In an era of disruptive change, Flinders University is growing its international reputation as a world leader in research, an innovator in contemporary education and a source of enterprising graduates equipped to change the world.

The University acknowledges the traditional owners of the lands Flinders University teaches across (Arrernte, Boandik, Bungarla, Dagoman, Gunditjmara, Jawoyn, Kaurna, Larrakia, Nauo, Ngarrindjeri, Paramungu, Yawuru, Wardaman, W EMAIL, Yolgnu) and honour their Elders past and present.
EXPLORE FLINDERS SCHOLARSHIPS
Flinders offers a generous range of scholarships for students in undergraduate courses. With over 550 available scholarships, including scholarships to students from low socio-economic backgrounds, students from rural and regional areas and Indigenous students, you may be eligible for support that will help you achieve your goals at university.

"The Wyndham Richardson Scholarship Fund has been invaluable to reduce the financial pressure during studies, especially now that I am in the later years of my degree."
Ryan Hewston, Bachelor of Computer Science
Wyndham Richardson Scholarship Fund

JOIN A GLOBAL COMMUNITY
Flinders' Work Integrated Learning (WIL) enables you to gain work experience while you study. You’ll have the opportunity to gain real-world experience through placements, practicums, field studies, and simulated workplace settings and assessment activities. Flinders aims to provide each and every student with access to a WIL opportunity during their studies.

THINK BIG, MAKE AN IMPACT, DESIGN YOUR FUTURE.
Careers are evolving and the workplace of the future will look very different from today. Powered by Flinders’ New Venture Institute, our suite of innovation and enterprise electives and courses will help you to develop the ‘personal enterprise skills’ that employers are looking for, and equip you with the ability to adapt to whatever life throws at you, personally and professionally. No matter what you choose to study at Flinders, you can embed an innovation and enterprise elective into your degree.

TAKE YOUR STUDIES OVERSEAS
Why wait until you graduate to explore the world? Flinders’ Learn Without Borders could see you studying overseas, gaining a unique perspective and immersing yourself in a different culture, language and lifestyle.

“My exchange was honestly one of the most amazing and rewarding six months of my life. The friends I made, the things I saw and experienced will stick with me for the rest of my life.”
Rebekah Jones
Canada

FLINDERS VILLAGE

$1.5 billion development
Community-centred student living
Flinders Station links Bedford Park to Tonsley and the city

GET THE SUPPORT YOU NEED
Flinders is SA’s No.1 university for student support.** From campus facilities to financial support, mental health and wellbeing resources and services, student grants, counselling services (including careers and financial) and many social opportunities, we offer a range of services to ensure your study experience is everything you want it to be. Find out more about student support on page 49.

** The Good Universities Guide 2020 (undergraduate), public SA-founded universities only.

THE GOOD UNIVERSITIES GUIDE 2020 (UNDERGRADUATE)
About student support on page 49.

EXPERIENCE A UNIVERSITY LIKE NO OTHER
Our geographic footprint stretches from the top of the Northern Territory through to South Australia and regional Victoria. Internationally, joint courses are delivered with leading universities in China, Hong Kong, Malaysia, Singapore and Indonesia. Our main campus at Bedford Park is an environment that fosters creativity. Sitting in stunning natural surrounds, it boasts spectacular views to the city and coast and features an award-winning, state-of-the-art student hub that fosters interactive learning in a digitally enabled environment.

GET THE SUPPORT YOU NEED
From medicine to business, science or arts offerings, Flinders University offers more than 500 undergraduate, postgraduate and research degrees taught by global and national experts focused on the experience and outcomes of their students.

BE TAUGHT BY LEADERS
At Flinders, you’ll be taught by teachers who are leaders in their fields. They are plugged into industry trends and connected to professional networks. Your future career will take practical shape from the very beginning of your studies as we guide you from the classroom to the workplace through inspired teaching, practical placements, internships, field education and industry projects.

BENEFIT FROM WORLD-CLASS RESEARCH
Flinders University’s research strengths include biomedical and clinical sciences, culture, policy and society, health and medicine, mental health and human behaviour, molecular science and technology, defence, engineering, water and environment. With 90% of Flinders’ research rated world-standard or above,* your studies will be supported by the up-to-the-minute knowledge of highly skilled researchers and lecturers.

* Flinders rating 89.7%, rounded up to 90%: Excellence in Research for Australia, 2018.
YOUR WORK COULD BE THE KEY TO UNDERSTANDING THE FUTURE OF THE WORLD

SCIENCE

UNCOVER SECRETS. DISCOVER ANSWERS.
The world of science is a lot more exciting than it looks on The Big Bang Theory. A career in science can quite literally change the world. You could play a part in making new discoveries, helping us understand some of the deepest questions about who and what we are, and how our universe works.

A REWARDING CAREER.
There’s nothing more gratifying than doing something you love in an exciting field. Science underpins almost every facet of our society, and the range of careers in science is broad. From government departments to environmental organisations and private industry, you can pursue your passion and build a rewarding future.

STUDY FOR SUCCESS.
Studying science at Flinders means studying at a university with strong links to industry, and a wide range of research expertise in areas such as biotechnology, groundwater hydrology, and forensic and environmental science.

EXPLORE THE UNKNOWN
STUDY SCIENCE AT FLINDERS
From advances in biotech, to the discovery of a long-forgotten prehistoric creature or the thrill we feel when a new probe lands on Mars, science excites us all. Turn your passion for discovery into a career.

No. 1 in SA
in Science & Mathematics for starting salary, learner engagement, learning resources, overall quality of educational experience, skills development, student support and teaching quality

The Good Universities Guide 2020 (undergraduate, public SA-founded universities only)

in Science & Mathematics for starting salary, learner engagement, learning resources, overall quality of educational experience, skills development, student support and teaching quality

The Good Universities Guide 2020 (undergraduate, public SA-founded universities only)
Bachelor of Mathematical Sciences

Master mathematics to solve real-world problems.

Mathematics is the foundation of many industries. Demand for mathematicians is particularly strong in areas including science, engineering, technology and business, and in areas as diverse as linguistics and health. Your skills and knowledge of mathematics could lead to a challenging, long-term career.

In this degree, you’ll gain a foundation in the principles and techniques of modern mathematics, and learn how to apply these skills to solve today’s problems. The degree is designed to produce industry-focused graduates who are in demand in a range of careers that use mathematics.

Bachelor of Science

Imagine a career exploring science from its core to the outer limits.

You don’t need a science background to start a career in science, you just need an inquiring mind. This degree will equip you with crucial transferable skills in problem solving, communication, teamwork and computing, that will open up career pathways and research opportunities in a broad and exciting range of professional areas.

CAREER OPPORTUNITIES

Your degree is the first step towards a range of employment opportunities, including:

• Follow your interests in core sciences from a diverse range of disciplines.
• You have the flexibility to explore a specific area while getting a broad foundation in science by studying a major, or gaining more specific expertise and a named degree by studying a specialisation.
• The degree provides you with practical experience that prepares you for the workplace through project-based learning.

• You can choose topics in other disciplines that use applied mathematics, such as medicine, business, physics and the environment.
• You’ll develop advanced research, communication and technical skills.
• Focus on advanced pure and applied mathematics in our Mathematical Sciences Laboratory.
• The degree is designed to exceed the Australian Mathematical Society’s accreditation standards.
• Join the university that produced Australia’s Fields Medal winner, Professor Terence Tao.

Potential employers include:
• CSIRO
• Bureau Veritas Australia
• SA Water
• Department of Agriculture.
Bachelor of Science (Biotechnology)

Gain a broad-based foundation in chemistry, acquire extensive knowledge in the area and graduate job-ready.

- You’ll learn how to understand and apply chemical principles to solve problems, master lab techniques and equipment, undertake chemistry research and communicate your findings.
- You don’t need a background in science, just an inquiring mind.
- Practical lab sessions prepare you for a scientific career.
- You’ll have the opportunity to undertake project placements within the University, Flinders Medical Centre or the biotechnology industry.
- Participate in one-on-one mentoring sessions with industry and medical research leaders.
- Understand science in the global market through commercialisation, entrepreneurship, financial management and business.

CAREER OPPORTUNITIES
Your degree could lead to a range of employment opportunities, including:
- analytical chemist
- assistant formulation chemist
- graduate chemist
- graduate quality control chemist
- laboratory metallurgical technician.

Potential employers include:
- Australian Centre for Plant Functional Genomics
- Bioérmica
- Department of Industry, Innovation and Science
- Murdoch Children’s Research Institute
- Novozymes.

Bachelor of Science (Chemical Sciences)

Build a career in the science central to all other sciences.

Bachelor of Science (Energy and Advanced Materials)

Calculate the forces and resources for the modern technological world.

- As new energy sources and new technologies emerge, new opportunities will open up in this exciting field. This degree prepares you to understand physics and materials at a deeper level, apply scientific principles in a materials context, appreciate experiment design and execution, and use scientific instruments commonly used in physics and materials.
- Use your maths ability as a language for physics and applications of materials.
- Operate scientific instruments commonly used in physics and materials.
- Retrieve and present information about physics in a scientific manner, including communicating effectively with a variety of audiences.
- The degree provides you with practical experience that prepares you for the workplace through a professional placement in your final year.

Bachelor of Science (Energy and Advanced Materials)
Bachelor of Science (Forensic and Analytical Science)
“Choosing Flinders gave me an opportunity to study forensics in a broad way by covering laboratory vs field options and biological vs chemical forensics for future pathways. I feel confident knowing that my teaching staff have my best interest at heart and I can meet with them if I have any questions to gain clarity in lecture and assessment content. This ensures my own goals are met and I get the best outcome for my end of semester results. The campus has beautifully set up study areas that were designed around human interaction that people can immediately feel comfortable in. Flinders fulfills all my expectations and checks all my boxes.”

Gabrielle Ziersch, Bachelor of Science (Forensic and Analytical Science)

**Bachelor of Science (Nanotechnology)**

Start a career in the ‘industrial revolution of the 21st century’.

Equip yourself to be part of the exciting world of nanotechnology. The degree provides you with a background in physics, chemistry and biology, complemented by insights into business, enterprise management, commerce, and legal issues such as intellectual property – all vital components for scientists working in business and industry.

There are many opportunities for graduates who wish to work in a commercial environment.

**CAREER OPPORTUNITIES**
The critical thinking and hands-on experience will prepare you for employment in a broad range of material-science oriented roles, especially:
- nanofabrication technologist
- nanomaterial scientific officer
- nanosystems research assistant
- nanosystems scientist
- microengineering process development officer.

Potential employers include:
- B&K Systems
- CSIRO
- defence industry
- medical technology
- renewable energy technology
- computer technology
- Defence Science and Technology Organisation
- Nanomics
- Nokia.
DEFERRABLE at Tonsley

Flinders at Tonsley

Tonsley embodies world’s best practice in education, teaching and research. It’s a place where innovation, collaboration and entrepreneurial spirit combine to create the products and processes of the 21st century and beyond.

With more than 150 staff and 2,000 students – and a 2,000 square metre pod for heavy engineering equipment – Tonsley is a place where Flinders University students interact with business and where business interacts with Flinders researchers in areas such as engineering, medical devices and nanoscience technologies.

Flinders at Tonsley centrally locates computer science, engineering and mathematics at Flinders University, with the New Venture Institute, Medical Device Research Institute and Centre for Nanoscale Science and Technology, alongside some of Adelaide’s biggest businesses and industries.

Tonsley is located centrally between Flinders University’s Bedford Park campus and Adelaide city. It’s connected to the city by train, offering convenient access 15 minutes from the city’s CBD. And Tonsley is a five-minute car ride, a 15-minute ride on the Flinders loop bus, or a 30-minute walk from the Bedford Park campus.

Bachelor of Science (Palaeontology)

Turn your passion into a career with Australia’s only palaeontology degree.

Gain the tools necessary for palaeontological careers anywhere in the world, such as working in a museum, evolutionary studies, fieldwork, ecological/environmental research, teaching or science communication.

Bachelor of Science (Palaeontology)

- Study the first and only named palaeontology degree in Australia.
- Learn in our purpose-built palaeontology laboratories.
- Combine specialist palaeontology study with biodiversity and conservation, animal behavior, visual arts, earth and environmental science, and biostatistics.
- Learn about the key stages in the history of vertebrates, including the transition to living on land and how environmental changes have shaped the evolution of the modern Australian fauna.
- Examine the anatomy and behavioural characteristics of vertebrates through time to gain a better understanding of how they moved, what they ate and how they reproduced.
- Understand how the fossil record helps us resolve important patterns in human evolution and why we are the only species of human left on the planet.

**CAREER OPPORTUNITIES**

Your degree could lead to a range of employment opportunities, including:

- museum curator or collection manager
- university or museum researcher
- interpretation/education officer
- technical officer
- fossil preparator
- scientific consultant
- palaeo artist.

Potential employers include:

- universities (researcher/teacher)
- museums (curator/collections manager)
- science media agencies.

Bachelor of Science (Physics)

Master the enabling science that will help prepare you for a technical career.

Gain a solid foundation in physics and mathematics, and acquire extensive knowledge in the area. You will learn to understand physics at a deeper level, apply scientific principles in a physics context and understand the role of physics in society.

Bachelor of Science (Physics)

- Use your mathematical ability as a language for physics.
- Develop an intuitive knowledge of physics principles.
- Operate the scientific instruments commonly used in physics.
- Retrieve and present information about physics in a scientific manner, including communicating effectively with a variety of audiences.
- Gain practical experience that prepares you for the workforce.
- The degree is designed to be accredited by the Australian Institute of Physics.

**CAREER OPPORTUNITIES**

Your degree could lead to a range of employment opportunities, including:

- graduate physicist
- defence scientist
- research scientist in sensor systems
- scientific officer, teacher
- NASA intern
- junior quantitative researcher – systematic trading strategies.

Potential employers include:

- Defence Science and Technology Group
- ANSTO
- CSIRO
- Cochlear
- Tibra Capital
- Department of Industry, Innovation and Science
- university and research organisations.

**FIND OUT MORE** flinders.edu.au/science
Gain a sound understanding of both the arts and the sciences. This degree provides the broadest range of disciplinary and interdisciplinary studies from across the University, with majors available from creative arts, humanities, law, science, mathematics, computing, and social and behavioural sciences.

If you are a high-achieving student who is sure of your choice of a teaching career, the Bachelor of Science/Master of Teaching (Secondary) will equip you with all the necessary skills to become a registered secondary school teacher, and the foundation skills required to effectively teach subjects which draw on mathematics, science or technology.

Bachelor of Science/Master of Teaching (Secondary)
If you are a high-achieving student who is sure of your choice of a teaching career, the Bachelor of Science/Master of Teaching (Secondary) will equip you with all the necessary skills to become a registered secondary school teacher, and the foundation skills required to effectively teach subjects which draw on mathematics, science or technology.

Bachelor of Engineering (Civil) (Honours)/Bachelor of Science
SATAC CODE 224792
Apply scientific skills to enhance your studies of civil engineering problems and learn how to create innovative solutions that consider social, economic and environmental concerns.

Bachelor of Science (Biodiversity and Conservation)/Bachelor of Applied Geographical Information Systems
SATAC CODE 234222
Gain skills to support change and growth in areas like global warming, urban planning, mining and exploration, archaeology, transportation and biodiversity management.

Bachelor of Science (Marine Biology)/Bachelor of Archaeology
SATAC CODE 234302
Explore the influence of past, present and future societies on our marine environment.

For a full list of combined degree options visit flinders.edu.au/combineddegrees

Combined degrees
Combining your degree with a qualification in another discipline will help you develop specialised abilities to stand out from the pack. Studying a combined degree at Flinders is the key to enhancing your career opportunities.

Example degree combinations
Bachelor of Engineering (Civil) (Honours)/Bachelor of Science

STUDENT SUPPORT

Whatever you decide to study at Flinders, we’re always here to help you succeed.

Careers & Employability Service
The Careers and Employability Service helps give you the edge in your career. CareerHub, our online employment portal, offers personalised job opportunities, career planning, programs to help you broaden your skills and experience, access to employer events and career-related resources. Wherever you are studying, CareerHub can help you find your direction and start your career.
flinders.edu.au/careers

Flinders Connect
Flinders Connect can help with everything from enrolment and fees to exams and graduation. You can also access Flinders Connect for specialist services in admissions, careers and IT help. A range of support services is also available.
flinders.edu.au/flindersconnect

Flinders Library
Our extensive library is more than a book repository. We provide a range of services such as computing and printing, document delivery and one-on-one librarian appointments for assistance with search strategies and finding resources for your assignments.
libraryflin.flinders.edu.au

Flinders Living
Flinders is the only university in Adelaide that gives you the opportunity to live on campus, and both University Hall and Deirdre Jordan Village are located within the Bedford Park campus. The wide range of social, sporting and community activities also enhances the student experience at Flinders Living.
flinders.edu.au/living

Flinders University Student Association
The Flinders University Student Association (FUSA) continues a long tradition of active student involvement and represents the rights and interests of students. FUSA manages social events, non-sporting clubs and societies, the student publication Empire Times, and helps with academic, administrative and welfare issues.
fusa.edu.au

Health, counselling and disability services
Managing your health is important. We have facilities and services available to help you look after your physical and mental health.
flinders.edu.au/hud

Transition to university
Starting at university is a big step; let’s make it easier. The Student Learning Centre provides a range of services from writing and mathematics support to assistance with study and time-management skills.
students.flinders.edu.au/study-support/SLC

Yunggorendi Student Engagement
Yunggorendi Student Engagement provides high quality support services for Aboriginal and Torres Strait Islander students at Flinders University. Our team of highly qualified Indigenous and non-Indigenous staff connect to Indigenous and non-Indigenous communities on local, national and international levels.
flinders.edu.au/yunggorendi

PATHWAYS TO STUDY

Whether you are a school leaver or returning to study at a later date, there are many ways to gain admission to Flinders University. Explore your options and find the entry path that’s right for you.

If you have recent secondary education

Year 12 Entry
Most Year 12 applicants enter university via the traditional entry method, where offers are made to eligible applicants with the highest selection rank until all places in the degree are filled. Your selection rank is used by Flinders to assess your admission to a course and is based on your ATAR plus any adjustment factors for which you are eligible.

Elite Athlete Pathway
If you’ve officially represented your school or state at a national level competition, we’ll consider your school’s recommendation about your academic potential when you apply.

Research Project B Pathway
If you have strong results in the Research Project B subject you will be considered for entry into Flinders on the basis of your Year 12 results and Research Project B performance.

unTEST
If you’re in Year 12, unTEST may enhance your chances of getting into Flinders. We will select students based on Year 12 results and unTEST performance.

If you have some higher education

Tertiary Transfer
If you have completed at least one semester of full-time equivalent study at university, you may be able to transfer to study at Flinders University using your grade point average (GPA).

If you have vocational education and training (VET)

TAFElink
Flinders offers guaranteed entry to selected degrees for applicants who have completed a TAFE/VET certificate IV or higher-level qualification, as long as degree prerequisites are met.

TAFE SA Dual Offer
Flinders University together with TAFE SA offer over 45 dual offer pathways in various disciplines.

Adult Entry
The adult entry scheme enables people aged 18 years and over to apply to study at Flinders via the Special Tertiary Admissions Test (STAT). Applications are made via SATAC.

If you have work and life experience

Foundation Studies
The Foundation Studies program has been designed to introduce you to university study in a supportive learning environment. Open to people from all backgrounds, Foundation Studies provides a pathway to gain entry to most degrees at Flinders and offers guaranteed entry into some degrees.

Military Pathways
Use your military service in the Australian Defence Force as a pathway to a Flinders University degree.

Special Tertiary Admissions Test (STAT)
Adult entry to university via the Special Tertiary Admissions Test (STAT) assesses your ability to study at a tertiary level.

A pathway to all degrees

Bachelor of General Studies
Begin your journey to a successful career. Flinders’ Bachelor of General Studies is a flexible degree designed to prepare you with communication skills, a firm grasp of ethics and the confidence to make connections across geographical, disciplinary, social and cultural boundaries.
flinders.edu.au/study/pathways
**WHEN CAN I START?**

Flinders offers two admissions cycles each year for undergraduate degrees.
- **Semester 1** – March start
  - Applications open in August for commencement the following year.
- **Semester 2** – July start
  - Mid-year applications open in August for commencement in July the following year.

*Not all degrees are offered for semester 2 entry. Check our midyear site for details: flinders.edu.au/midyear*

**HOW DO I APPLY?**

Check the application dates
Applicants need to apply through the South Australian Tertiary Admissions Centre (SATAC): satac.edu.au

Read the course information
- check the admission criteria
- check the prerequisites
- check assumed knowledge and additional admission criteria
- consider combined degrees
- check English language requirements
- consider pathways to your degree
