Study at Flinders

In an era of disruptive change, Flinders University is growing its international reputation as a world leader in research, an innovator in contemporary education and a source of enterprising graduates equipped to change the world.

Flinders University acknowledges the Traditional Owners on lands in which its campuses and centres are located and honours Elders past and present. These are the traditional lands of the Arrernte, Barngarla, Boandik, Dagoman, Erawirung, Gunditjmara, Jawoyn, Kaurna, Larrakia, Nauo, Ngadjuri, Ngarrindjeri, Peramangk, Ramindjeri, Wardaman, Warumungu and Yolngu peoples, spanning across South Australia, the Northern Territory and Victoria.
Top 2% university worldwide

No.1 in SA

for teaching quality, student support and starting salary**

More than 500 undergraduate, postgraduate and research degrees

Over 26,000 students supported by over 2,300 staff***

Over 550 scholarships, worth $2.2m in total
At Flinders it’s all about you
CHOOSE YOUR DEGREE
From medicine to business, science or arts offerings, Flinders University offers more than 500 undergraduate, postgraduate and research degrees taught by global and national experts focused on the experience and outcomes of their students.

BE TAUGHT BY LEADERS
At Flinders, you’ll be taught by teachers who are leaders in their fields. They are plugged into industry trends and connected to professional networks. Your future career will take practical shape from the very beginning of your studies as we guide you from the classroom to the workplace through inspired teaching, practical placements, internships, field education and industry projects.

BENEFIT FROM WORLD-CLASS RESEARCH
Flinders University’s research strengths include biomedical and clinical sciences, culture, policy and society, health and medicine, mental health and human behaviour, molecular science and technology, defence, engineering, water and environment. With 90% of Flinders’ research rated world-standard or above,* your studies will be supported by the up-to-the-minute knowledge of highly skilled researchers and lecturers.

* Flinders rating 89.7%, rounded up to 90% (Excellence in Research for Australia, 2018)

GET THE SUPPORT YOU NEED
Flinders is SA’s No.1 university for student support.** From campus facilities to financial support, mental health and wellbeing resources and services, student grants, counselling services (including careers and financial) and many social opportunities, we offer a range of services to ensure your study experience is everything you want it to be. Find out more about student support on page 49.

** The Good Universities Guide 2020 (undergraduate), public SA-founded universities only

EXPERIENCE A UNIVERSITY LIKE NO OTHER
Our geographic footprint stretches from the top of the Northern Territory through to South Australia and regional Victoria. Internationally, joint courses are delivered with leading universities in China, Hong Kong, Malaysia, Singapore and Indonesia. Our main campus at Bedford Park is an environment that fosters creativity. Sitting in stunning natural surrounds, it boasts spectacular views to the city and coast and features an award-winning, state-of-the-art student hub that fosters interactive learning in a digitally enabled environment.

JOIN A GLOBAL COMMUNITY
Flinders University graduates are enterprising, innovative and curious thought leaders in over 120 countries around the world. When you graduate from Flinders, you’ll not only join over 106,000 graduates from an amazing variety of fields, you’ll graduate from SA’s No. 1 university for starting salary.**

** The Good Universities Guide 2020 (undergraduate), public SA-founded universities only

GAIN REAL-WORLD EXPERIENCE
Flinders Work Integrated Learning (WIL) enables you to gain work experience while you study. You’ll have the opportunity to gain real-world experience through placements, practicums, field studies, and simulated workplace settings and assessment activities. Flinders aims to provide each and every student with access to a WIL opportunity during their studies.

THINK BIG. MAKE AN IMPACT. DESIGN YOUR FUTURE.
Careers are evolving and the workplace of the future will look very different from today. Powered by Flinders’ New Venture Institute, our suite of innovation and enterprise electives and courses will help you to develop the ‘personal enterprise skills’ that employers are looking for and equip you with the ability to adapt to whatever life throws at you, personally and professionally. No matter what you choose to study at Flinders, you can embed an innovation and enterprise elective into your degree.

TAKE YOUR STUDIES OVERSEAS
Why wait until you graduate to explore the world? Flinders’ Learn Without Borders could see you studying overseas, gaining a unique perspective and immersing yourself in a different culture, language and lifestyle.

EXPLORE FLINDERS SCHOLARSHIPS
Flinders offers a generous range of scholarships for students in undergraduate courses. With over 550 available scholarships - including scholarships to students from low socio-economic backgrounds, students from rural and regional areas, and Aboriginal and Torres Strait Islander students - you may be eligible for support that will help you achieve your goals at university.

FLINDERS STATION
Change the way you get to uni
22 minutes from the city to Flinders
Linking Bedford Park to Tonsley and the city
The $141m rail extension linking Flinders Bedford Park to our Tonsley campus and the CBD offers students a faster, smoother commute to and from Flinders University. Situated at the site of the future $1.5 billion Flinders Village development, Flinders Station is part of our commitment to creating a campus environment that merges university life with the wider community.
It doesn’t matter whether you know exactly where your future lies, or you want to explore the possibilities; Flinders offers degrees in a range of study areas.

The following pages cover the broad areas of study at Flinders and the degrees available in each area. Can’t find the degree you’re looking for? Check out page 52 for a full listing of all undergraduate courses available at Flinders.

There’s never been a better time to embrace the business world. Technological changes are opening new opportunities. The online economy is rapidly evolving, and entrepreneurs are changing the world.

At Flinders Business we are preparing a new generation of business leaders with new ways of thinking and new skills for the future. Our degrees are designed to prepare you for a career in the real world and could put you in the driver’s seat to take advantage of a new tomorrow.

Graduate work-ready with practical business experience

Go beyond theory and gain real-world insights into the day-to-day operations of business. With over 230 partner organisations, Flinders Business guarantees you a practical work placement that will give you invaluable workplace experience. Our key partners include BankSA, Bendigo Bank, BT Financial Group, Ernst & Young (EY), Hudson, McDonald’s and PricewaterhouseCoopers.
Bachelor of Accounting
Bachelor of Accounting (Online)
Prepare yourself for a career in accounting and commerce including the analysis, interpretation and communication of financial information. Careers in accounting are available in a broad range of business situations. This degree is accredited by the professional accounting bodies in Australia.

Bachelor of Accounting and Finance
Prepare for a career in accounting or finance with an introduction to the realities of the global marketplace. Learn fundamental business concepts and apply them to real-world scenarios. This degree is accredited by the professional accounting bodies in Australia, with core studies in a range of business-related topics.

Bachelor of Banking and Finance
This degree provides students with the skills and knowledge required by financial institutions, financial instruments and markets of the financial services sector for managing money, trading stocks and investment management in an institutional setting.

Bachelor of Business
Bachelor of Business (Online)
This degree provides you with the fundamental knowledge, contemporary case studies, workplace skills development and live industry experience to pursue a career in business. You'll develop real-world work experience and build networks through work placements and live industry projects.

Bachelor of Business (Human Resource Management)
Build a career attracting, motivating and managing people. At a time when many organisations are undergoing change, there are opportunities for professionals trained to identify ways to recruit, support, develop and retain staff.

Bachelor of Business (International Business)
Bachelor of Business (International Business) (Online)
Develop advanced skills and knowledge relating to international trade and prepare yourself for a global career. Learn how culture, language, political systems and socio-economic factors affect international business practice in core business disciplines of finance, marketing, human resource (HR) management and global sustainability.

Bachelor of Business (Management)
Bachelor of Business (Management) (Online)
Build the foundations of a rewarding management career by combining studies across all areas of business practice, including planning, decision-making, e-business, marketing, and HR and strategic management.

Bachelor of Business (Marketing)
Bachelor of Business (Marketing) (Online)
Marketing is one of the driving forces of business. In this degree, you'll learn how to understand customers’ wants and needs, and how to create, communicate and deliver products and services. You'll learn practical skills and how to analyse data in order to develop marketing strategies across all sectors of the economy.

Bachelor of Business (Sports Management)
This degree aims to provide students with the knowledge and competencies related to a broad range of business management practices in sport. It will provide students with the skills to work in a diverse range of sports-related organisational, business development, management and marketing roles.

Bachelor of Business Economics
Understanding the principles of economics and how to apply these to the practical needs of business will open up a range of career options. In this degree, you'll gain a clear understanding of relevant economic concepts and principles, and learn how to respond to changes in the economic environment.

Bachelor of Commerce
This degree will see you graduate with a broad skillset, prepared for a range of professional, business-related careers in private and public enterprise. You will receive a balanced learning experience that combines theoretical and practical learning, with Work Integrated Learning and industry placement programs built into the degree.

Bachelor of Finance
Prepare yourself for a career in fields such as financial engineering, treasury, fund management and investment banking. Develop an overall understanding of the applied finance discipline, financial management and wealth creation, and gain extensive subject knowledge in specialised topics such as macroeconomics, financial management and international finance.

Bachelor of Finance and Business Economics
Prepare for a career as an effective financial analyst and executive by being exposed to the Australian economic policy framework and how it applies to the financial services industry. This degree will give you a firm grasp of rational economic decision-making processes.

Bachelor of International Business (Wine, Spirits & Tourism)
Studying wine, spirits and tourism at Flinders prepares you to lead the growing wine, spirits and tourism industries, market their products globally and bring to life new innovations. You will graduate career-ready with the course’s unique combination of business education and sector-specific knowledge, and gain access to industry leaders, industry placements and professional networks.
Explore infinite possibilities

Computer science and information technology

With a degree in computer science or IT, you could work in areas such as medical research, climate change, the environment and business, or contribute to the creative industries and the development of new products and services.

No. 1 in Australia in Computing & Information systems for overall experience

The Good Universities Guide 2020 – overall quality of educational experience (postgraduate)
Bachelor of Computer Science
Bachelor of Computer Science (Honours)
Chase your passion and gain the applied skills, tools and techniques to work as a professional software designer and developer. You’ll graduate with a comprehensive understanding of both the theoretical and practical aspects of computing technologies, prepared for a career in a computing-related field.

Bachelor of Computer Science (Artificial Intelligence)

Bachelor of Computer Science (Artificial Intelligence) (Honours)
Turn science fiction dreams into reality and build a career creating a world of intelligent communicating computers and gadgets. You’ll study at the leading edge of AI science and learn how artificial intelligence is integrated into areas as diverse as health, online shopping and driverless transport.

Bachelor of Engineering (Software) (Honours)
This degree has been specifically created for students looking to work as professional software engineers and provides you with a solid foundation in the technical and professional skills and knowledge required to pursue a successful career in the software industry.

Bachelor of Information Technology
Bachelor of Information Technology (Online)
Bachelor of Information Technology (Honours)
The IT industry is an exciting innovator and helps solve problems in business, commerce, defence, medical research, climate change and the environment. This degree will equip you with all the technical and practical skills for a rewarding long-term career. You can tailor your studies to suit your interests and graduate with in-demand skills across a range of industries.

Bachelor of Information Technology (Network and Cybersecurity Systems)
Bachelor of Information Technology (Network and Cybersecurity Systems) (Online)
Bachelor of Information Technology (Network and Cybersecurity Systems) (Honours)
Be a power-player and build a career in our networked society. This degree will equip you with a comprehensive understanding of computer security, communications technology, administration, network engineering, enterprise systems and information networks.

Bachelor of Information Technology (Game Development)
Bachelor of Information Technology (Game Development) (Honours)
Develop the skills required to produce complex interactive systems used in gaming, preparing you to work in a range of industries from entertainment to defence, and health care to business, education and government, where the application of games and game technologies is key.

You may also be interested in:
Bachelor of Mathematical Sciences
Bachelor of Mathematical Sciences (Honours)
Mathematics is the foundation of many industries. Demand for mathematics graduates is particularly strong in areas including science, engineering, technology and business, and in areas as diverse as linguistics and health. The degree is designed to produce industry-focused graduates who are in demand in a range of careers that use mathematics.

Undergraduate Certificate in Industry 4.0
Available to study 100% online in just six months, the Undergraduate Certificate in Industry 4.0 exposes you to the digital technology that will drive the future. It covers key topics of innovation and Industry 4.0, 3D printing, robotics, IoT, cybersecurity, smart industries and design thinking, and includes a digital transformation professional project.

“Tonsley’s reputation for having state-of-the-art equipment available was a big factor as to why Flinders was the right choice for me.”

Samantha Browne
Bachelor of Information Technology
Creativity is one of the most powerful and sought-after commodities on the planet. It drives development in the screen industry, theatre, fashion, digital media, dance, the publishing industry and more. The world needs people with creative vision to lead innovation in a range of industries. Learn how to unlock your visual, verbal and written skills to develop and communicate your ideas.

Flinders University in collaboration with CDW Studios has been named the world’s No. 1 Digital Illustration School The Rookies Global Rankings 2017 and 2018

Creativity and arts

FILM AND TELEVISION

Bachelor of Creative Arts (Screen)

Gain the skills necessary for a career in screen-based media. Study scriptwriting, cinematography, creative collaboration, editing, sound, lighting and directing, and graduate ready for a rewarding career in screen with specialised skills for associated creative areas.

Bachelor of Creative Industries (Film and Television) (with Channel 44 and Mercury Cinema)

Learn about the contemporary film and television industries ‘from the inside’ and jump-start your career. This degree will prepare you for work in the exciting world of film and television, combining production subjects with study of film and television modes of expression, histories and forms.
Bachelor of Creative Arts (Creative Writing)

Work with award-winning creative writers to craft your own writing in intensive workshops. Develop your skills in storytelling and use your imagination to develop your creativity. Understand the processes of editing and revision and gain skills to build a future in the publishing industry. Learn about literary theory and the analysis of texts for a deeper understanding of your craft.

Bachelor of Creative Arts (Dance)

Offered in collaboration with TAFE SA (RTO code: 41026) through Adelaide College of the Arts, this degree will equip you with elite professional dance skills and theoretical knowledge to help you emerge with all the makings of a successful professional dancer.

Bachelor of Creative Arts (Drama)

Balancing conceptual and practical training, this course develops the next generation of actors, directors, producers, playwrights, creators and cultural leaders. Explore screen, stage, gaming, animation and emerging digital environments. Work with experienced professionals to hone your craft and explore the big challenges facing the world through storytelling, performance and the body.

Bachelor of Creative Industries (Theatre and Performance)

Learn how to create an innovative performance event from concept through to delivery. Through hands-on experience you’ll develop the creative and collaborative skills, business capability and strategic thinking required to produce your own performance work and take charge of your career in the creative and cultural industries.

Bachelor of Creative Industries (Writing and Publishing) (with Mighty Kingdom and Writers SA)

Content development skills are in high demand in the creative industries sector. Gain portable writing skills which could start you on the road to a career in editing and publishing, digital media, advertising and marketing, festivals and events, and more.

Bachelor of Creative Arts (Costume Design)

Bachelor of Creative Arts (Costume Design) (VET Pathway)

Bachelor of Creative Arts (Fashion)

Bachelor of Creative Arts (Fashion) (VET Pathway)

Bachelor of Creative Arts (Visual Arts)

Bachelor of Creative Arts (Visual Effects and Entertainment Design)

Bachelor of Creative Industries (Digital Media) (with CDW Studios)

Gain the skills you’ll need to pursue a successful career in the creative industries. Explore post-production, digital visual effects, animation, games development and interactive media, and help support the growth of the digital media industry in South Australia.

Bachelor of Creative Industries (Interactive Design) (with Monkeystack)

Gain skills and knowledge to pursue a career in the booming industry of games development and interactive design. You’ll learn the methods required to create interactive experiences and how to tailor your work for mass audiences using the latest technologies.

Bachelor of Creative Arts (Visual Effects and Entertainment Design) (Honours)

Bachelor of Creative Arts (Visual Effects and Entertainment Design) (VET Pathway)

Flinders and CDW Studios combine forces to offer this hands-on degree. If you’re a Game of Thrones fan, Fortnite addict or Pixar lover, turn your passion into a successful career in the exciting world of film, television, gaming, animation and digital design.

Bachelor of Media and Communication

Created to meet the needs of the constantly evolving field of contemporary communications, this degree helps you to develop written, visual and verbal communication skills that can be applied to a broad range of professional and creative industries.

Bachelor of Creative Arts (Costume Design) (VET Pathway)

Offered in collaboration with TAFE SA (RTO code: 41026), this degree enables you to bring stories to life through your visual interpretation of story and to design and construct your garments.

Bachelor of Creative Arts (Fashion) (VET Pathway)

Offered in collaboration with TAFE SA (RTO code: 41026), this industry-focused degree combines practical skills with theoretical knowledge about garment construction, patternmaking, drawing and design as well as academic and professional communication and marketing.

Bachelor of Creative Arts (Visual Arts)

Offered in collaboration with TAFE SA (RTO code: 41026) through Adelaide College of the Arts, this degree offers an intensive studio-based program that covers both creative and academic skills. You’ll receive training in the medium of your choice in ceramics, jewellery, painting, photography, printmaking or sculpture.
Prevent crime and drive social justice

No. 1 SA uni for starting salary
The Good Universities Guide 2021 (undergraduate), public SA-founded universities only

Criminology

Make a difference to the health and wellbeing of others with one of the best universities in which to study criminology in Australia*

Criminology careers are for people who understand that combating crime and injustice and helping the victims of crime are the markers of success. From working in intelligence, cybercrime and crime scene analysis, to probation and parole roles, as a chief information security officer in a large corporation, or as a domestic violence specialist, criminology jobs are rewarding.

South Australia’s most experienced criminology department

With the state’s largest and longest-running criminology program, partnerships with government bodies, public and private organisations, a state-of-the-art lab and the strength of over 40 years’ experience, Flinders University is a leader in criminology education and research in Australia and overseas.

*Flinders Criminology research rated above world standard (Excellence in Research for Australia, 2018)
Bachelor of Criminology
This degree will prepare you for a career within a growing sector. You’ll gain skills and knowledge in such areas as transnational crime, policing and security, organised crime, cybercrime, terrorism, corrections and corruption, and you’ll gain a broad understanding of criminological theory and its applications in criminal justice contexts.

Bachelor of Criminology (Honours)
Develop a grounding in research, enhance your experience and expand your career options with a four-year combined honours degree in criminology. Take the next step on your path to become an expert in a specialist field of study. Lead the next generation of influencers making a difference in the lives of people impacted by crime.

Bachelor of Law and Society
Learn the concepts central to the structure and functioning of a just society, and develop the skills to research and analyse social issues and assess proposals for social change. This degree will give you a strong foundation in social and public policy, and equip you with the skills you’ll need to seek employment in a range of public and private sector organisations.

“The criminology course at Flinders is the best in SA and the student engagement, social events and clubs are all aspects to look forward to every day. I believe that studying at Flinders in Criminology will give you an edge above most other criminology graduates around the country, as the expertise and student support you will get is outstanding.”

Bachelor of Criminology (Honours) Graduate 2020
(name withheld to protect privacy)

Criminology + law
+ psychology
+ forensic science
+ more

Take your passion for criminology to other industries
Become a criminology specialist and combine the course with psychology, law, IT, forensic science and more.

You can pursue multiple passions and broaden your job prospects by combining your degree. Here are just some of the options.

Bachelor of Information Technology (Network and Cybersecurity Systems)/ Bachelor of Criminology
Combining your criminology studies with the Bachelor of Information Technology (Network and Cybersecurity Systems) enables you to operate the systems that drive innovation and industry. You will gain a comprehensive understanding of criminology, computer security, communications technology, administration, network engineering, enterprise systems, information networks and much more.

Bachelor of International Relations and Political Science/Bachelor of Criminology
Combining your criminology studies with the Bachelor of International Relations and Political Science opens the door to a multitude of careers in international organisations, aid and human rights, government, transnational crime, terrorism and non-government organisations.

Bachelor of Laws and Legal Practice
Bachelor of Criminology
By combining the Bachelor of Law and Legal Practice with criminology, you’ll develop the professional legal skills to prepare you for a job in the legal profession and gain an understanding of how justice and society influence each other.

Bachelor of Psychological Science/Bachelor of Criminology
By studying the Bachelor of Criminology combined with the Bachelor of Psychological Science, you can explore the intersection between psychology and the criminal justice system, and the psychological factors underlying criminal behaviour.

Bachelor of Science (Forensic and Analytical Science)/Bachelor of Criminology
The Bachelor of Science (Forensic and Analytical Science) and criminology opens up career options in areas such as illicit drug testing, DNA analysis, trace evidence examination and toxicology. Combine a hands-on experience of collecting, analysing and identifying physical evidence with an understanding of the workings of the criminal justice system.

For a full list of combined degree options visit: flinders.edu.au/combineddegrees
Flinders works closely with the defence industry in education, research and development.

Providing world-class research and a range of defence-oriented degrees across diverse fields such as business, science, engineering and information technology, Flinders delivers work-ready graduates and innovative research and development that keeps the university on the front line of the defence and national security industries.

The combination of cutting-edge research and high-quality teaching makes Flinders the perfect option for anyone interested in the defence industry.

Get a taste of engineering before choosing your specialisation

Bachelor of Engineering (Honours) – Flexible Entry

Embark on a first-year engineering degree without choosing the engineering specialisation you wish to pursue. At the end of your first year you can transition to a named engineering degree of your choice without having to study the standard four-year course.

A new pathway with a guaranteed entry to engineering

Bachelor of Engineering (Honours) - General Entry

Flinders’ general entry pathway to the Bachelor of Engineering (Honours) provides a guaranteed entry pathway for students who have passed SACE Stage 2 General Mathematics or SACE Stage 1 Mathematics. The course includes additional mathematics and physics, enabling students to transfer into and complete any of Flinders’ Bachelor of Engineering (Honours) degrees in 4.5 years or less.
Bachelor of Engineering (Civil) (Honours)

Civil engineering deals with the design and construction of major physical infrastructure including buildings, roads and railways, bridges, airports, dams and pipelines. Civil engineering is an exciting and wide-ranging discipline.

Bachelor of Engineering (Electrical and Electronic) (Honours)

Electrical engineering is concerned with large-scale electrical systems including renewable power generation and electric motors. Electronic engineering focuses on lower-voltage systems that are critical for next-generation applications such as autonomous vehicles, space technology, smart cities and a low-carbon economy.

Bachelor of Engineering (Maritime) (Honours)

Prepare to become a professional engineer in the maritime engineering industry. You’ll learn to design and manage the building of maritime vehicles, coastal engineering projects, port and harbour facilities, and offshore oil and gas installations.

Bachelor of Engineering (Mechanical) (Honours)

Push mechanical systems to the limit in a challenging and rewarding field. Build a hands-on career with real-world applications. Learn to design, construct and operate mechanical systems.

Bachelor of Engineering (Robotics) (Honours)

This degree will see you graduate with the latest learning in robotics technologies, preparing you to become a key player in developing the robots that will populate our future. High-achieving students can use the Bachelor of Engineering (Robotics) (Honours) as a pathway into a Master of Engineering (Electrical and Electronic).

Bachelor of Engineering (Software) (Honours)

This degree has been specifically created for students looking to work as professional software engineers and provides you with a solid foundation in the technical and professional skills and knowledge required to pursue a successful career in the software industry.

Bachelor of Engineering Science

In this degree you’ll gain the foundations for further study in engineering or for a career in an engineering-related field. The degree offers specialisations in biomedical engineering, civil engineering, electrical and electronic engineering, mechanical engineering, software engineering, and design and technology.

Bachelor of Engineering Technology (Electronic Systems and Security)

Developed in collaboration with the Defence Science and Technology Group within the Department of Defence, the course encompasses a wide range of communication mediums including radar, radio and microwaves. A particular focus will be placed on technologies that adopt these in conjunction with studies in signal processing, infrared imaging systems, multi-spectral sensing, computer networks and telecommunications.

Bachelor of Information Technology (Network and Cybersecurity Systems)

Bachelor of Information Technology (Network and Cybersecurity Systems) (Online)

Bachelor of Information Technology (Network and Cybersecurity Systems) (Honours)

Be a power-player and build a career in our networked society. This degree will equip you with a comprehensive understanding of computer security, communications technology, administration, network engineering, enterprise systems and information networks.

Bachelor of Mathematical Sciences

Bachelor of Mathematical Sciences (Honours)

Demand for mathematics graduates is particularly strong in areas including science, engineering, technology and business, and in areas as diverse as linguistics and health. The degree is designed to produce industry-focused graduates who are in demand in a range of careers that use mathematics.

Bachelor of Science (Energy and Advanced Materials)

As new energy sources and new technologies emerge, new opportunities will open up in this exciting field. Prepare to understand physics and materials at a deeper level, apply scientific principles in a materials context, appreciate experiment design and execution, and use scientific instruments commonly used in physics and materials.

Bachelor of Science (Nanotechnology)

Bachelor of Science (Nanotechnology) (Honours)

This degree provides you with a background in physics, chemistry and biology, complemented by insights into business, enterprise management, commerce and legal issues such as intellectual property – all vital components for scientists working in business and industry.

Bachelor of Accounting and Finance

Prepare for a career in accounting or finance with an introduction to the realities of the global marketplace. Learn fundamental business concepts and apply them to real-world scenarios. This degree is accredited by the professional accounting bodies in Australia, with core studies in a range of business-related topics.

Bachelor of Business (International Business)

Develop advanced skills and knowledge relating to international trade and prepare yourself for a global career. Learn how culture, language, political systems and socio-economic factors affect international business practice in core business disciplines of finance, marketing, human resource (HR) management and global sustainability.

Bachelor of Business (Management) (Online)

Build the foundations of a rewarding management career by combining studies across all areas of business practice, including planning, decision-making, e-business, marketing, and HR and strategic management.
Education is a fast-growing sector, with great job opportunities. With over one million people already employed, Australia’s education and training sector is projected to grow by 10.8% by November 2025*.

No. 1 in SA in Teacher Education for overall educational experience and teaching quality

The Good Universities Guide 2021 (undergraduate), public SA-founded universities only

Becoming an educator means joining an industry with long-term career prospects. We need more educators. We need people who will guide and teach the next generations.

* National Skills Commission Projections 2020
Succeed in education
Flinders provides a variety of study pathways for students who are thinking about studying to qualify as a teacher.

Already have an undergraduate degree?
If you already have an undergraduate degree, the Master of Teaching will allow you to enter the profession and become a qualified teacher, building on your first degree.

Inherent requirements
The Australian Government has introduced the Literacy and Numeracy Test for all initial teacher education students to ensure they have the high level of personal literacy and numeracy skills required of teachers. For further information, including registration details, please check the test administrator’s website at: teacheredtest.acer.edu.au

Entry requirements
All prospective students interested in studying an initial teacher education course in South Australia are required to complete a non-academic assessment task known as a Teaching Capabilities Statement. This is a requirement of the Australian Institute for Teaching and School Leadership (AITSL) and supports the national priority to ensure those entering the teaching profession have the personal qualities to best support learners and graduate as classroom-ready, high-quality teachers.

Bachelor of Early Childhood Education (Birth – 8)
Seeks to equip graduates with the skills to implement considered and purposeful experiences that cultivate young children’s play, learning, and development in the twenty-first century.

Bachelor of Education (Primary)
Empowers graduates to weave together knowledge and skills, mind and context to inspire and educate young minds.

Bachelor of Education (Secondary)
Possesses an incredible range of teaching area options, helping graduates to truly follow their passions.

Bachelor of Education (Secondary Health and Physical Education)
Offers exceptional training for future health and physical educators in school settings and responds to demand for highly trained educators from the sports, recreation and outdoor education industries.

Bachelor of Inclusive and Specialised Education (Early Childhood, Primary and Secondary)
Recognises the importance of inclusive education in today’s society and the need for specialised expertise required to teach diverse learners.

“Flinders stood out for me because it has a strong focus on developing education courses. I am learning from academics who are accomplished and have attained mastery within their respective fields.”

Anthony Salerno
Bachelor of Education (Secondary/Bachelor of Science)
There are few fields as broad or as rewarding as engineering. If you can imagine it, chances are you can help bring it to life.

From robotics to renewable energy, shipbuilding and defence, civil engineering or new medical technologies... the list is long and the opportunities are broad.

You can help design and build tomorrow.

20-week industry placement opportunities
 Bachelor of Design and Technology Innovation
Make your ideas a commercial reality. Graduate prepared to solve problems and create commercial solutions. Develop a sound understanding of three areas: design; innovation management; and science, technology and engineering.

 Bachelor of Engineering (Biomedical) (Honours)

 Bachelor of Engineering (Biomedical) (Honours)/Master of Engineering (Biomedical)
Health care is a large and rapidly growing industry, and your skills could help improve the way we plan, design, manufacture and maintain healthcare systems and equipment. High-achieving students can use the Bachelor of Engineering (Biomedical) (Honours) as a pathway into a Master of Engineering (Biomedical).

 Bachelor of Engineering (Civil) (Honours)
Civil engineering deals with the design and construction of major physical infrastructure including buildings, roads and railways, bridges, airports, dams and pipelines. The problems to be addressed in working with the natural environment, particularly in a low-carbon economy, mean that civil engineering is an exciting and wide-ranging discipline.

 Bachelor of Engineering (Electrical and Electronic) (Honours)
Electrical engineering is concerned with large-scale electrical systems including renewable power generation and electric motors. Electronic engineering focuses on lower voltage systems such as computer systems, communication networks and integrated circuits. Together they are critical for next-generation applications.

 Bachelor of Engineering (Environmental) (Honours)
Environmental engineering is where advances in science and technology are transformed into practical solutions that will protect and improve the quality of our environment. Environmental engineers are problem-solvers who design solutions to a range of hazards from airborne and waterborne diseases, to water and air pollution, wastewater management and recycling.

 Bachelor of Engineering (Maritime) (Honours)
Prepare to become a professional engineer in the maritime engineering industry. You’ll learn to design and manage the building of maritime vehicles, coastal engineering projects, port and harbour facilities, and offshore oil and gas installations.

 Bachelor of Engineering (Mechanical) (Honours)

 Bachelor of Engineering (Mechanical) (Honours)/Master of Engineering (Biomedical)
Push mechanical systems to the limit in a challenging and rewarding field. Build a hands-on career with real-world applications. Learn to design, construct and operate mechanical systems. High-achieving students can use the Bachelor of Engineering (Mechanical) (Honours) as a pathway into a Master of Engineering (Biomedical).

 Bachelor of Engineering (Robotics) (Honours)

 Bachelor of Engineering (Robotics) (Honours)/Master of Engineering (Electrical and Electronic)
This degree will see you graduate with the latest learning in robotics technologies, preparing you to become a key player in developing the robots that will populate our future. High-achieving students can use the Bachelor of Engineering (Robotics) (Honours) as a pathway into a Master of Engineering (Electrical and Electronic).

 Bachelor of Engineering (Software) (Honours)
This degree has been specifically created for students looking to work as professional software engineers and provides you with a solid foundation in the technical and professional skills and knowledge required to pursue a successful career in the software industry.

 Bachelor of Engineering Science
In this degree you’ll gain the foundations for further study in engineering or for a career in an engineering-related field. The degree offers specialisations in biomedical engineering, civil engineering, electrical and electronic engineering, mechanical engineering, software engineering, and design and technology.

 Bachelor of Engineering Technology (Electronic Systems and Security)
Developed in collaboration with the Defence Science and Technology Group within the Department of Defence, the course encompasses a wide range of communication mediums including radar, radio and microwaves. A particular focus will be placed on technologies that adopt these in conjunction with studies in signal processing, infrared imaging systems, multi-spectral sensing, satellite communications, computer networks and telecommunications.

 Bachelor of Engineering Technology (Electronic Systems and Security)/ Bachelor of Science (Physics)
This four-year combined degree represents a unique and exciting pathway to work in a cutting-edge high-technology area. The pairing of a Bachelor of Engineering Technology with a Bachelor of Science in Physics represents a pathway to a well-paid and lifelong career at the forefront of electronic and electromagnetic technologies. The Bachelor of Engineering Technology (Electronic Systems and Security) is unique in Australia.

 Engineering pathways
Get a taste of engineering before choosing your specialisation

 Bachelor of Engineering (Honours) – Flexible Entry
Embark on a first-year engineering degree without choosing the engineering specialisation you wish to pursue with the Bachelor of Engineering (Honours) Flexible Entry. At the end of your first year you can transition to a named engineering degree of your choice without having to study the standard four-year course.

 A pathway with a guaranteed entry to engineering
Bachelor of Engineering (Honours) – General Entry
Flinders’ general entry pathway to the Bachelor of Engineering (Honours) provides a guaranteed entry pathway for students who have passed SACE Stage 2 General Mathematics or SACE Stage 1 Mathematics. The course includes additional mathematics and physics, enabling students to transfer into and complete any of Flinders’ Bachelor of Engineering (Honours) degrees in 4.5 years or less.
As our population increases and we continue to understand more about the environmental challenges facing our planet, environmental careers are now in demand.*

With an environmental degree, you’ll gain the skills and practical experience required to address challenges such as climate change, biodiversity, deforestation, air and water pollution, and species extinction, with an understanding of the political and developmental dimensions to global environmental threats.

*Labour Market Information Portal 2019 Occupational Projections - five years to May 2024
Bachelor of Applied Geographical Information Systems*
Create a career mapping the complexity of our world. In this degree, you’ll be taught skills to support change and growth in areas like global warming, urban planning, mining and exploration, archaeology, transportation and biodiversity management. We integrate field-based data acquisition with modern technology, computer workshops and classroom-based theory.

Bachelor of Engineering (Environmental) (Honours)
Environmental engineering is where advances in science and technology are transformed into practical solutions that will protect and improve the quality of our environment. Environmental engineers are problem-solvers who design solutions to a range of hazards from airborne and waterborne diseases, to water and air pollution, wastewater management and recycling.

Bachelor of Science
Imagine a career exploring science from its core to the outer limits. You don’t need a science background to start a career in science, you just need an inquiring mind. This degree will equip you with crucial transferable skills in problem-solving, communication, teamwork and computing that will open up career pathways and research opportunities in a broad and exciting range of professional areas.

Bachelor of Science (Honours) – Enhanced Program for High Achievers
Discover where science can take you and where you can take science. If you’re a student of exceptional academic ability, this enhanced program provides opportunities to embark upon research in every year of the degree.

Bachelor of Science (Animal Behaviour)*
Learn about the behaviour of insects, birds, fishes and mammals. Global academic experts will teach you how to collect, analyse and understand information relevant to animal behaviour and how to communicate this information to a variety of audiences.

Bachelor of Science (Biodiversity and Conservation)*
Understand the science that will help solve real-world problems. The world has never been more attuned to environmental issues or the need to train and employ specialists who can help us reduce our impact and plan wisely for the future.

Bachelor of Science (Environmental Science)*
Passionate about the environment? Combine science disciplines and gain a career for a more sustainable future. This degree focuses on understanding, monitoring and improving the environment. Expand your knowledge, obtain skills and learn critical thinking about environmental issues and problems.

Bachelor of Science (Marine Biology)*
Dive deep into a career exploring the living marine world. The degree provides you with the ability to acquire extensive knowledge in marine biodiversity, ecology, genetics, conservation, fisheries and related areas. Learn from internationally eminent marine biologists and oceanographers undertaking world-class research on current issues in marine science.

*I also available as four-year honours degrees

“I really enjoy the Flinders University environment and community. The campus features a lot of native Australian vegetation and the lake is a great place to sit down and relax between classes. Every member of staff has been accommodating and helpful in my studies, and the facilities are fantastic. I thoroughly enjoy my degree and find each of the topics challenging and engaging.”

Angus Smart
Bachelor of Science (Environmental Science)
A global focus on the importance of health has led to a growing demand for skilled professionals who can teach us to live healthier lives. Flinders can help you become one of those professionals.

With over 40 years’ experience in disability, speech pathology, and nutrition and dietetics education, and over 20 years’ experience in audiology, palliative care and health sciences, Flinders is a leader in health education.

No. 1 in SA in Health Services and Support for full-time employment
The Good Universities Guide 2021 (undergraduate), public SA-founded universities only
Bachelor of Disability and Developmental Education
Bachelor of Disability and Developmental Education (Online)

Develop the knowledge and skills to shape an inclusive society by providing support and advocacy to help people live their best life. With a highly sought-after professional qualification in a fast-growing sector as a developmental educator, you will learn to facilitate, support and build capacity for a wide range of people living with a disability.

Bachelor of Exercise Science
Bachelor of Exercise Science/Master of Clinical Exercise Physiology

Drive health and wellbeing. Using evidence-based science, exercise scientists and physiologists have a deep understanding of how the human body works and how exercise can work into sporting performance, prevention and therapeutic purposes, helping people to set goals for lifestyle and mental health management.

Bachelor of Health Sciences

Establish a solid foundation for a career in health. This degree will give you exposure to a wide variety of health professions, as well as the opportunity to focus your studies in a particular area with a major. The Bachelor of Health Sciences at Flinders gives you the flexibility to build your own study program from a broad range of majors to suit your interests.

Specialisations

The following study areas can be taken as a specialisation:

- Ageing
- Health management
- Health promotion
- Innovation
- Digital health
- Physiology and neuroscience
- Psychology
- Therapy studies.

Bachelor of Health Sciences/Master of Occupational Therapy

You’ll learn skills to work with people who face barriers to everyday tasks and activities due to injury, childhood developmental delay, disability, chronic medical conditions, and emotional and mental difficulties.

Bachelor of Health Sciences/Master of Physiotherapy

Physiotherapists help people to move well, stay well and live full lives. Working with people across the lifespan in a variety of settings, from hospitals and rehabilitation centres to community-based services such as aged care or sports private practice, you will have a highly rewarding career with wide-ranging opportunities.

Bachelor of Human Nutrition

Become part of a fast-growing industry that plays a huge role in the health and wellbeing of society. Using evidence-based science, nutritionists explore the relationship between diet, health and disease prevention. You’ll work with a myriad of people, from children, adolescents and parents to adults of all ages, to support positive behaviour change and promote health and wellbeing.

Bachelor of Medical Science

Prepare for a career as a medical scientist. This specialised degree provides exciting options for students interested in a wide range of careers in the medical and health sciences, and emphasises the fundamental sciences that underpin virtually all fields of medical science.

Bachelor of Medical Science (Vision Science)/Master of Optometry

Build a career helping improve people's vision. You will receive a grounding in the fundamentals of science with an emphasis on vision science, where you will study the visual system and factors that influence sight in preparation for intensive study and clinical experience in optometry.

Bachelor of Nutrition and Dietetics

Prepare to become a professional who can interpret and translate scientific knowledge into practical information to help people improve their health through diet. You will gain knowledge about the nature, management and prevention of diet-related diseases and the social and psychological factors that influence what people eat.

Bachelor of Paramedic Science

Becoming a paramedic means keeping your cool in emergency and non-emergency situations. In this degree, you’ll develop the skills, knowledge and attitudes to manage pre-hospital emergency and out-of-hospital non-emergency situations in a manner consistent with best practice.

Bachelor of Public Health

There has never been a better time to study public health. Graduates are in demand to address health challenges of local, national and global significance to deliver outcomes that benefit the population. Follow your passion and put theory into practice, choosing distinctive learning pathways from biomedical, research and social determinants of population health and equity to Indigenous health, economic factors and global approaches to health issues, such as obesity and heart disease.

Bachelor of Speech Pathology

Working as a speech pathologist can help people in many ways. Speech pathologists help people whose educational, vocational, personal and social functioning is affected by communication or swallowing impairment resulting from developmental difficulties, social disadvantage, illness or accident.
Study your passion and work towards a career you’ll love. The workplaces of tomorrow are likely to be very different from those we see today. But one thing is unlikely to change: employers will be searching for independently minded people with valuable, transferable skills.

A humanities and social sciences degree from Flinders will give you the knowledge and skills you’ll require in tomorrow’s workplace.

No. 1 in SA in Humanities, Culture and Social Sciences for full-time employment

The Good Universities Guide 2021 (undergraduate), public SA-founded universities only
Bachelor of Archaeology
South Australia's only Bachelor of Archaeology degree will prepare you for a wide range of jobs in museums, government, community organisations and the cultural heritage management industry. Delve into the world's rich cultural history, uncovering the links between past, present and future societies.

Bachelor of Arts
Join the change makers. The people who understand that to thrive in tomorrow’s workplace, you must learn to be flexible, to think both critically and creatively, and to develop the skills and knowledge to adapt and take advantage of new opportunities. Flinders’ Bachelor of Arts degree will prepare you for a career in almost any field, with a richly diverse suite of subject areas and a uniquely focused set of core topics that will help you prepare for the challenging social transformations the world is going through right now.

See pages 28-29 for a list of majors and minors.

Bachelor of Arts – Enhanced Program for High Achievers
If you’re a high-achieving student, this program offers additional material to challenge you and enable you to maximise your intellectual growth. You’ll thrive in an environment where students with similar capabilities come together to pursue their studies, develop their interests and share ideas.

Bachelor of Arts and Science
Your career could cover science and the arts. Flinders University arts and science graduates have a vast body of knowledge across arts and the sciences that prepares them for a wide range of careers. You’ll learn adaptable and analytical skills, including the ability to think creatively and solve problems.

New in 2021 - Diploma in Arts
Not quite ready for a bachelor’s degree? Enrol in a one-year diploma where you get to taste a variety of different topics in the humanities, arts and social sciences and learn the fundamentals of university study such as communication and critical thinking skills. This course can be counted as the first year of the University’s Bachelor of Arts degree, so you can transfer straight into the second year of study if you choose to do so.

See pages 28-29 for a list of majors and minors.

“Flinders was the perfect choice for me as it really allowed me to pursue my interests and study in a friendly and productive environment. Flinders stands out to me from other universities because of the diversity in topics they offer as well as the tightknit and welcoming community within the college.”

Yianni Cartledge
Bachelor of Arts (History)/Bachelor of Education
Arts

The following study areas can be taken as a major or minor:

**Applied linguistics**
Applied linguistics is concerned with the practical issues of language such as learning and teaching, policy, multilingualism, cross-cultural communication, maintaining languages, and language difficulties.

**Archaeology**
A major in archaeology makes sense of the world by identifying connections between fossil remains of past ancestors, artefacts and material culture once used by past societies, and particular cultural and natural environments.

**Creative writing**
Creative writing develops the creative, practical, critical and collaborative skills necessary to pursue a career in the communication, arts and related creative industries.

**Criminology**
Criminology explores who commits crime and critiques how the criminal justice system responds to crime.

**Drama**
Drama offers grounding in the theories of theatre and performance workshops in movement, voice, improvisation and Stanislavskian techniques.

**English**
English encourages a knowledge of and enthusiasm for literature and fosters effective communication skills critical in the workplace today.

**French**
French is spoken in more than 40 countries, including some of Australia’s closest neighbours, and is one of the most widely taught second languages in the world.

**Geography and environmental studies**
Together, geography and environmental studies explore dynamic relationships between people, places, and the so-called ‘natural’ and built environments we shape.

**History**
History introduces issues that have shaped and continue to influence the modern world, such as revolution, fascism, migration, population, warfare and globalisation.

**Indigenous and Australian Studies**
The Indigenous and Australian Studies major offers thought-provoking and challenging insights into Indigenous and non-Indigenous contemporary contexts.

**Indonesian**
As Indonesia undergoes unprecedented change, studying Indonesian language is a vital key to understanding our region.

**Innovation and enterprise**
Innovation and enterprise provides you with the skills to enhance your creativity, understand and embrace innovation and think like an entrepreneur.

**International relations**
International relations studies global issues such as diplomacy, foreign policy, the military, human rights, economies, trade and international organisations.

**Italian**
Italy is one of the wealthiest nations in the world, an essential tourist destination and a major trading partner with Australia. Italian language is a pathway to employment.

**Law and society**
Law and society equips you with practical legal and analytical skills valuable in many industries including social work, policing, legal services, research and policy positions.

**Modern Greek**
The study of Modern Greek language and culture provides the key to understanding the importance of the Hellenic tradition in western intellectual development.

**Philosophy**
Philosophy deals with some of the big questions about the world, society and ourselves, and encourages thought and discussion by presenting a range of possible answers.

**Politics**
Politics encompasses how groups of people conduct and understand their public life together. Politics is the study of public life in Australia and the rest of the world.

**Psychology**
Psychology is the study of human behaviour and experience including how we learn and develop, personality and self-esteem, thinking processes and psychological problems.

**Screen and media**
Screen and media involves the study and analysis of a wide range of screen-based media including film, television, computer games and online media.

**Sociology**
Sociology studies the social institutions and processes of contemporary society, linking the way individuals form identities against the backdrop of society and the construction of culture.

**Spanish**
Spanish is one of the three most widely spoken languages in the world, one of six official languages of the UN and an important trading language in the Asia-Pacific.

**Theology**
Theology investigates Christian traditions, texts and practice through study in fields such as biblical studies, historic and systematic theology, and ministry studies.

**Visual arts**
Visual arts provides the technical, aesthetic and cultural skills to understand and work in the arts and cultural sectors and related fields.

**Women’s and gender studies**
Women’s and gender studies addresses the broad questions of gender in contemporary life and historically, in Australia and globally, and how to change gendered relations of power.

The following areas are available as minors only in the BA:
- Information technology
- International affairs
- Mathematics
- Professional studies
- Sciences.
Arts and Science

In addition to choosing an arts major, the following science majors can also be taken:

**Animal biology**
The animal biology major involves the biology of animals, including their classification, molecular and chemical structures, evolution, physiology, ecology and biodiversity.

**Aquatic biology**
Aquatic biology involves the biology of marine and freshwater aquatic life: from mammals, birds and reptiles to plants and algae.

**Biochemistry and molecular biology**
The biochemistry and molecular biology major explores the very building blocks of life: from chemical structures and bonding to proteins and DNA.

**Chemistry**
Chemistry affects almost everything we do or use: from drugs, antibiotics and anaesthetics to polymers and plastics to synthetic fibres and batteries.

**Cognitive science**
Cognitive science is the scientific study of the mind and its processes in both humans and machines, including intelligence and behaviour, perception, language, memory, attention, reasoning and emotion.

**Computer science**
The computer science major provides you with a broad background in programming, databases, networks and computer systems, enabling you to develop technical expertise in computers and their application.

**Ecology and evolutionary biology**
The ecology and evolutionary biology major introduces you to the study of living animals, plants and fungi, how they interact, and their role in the complex ecology of life in communities.

**Environmental geology**
Environmental geology applies geology or geoscience to our living environment. The environmental geology major examines how geological processes and hazards influence human activities and vice versa.

**Environmental hydrology and water resources**
The environmental hydrology and water resources major is about solving a diverse range of environmental and water problems. It gives you a broad background in natural sciences including earth sciences, environmental sciences and marine sciences.

**Environmental management**
Environmental management is the management of our impact on the environment. The environmental management major aims to prepare you with an understanding of the complexity and contexts of environmental decision-making.

**Geography**
The geography major provides a broad foundation in geography. It involves investigating the dynamic relationships between humans and their cultures and environments.
An incredible breadth of career opportunities awaits you in the corporate world, in the public sector or with non-government organisations. You could work locally for a government department or an SA-based business, pursue a corporate career helping set international policy or help change the world with organisations like Amnesty International or Projects Abroad.

No. 1 in SA in Political Sciences
2019 Academic Ranking of World Universities, public SA-founded universities only
Bachelor of International Relations and Political Science

Prepare yourself for a successful career engaging with political, social and cultural issues in Australia and around the world. In this degree you’ll develop an understanding of how to drive policy development at home and abroad. You’ll graduate with a comprehensive understanding of key political, social, economic and strategic relations within the domestic and global communities.

Bachelor of International Relations and Political Science (Honours)

Develop a grounding in research, enhance your experience and expand your career options with a four-year combined honours degree in international relations and political science. Take the next step on your path to become an expert in a specialist field of study and enhance your understanding of the key political trends of our time. Lead the next generation of political influencers through research and a comprehensive understanding in politics and contemporary international politics.

Study with SA’s largest group of international relations and political science experts. Gain practical experience through industry placements and opportunities in Australia and overseas in countries like Indonesia, China, Japan, USA and elsewhere, including unique internship opportunities with the US Congress (Washington) and Consulate (Melbourne).

Your studies could lead to a range of employment opportunities, including:

- policy analyst for business, government and NGOs
- diplomat or public service officer
- journalist or digital media content maker/manager
- international aid or development worker
- electorate officer
- research officer, analyst or assistant
- intelligence, security or political analyst
- risk manager or public relations specialist
- education – teacher, aid, administrator
- advocacy officer/researcher in the community sector.

Combined degrees

Explore your interests and unlock more career opportunities by combining this degree with one of the following:

- Bachelor of Arts
- Bachelor of Accounting
- Bachelor of Business
- Bachelor of Business (Human Resource Management)
- Bachelor of Business (International Business)
- Bachelor of Business (Management)
- Bachelor of Business (Marketing)
- Bachelor of Criminology
- Bachelor of Languages
- Bachelor of Laws and Legal Practice
- Bachelor of Laws and Legal Practice (Honours)
- Bachelor of Law and Society.

Washington Internship Program

The Washington Internship Program provides you with an opportunity, unparalleled in Australia, to experience political life in Washington DC.

Flinders has sent over 120 students on this unique seven-week placement in the US Congress since the program’s inception in 2000.

The program gives you a unique insight into US politics and appreciation of the workings of the American political system.

South Australian Parliamentary Internship

2020 was the 25th anniversary of the prestigious South Australian Parliamentary Internship Program.

This degree and career enhancing program gives successful applicants the opportunity to experience how Parliament operates from the inside, by working attached to the office of a Member of Parliament while completing a public policy research project nominated by the member under the formal supervision of a member of the Flinders academic staff.

“I had a lot of practical opportunities at Flinders. I got to do two really exciting political internships.... It’s pretty crazy to think of an Australian sitting a couple of hundred metres away from multiple (US) presidents”.

Meaghan King
Flinders Bachelor of International Relations (Honours) Alumni
Whether your interests lie in language, media, archaeology or international tourism, you’ll gain transferable skills and industry experience that will help you throughout your career and let you explore your passions and the world we live in.

No. 1 in Humanities, Culture & Social Sciences for full-time employment and median salary

The Good Universities Guide 2021 (undergraduate), public SA-founded universities only
Bachelor of Archaeology
South Australia’s only Bachelor of Archaeology degree will prepare you for a wide range of jobs in museums, government, community organisations and the cultural heritage management industry. Delve into the world’s rich cultural history, uncovering the links between past, present and future societies.

Bachelor of Languages
With the internationalisation of the job market, graduates with a qualification in a foreign language will have greater employment opportunities both in Australia and overseas. This degree will help you develop the confidence, open-mindedness and cultural understanding for careers with an international focus.

Bachelor of Media and Communication
Created to meet the needs of the constantly evolving field of contemporary communications, this degree helps you to develop written, visual and verbal communication skills that can be applied to a broad range of professional and creative industries.

Bachelor of Tourism and Events
Turn your love of events and travel into a lifelong career. If you’re fascinated by the way major events come together or you love the idea of a career in tourism, this degree will give you the tourism and event development and planning skills to start your journey, wherever it leads.

Love language with a Bachelor of Languages
The Bachelor of Languages gives you a higher concentration of study in languages than any other Flinders degree.

The following languages can be taken as an extended major, major or minor:

- **French**
  French is one of the official languages of the United Nations and is spoken in more than 40 countries, including some of Australia’s closest neighbours, and is one of the most widely taught second languages in the world.

- **Indonesian**
  As Indonesia undergoes unprecedented change, studying the Indonesian language is a vital key to understanding our region.

- **Italian**
  Italy is one of the wealthiest nations in the world, an essential tourist destination and a major trading partner with Australia. Italian language is a pathway to employment.

- **Modern Greek**
  The study of Modern Greek language and culture provides the key to understanding the importance of the Hellenic tradition in western intellectual development.

- **Spanish**
  Spanish is one of the three most widely spoken languages in the world, one of six official UN languages and an important trading language in the Asia-Pacific.

- **Teaching English to Speakers of Other Languages (TESOL)**
  TESOL is designed to help you develop specific knowledge in the area of teaching English to speakers of other languages.

**Also available**
The following languages are also available as a minor through cross-institutional study at the University of Adelaide:
- Chinese
- German
- Japanese.

There’s more than one way to study a language...
In addition to the Bachelor of Languages, you can also study a language as a major in a number of Flinders degrees or combine your chosen degree with a Bachelor of Letters in a language.

**Studying language as a major**

Language major sequences are available in the following degrees:
- Bachelor of Arts
- Bachelor of Arts – Enhanced Programs for High Achievers
- Bachelor of Business
- Bachelor of International Relations and Political Science.

**Bachelor of Letters**
The Bachelor of Letters in a language is normally three years part-time in conjunction with a bachelor degree, adding one extra year to your overall program. If you are undertaking any other bachelor degree at Flinders – from science or psychology to law or business – you can complete a Bachelor of Letters in a language alongside it.

“**My placement was a big stepping stone. I did my placement at Adelaide Zoo, and I loved it. I also volunteered for six weeks at the Visitor Information Centre in the city. It was great to get out and talk to tourists.**”

Liana de Vita
Bachelor of Tourism & Events
Industry leaders. Government advisers. Promoters of global change. Advocates of justice and human rights. As a legal professional, you’ll work in a field that can literally take you anywhere.

If you have a passion for understanding and upholding the structure of our society, if you love the challenges that emerging technologies are bringing, if you have an appetite for solving problems and a drive to succeed, Flinders Law will bring out your best.

The Flinders law program provides the perfect balance between sound legal training, real-world experience and future-ready skills.

No. 1 in SA for Law
2019 Academic Ranking of World Universities, public SA-founded universities only
Bachelor of Laws
Bachelor of Laws (Honours)

In this degree, you’ll focus on the legal skills and critical perspectives on the function of law. You’ll develop high-level communication, presentation and collaboration skills in preparation for future roles in a range of settings. If your focus is not admission to practice, the Bachelor of Laws allows for faster completion.

Bachelor of Laws and Legal Practice
Bachelor of Laws and Legal Practice (Honours)

In this degree, you’ll focus on professional legal skills and critical perspectives on the function of law. You’ll develop high-level communication, presentation and collaboration skills in preparation for practising law, or for future leadership roles in a range of professional settings.

This is the only undergraduate legal practice degree in SA, which means you do not need to complete a Graduate Diploma of Legal Practice to practise law in the state.

Combined degrees

Explore your interests and unlock more career opportunities by combining degrees. Combining your degree with a qualification in another discipline will help you develop specialised abilities to stand out from the pack. Studying a combined degree at Flinders is the key to enhancing your career opportunities.

Bachelor of Laws and Legal Practice/Bachelor of International Relations and Political Science

A laws and legal practice degree from Flinders satisfies the academic and practical requirements to practise law in South Australia. Combining these studies with a Bachelor of International Relations and Political Science opens the door to a multitude of careers in international organisations, aid and human rights, government, transnational crime, terrorism and non-government organisations.

Bachelor of Laws and Legal Practice/Bachelor of Criminology

By combining studies in laws and legal practice with criminology, you will develop the professional legal skills to prepare you for a job in the legal profession and gain an understanding of how justice and society influence each other. The combination prepares you for a broad range of careers in law but also government, leadership and educational settings.

Other combined degree options are available in:
- Arts
- Behavioural Science (Psychology)
- Criminology.

For a full list of combined degree options visit: flinders.edu.au/combineddegrees

“Throughout my degree I have been developing a twenty-first century mindset, as we are taught to think critically, creatively and ‘outside the box’. In many of my assignments and exams, I have had to apply existing law to new, emerging issues and make arguments that have not been made before.”

Brayden Mann
Bachelor of Laws and Legal Practice
Work for the greater good

Becoming a medical practitioner gives you the chance to have a profound impact on the health of the people around you. Imagine the satisfaction you’ll feel as you successfully treat a sick child or treat an injury. By studying medicine, you’ll be working towards becoming a respected, vital member of our community.

No. 1 in Australia in Medicine for full-time employment
The Good Universities Guide 2020 (postgraduate)
Bachelor of Clinical Science/Doctor of Medicine (Flinders University, Adelaide)

Bachelor of Clinical Science/Doctor of Medicine (Charles Darwin University/Flinders University, Darwin)

This double degree program enables school leavers without an undergraduate degree* to pursue a career in medicine. The program provides a high standard of academic, clinical and professional medical training to equip graduates with the skills necessary to take up positions as hospital interns and thereby qualify for medical registration in Australia.

*Rural applicants for the double degree in Adelaide must not have a record of study at a higher education level. Applicants for the CDU/Flinders double degree in Darwin may have completed up to one year of higher education study.

Rural and remote sub-quotas

An annual sub-quota is available for applicants from rural and remote areas. To be considered for the rural and remote sub-quota, applicants must apply to SATAC in the normal way.

Indigenous sub-quotas

An annual sub-quota of up to five places is available for Aboriginal and Torres Strait Islander applicants. Such applicants are required to apply in the normal way. It is expected that applicants will need to achieve an ATAR of 90 or above (after the addition of eligible adjustment factors) to be considered a place in this sub-quota.

Find out more: flinders.edu.au/study/health/rural-remote-sub-quotas

Doctor of Medicine

Graduate well prepared for the challenges of internship and future professional training.

The Flinders Doctor of Medicine (MD) is the cornerstone of the University’s dynamic and highly regarded medical program. The MD delivers outstanding clinical and academic training and draws on the innovation and excellence that characterises the University’s medical program.

Find your own path

There’s more than one way to get into the Flinders Doctor of Medicine.

We need to ensure that people from all walks of life have an opportunity to study medicine. That’s why Flinders offers a range of admission pathways that enable you to enter a medical degree, whatever your background.

Undergraduate entry

If you have completed Year 12 and wish to study medicine in Adelaide or the Northern Territory,* you can apply for admission to a double degree pathway that enables you to enter Flinders’ medical program without having to complete a separate undergraduate degree first.

This pathway enables you to complete a Bachelor of Clinical Sciences combined with the Doctor of Medicine (MD) in just six years.

Graduate entry

Flinders University offers graduate entry to the MD in Adelaide and the Northern Territory,* providing an alternative to the traditional pathway from secondary school to an undergraduate medical course. The four-year program enables you to graduate with a medical qualification that is comparable to a six-year undergraduate program.

* If studying in the NT, the Bachelor of Clinical Sciences is delivered by Charles Darwin University and the MD is delivered by Flinders University.

Health pathways

Flinders graduate sub-quotas

Up to 75 per cent of places in the Doctor of Medicine are reserved for those who hold Flinders qualifications and meet the admission requirements. This specifically includes places for up to 25 graduates of the Bachelor of Health Sciences, Bachelor of Medical Science, Bachelor of Paramedic Science, Bachelor of Public Health and the medical biotechnology stream of the Bachelor of Science (Biotechnology). The remaining places are available to applicants who hold any Flinders qualifications.

Aboriginal and Torres Strait Islander applicants

A key priority of the Northern Territory and Commonwealth governments is to increase the participation of Aboriginal and Torres Strait Islander people in medical training. Flinders University’s Aboriginal and Torres Strait Islander Entry Stream is available to Indigenous graduates who wish to study medicine either in Adelaide or in the Northern Territory. For this stream, you may apply directly to Flinders University for graduate entry to the Doctor of Medicine without having to sit the Graduate Medical School Admissions Test.

Rural applicants

Consistent with Flinders University’s commitment to improve the health of those in rural and remote areas, at least 28 per cent of Commonwealth supported places for graduate entry to the MD are reserved for students who come from a rural background. This includes a sub-quota of up to 24 places available each year for students from rural communities who apply to undertake the entire third year of the MD in one of four rural locations.

Northern Territory applicants

Flinders University, in partnership with Charles Darwin University, offers undergraduate and graduate entry to the Flinders Doctor of Medicine in Darwin through the Northern Territory Medical Program (NTMP). Whether you are a school leaver or university graduate in the Territory, the NTMP allows you to undertake your entire medical training in the Northern Territory. Places are only available to Australian citizens and permanent residents.

Find out more: flinders.edu.au/study/health/rural-remote-sub-quotas

“I love that Medicine at Flinders is very hands-on. The great amount of support we receive and the small class sizes allow our learning to be much more student focused, collaborative and easy to comprehend.”

Sydney Ma
Bachelor of Clinical Sciences/Doctor of Medicine
No. 1 in SA for Nursing
2020 Academic Ranking of World Universities, public SA-founded universities only

Flinders is internationally recognised for being at the forefront of nursing and midwifery education. We are rated as one of the top 100 universities in the world for nursing.* By studying at Flinders, your learning will be facilitated by award-winning clinicians, educators and researchers, in state-of-the-art facilities.

*QS World University Rankings by Subject 2021

Find out more Flinders.edu.au/nursing-midwifery

A career for life
**Bachelor of Midwifery**
Take the first steps towards a rewarding career providing high-quality, safe and effective woman-centred care. With a focus on the principles of primary health care and continuity of care, you will develop an understanding of various midwifery models to enable you to apply theory and skills in your daily practice.

**Bachelor of Nursing (Adelaide)**
**Bachelor of Nursing (Riverland)**
In this degree, your studies will cover the fundamental requirements to be eligible to apply for registration as a practising nurse with the Nursing and Midwifery Board of Australia. You’ll also have the option to undertake your studies at Flinders Bedford Park or our rural campus in the Riverland.

**Find your own path**
We understand that everyone is different, so in addition to the Bachelor of Nursing and Bachelor of Midwifery, the University offers the following pathways to enable people from a range of different educational backgrounds to study and gain registration as a practising nurse or midwife.

**Nursing programs**
The following nursing programs are available depending on your prior nursing experience. They are only offered to students at the Bedford Park campus.

**Bachelor of Nursing**
This pathway is for candidates with no previous formal nursing or tertiary qualification. Students complete three years of full-time study or the equivalent part-time.

**Bachelor of Nursing Credit Pathway**
Nurses holding Australian Diploma of Nursing qualifications may be eligible for up to 36 units of credit (one year of full-time equivalent study) towards the Bachelor of Nursing, mapped to the curriculum content of the course that they have completed.

**Bachelor of Nursing (Graduate Entry)**
This is a fast-tracked pathway for graduates with a degree in an academic area other than nursing who would like to become eligible for registration as a nurse with the Nursing and Midwifery Board of Australia.

**Bachelor of Midwifery (Registered Nurse Entry)**
This is a pathway for candidates who are graduates of a nursing degree and/or hold a current practising certificate as a registered nurse who would like to become eligible to register with the Nursing and Midwifery Board of Australia as a registered midwife.

“My first nursing placement solidified the belief that I am meant to be a nurse. I remember having that lightbulb moment when it suddenly clicked this job is for me and I love it.”

*Braden Winders*
Bachelor of Nursing (Pre-registration)
Psychology

Worldwide, there is a growing awareness of our need to understand human psychology and mental health. The pressures of twenty-first century living are driving a need for graduates who can assess, advise and help solve some of the human problems that affect how we live and function.

From working with autism and sleep disorders to conducting research on social justice or industrial relations, the field of psychology is wide, and skilled graduates are in high demand.

Unlock human potential

No. 1 in SA for Psychology for overall experience

The Good Universities Guide 2021 - overall quality of educational experience (undergraduate), public SA-founded universities only
Bachelor of Behavioural Science (Psychology)
Combining a psychology major with a second major in a range of disciplines concerned with human behaviour and development. Graduate with essential knowledge and skills required for further study to practise as a registered psychologist.

Bachelor of Psychological Science
Undertake an extensive range of key subjects and a pathway that could lead you to a career practising psychology. This degree covers fields such as personality; emotion; development; social, cultural and biological influences; and mental health.

Bachelor of Psychological Studies (Graduate Entry)
A nationally accredited psychology major is available to students who have already completed a degree in any discipline, with the Bachelor of Psychological Studies (Graduate Entry). This degree will enhance your understanding of human behaviour to further studies in psychology.

Bachelor of Psychology (Honours)
Follow your passions in this degree and graduate career-ready with high-level training in professional, practical and academic areas. Study in applied, social, clinical, neurological and developmental psychology.

Combined degrees
Explore your interests and unlock more career opportunities by combining degrees. Combining your degree with a qualification in another discipline will help you develop specialised abilities to stand out from the pack. Studying a combined degree at Flinders is the key to enhancing your career opportunities.

Bachelor of Criminology (Honours)/Bachelor of Psychological Science
Provides you with a comprehensive education in psychology combined with criminal behaviour, crime prevention and responses to crime.

Bachelor of Laws and Legal Practice/Bachelor of Behavioural Science (Psychology)
Prepares you for occupations where law and psychology interact. You will develop an understanding of human behaviour, motivation, relationships, communication and cognitive processes.

Bachelor of Psychological Science/Bachelor of Business (Human Resource Management)
To manage an organisation effectively, you need to understand its people. The Bachelor of Psychological Science/Bachelor of Business (Human Resource Management) helps you to develop an understanding of psychology and apply it to human resource management.

Bachelor of Psychological Science/Bachelor of Business (Marketing)
The combined Bachelor of Psychological Science/Bachelor of Business (Marketing) provides the opportunity to link the psychology of marketing with consumer buying behaviour.

Bachelor of Psychological Science/Bachelor of Sport, Health and Physical Activity
Prepares you for sport and physical activity careers and gives you a strong knowledge base in psychology combined with health, tourism, nutrition, disability and business.

For a full list of combined degree options visit: flinders.edu.au/combineddegrees

“Studying psychology at Flinders has been one of the best decisions I have ever made. From the friends you make in tutorials, to the lecturers and academics who guide you through your journey, I have received nothing but unconditional support from everybody I have met at Flinders. Flinders is definitely the best choice for anybody interested in pursuing a career in psychology.”

Ksenia Zinoviev
Bachelor of Psychology (Honours)
From advances in biotech, to the discovery of a long-forgotten prehistoric creature or the thrill we feel when a new probe lands on Mars, science excites us all. Turn your passion for discovery into a career.

**No. 1 in Australia in Science & Mathematics for learning resources**

The Good Universities Guide 2020 (postgraduate)
Bachelor of Applied Geographical Information Systems
Create a career mapping the complexity of our world. In this degree, you’ll be taught skills to support change and growth in areas like global warming, urban planning, mining and exploration, archaeology, transportation and biodiversity management. We integrate field-based data acquisition with modern technology, computer workshops and classroom-based theory.

Bachelor of Science
Imagine a career exploring science from its core to the outer limits. You don’t need a science background to start a career in science, you just need an inquiring mind. This degree will equip you with crucial transferable skills in problem-solving, communication, teamwork and computing that will open up career pathways and research opportunities in a broad and exciting range of professional areas.

Bachelor of Science (Honours) – Enhanced Program for High Achievers
Discover where science can take you and where you can take science. If you’re a student of exceptional academic ability, this enhanced program provides opportunities to embark upon research in every year of the degree.

Bachelor of Science (Animal Behaviour)
Learn about the behaviour of insects, birds, fishes and mammals. Global academic experts will teach you how to collect, analyse and understand information relevant to animal behaviour and how to communicate this information to a variety of audiences.

Bachelor of Science (Biodiversity and Conservation)
Understand the science that will help solve real-world problems. The world has never been more attuned to environmental issues or the need to train and employ specialists who can help us reduce our impact and plan wisely for the future.

Bachelor of Science (Biotechnology)
Begin a career in biotechnology, considered the growth technology of the twenty-first century, with job opportunities to match. Graduate prepared to work as a professional in one of the most exciting areas of modern science by combining theory and specialised practical training in the life sciences with the study of related business, legal, ethical and social issues.

Bachelor of Science (Chemical Sciences)
Gain a broad-based foundation in chemistry, acquire extensive knowledge in the area and graduate job-ready. You’ll learn how to understand and apply chemical principles to solve problems, master lab techniques and equipment, undertake chemistry research and communicate your findings.

Bachelor of Science (Environmental Science)
Passionate about the environment? Combine science disciplines and gain a career for a more sustainable future. This degree focuses on understanding, monitoring and improving the environment. Expand your knowledge, obtain skills and learn critical thinking about environmental issues and problems.

Bachelor of Science (Forensic and Analytical Science)
Work towards a fascinating career using chemistry and biology to analyse evidence, help investigate crime and contribute to justice. Forensic and analytical chemistry combines the practices of analytical chemistry and forensic investigation. Forensic biology uses aspects of life sciences to examine biological material in a forensic context.

Bachelor of Science (Marine Biology)
Dive deep into a career exploring the living marine world. The degree provides you with the ability to acquire extensive knowledge in marine biodiversity, ecology, genetics, conservation, fisheries and related areas. Learn from internationally eminent marine biologists and oceanographers undertaking world-class research on current issues in marine science.

Bachelor of Science (Palaeontology)
Turn your passion into a career with Australia’s only palaeontology degree. Gain the tools necessary for palaeontological careers anywhere in the world, such as working in a museum, evolutionary studies, fieldwork, ecological/environmental research, teaching or science communication.

Bachelor of Science (Physics)
Gain a solid foundation in physics and mathematics and acquire extensive knowledge in the area. You will learn to understand physics at a deeper level, apply scientific principles in a physics context and understand the role of physics in society.

You may also be interested in...

Bachelor of Arts and Science
Gain a sound understanding of both the arts and the sciences. This degree provides the broadest range of disciplinary and interdisciplinary studies from across the University, with majors available from creative arts, humanities, law, science, mathematics, computing, and social and behavioural sciences.

Bachelor of Mathematical Sciences
Mathematics is the foundation of many industries. Demand for mathematics graduates is particularly strong in areas including science, engineering, technology and business, and in areas as diverse as linguistics and health.

“Choosing Flinders gave me an opportunity to study forensics in a broad way by covering laboratory vs field options and biological vs chemical forensics for future pathways. I feel confident knowing that my teaching staff have my best interest at heart and I can meet with them if I have any questions to gain clarity in lecture and assessment content. This ensures my own goals are met and I get the best outcome for my end of semester results. The campus has beautifully set-up study areas that were designed around human interaction that people can immediately feel comfortable in. Flinders fulfils all my expectations and checks all my boxes.”

Gabrielle Ziersch
Bachelor of Science (Forensic and Analytical Science)
Flinders’ commitment to environmental research and teaching is fully realised in The Oaklands Education Centre, an award-winning, purpose-built home for the partnership between the City of Marion and Flinders University.

The centre provides a place for education, research and studies into wetlands and showcases the site’s stormwater re-use scheme.

In April 2021, the Flinders classroom at Oaklands Wetland was recognised at a National Awards ceremony for its STEM outreach activities engaging high school and university students with hands-on experience in stormwater monitoring and enabling research projects.

Oaklands Wetland plays an important role in the community. Around 85,000 new plants have created a habitat for many different species of animals, including parrots, ducks, cockatoos and wader birds such as spoonbills, ibis and gulls. Fish and frogs live in the wetland, plus many different types of insects like dragonflies and mayflies.

The wetland is fully operational and can treat up to 400 million litres of stormwater each year.
Social Work is the career for those who want to change the world for the better, because they will never accept injustice.

Nationally and globally, we struggle with issues of child protection, domestic and family violence, housing and homelessness, racial inequalities and many other social problems. Issues of social inequality have become daily headlines, and we need skilled graduates to help restore the balance.

Bachelor of Social Work
Bachelor of Social Work (External)

Build a career helping, supporting and empowering people. This degree qualifies you to work as a social worker in a wide range of health and social welfare services. It combines traditional social work skills with the broader issues of social policy and planning. You’ll graduate prepared for careers in government and non-government sectors in largely project- and policy-based positions.
Imagine building a career around one of your greatest passions. A career in sport will not only help you stay physically and mentally fit, you’ll have the opportunity to help others perform at their best.

From coaching to training to teaching sport in schools, the industry offers a wide range of career opportunities for you to pursue.

No. 1 SA uni for teaching quality, student support and starting salary

The Good Universities Guide 2020 (undergraduate), public SA-founded universities only
Bachelor of Exercise Science
Build a career improving lives through fitness. You'll undertake study in the basic medical sciences such as human physiology, anatomy, psychology and pathology, and graduate prepared for a career in the evolving field of exercise science.

Bachelor of Exercise Science/Master of Clinical Exercise Physiology
Accelerate your career with this pathway to a master's in clinical exercise physiology. If you're a high-achieving student, you can progress from an exercise science degree to a master's degree through this five-year degree combination.

Bachelor of Health Sciences/Master of Physiotherapy
Work in a field that helps maximise movement in people of all ages. From sports injuries to helping the aged maintain mobility, this degree will give you the skills and knowledge you'll need to become registered and work as a physiotherapist.

Bachelor of Sport, Health and Physical Activity
This degree will see you graduate with the skills to become an effective professional in sport and physical activity careers, and give you a wide knowledge base in areas including health, tourism, nutrition, disability and business.

Bachelor of Sport, Health and Physical Activity (Outdoor Education)
There is a broad range of employment opportunities in the sport development, sport coaching, leisure, health, outdoor education and recreation, sport and event management industries. This degree will help prepare you for a career that recognises outdoor environments as a space to enhance health and sustainability outcomes.

Combined degrees
Combining your degree with a qualification in another discipline will help you to stand out from the pack. Our combined degrees provide the perfect pathway to take a passion for sport into a professional role. Teaming a range of sports sciences with specialised knowledge, a combined degree in sport at Flinders broadens your options while sharpening your skills.

Bachelor of Sport, Health and Physical Activity/Bachelor of Media and Communication
Combine your sport studies with communication and professional writing.

Bachelor of Sport, Health and Physical Activity/Bachelor of Business (Management)

Bachelor of Sport, Health and Physical Activity/Outdoor Education/Bachelor of Business (Management)
Work towards a career in the business side of sport.

Bachelor of Sport, Health and Physical Activity/Bachelor of Psychological Science
Combine your sport studies with psychological science.
Get more out of your study

COMBINED DEGREES
Combining your degree with a qualification in another discipline will give you more expertise and expand your career prospects. Studying a combined degree at Flinders will help you stand out from the crowd.

A combined degree is a combination of two Flinders bachelor degrees. As a combined degree graduate you will have two qualifications in just one to one-and-a-half years of extra study.

Our combined degree programs are designed to enhance your educational, academic and professional qualifications while minimising the cost and length of your studies. Flinders’ combined degrees allow you to undertake in-depth study in exciting combinations that aren’t usually available in single degrees.

flinders.edu.au/combineddegrees

BACHELOR OF LETTERS
The Bachelor of Letters is available to study alongside any degree at Flinders and enables you to graduate with two qualifications.

The Bachelor of Letters is available in the following disciplines:
- Creative writing
- Criminology
- History
- Mathematics.

The Bachelor of Letters is normally undertaken part-time over three years to allow concurrent study with your primary bachelor degree, adding one year to your overall study program.
CAREERS & EMPLOYABILITY SERVICE
The Careers and Employability Service helps give you the edge in your career. CareerHub, our online employment portal, offers personalised job opportunities, career planning, programs to help you broaden your skills and experience, access to employer events and career-related resources. Whatever you are studying, CareerHub can help you find your direction and start your career.
flinders.edu.au/careers

FLINDERS CONNECT
Flinders Connect can help with everything from enrolment and fees to exams and graduation. You can also access Flinders Connect for specialist services in admissions, careers and IT help. A range of support services is also available.
flinders.edu.au/flindersconnect

FLINDERS LIBRARY
Our extensive library is more than a book repository. We provide a range of services such as computing and printing, document delivery and one-on-one librarian appointments for assistance with search strategies and finding resources for your assignments.
libraryflin.flinders.edu.au

FLINDERS LIVING
Flinders is the only university in Adelaide that gives you the opportunity to live on campus, and both University Hall and Deirdre Jordan Village are located within the Bedford Park campus. The wide range of social, sporting and community activities also enhances the student experience at Flinders Living.
flinders.edu.au/living

FLINDERS UNIVERSITY STUDENT ASSOCIATION
The Flinders University Student Association (FUSA) continues a long tradition of active student involvement and represents the rights and interests of students. FUSA manages social events, non-sporting clubs and societies, and the student publication Empire Times, and helps with academic, administrative and welfare issues.
fusa.edu.au

HEALTH, COUNSELLING AND DISABILITY SERVICES
Managing your health is important. We have facilities and services available to help you look after your physical and mental health.
flinders.edu.au/hcd

TRANSITION TO UNIVERSITY
Starting at university is a big step; let’s make it easier. The Student Learning Centre provides a range of services from writing and mathematics support to assistance with study and time-management skills.
students.flinders.edu.au/study-support/slc

YUNGGORENDI STUDENT ENGAGEMENT
Yunggorendi Student Engagement are committed to increasing Aboriginal and Torres Strait Islander student access, participation, retention and success at Flinders University. Providing a range of services and supports for Aboriginal and Torres Strait Islander students, our team of highly qualified staff is dedicated to supporting you throughout your student journey.
flinders.edu.au/yunggorendi
Pathways to study

Whether you are a school leaver or returning to study at a later date, there are many ways to gain admission to Flinders University. Explore your options and find the entry path that's right for you.

IF YOU HAVE RECENT SECONDARY EDUCATION

Year 12 Entry
Most Year 12 applicants enter university via the traditional entry method, where offers are made to eligible applicants with the highest selection rank until all places in the degree are filled. Your selection rank is used by Flinders to assess your admission to a course and is based on your ATAR plus any adjustment factors for which you are eligible.

Elite Athlete Pathway
If you've officially represented your school or state at a national level competition, we'll consider your school's recommendation about your academic potential when you apply.

Research Project B Pathway
If you have strong results in the Research Project B subject you will be considered for entry into Flinders on the basis of your Year 12 results and Research Project B performance.

uniTEST
If you’re in Year 12, uniTEST may enhance your chances of getting into Flinders. We will select students based on Year 12 results and uniTEST performance.

IF YOU HAVE VOCATIONAL EDUCATION AND TRAINING (VET)

TAFElink
Flinders offers guaranteed entry to selected degrees for applicants who have completed a TAFE/VET certificate IV or higher-level qualification, as long as degree prerequisites are met.

TAFE SA Dual Offers
Flinders University together with TAFE SA offer over 45 dual offer pathways in various disciplines.

Adult Entry
The adult entry scheme enables people aged 18 years and over to apply to study at Flinders via the Special Tertiary Admissions Test (STAT). Applications are made via SATAC.

IF YOU HAVE WORK AND LIFE EXPERIENCE

Foundation Studies
The Foundation Studies program has been designed to introduce you to university study in a supportive learning environment. Open to people from all backgrounds, Foundation Studies provides a pathway to gain entry to most degrees at Flinders and offers guaranteed entry into some degrees.

Military Pathways
Use your military service in the Australian Defence Force as a pathway to a Flinders University degree.

Special Tertiary Admissions Test (STAT)
Adult entry to university via the Special Tertiary Admissions Test (STAT) assesses your ability to study at a tertiary level.

Indigenous Admission Scheme
The Indigenous Admission Scheme provides an alternative pathway for Aboriginal and Torres Strait Islander people, who may not have been able to gain entry to university by traditional means, with the opportunity to study at Flinders.
flinders.edu.au/indigenousadmissions

IF YOU HAVE SOME HIGHER EDUCATION

Tertiary Transfer
If you have completed at least one semester of full-time equivalent study at university, you may be able to transfer to study at Flinders University using your grade point average (GPA).
Starting at Flinders

WHEN CAN I START?

Flinders offers two admissions cycles each year for undergraduate degrees.

Semester 1 – February start
Applications open in August for commencement the following year.

Semester 2* – July start
Mid-year applications open in August for commencement in July the following year.

*Not all degrees are offered for semester 2 entry. Check our midyear site for details: flinders.edu.au/midyear

HOW DO I APPLY?

Check the application dates
Applicants need to apply through the South Australian Tertiary Admissions Centre (SATAC): satac.edu.au

Read the course information
- check the admission criteria
- check the prerequisites
- check assumed knowledge and additional admission criteria
