

POSTGRADUATE

# Health

**Flinders**  
**University**

## Explore a life-changing career in Health.

### Follow your interests

With a global reputation for producing career ready graduates, Flinders is nurturing a diverse and passionate team of future health leaders – a powerful alliance of health, medicine and care, united with a singular purpose: to not only be exceptional, but to do exceptional things.

Our postgraduate specialty courses are designed for health professionals and those looking to progress into specialist and/or leadership roles in the health field. Our courses are offered across Graduate Certificate, Graduate Diploma, Masters and PhD levels of study. We also offer short courses to build new skills and knowledge, and continue your professional development.

Fit your study around work commitments through our online delivery modes, full-time and part-time study options, as well as weekend intensives for some courses.

### Prevent, treat, cure & care

Further your career in health by developing specialist knowledge and expanding the skills you have gained in the health field.

Learn something today for practice tomorrow.

### Acknowledgement of Country

Flinders University acknowledges the Traditional Owners and Custodians of the lands and waters on which its campuses are located. These are the Traditional Lands of the Arrernte, Dagoman, First Nations of the South East, First Peoples of the River Murray and Mallee region, Jawoyn, Kaurna, Larrakia, Ngadjuri, Ngarrindjeri, Ramindjeri, Warumungu, Wardaman and Yolngu people. We honour their Elders past, present and emerging.

### Courses

Audiology
Clinical Education
Clinical Epidemiology
Clinical Exercise Physiology
Clinical Rehabilitation
Counselling (Behavioural Health)
Dementia Care and Leadership
Diabetes Management and Education
Disability Studies
Doctor of Medicine
Environmental Health
Health Administration
Health Promotion
Leading Mental Health & Wellbeing (Workplace & Community)
Nursing
Nutrition and Dietetics
Occupational Therapy
Older Adult Care and Wellbeing
Palliative Care
Paramedicine
Physiotherapy
Positive Behaviour Support
Psychology
Public Health
Remote Health Practice
Short Courses
Social Work
Society and the Individual
Speech Pathology
Trauma Responsive Practice

### Higher Degrees by Research Courses

Clinical Education
Doctor of Philosophy
Doctor of Philosophy (Clinical Psychology)
Doctor of Philosophy (PhD) in Clinical Translation
Doctor of Philosophy (PhD) in Digital Health
Doctor of Philosophy (PhD) in Health Emergencies and Health Security
Doctor of Philosophy (PhD) in Healthy Communities
Doctor of Philosophy (PhD) in Molecular Biosciences
Doctor of Philosophy (PhD) in Palliative Care, Death and Dying
Doctor of Philosophy (PhD) in Psychology
Doctor of Philosophy (PhD) in Self-care and Caring
Doctor of Philosophy (PhD) in Social Work
Master of Health and Clinical Research
Master of Science

**Up to 80% off fees due to Government subsidies.** Government subsidies enable Flinders to offer Domestic applicants a reduction of up to 80% off full course fees for selected courses through Commonwealth Supported Places. Offer subject to change.

Audiology

The Master of Audiology prepares you to become a well-informed health professional and begin clinical practice as an audiologist in urban, rural, and remote settings. Additionally, the course will help you acquire critical skills in appraising scientific and clinical information which will assist your further professional development.

Master of Audiology	
SATAC code	2CM039
2 years full-time	
In Person	

Biotechnology

From medicine to environmental protection to advances in food and agriculture production, the world needs sustainable solutions. You could help create them. Work as a professional in one of the most exciting growth areas in science – Biotechnology.

Master of Biotechnology	
SATAC code	2CM059
2 years full-time	
In Person	

**Key**  
CS – Commonwealth supported  
FFP – Full fee paying  
Where not specified –FFP  
BP – Bedford Park  
CC – City Campus  
Where not specified – Bedford Park

Clinical Education

This articulated suite of courses aims to provide health professionals with advanced knowledge and skills to deliver high-quality education, evaluate and improve learning and teaching, undertake clinical education research, and lead education in health service and other settings.

Graduate Certificate in Clinical Education	
SATAC code (CS)	2GC041
SATAC code (FFP)	2GC541
6 months full-time	
Online	

Graduate Diploma in Clinical Education	
SATAC code (CS)	2GD031
SATAC code (FFP)	2GD531
1 year full-time	
Online	

Master of Clinical Education (Coursework)	
SATAC code (CS)	2CM040
SATAC code (FFP)	2CM540
1.5 years full-time	
Online	

Master of Clinical Education (Research)	
SATAC code	Applications made directly to the University
1.5 years full-time	
In person/online plus placement/intensive	

Clinical Epidemiology

The Masters of Clinical Epidemiology provides knowledge and skills required for the conduct and design of clinical trials, framing of appropriate research questions and interpreting research evidence to improve clinical outcomes of patients.

Master of Clinical Epidemiology	
SATAC code (CS)	TBC
1 year full-time	
Online	

Clinical Exercise Physiology

This course aims to prepare you for practice as an exercise physiologist. Graduates will be able to contribute to interdisciplinary health interventions using exercise as part of the management strategy of disease, dysfunction, and injury across a range of public and private settings and work within an interprofessional environment including rural and remote areas.

Master of Clinical Exercise Physiology	
SATAC code	2CM224
2 years full-time	
In Person	

Clinical Rehabilitation

The postgraduate clinical rehabilitation program provides opportunities for health professionals from any allied health, medical or nursing field to enhance their knowledge, skills and attitudes in clinical rehabilitation.

Graduate Certificate in Clinical Rehabilitation	
SATAC code	2GC042
6 months full-time	
In Person	
Online	

Master of Clinical Rehabilitation	
SATAC code	2CM254
2 years full-time	
Part-time available	
In person/online plus placement/intensive	

Master of Clinical Rehabilitation (Neurological Occupational Therapy)

Online

### Master of Disability Practice and Leadership (Developmental Education)

SATAC code (CS) 2CM288

SATAC code (FFP) 2CM688

2 years full-time

In person/online plus placement/intensive

# Doctor of Medicine

The Flinders Doctor of Medicine (MD), offered in South Australia and the Northern Territory, is the cornerstone of the University’s dynamic and highly regarded medical program, delivering outstanding clinical and academic training, and draws on the innovation and excellence that characterises the University’s medical program.

### South Australia Rural Medical (SARM) Program

New in 2025, our SARM Program will be offered entirely in rural South Australia for aspiring rural medical professionals. Priority admission is for residents of rural South Australia, Aboriginal and/ or Torres Strait Islander applicants and applicants from interstate with rural backgrounds. Applicants from non-rural backgrounds who wish to pursue a career in rural medicine are also encouraged to apply.

Students will live and study Years 1 and 2 of the MD in the Riverland or Mount Gambier in the Greater Green Triangle. Later, in Years 3 and 4, students will study in either the Hills Mallee Fleurieu, the Barossa Valley, the Riverland or Greater Green Triangle region. With up to 46 places available, the SA Rural Medical Program is a gateway to a fulfilling rural medical career.

### The Northern Territory Medical Program (NTMP)

Since 2011, Flinders has delivered the NTMP as a complete end-to-end graduate medical degree with students located entirely in the Northern Territory. Each year there are at least 12 graduate entry places for Northern Territory residents and/or Aboriginal and Torres Strait Islander students from anywhere in Australia. Sponsored by the Northern Territory and Australian Governments, students learn in sites across the Territory and have a guaranteed job with 4 years return of service following graduation. An undergraduate pathway into the NTMP is also available by applying to Charles Darwin University (CDU).

### Our international links

Flinders has established partnerships with international institutions throughout Asia, Europe and the Americas. We have links with universities, colleges and research institutions which provide valuable opportunities for student and staff exchanges, joint research and teaching programs. Our international students represent a quarter of our overall students and come from over 90 countries globally. We are current and active members of the International Network of Universities and Innovative Research Universities Australia, of which we are one of only nine universities in Australia represented. Our Medicine program is one of a few that licences our curriculum nationally and internationally, and we are highly regarded for our innovative medical education.

### Our community engagement

The Flinders medical program is embedded in health services across Australia – from Flinders Medical Centre to multiple regional, rural and remote communities in the Northern Territory, South Australia and Victoria. Flinders has a strong commitment to building the rural and remote health workforce by delivering innovative clinical placements in these areas.

### Our commitment to diversity and equity

Flinders values diversity and equity, and encourages applicants from a variety of academic backgrounds. The MD is focused on providing you with an understanding of social accountability, and graduates are prepared with leadership qualities, knowledge and skills that enable them to practise in under-served communities.

### Our commitment to Indigenous health

The Flinders MD recognises and values the contribution that Indigenous knowledge and Aboriginal and Torres Strait Islander doctors make to the health of our country. Our Aboriginal and Torres Strait Islander and non-Aboriginal and Torres Strait Islander academic staff will lead you to a greater understanding of this heritage, and teach you how to work safely and confidently in a multicultural society.

### Indigenous Entry Stream (IES)

As an Aboriginal and/or Torres Strait Islander applicant you can choose from two pathways into the Doctor of Medicine. If you have an undergraduate degree but do not have a valid GAMSAT score, you can apply for entry into the Indigenous Entry Stream (IES). Alternatively, if you do have a valid GAMSAT score you can apply for direct through the Aboriginal and/or Torres Strait Islander Sub-quota.

### Our MD alumni and staff

Our alumni and staff are leaders in the field of medicine. Former students and staff of the Flinders medical program include Professor Chris Baggoley AO (Australia’s Chief Medical Officer 2011-2016), Professor Paddy Phillips (Chief Medical Officer of South Australia), Professor Michael Kidd AM (Principal Medical Advisor and Deputy Chief Medical Officer with the Department of Health, Australia), Professor Steve Wesselingh (Executive Director, South Australian Health and Medical Research Institute), Air Vice-Marshal Dr Tracy Smart AO (former Commander Joint Health and Surgeon General, Australian Defence Force) and Dr Richard Harris AO (2019 Australian of the Year and Lieutenant Governor of South Australia), among others.

# No. 1 in Australia in Medicine for full-time employment.

(The Good Universities Guide 2024 (postgraduate))

## Environmental Health

Environmental health is the branch of public health that is concerned with all aspects of the natural and built environment that affect our health, such as water, food, air, buildings and waste.

### Graduate Diploma in Environmental Health Practice

SATAC code (CS) 2GD005

1 year full-time

Online

### Master of Environmental Health

SATAC code 2CM137

2 years full-time

In Person

Online

## Health Administration

Develop an understanding of management theories and principles and how they apply in health and aged care management. You will strengthen your practical management skills and develop the critical analytical skills needed to prepare you for future developments in health and aged care services.

### Graduate Certificate in Aged Care Administration

SATAC code (BP) 2GC077

SATAC code (CC) 2GC901

1 year full-time

In person/online plus placement/intensive

### Graduate Certificate in Health Administration

SATAC code (CC) 2GC905

1 year full-time

In Person

### Graduate Diploma in Health Administration

SATAC code (CC) 2GD903

1 year full-time

In Person

### Master of Health Administration

SATAC code (CC) 2CM915

1.5 years full-time

In Person

## Health Promotion

The Graduate Certificate in Health Promotion aims to provide you with the knowledge and skills to incorporate the principles of public health into specific fields of practice in order to reduce inequalities in health care access and health outcomes

### Graduate Certificate in Health Promotion

SATAC code (CS) 2GC062

SATAC code (FFP) 2GC562

6 months full-time

In Person

Online

## Leading Mental Health and Wellbeing (Workplace and Community)

This course is designed to help workplaces and communities thrive, by building the capacity of leaders, staff and volunteers to enact evidence-based mental health and wellbeing practice.

### Graduate Certificate in Leading Mental Health and Wellbeing (Workplace and Community)

SATAC code (CS) 2GC185

SATAC code (FFP) 2GC685

6 months full-time

In Person

Online

## Nursing

Boost your career opportunities and become an expert in your field through Flinders’ postgraduate nursing programs. Equip yourself with advanced knowledge and skills for a range of healthcare environments in an acute care or primary health care specialisation

### Graduate Certificate in Child and Family Health Nursing

SATAC code (CS) 2GC187

SATAC code (FFP) 2GC687

6 months full-time

1 year part-time

Online plus placement/intensive

6 months

Online plus placement/intensive

Higher Degrees by Research

Whether you want to explore a topic of interest in depth, create new knowledge, foster collaboration or become an expert in your field, a higher degree by research at Flinders will help you make a difference.

Work with highly qualified and recognised supervisors, connect with industry, government and the community, and contribute to the global research conversation. Higher degrees by research transform lives and make an impact with new discoveries, leading to better lives, better communities, better care and better systems.

Work with highly qualified and recognised supervisors, connect with industry, government and the community, and contribute to the global research conversation. Higher degrees by research transform lives and make an impact with new discoveries.

Higher degrees by research provide training to foster the development of independent research and critical thinking skills, enabling the pursuit of further scholarly activity in academia.

Flinders’ research is highly regarded on the world stage. 90% of all Flinders University research as a whole is rated world class or above (Flinders rating 89.7%, rounded up to 90%. Excellence in Research for Australia, 2018).

Start or continue your research journey with Flinders University, leaders in health and care.

Doctor of Philosophy

Undertake research training at the highest level. Produce a substantial body of original research that significantly contributes to knowledge and scholarship, making an impact on the future of healthcare.

Flinders have a number of institutes and centres with exciting HDR opportunities that make a difference.

Master of Health & Clinical Research

The Master of Health and Clinical Research program is an HDR program for professionals in any health field, giving graduates specialised knowledge and skills for research and can be a pathway to studying a PhD.

The Master of Health and Clinical Research program requires completion of 18-units of post-graduate coursework on advanced research methods and the clinical area of focus, as well as a 36-unit, time-based, supervised research project culminating in an externally examined thesis.

# Flinders Research

Whether you want to explore a topic that interests you in depth, create new knowledge, foster collaboration or become an expert in your field, a higher degree by research at one of our centres and institutes will help you make a difference.

## Caring Futures Institute

The Flinders University Caring Futures Institute is Australia’s first fully dedicated research centre for the study of self-care and caring solutions leading to better lives, better communities, better care and better systems across the population’s lifespan.

We work with leading care organisations, health professionals, community partners and consumers to pioneer outcome-driven research that makes a positive impact on people’s lives.

**Research field: Healthy living across the lifespan, exercise for life, food for life; Disability and community inclusion, marginalisation and vulnerability, cultural diversity; Technological and digital solutions for care, cardiovascular care; Fundamentals of care; Clinical rehabilitation; Health and clinical sciences; Dementia care; Reproductive health and childbirth, women’s health and midwifery, evidenced-based maternity care**

## Flinders Health and Medical Research Institute (FHMRI)

Flinders Health and Medical Research Institute is a broad, multidisciplinary, highly dynamic and skilled community of researchers spread across a footprint spanning the central corridor of Australia. One of Australia’s top 10 university-based institutes, FHMRI research impact extends across scientific breakthroughs, innovation in clinical practice, policy and practice reform, and transformation of population health and equity outcomes.

**Research field: Clinical translation, Healthy Communities, Molecular Biosciences, Research Impact.**

## Flinders University Institute for Mental Health and Wellbeing (FIMHWell)

The Flinders University Institute for Mental Health and Wellbeing brings together world-leading researchers, service providers and communities to develop evidence-based solutions that create meaningful change.

The Institute focuses on developing mental health and wellbeing solutions for our communities, with a focus on the following pillars:

- Enhancing resilience in children and young people
- Interventions for disordered eating
- Increasing resilience and reducing the impact of trauma across the lifespan
- Achieving wellbeing through sport and physical activity
- Bolstering wellbeing of the community.

**Research field: Mental health and wellbeing across the lifespan.**

## Medical Device Research Institute

The Medical Device Research Institute (MDRI) is committed to producing high quality research, encouraging the development of our early career researchers and providing a nurturing environment for our higher degree research students.

Our mission is to conduct world leading, collaborative research that bridges disciplines, organisations, sectors and nations, and that translates into new knowledge, products and workforces that can meet challenges facing the global healthcare sector.

**Research field: Assistive Technologies regarding rehabilitation.**

## Torrens Resilience Initiative

The Torrens Resilience Initiative is one of Australia’s longest standing research institutes dedicated to disaster preparedness and management.

Our research is advancing the concept of resilience and helping organisations, communities and nations balance disaster preparedness and prevention, response and recovery. Our research advises and guides government policy, prepares communities and empowers people to minimise the impacts of possible natural hazards, health emergencies and health security or humanitarian and other emergencies in Australia and around the world.

**Research fields: Health emergencies and health security.**

## Poche SA + NT

The Poche SA + NT centre is focused on building healthy country, healthy communities and health leaders throughout Australia’s central corridor, across the Northern Territory and South Australia.

We are proud to have been founded through the generosity of philanthropists Greg Poche AO and Kay Van Norton Poche and as part of Flinders University. Our focus is on improving health outcomes for Aboriginal and/or Torres Strait Islander people through collaborative, holistic and community-driven approaches.

**Research field: Health outcomes for Aboriginal and/or Torres Strait Islanders.**

## Research Centre for Palliative Care, Death and Dying

The Research Centre for Palliative Care, Death & Dying explores the universal experience of death and dying and champions the contribution of palliative care to the person, the health professional and the health system.

**Research fields: Death and dying across the community, palliative and end-of-life care across the health system, on-line evidence and practice translation.**

## Flinders Digital Health Research Centre

Flinders Digital Health Research Centre conducts research into the development and deployment of digital solutions (such as mobile apps and online portals) to support consumers in managing their own health, and health care providers in delivering services using innovative new models of care.

We focus on projects for wellness and ageing in addition to conventional areas of health informatics such as clinical applications, health technologies and cyber security.

**Research field: Technology in health.**

## Short Courses

Taking a short course at Flinders University gives you the chance to interact with leading experts to build new skills and knowledge and continue your professional development.

Flinders offers short courses in a variety of subject areas, with flexible study options, passionate educators and specialised content.

Successful completion of some courses can attract credit within Flinders University postgraduate programs.

Find out more:

## How to apply

### Postgraduate coursework degrees:

Applications for postgraduate coursework degrees are lodged through the South Australian Tertiary Admissions Centre (SATAC):

[satac.edu.au](https://satac.edu.au)

#### 1. Select your preferred course

Explore our full range of postgraduate courses at:

[Flinders.edu.au/postgrad](https://flinders.edu.au/postgrad)

#### 2. Check entry requirements

Most graduate entry bachelor degrees, graduate certificates and graduate diplomas require a three-year undergraduate degree from an Australian university or equivalent.

There are also minimum entry requirements for each course. But if you don't meet the requirements you may be admitted (subject to specific conditions) at the discretion of the College offering the course.

Overseas qualifications need to be equivalent to the above to be considered for entry.

#### 3. Check individual course entries on SATAC for information on important dates

Use SATAC's course search to check individual course entries for information on important dates. You will find information on commencement date options, relevant closing date(s) for applications, and the timing of offers.

[satac.edu.au/postgraduate](https://satac.edu.au/postgraduate)

#### 4. Apply online at SATAC

Apply for postgraduate coursework at Flinders through the South Australian Tertiary Admissions Centre (SATAC).

[satac.edu.au/postgraduate](https://satac.edu.au/postgraduate)

### Higher Degree by Research (HDR):

Applications for Higher Degree by Research (HDR) are lodged directly through Flinders University:

[Flinders.edu.au/research](https://flinders.edu.au/research)

#### 1. Confirm your eligibility

#### 2. Confirm your supervisor

Ensure an academic staff member has agreed to supervise your HDR Project

#### 3. Prepare your documentation

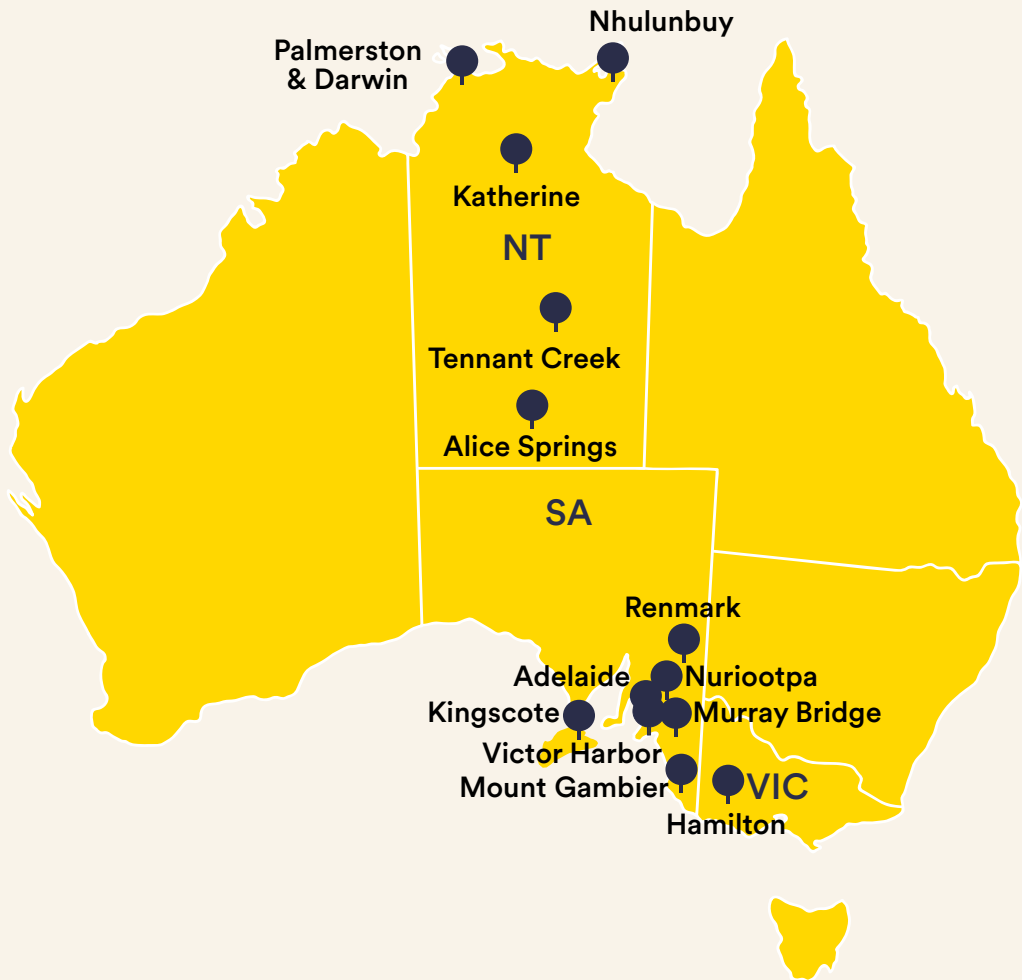

HDR applicants are required to provide a research outline, research experience statement and academic transcripts prior to submitting your application. Ensure you have reviewed the course rule and course information page for any additional requirements.

#### 4. Apply online at Flinders

[Flinders.edu.au/research](https://flinders.edu.au/research)

# This is Flinders

Flinders has many sites; our unique footprint along the Australian Central Corridor is a distinguishing feature of the University. Through the transformative power of education, research, and partnerships we are here to inspire future generations of the rural and remote health workforce and Aboriginal and Torres Strait Islander communities.

## Flinders Northern Territory

The Flinders NT sites are a hub for innovative health research, education and workforce development in the NT. Our health and medical footprint stretches to rural and remote areas in the Northern Territory, enabling students and practitioners from an array of cultures and contexts to provide healthcare to a vast range of communities.

[Flinders.edu.au/flinders-nt](https://flinders.edu.au/flinders-nt)

## Flinders Bedford Park

Flinders' main campus at Bedford Park, features an award-winning hub and plaza, with retail, food outlets and a state-of-the-art sport and fitness centre. Take a virtual tour of Flinders University and explore our amazing locations. It's the next best thing to being here!

[Flinders.edu.au/vr](https://flinders.edu.au/vr)

# Getting around: Adelaide CBD to Bedford

Flinders' geographic footprint extends beyond Adelaide, with campuses in the Northern Territory, regional South Australia and Victoria.

## City Campus

Spanning eight levels, with multiple state-of-the-art teaching spaces, Flinders' new city campus is designed for innovative and adaptable learning

## Tonsley

Flinders at Tonsley is a place where our students interact with business, and where business interacts with our researchers in areas such as engineering, medical devices and nanoscale technologies.

## Bedford Park

Flinders' huge main campus features an award-winning hub and plaza, with retail, food outlets and a state-of-the-art sport and fitness centre.

Take virtual tour of Flinders University and explore our amazing locations:

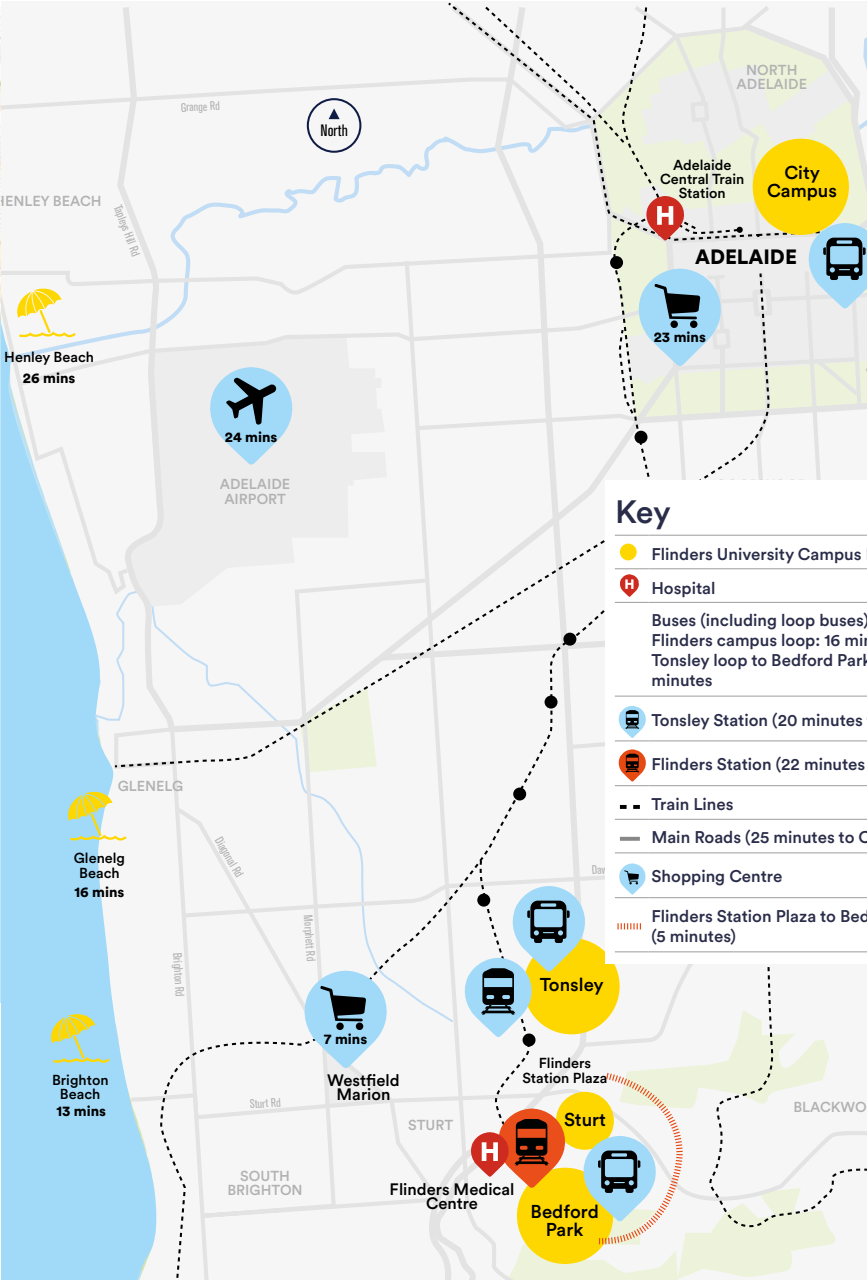

## Getting to Flinders

Flinders is well connected to Adelaide by bus and train. The Flinders Railway Line gets you from our new Festival Plaza campus to Tonsley in a super-fast 20 minutes, or to Bedford Park in just 22 minutes. If you live further north, the Gawler Rail Line has express services that take around 48 minutes from Gawler to the CBD.

Regular bus services connect to Bedford Park, and with free Campus Connector and Tonsley Link bus services running 7am – 6pm Monday to Friday, getting to and from your studies is simple.

Flinders has safe and secure car parking available, and multiple areas to secure your bike if you prefer to ride.
