choices affect our lifestyles and our health?

** Bachelor of Medical Science**

Prepare for a career as a medical scientist.

Are you fascinated by the science of the human body? Why not build a career around your passion?

---

** Bachelor of Medical Science**

** Bachelor of Medical Science**

See inside back cover for more information on your admission pathways, opportunities to enhance your degree, and how to apply.

Find out more

flinders.edu.au/health
**Bachelor of Medical Science (Vision Science)/Master of Optometry**

Build a career helping improve people’s vision.

You will receive a grounding in the fundamentals of science with an emphasis on vision science, where you will study the visual system and factors that influence sight, in preparation for intensive study and clinical experience in optometry.

**Bachelor of Nutrition and Dietetics**

Turn your passion for healthy eating into a career, by helping people achieve the best health through nutrition.

You will gain knowledge about the nature, management and prevention of diet-related diseases, and the social and psychological factors that influence what people eat.

**Bachelor of Paramedic Science**

Becoming a paramedic means keeping your cool in emergency and non-emergency situations. It means helping people when they need it most, and it means working in a career dedicated to helping others.

You could make a real difference. Develop the skills, knowledge and attitudes to manage pre-hospital emergency and out-of-hospital non-emergency situations in a manner consistent with best practice.

**Bachelor of Speech Pathology**

Working as a speech pathologist can help people in many ways. Speech pathologists help people whose educational, vocational, personal and social functioning is affected by communication or swallowing impairment resulting from developmental difficulties, social disadvantage, illness or accident.

You could make their lives easier, more comfortable and more productive.

Learn from award-winning educators and an innovative inquiry-based curriculum.

Begin observational placements in your first year, and gain an early insight into work as a speech therapist.

Benefit from one of the highest numbers of placement hours for a speech pathology degree in Australia.

Your degree could open up a range of employment options, including:

- graduate speech pathologist
- early childhood intervention worker
- project officer
- job capacity assessor
- rehabilitation consultant.

Potential employers include:

- healthcare sector (including hospitals, rehabilitation centres, community health services, mental health services)
- aged care sector
- disability services sector
- education sector (including mainstream, special schools and special education units)
- early childhood education sector
- private practice.

**Bachelor of Speech Pathology**

You may apply through SATAC or SA Demand. Please refer to your Flinders University application form for details.

A bachelor degree is normally required for entry to speech pathology training programs in Australia and may be a requirement for employment in the speech pathology workforce.

**Bachelor of Nutrition and Dietetics**

You may apply through SATAC, SA Demand, UTAS, or UTAS Demand.

A bachelor degree is normally required for entry to dietetics training programs in Australia and may be a requirement for employment in dietetics.
Broaden your opportunities

You could unlock more career opportunities by combining degrees. Combining your degree with a qualification in another discipline will help you develop specialised abilities to stand out from the pack. Studying a combined degree at Flinders is the key to enhancing your career opportunities.

Find out about combining these qualifications:

- Bachelor of Health Sciences/
  Bachelor of Business (Human Resource Management) – health management major only
- Bachelor of Health Sciences/
  Bachelor of Nursing
- Bachelor of Human Nutrition/
  Bachelor of Exercise Science

When I came to Flinders I felt a sense of community, a sense of person-hood. I feel I belong here within the disability program. Students and staff are not afraid to project an authentic reflection of themselves. We might be here for different reasons but we share the same purpose…to help and support people with disabilities to become active citizens of our community.

Rash Ramasamy
Master of Disability Policy & Practice Program

Explore your options
flinders.edu.au/combined-degrees
The degree provides foundational concepts from experienced professionals, training me both for a vocation and as an entrepreneur...Studying at Flinders University has been the icing on the cake, if you will, as the natural and active campus promotes a learning environment of exploration and freedom to share with diverse backgrounds and passions. You need not look hard to find something to challenge and inspire you.

Naomi Crosby
Bachelor of Nutrition & Dietetics

INNOVATION & ENTERPRISE

Careers are evolving and the workplace of the future will look very different from today.

That’s why we offer a suite of innovation and enterprise electives and courses to prepare you for the careers of tomorrow. Powered by Flinders’ New Venture Institute, these electives will help you to develop the ‘personal enterprise skills’ that employers are looking for, and equip you with the ability to adapt to whatever life throws at you, personally and professionally.

Find out more flinders.edu.au/innovation
How do I apply?

Applicants need to apply through the South Australian Tertiary Admissions Centre (SATAC): satac.edu.au.

To find out more about your admission pathways to Flinders, visit: flinders.edu.au/pathways

ADMISSION PATHWAYS

At Flinders we recognise that every prospective student is an individual and that what works for one might not be right for another. That’s why we provide various admission pathways into Flinders University and your preferred degree. You’re encouraged to explore your options and find the entry path that’s right for you.

Year 12 entry

The majority of Year 12 applicants enter university via the traditional competitive entry method, where offers are made to eligible applicants with the highest selection rank until all places in the degree are filled. Your selection rank is used by Flinders to assess your admission to a course, and is based on your ATAR plus any adjustment factors for which you are eligible. The 2019 Minimum Selection Rank is the minimum selection rank required for consideration to enter in next intake. The 2019 selection rank indicates the lowest rank for which an offer was made to an applicant that degree for the previous year (including any adjustment factors). This selection rank is provided only as a guide for 2020 entry as it may change from year to year.

Adjustment factors

Adjustment factors (formerly referred to as bonus points) may be used in combination with your ATAR to derive your course selection rank. Adjustment factors may be available for South Australian Year 12 students applying for entry to Flinders in 2020: the SA Universities Equity Scheme (USES) and the SA Language, Literacy and Mathematics Bonus Scheme (LLM).

Guaranteed entry selection rank

Achieve a selection rank equal to or above the published guaranteed entry selection rank and you’ll be guaranteed a place at Flinders. All you need to do is ensure you have listed Flinders degrees first in your preferences and you will be offered a place in the highest Flinders degree preference that you are eligible for in 2020.

uniTEST

If you’re a school leaver, uniTEST is your chance to increase your options to gain a place in your preferred degree. uniTEST is designed for school leavers and complements existing selection criteria by enhancing your overall selection rank.

BACHELOR OF GENERAL STUDIES

The Bachelor of General Studies is a flexible degree that provides a sound basis of knowledge in an area of your choice. It is designed to prepare you with communication skills, a firm grasp of ethics, and the confidence to make connections across geographical, disciplinary, social and cultural boundaries. Successful completion of the first year to the required standard also provides you with guaranteed entry into a range of our degrees.

Get more out of your degree

Whatever you’re studying, Flinders gives you the opportunity to do more with your degree to help you have a competitive edge when you graduate.

A combined degree is a combination of two Flinders bachelor degrees, meaning you will have two qualifications in just one-to-one-and-a-half years of extra study and undertake in-depth study in exciting combinations that aren’t usually available in single degrees.

The Bachelor of Letters is available to study alongside any degree at Flinders and enables you to graduate with two qualifications.

WHEN CAN I START?

Flinders offers two admissions cycles each year for undergraduate degrees.

Semester 1 – February start. Applications open in August for commencement the following year.

Semester 2 – July start. Mid-year applications open in August for commencement in July the following year.

*Not all degrees are offered for midyear entry. Check our midyear site for details: flinders.edu.au/midyear

This is Flinders

Flinders’ huge main campus features an award-winning hub and plaza, with retail, food outlets and a state-of-the-art sport and fitness centre. Take a virtual tour of Flinders University and explore our amazing locations. It’s the next best thing to being here! flinders.edu.au/vr
