Flinders in Adelaide

Accommodation

Flinders is the only university in Adelaide where you can choose to live on campus. You may also find private accommodation near the campus, the beach or the CBD.

An authentic 'Aussie' experience

Adelaide offers a mix of beautiful landscapes, sparkling beaches, rolling hills and a vibrant urban centre.

Festivals

South Australia is known as the 'Festival State', and there are regular cultural and sporting events

Food

South Australia is a food centre, with a higher ratio of cafés and restaurants to residents than any other city in Australia.

Shopping

Adelaide has a wide range of retail outlets, making it easy to shop for any taste or budget. Westfield Marion, the biggest shopping mall in Adelaide, is located 10 minutes from our Bedford Park campus.

Sustainability

Over 7600 solar panels, combined with electricity supplied by one of South Australia's largest renewable energy projects, provide Flinders campuses and facilities with 100% green energy.

Weather

South Australia is fortunate to have a Mediterranean climate, with long, hot summers and cool to cold, snowless winters.

Adelaide; Designed for life

Photo credit: SATC

South Australia

Adelaide is alive and vibrant. Local fresh food markets, exciting restaurants and cafes, international sporting events and world-renowned arts festivals are just a few of the reasons that studying in Adelaide gives you a quality of life you won't find anywhere else in Australia.

More than 38,000 students from 130 countries choose to study, live and work in Adelaide: the city designed for life. flinders.edu.au/international/living-in-adelaide

Study area spotlights

Health

Flinders offers state of the art clinical labs, simulation suites and our own interprofessional clinic on campus, helping create a huge range of courses across the health spectrum with a mission to produce a safer and more resilient health and social care workforce both nationally and internationally.

Professionally accredited bachelor and master programs with globally recognised qualifications that increase your job opportunities worldwide. Gain hands-on industry experience and skills via placements and internships. And with over 26 globally recognised health and medical research institutes and centres on our main campus, you are linked with world-renowned researchers and modern, groundbreaking research.

Masters degrees in Disability, Clinical Rehabilitation, Nursing, Counselling, Speech Pathology, Audiology and Nutrition.

Sustainability

Climate change. Poverty. Population growth. Gender equality. These are the most concerning topics of the 21st Century.

Sustainable Development explores the development process across three sectors – society, economy, and the environment - in the context of both developed and developing countries. A core pillar of this degree is exploring the 17 Sustainable Development Goals set by the United Nations.

Environmental Management and Sustainability focuses on environmental policies, strategies and management systems, with an emphasis on the recognition and development of sustainable environmental management in both urban and non-urban environments.

You'll learn from industry, and leading academic staff, and graduate with a powerful mix of interdisciplinary skills to solve a range of problems. You'll analyse and synthesise complex environmental, economic, social and political information to identify and plan appropriate development and environment solutions and contribute to debates about human-environment relationships.

Meet our students

In terms of my course, I love my supervisory process that is so intensive and facilitating my study but keeps making me feel relaxed and not depressed during my PhD journey. My favourite things about Flinders are Oasis, Flinders Connect, and ServiceOne. As its name suggests, Oasis is facilitating our needs as students in terms of praying, socialising, providing cheap community market, etc. While Flinders Connect and ServiceOne are genius and generous services that can help and solve all my problems as students. Thanks for their fast responses and solutions!

Syafar Sangkala, Indonesia
PhD Nursing

I chose Flinders because I have worked with Flinders University (Gender Consortium) in International Development Projects in Southeast Asia and Asia since 2014. Therefore I have developed a strong working relationship with Flinders over many years. I feel comfortable and valued. Flinders encourages effective knowledge exchange based on reflective and critical thinking. These debate skills will help me to be open to new ideas and develop a willingness to be challenged at work, especially to welcome different, challenging and contrasting views.

Nguyen Thuy Chau, Vietnam
Master of Sustainable Development

Education

A Flinders University education qualification will allow you to take your career to the next level. Gain the skills and knowledge to help students go beyond the ordinary, teaching them to overcome barriers, expand their minds, effect change and build towards success. All our education degrees offer you the ability to broaden your expertise by combining speciality areas in arts, science, health, disability studies and languages.

Flinders undergraduate, and postgraduate programs include specialisations and minors in: Cognitive Psychology and Educational Practice; Disability and Developmental Education; Early Childhood; Inclusive and Specialised Education; Leadership in Education; Primary, Secondary and Special Education; Sport, Health and Physical Activity; Wellbeing and Positive Mental Health in Education; and Teaching of English to Speakers of Other Languages (TESOL).

Adelaide is an excellent location for education. The city has an international student community that allows me to engage in various activities. Furthermore, Adelaide is culturally diverse, with a rich variety of food, people, festive celebrations, and events that maintain a lively atmosphere for students far from home. My study at Flinders University has been a wonderful experience. The course curriculum is well-designed to enhance my career in rehabilitation, focusing on both leadership and clinical practice. By engaging with the leading experts at this university, I am confident that I will advance my career and make meaningful contributions to the field of rehabilitation in Cambodia.

Bot Mil, Cambodia
Master of Clinical Rehabilitation

Public Health

Public health has become an increasingly significant focus of government plans worldwide, initiating developments at local and national levels within multiple healthcare settings. Our courses will provide you with the ability to apply knowledge and skills in relation to public health principles, values and practices that reduce inequity in health care access and health outcomes, and improve population health status.

Topics cover a wide variety of areas such as social determinants of health and wellbeing; epidemiological research methods; economic evidence for health care decision making; health promotion; and First Nations health & well-being.

The experienced academics at Flinders stood out to me, assuring a high-quality learning experience. Also, the support system is truly exceptional. The commitment of the topic coordinators goes beyond traditional teaching; they serve as invaluable mentors, consistently offering guidance and support. I must emphasize the unique nature of the student learning support team, which has proven to be an unparalleled resource. This level of assistance is particularly beneficial for individuals like myself, returning to academic pursuits after a hiatus. Their unwavering support and resources have significantly enriched my educational journey, elevating the overall experience at Flinders to an outstanding level.

Aishath Rishmee, Maldives
Master of Public Health

Study area spotlights

Water

Flinders University has a well-earned reputation as a leading light in the field of water resources, hydrology and groundwater with Australia's largest academic, industry and government research team working on breaking exciting new ground in this field.

You can combine options to emerge with skills varying from integrated water management, surface and groundwater hydrology, public health aspects of water quality, to administration and leadership skills relevant to the sector. Our courses offer research and placement options.

We also offer master's courses in Environmental Health, Environmental Science and Aquaculture. Aquaculture involves practicals in laboratories, aquaria and tanks, and a choice of elective topics available from different disciplines.

Government

Flinders University's government degrees give you the tools to understand and drive political, social and economic change. Study policy development and implementation with highly skilled lecturers from around the world, preparing you for careers in government and non-government organisations. Flinders' Policy and Administration research is ranked above world standard. Learn from academics who have advised and provided analysis for local, national political leaders, and whose commentary is widely sought. Flinders has over 40 years' expertise in US, China, Asia and Africa international relations.

Flinders undergraduate and postgraduate government programs include: Public Policy; Public Administration; International Relations; and Political Science.

Meet our students

What I like about Flinders University is its staff's friendliness to students and willingness to help. Courses are designed and delivered in such a way that it is easy to put theory into practice and this helps students to succeed in their professional fields after completing their studies. I am planning to start my own consultancy firm that will be working together with government departments, NGOs and UN agencies in the implementation of projects and programmes that focus on environmental degradation and climate change.

Precious Mkukumira, Malawi
Master of Environmental Management
& Sustainability

Flinders University has served as my training ground for honing my utmost potentials in leadership skills and academic achievements. In addition, the state-of-the-art facilities, excellent programs and services, and a campus surrounded by picturesque views, ranging from mountains to seas, made me choose Flinders as my second home. From the connections I build with people to the lives I will impact back home, South Australia and Flinders University will be my guiding torch, illuminating the lives of others.

Keith Censoro, Philippines
Master of Public Policy

IT and Engineering

Study at our world-class multimillion dollar teaching and research facility at our Tonsley Innovation precinct and gain the specialist knowledge, skills, and green innovation you need to meet the future demands of industry. Featuring over 150 national and international businesses the Tonsley precinct is where collaboration and entrepreneurial spirit combine to create the products and processes of the 21st century. You can undertake applied undergraduate degrees which feature a 20-week industry placement program or 12-week placement in a postgraduate degree - one of the longest practical experiences within Australia giving you the opportunity to work with leading global industry players.

I chose Flinders University because of its strong focus on practical learning and support for students. The Bachelor of Engineering (Civil) offers a perfect balance of theoretical knowledge and hands-on experience, which has been essential for my development. I'm proud to have received the Denise Hatz Memorial Award, which recognises women in engineering and STEM. This award has given me an incredible opportunity to grow professionally and contribute to the field. Additionally, the international community at Flinders is such a heartwarming community to be a part of. My life in Adelaide has been incredible. The food scene, the amazing places to visit, and most importantly the wonderful people I have been so lucky to meet. Adelaide has a great balance of fun and opportunities to grow as an individual.

Deborah Onofia, Solomon Islands
Bachelor of Engineering (Civil) (Honours)

Gender & Development, Women's Studies

Australia's only master's course in women's and gender studies, Flinders' Master of Arts (Women's and Gender Studies) will help you develop the skills and knowledge to think critically on issues of gender and its intersections with sexuality, class, and racial differences. To gain perspective. To create change. To help tell the stories and ensure they are heard. Flinders Women's and Gender studies explores the importance of the concepts and constructs surrounding gender and society. Why so many think the way they do. How societies developed upon gender-orientated lines, and why it is more important than ever to question taken-for-granted assumptions to build a more balanced, inclusive and just future. It explores feminist politics and different types of feminism, women's empowerment, human rights, indigenous knowledges, LGBTIQ issues - intersectional approaches help us understand who we are, and how we can better advocate for those whose experience is different to ours.

My course's interdisciplinary approach develops critical thinking and good communication skills, which are necessary for addressing complicated challenges connected to gender equality and social inclusion. The focus on current issues such as domestic violence, pay gaps, and discrimination provides practical insights applicable to real-world circumstances. And Adelaide's commitment to green spaces and parklands provides a refreshing escape, and the affordable cost of living offers a comfortable lifestyle. The friendly community and safety enhance the overall quality of life in Adelaide.

Nay Lin Htike, Myanmar
Master of Arts (Women's and Gender Studies)

Flinders support

We approach our services to students in the same way that we approach our academic and research activities – with a commitment to excellence.

Students who are new to Australia may need some extra support to acclimatise and start their studies confidently. We have a range of support services and resources to help you transition to a new environment:

International Student Services (ISS)

ISS offers a range of programs supporting your enrolment, study and social life, as well as a referral service to facilities on campus and within the local community. ISS also offers a free meet-and-greet service for new international students arriving at Adelaide Airport, the railway station, or the central bus station.

Orientation

We have several orientation sessions and programs to help you get used to University life, including the Introductory Academic Program (IAP) for Australia Awards Scholars, the Flinders International Student Orientation and academic preparation programs.

Student Contact Officers (SCO)

The Student Contact Officers are situated within ISS. They are responsible for coordinating the non-academic aspects of the students' scholarships, including: reception on arrival, the payment of your Contributions to Living Expenses (CLE), assistance in finding accommodation, support services for families and access to health, academic and counselling services for students and their families.

Student Learning Support Service

The Student Learning Support Service (SLSS) offers support to all students in the areas of academic writing, basic mathematics, general study skills, and referencing. We offer one-to-one guided drop-in study support through the Learning Lounge (in-person at Bedford Park), online study support through Studiosity, programs to improve your academic skills, and a wide range of study resources accessible anytime through Flinders Learning Online (FLO). We also organise the English for Academic Purposes program – free modules to improve your academic English.

Flinders Connect

The Flinders Connect team can assist you with enquiries relating to enrolments, ID cards, parking permits and a range of other general enquiries. Flinders Connect is available face-to-face on campus, as well as by phone or online.

Health, Counselling & Disability

Managing your health is important. We have facilities and services available to help you look after your physical and mental health. The university health service is a fully equipped and accredited medical centre providing a wide range of medical and disability services. There is also a free and confidential counselling service, which assists students who may be experiencing difficulties which impact their studies.

Oasis

Oasis, which can be found on the Bedford Park campus, is our Student Community Wellbeing Centre focused on supporting the physical, emotional, social, and spiritual needs of students, so they can achieve academic and personal success. We call it "Wellbeing for Success". A welcoming home away from home. A space to make friends, relax, or join in with one of many activities Oasis offers, such as yoga, meditation or community market. Oasis also has prayer rooms and quiet spaces. They also run English Chat groups for students, spouses and carers. They have a fully equipped kitchen to heat your lunch, join in a cooking demonstration or simply make a cuppa.

Families & Schooling

Students are responsible for all matters and costs associated with bringing family members to Australia. The South Australian government grants fee-free education to the dependents of Australia Awards scholarship holders when their children attend state government schools. Australia Awards scholars are eligible to apply for the Child Care Subsidy to help offset the cost of childcare.

General Notes Fees listed are valid for students who commence in the 2025 academic year only and exclude the University's Student Services and Amenities Fee (SSAF). Students should be aware that annual tuition fees will be subject to an increase for each year of study and may be different from future published commencing fees. You will be liable for these fees upon acceptance of an offer from Flinders University.

In the event of a variation between the fees listed here and the approved University schedule of tuition fees found at [Flinders.edu.au/international](https://flinders.edu.au/international), the approved University schedule will prevail. Please also note that some courses may require students to purchase uniforms, clinical laboratory or workshop materials or equipment or to undertake field trips. Administrative fees may also be charged for variations of enrolment such as deferral, transfer of study, or reinstatement of enrolment. The University reserves the right to alter, amend or delete any course, fee or entry requirement without prior notice.

Disclaimer The information contained in this publication is accurate at the time of publication: February 2025. Flinders University reserves the right to alter any course, topic or fees contained herein without prior notice. CRICOS No. 00114A
