Taking your first step into university life is a big change. New faces, new spaces, new experiences.

That’s why at Flinders, we do all we can to make your time at university the best it can be.

Our facilities are purpose-built for your study needs, providing the best the world has to offer.

Plugged into industry trends, professional placements and practical experiences, our teaching is designed to take you from learning to earning.

Our researchers and lecturers are ready to equip you with up-to-the-minute knowledge based on our world-class research. You’ll gain specialised skills and knowledge in your chosen field plus develop abilities in independent thinking, communication, collaboration, ethics and creativity – qualities that will prepare you to become an expert and innovator in your field. Everything we do at Flinders is designed to give you the best possible study experience and prepare you not just to succeed, but to go beyond.

Our medical practitioners are people who dedicate their lives to helping others. They prevent and treat disease. They heal injuries. They protect our health.

You could join their ranks.

HOLD LIFE AND HEALTH IN YOUR HANDS
Becoming a medical practitioner gives you the chance to have a profound impact on the health of the people around you. Imagine the satisfaction you’ll feel as you successfully treat a sick child or treat an injury.

By studying medicine, you’ll be working towards becoming a respected, vital member of our community.

BROAD OPPORTUNITIES
Medical practitioners are in high demand, and with a wide variety of opportunities, you could work towards a career in hospitals, general practice and medical centres across Australia.

STUDY FOR SUCCESS
New medical breakthroughs occur almost daily, and we need practitioners with up-to-the-minute training based on the latest medical research. Flinders can deliver that training.

“My medical education at Flinders was innovative, almost revolutionary, personalised, rigorous, research orientated, and has given me a welcome legacy of lifelong enquiry.”
Professor Chris Baggoley AO, Medicine graduate, Chief Medical Officer of Australia 2011-2016

WORK FOR THE GREATER GOOD
STUDY MEDICINE AT FLINDERS
Bachelor of Clinical Sciences/Doctor of Medicine

Your accelerated undergraduate track to a medical degree.

This double degree program enables school leavers without an undergraduate degree† to pursue a career in medicine. The program provides a high standard of academic, clinical and professional medical training to equip graduates with the skills necessary to take up positions as hospital interns and thereby qualify for medical registration in Australia.

† Applicants for the double degree in Adelaide must not have a record of study at a higher education level. Applicants for the CDU/Flinders double degree in Darwin may have completed up to one year of higher education study.

Bachelor of Clinical Sciences/Doctor of Medicine (Flinders University, Adelaide)

- You could complete a medical degree in just six years.
- Study clinical sciences for two years and begin your MD studies in year three.
- Study in Adelaide or Darwin.
- If you’re studying in Adelaide, you can choose either a health sciences or medical science focus in the clinical sciences degree.
- Flinders Medical and Health Sciences research was rated above world standard (Excellence in Research for Australia 2018).

CAREER OPPORTUNITIES

Your degree is the first step towards a range of employment opportunities in urban, rural and remote settings, including:

- medical intern
- hospital medical officer
- medical specialist
- general practitioner.

Potential employers include:

- Flinders Medical Centre
- Royal Adelaide Hospital
- Lyell McEwin Hospital
- General Practice Clinics
- Mount Gambier and Districts Health Service
- Royal Darwin Hospital.

“I love that Medicine at Flinders is very hands-on. The great amount of support we receive and the small class sizes allow our learning to be much more student focused, collaborative and easy to comprehend”.

Sydney Ma,
Bachelor of Clinical Sciences/Doctor of Medicine

Bachelor of Clinical Sciences/Doctor of Medicine (Charles Darwin University/Flinders University, Darwin)

- You could complete a medical degree in just six years.
- Study clinical sciences for two years and begin your MD studies in year three.
- Study in Adelaide or Darwin.
- If you’re studying in Adelaide, you can choose either a health sciences or medical science focus in the clinical sciences degree.
- Flinders Medical and Health Sciences research was rated above world standard (Excellence in Research for Australia 2018).

SYDNEY MA, Bachelor of Clinical Sciences/Doctor of Medicine

“…”
Doctor of Medicine

Graduate well prepared for the challenges of internship and future professional training.

The Flinders Doctor of Medicine (MD) is the cornerstone of the University’s dynamic and highly regarded medical program. The MD delivers outstanding clinical and academic training, and draws on the innovation and excellence that characterises the University’s medical program.

Our degrees
Flinders University is recognised as a leader in medical teaching, and the curriculum of our medical program has been adopted by universities worldwide. All medical students at Flinders undertake the MD, which integrates clinical medicine with a strong underpinning in biomedical science.

Our innovation
Our Bedford Park-based students learn in Australia’s first purpose-built academic medical centre – Flinders Medical Centre – where they are immersed in authentic, patient-centred clinical experiences from their first few weeks. Flinders University was the first in Australia to establish partnerships with international institutions throughout Asia, and the first to offer a full medical program in the Americas. Flinders has established partnerships with Greenwich Hospital (USA) and the AO (former Commander Joint Health and Medical Research Institute), and Air Vice-Marshal Dr Tracy Smart AO (former Commander Joint Health and Surgeon General, Australian Defence Force), among others.

Flinders medical program includes the first two years of the MD program as an alternative to the traditional five- to six-year courses for school leavers. We were also the first to offer a full year of rural clinical practice and the first to offer a full medical program in the Northern Territory.

Our international links
Flinders has established partnerships with international institutions throughout Asia, Europe and the Americas. We have links with universities, colleges and research institutions which provide valuable opportunities for student and staff exchanges, joint research and teaching programs. Our international students represent a quarter of our overall students and come from over 90 countries globally.

We are current and active members of the International Network of Universities and Innovative Research Universities Australia, of which we are one of only nine universities in Australia represented.

Our program is one of a few that licences our curriculum nationally and internationally, and we are highly regarded for our innovative medical education.

Our community engagement
The Flinders medical program is embedded in health services across Australia – from Flinders Medical Centre to multiple regional, rural and remote communities in the Northern Territory, South Australia and Victoria. Flinders has a strong commitment to building the rural and remote health workforce by delivering innovative clinical placements in these areas.

Our commitment to diversity and equity
Flinders values diversity and equity, and encourages applicants from a variety of academic backgrounds. The MD is focused on providing you with an understanding of social accountability, and graduates are prepared with leadership qualities, knowledge and skills that enable them to practise in under-served communities.

Our commitment to Indigenous health
The Flinders MD recognises and values the contribution that Indigenous knowledge and Indigenous doctors make to the health of our country. Our Indigenous and non-Indigenous academic staff will lead you to a greater understanding of this heritage, and teach you how to work safely and confidently in a multicultural society.

Our alumni and staff
Our alumni and staff are leaders in the field of medicine. Former students and staff of the Flinders medical program include Professor Chris Baggaley AO (Australia’s Chief Medical Officer 2011-2016), Professor Paddy Phillips (Chief Medical Officer of South Australia), Professor Steve Wesselingh (Executive Director, South Australian Health and Medical Research Institute), and Air Vice-Marshal Dr Tracy Smart AO (former Commander Joint Health and Surgeon General, Australian Defence Force), among others.

The strong clinical program at Flinders gave me the skills that I use every day to diagnose my patients. Studying medicine involves maintaining focus on your ultimate goal.”

Felicia Hui, Medicine graduate, Doctor, Greenwich Hospital (USA)

We need to ensure that people from all walks of life have an opportunity to study medicine. That’s why Flinders offers a range of admission pathways that enable you to enter medical degree, whatever your background.

Undergraduate entry
If you have completed Year 12 and wish to study medicine in Adelaide or the Northern Territory,* you can apply for admission to a double degree pathway which enables you to enter Flinders’ medical program without having to complete a separate undergraduate degree first.

This pathway enables you to complete a Bachelor of Clinical Sciences combined with the Doctor of Medicine (MD) in just six years.

Graduate entry
Flinders University offers graduate entry to the MD in Adelaide and the Northern Territory,* providing an alternative to the traditional pathway from secondary school to an undergraduate medical course. The four-year program enables you to graduate with a medical qualification that is comparable to a six-year undergraduate program.

* If studying in the NT, the Bachelor of Clinical Sciences is comparable to a six-year undergraduate program.

The Flinders MD recognises and values the contribution of Indigenous people in medical training. Flinders University’s Indigenous Entry Stream is available to Indigenous graduates who wish to study medicine either in Adelaide or in the Northern Territory. For this stream, you may apply directly to Flinders University for graduate entry to the Doctor of Medicine without having to start the Graduate Medical School Admissions Test.

Flinders values diversity and equity, and encourages applicants from a variety of background. This includes a sub-quota of up to 24 places available each year for students from remote communities who apply to undertake the entire third year of the MD in one of four rural locations.

Our commitment to Indigenous health includes participation of Indigenous people in medical training. Flinders University’s Indigenous Entry Stream is available to Indigenous graduates who wish to study medicine in either Adelaide or in the Northern Territory. For this stream, you may apply directly to Flinders University for graduate entry to the Doctor of Medicine without having to start the Graduate Medical School Admissions Test.

Rural applicants
Consistent with Flinders University’s commitment to improve the health of those in rural and remote areas, at least 28 per cent of Commonwealth supported places for graduate entry to the MD are reserved for students who come from a rural background. This includes a sub-quota of up to 24 places available each year for students from rural communities who apply to undertake the entire third year of the MD in one of four rural locations.

Northern Territory applicants
Flinders University, in partnership with Charles Darwin University, offers undergraduate and graduate entry to the Flinders Doctor of Medicine in Darwin through the Northern Territory Medical Program (NTMP). Whether you are a school leaver or university graduate in the Territory, the NTMP allows you to undertake your entire medical training in the Northern Territory. Places are only available to Australian citizens and permanent residents.

We’re here to help

Whatever you decide to study at Flinders, we’re always here to help you succeed.

Transition to university
Starting at university is a big step; let’s make it easier.
The Transition Office can help make your shift into university study as smooth as possible, and the Student Learning Centre provides a range of services from writing and mathematics support to assistance with study and time-management skills.

Work Integrated Learning
Work Integrated Learning (WIL) enables you to gain work experience while you study.
Flinders aims to provide each and every student with access to a WIL opportunity during their studies through placements, practicums, field studies, and simulated workplace settings and assessment activities.

Scholarships
Flinders University offers over 550 undergraduate scholarships, worth $2.2m in total. A generous range of scholarships is available to new and continuing undergraduate students.

Flinders Connect
Flinders Connect can help with everything from enrolment and fees to exams and graduation. You can also access Flinders Connect for specialist services in admissions, careers and IT help. A range of support services is also available.

Flinders University Student Association (FUSA)
Flinders has a long history of active student involvement.
The Flinders University Student Association (FUSA) continues that tradition, and represents the rights and interests of students. FUSA manages social events, non-sporting clubs and societies, the student publication Empire Times, and helps with academic, administrative and welfare issues.

Careers & Employability Service
The Careers and Employability Service helps you to develop the ‘personal enterprise skills’ that employers are looking for, and equip you with the ability to adapt to whatever life throws at you, personally and professionally.
Find out more flinders.edu.au/innovation

INNOVATION & ENTERPRISE

Careers are evolving and the workplace of the future will look very different from today.
That’s why we offer a suite of innovation and enterprise electives and courses to prepare you for the careers of tomorrow. Powered by Flinders’ New Venture Institute, these electives will help you develop the ‘personal enterprise skills’ that employers are looking for, and equip you with the ability to adapt to whatever life throws at you, personally and professionally.

To find out more about your admission pathways to Flinders, visit: flinders.edu.au/pathways

ADMISSION PATHWAYS
At Flinders, we recognise that every prospective student is an individual and that what works for one might not be right for another. That’s why we provide various admission pathways into Flinders University and your preferred degree. You’re encouraged to explore your options and find the entry path that’s right for you.

Year 12 entry
The majority of Year 12 applicants enter university via the traditional competitive entry method, where offers are made to eligible applicants with the highest selection rank until all places in the degree are filled. Your selection rank is used by Flinders to assess your admission to a course, and is based on your ATAR plus any adjustment factors for which you are eligible. The 2020 Minimum Selection Rank is the minimum selection rank required for consideration to enter in the next intake. The 2020 selection rank indicates the lowest rank for which an offer was made to an applicant in that degree for the previous year (including any adjustment factors). This selection rank is provided only as a guide for 2021 entry, as it may change from year to year.

Adjustment factors
Adjustment factors (formerly referred to as bonus points) may be used in combination with your ATAR to derive your course selection rank. Adjustment factors may be available for South Australian Year 12 students applying for entry to Flinders in 2021: the SA Universities Equity Scheme (UES) and the SA Language, Literacy and Mathematics Bonus Scheme (LLM).

Guaranteed entry selection rank
Achieves a selection rank equal to or above the published guaranteed entry selection rank and you’ll be guaranteed a place at Flinders. All you need to do is ensure you have listed Flinders degrees first in your preferences and you will be offered a place in the highest Flinders degree preference that you are eligible for in 2021.

uniTEST
If you’re a school leaver, uniTEST is your chance to increase your options to gain a place in your preferred degree. uniTEST is designed for school leavers and complements existing selection criteria by enhancing your overall selection rank.

Foundation Studies
The Foundation Studies program has been designed to introduce you to university study in a supportive learning environment. Open to people from all backgrounds, Foundation Studies provides a pathway to gain entry to most degrees at Flinders and offers guaranteed entry into some degrees.

TAFELink
Flinders offers guaranteed entry to selected degrees for applicants who have completed a TAFE/VTET certificate IV or higher-level qualification, as long as degree prerequisites are met. Importantly, your TAFE/VTET qualification does not need to be related to your selected area of study at Flinders.

TAFE SA dual offers
You can apply for a TAFE SA (RTO codes: 41026) diploma or advanced diploma that is linked to a Flinders degree. You’ll receive an offer to both TAFE SA and Flinders University and, on successful completion of the TAFE course, you’ll have secured an offer for a Flinders degree. TAFE SA dual offers are available for a range of Flinders degrees.

Adult entry
The adult entry scheme enables people aged 18 years and over to apply to study at Flinders via the Special Tertiary Admissions Test (STAT). Applications are made via SATAC.

Tertiary transfer
If you have completed at least one semester of full-time equivalent study at university, you may be able to transfer to study at Flinders University using your grade point average (GPA).

Bachelor of General Studies
The Bachelor of General Studies (SATAC code: 234181) is a flexible degree that provides a sound basis of knowledge in an area of your choice. It is designed to prepare you with communication skills, a firm grasp of ethics, and the confidence to make connections across geographical, disciplinary, social and cultural boundaries. Successful completion of the first year to the required standard also provides you with guaranteed entry into a range of our degrees.

Get more out of your degree
Whatever you’re studying, Flinders gives you the opportunity to do more with your degree to help you have a competitive edge when you graduate. A combined degree is a combination of two Flinders bachelor degrees, meaning you will have two qualifications in just one to one-and-a-half years of extra study and undertake in-depth study in exciting combinations that aren’t usually available in single degrees. The Bachelor of Letters is available to study alongside any degree at Flinders and enables you to graduate with two qualifications.

When can I start?
Flinders offers two admissions cycles each year for undergraduate degrees.

Semester 1 – February start
Applications open in August for commencement the following year.

Semester 2 – July start
Mid-year applications open in August for commencement in July the following year.

*Not all degrees are offered for midyear entry. Check our midyear site for details: flinders.edu.au/midyear
