STUDY AT A GLOBAL TOP 2% UNIVERSITY IN ONE OF THE MOST LIVEABLE CITIES IN THE WORLD

*TIMES HIGHER EDUCATION WORLD UNIVERSITY RANKINGS 2016-2017
**ECONOMIST INTELLIGENCE UNIT 2016
Adelaide is a lively, safe and friendly place to study. You can enjoy our beautiful beaches, spectacular hills and dynamic city centre, all within easy distance. Flinders University has recently invested more than $200 million to develop one of the most technologically advanced teaching and research institutions in the nation. Our main campus at Bedford Park is located in a natural parklike setting overlooking the city and the sea, and our new student hub in the heart of the campus has been designed and equipped to transform the way you’ll learn. Our cutting-edge Computing, Science Engineering and Mathematics innovation hub at nearby Tonsley abounds with collaboration opportunities, and our business-focused city campus is perfectly located in Victoria Square in the Central Business District.

When you choose Flinders, you’re choosing outstanding student support networks, modern study resources and lecturers who genuinely care about your learning. We give you the confidence to grow, learn and have an extraordinary university experience. Whatever your background, we know you will find Flinders University an inspiring and vibrant place in which to develop the skills that enable you to succeed.

We look forward to welcoming you to Australia and Flinders University, where you can achieve the extraordinary.

Professor Colin Stirling
Vice-Chancellor and President
Flinders University

From day one, Flinders University encourages you to explore new ideas and discover what inspires you. We’re constantly creating an environment rich with possibilities, where your academic, social and professional aspirations are supported and sustained. Relevant, real world research drives what you learn in the classroom and our strong industry links give you the experience that can accelerate your career.

We are delighted that you are considering Flinders University to begin your exciting journey of studying in Australia. As a Flinders international student, you’ll receive a world-class education that will equip you to achieve all you aspire to, wherever in the world that may be. Flinders lecturers and academics are leaders in their fields, dedicated to helping you reach your potential. For more than 50 years our students, academics and alumni have contributed significantly to research and innovation and made a positive difference in the world. Flinders is the only university in Australia to offer innovation and enterprise learning in each and every course. Our outstanding links to industry and wide ranging work placement programs provide valuable, real world experience while you study.

Flinders has a diverse community of students from more than 90 countries and values the global perspective they bring. We take pride in our international student community and our strong links with universities and research institutions worldwide.
THOUGHT LEADER
Flinders is amongst the top 2% of universities in the world. The University was ranked in the world's top 400 universities by the Times Higher Education Rankings 2016-17. Flinders has earned a reputation for delivering world-class courses that students love.

GEARED FOR CAREERS
Flinders University courses are renowned for being practical, as well as providing graduates with a clear set of knowledge and skills that they will be able to use in their career. There are plenty of opportunities to undertake a range of work placements; every year Flinders students choose to do an internship at the US congress, study part of their degree overseas or undertake work integrated learning opportunities with employers in Adelaide and across Australia.

LOVE TO LEARN
Flinders University offers an excellent staff-to-student ratio – rated 5 stars by the 2016/17 Good Universities Guide, reflecting the University’s commitment to teaching. Flinders students frequently comment that they value access to lecturers and the learning environment created on campus.

A MULTICULTURAL UNIVERSITY
Flinders University is a truly multicultural university with a diverse number of cultures represented on campus. We currently have more than 24,000 students from over 90 countries studying with us. Studying at Flinders means you join a global community and can make friends with many different people from around the world.

RESEARCH THAT MATTERS
Flinders has a world-class reputation for research and innovation, informing the professions that shape our society and developing technologies that are transforming people's lives. Ninety percent of Flinders University’s research was ranked at or above world standard in the 2015 Excellence in Research Australia (ERA) assessment, and the discoveries of our researchers influence what you learn in the classroom.

CAMPUS DESTINATIONS
Whether you are relaxing in the leafy surrounds of the Bedford Park campus, immersed in the Adelaide city centre at the Victoria Square campus, or contemplating the future of international business at our brand new Tonsley building, Flinders prides itself on offering students a great on-campus experience.

STUDENT SUPPORT
We do an excellent job of looking after our students – academically and also in support services. Our students are among the most satisfied university students in Australia, according to the 2016 i-graduate survey (International Student Barometer). Flinders is ranked number one in Australia for overall student support.**

NEW STUDENT HUB
The $63 million Flinders Student Hub and Plaza opened in 2016. This extraordinary new facility incorporates a new retail precinct, cafes and a pub, alongside a 2,000-seat outdoor amphitheatre for concerts, night cinema and even yoga classes! With Adelaide’s best panoramic views from a rooftop garden and new social learning spaces, Flinders has a wide range of facilities available to provide you with the best possible campus experience.

STUDYING AT FLINDERS UNIVERSITY OFFERS YOU AN OUTSTANDING EDUCATION IN ONE OF THE WORLD’S MOST LIVEABLE CITIES. OUR COURSES COMBINE ACADEMIC EXCELLENCE WITH INDUSTRY EXPERIENCE, PROVIDING YOU WITH THE SKILLS YOU NEED TO SUCCEED IN YOUR CAREER.

FAST FACTS
- 3 LOCATIONS
- 24,000+ STUDENTS
- 3,000 INTERNATIONAL STUDENTS ON CAMPUS
- ADELAIDE, AUSTRALIA

**I-GRADUATE INTERNATIONAL STUDENT BAROMETER 2016
Flinders at Tonsley is the heart of South Australia’s new industrial future. It embodies world’s best practice in education, teaching and research. It’s a place where innovation, collaboration and entrepreneurial spirit combine to create the products and processes of the 21st century – and beyond.

More than 150 staff and 2,000 students are housed there, including two state-of-the-art lecture theatres and expansive, modern collaborative teaching spaces. The building has 28 specialised laboratories in which students can study a range of disciplines including biomedical, civil, electrical, electronic, mechanical and software engineering, information technology, network systems and mathematics.

An integral part of studying engineering at Flinders is the opportunity to experience future employer environments first-hand with a 20-week work-integrated learning (WIL) placement. The close business-industry relationships that will be spawned by Flinders at Tonsley will further expand these WIL opportunities, which play an invaluable role in preparing job-ready graduates.

Flinders at Tonsley is home to the New Venture Institute, Flinders Partners, Medical Device Research Institute, and Centre for Nanoscale Science and Technology alongside some of Adelaide’s biggest businesses and industries.

**FAST FACTS**

- **$120 MILLION INNOVATION CENTRE**
- **28 LABORATORIES**
- **150 STAFF**
- **2,000 STUDENTS**

**2019 RAIL EXTENSION**

Getting from Flinders to the city is easy. And it’s about to get even easier.

Expected to be completed in 2018, a new $85-million train extension will transform travel between Flinders and the city, so you can step in and out of the Flinders environment seamlessly.

With a swift, 20-minute commute, you’ll be able to reach the city after classes to shop, eat, or catch up with friends. You can also visit Flinders at Victoria Square, an accessible and alternative space for students, staff and the general public.

---

**TONSLEY**

Tonsley is the University’s centre for innovation and entrepreneurship, and home to the School of Computer Science, Engineering and Mathematics. It is Australia’s first innovation district, with some of Adelaide’s biggest businesses and industries working alongside and with Flinders students, academics and researchers.

It is a short five-minute drive from the main Bedford Park campus. There is a free bus service that links the Bedford Park campus with the Tonsley campus and the Flinders Medical Centre.

Study areas taught at Tonsley include:
- Computing and Mathematics
- Engineering and Design
- Science

**VICTORIA SQUARE**

Victoria Square is our city location.

Situated in the centre of Adelaide’s business district, it encourages close collaboration with surrounding industry and the opportunity to develop industry links. It is an alternative location where we provide information to students and teach a selection of our courses and topics.

These include:
- Accounting
- Business and Business Administration
- Public Policy and Public Administration
- Social Work
- Law
- Health and Aged Care Administration
- Languages

Flinders University offers you an authentic on-campus student experience in a beautiful natural environment.

**BEDFORD PARK**

Flinders University’s Bedford Park campus is one of the best-kept secrets among Australian universities. It is our main teaching and research campus and is located in the stunning foothills of Adelaide, one of Lonely Planet’s Top 10 cities of the world.* The campus offers panoramic views of the central business district (CBD) to the north and a long, stretching coastline to the west.

Just 15 minutes from the beach and 20 minutes from the Adelaide city centre, Flinders is a super environment in which to study, relax and meet with friends.

Located on Sturt Road, just south of the central business district of Adelaide, the campus is well serviced by public transport and gives our students everything they need to study and relax.

The campus boasts state-of-the-art student and learning facilities (including a brand new Student Hub and Plaza), sport and fitness facilities and student accommodation – all nestled within a beautifully landscaped environment.

---

* LONELY PLANET TOP 10 CITIES OF THE WORLD TO VISIT 2014
**INNOVATION & ENTERPRISE**

**Fox School of Business**

At Flinders we prepare you for the careers of tomorrow, providing you with the ‘personal enterprise’ skills you need for the many career changes you are likely to have over your lifetime.

Flinders University offers all students the opportunity to embed innovation and enterprise topics within their degree.

At Flinders, we recognise that careers are evolving and the workplace of the future will look very different from today’s. We’re constantly fine-tuning our degrees to empower you to create the jobs of the future.

Flinders University has strong links with industry and our students learn beyond the excellent facilities on campus.

Flinders has forged strong relationships with numerous industry partners locally and internationally, with the intention of producing job-ready graduates who meet employers’ expectations.

Many of our degrees are professionally accredited by independent industry bodies including Chartered Accountants Australia and New Zealand, the Institute of Public Accountants, the Australian Human Resources Institute and the Australian Psychology Accreditation Council (APAC).

Many of our engineering degrees are accredited by Engineers Australia and the Australian Computer Society. Both bodies are signatories to international agreements allowing graduates from accredited courses to practise around the world.

Expand your learning experience and excel in a future that will be automated, globalised and collaborative, by adding innovation and enterprise topics to your degree.

For more information, visit: study.flinders.edu.au/ie

**FLINDERS NEW VENTURE INSTITUTE**

Flinders’ New Venture Institute (NVI) is the home of innovation and entrepreneurship at Flinders. Established in 2013, the NVI accelerates graduate careers across all disciplines, building entrepreneurship skills, inspiring bold new ways of thinking, educating for the careers of tomorrow and industries of the future, and connecting business, research and students.

NVI’s location at Tonsley embeds education with business and innovation, providing a catalyst to address business challenges through experiential education.

By inspiring, educating and providing invaluable industry links, NVI endeavours to create an ambitious, industry savvy community at Tonsley.

**BUSINESS**

**AUSTRALIAN FASHION LABELS**

Australian Fashion Labels (AFL) is a top fashion apparel company based in Adelaide, with over 3,000 stockists worldwide and international offices in Los Angeles and Shanghai. Flinders Business School students can undertake work placements at AFL and gain hands-on experience in public relations, social media, international marketing and accounting. Students have the opportunity to contribute to real campaigns, implementing marketing strategies, assisting with photoshoots and networking with industry professionals.

**INFORMATION TECHNOLOGY**

**CISCO AUSTRALIA**

Cisco, a worldwide leader in networking and the provider of state-of-the-art campus network infrastructure at Flinders, will support high quality research in emerging and innovative health technologies. Flinders and Cisco have also established a Cisco Academy at Tonsley, which delivers a curriculum to train students for the jobs of the future. Work in the area has the potential to radically change how people interact with health services, and how they manage and maintain their health throughout life.

**MEDICINE, HEALTH & NURSING**

**SA HEALTH**

Flinders works in partnership with the South Australian Department of Health and Ageing to provide clinical training placements to our medicine, nursing and health sciences students in hospitals and health services across South Australia, primarily through the Southern Adelaide Local Health Network (SALHN) and Country Health South Australia (CHSA). These placements ensure our students are well equipped to apply the theory they learn to patients and communities in a variety of health service settings. The Flinders School of Medicine is co-located with Flinders Medical Centre – a major South Australian hospital. This means our medical and other health students have the opportunity to be exposed to authentic, patient-centred clinical experiences from early on in their course. Rural placements are also a focus of our degrees, exposing students to a professional multidisciplinary environment where patient presentations cover a wide range of needs.

**CONNECT WITH INDUSTRY**

**8**

**9**

“*The best thing about studying at Flinders is gaining real life experience, and implementing those experiences wherever you may work.*”

Vinh Tran
Bachelor of Business
Vietnam
Flinders is committed to preparing you for a career. To explore which career best suits you and to develop the skills and knowledge required to achieve your career goals, Flinders provides you with great education opportunities that go beyond the classroom.

We provide you with dynamic learning experiences that empower you to think big and instill within you an entrepreneurial mindset that is highly sought after globally.

Our students are encouraged to pursue international exchange opportunities, integrated work placements, fieldwork opportunities and double-degree options available across a wide range of degrees.

Flinders has been awarded 4 stars for our graduate starting salaries (2016 Good Universities Guide) and our alumni are making significant contributions locally, nationally and internationally, in fields as diverse as the arts, business, sciences, humanities, linguistics, and mathematics.

**WORK INTEGRATED LEARNING**

We know that our students will have better career options if they graduate with both qualifications and work experience.

That’s why many of our degrees give you the opportunity to undertake work components and industry initiatives, and why the Careers and Employer Liaison Centre provides a comprehensive range of career resources.

Through work placements, you will spend part of your study time with industry, applying your new knowledge and testing yourself in real-world situations. These work placements give you an insight that greatly enhances both your learning and your future career prospects.

**CAREERS ADVICE ON CAMPUS**

Flinders University has a dedicated Careers and Employer Liaison team on campus who offer information, support, advice, seminars and events specific to international students. They can help you familiarise yourself with the structure, environment and expectations of the Australian workplace. These services continue to be available to you for up to eighteen months after you complete your studies.

Our team of specialist career development consultants is also available to help you:

- develop your résumé
- write application letters
- address selection criteria
- make online applications
- find your career direction
- practise interview skills
- get career advice and support

**MENTORING**

The Flinders Ignite Mentoring Program offers you a career mentor to assist you get ready for the transition from study to employment. The program enables you to expand your professional networks, develop your skills and prepare for your future career.

Find out more at flinders.edu.au/ignite

**CAREER RESOURCES FOR YOU**

- **WorkReady Program** provides an opportunity to undertake unpaid work experience and develop the skills employers want while learning about working in a professional environment.
- **Horizon Professional Development Award** provides you with a range of skill development opportunities to stand out and gain skills to become work ready.
- **Daily Jobs List** postings every week provide you with jobs from a range of sources relevant to you while you are studying and after you graduate.
- **Career development consultants** offer drop-in advisory services and job searching assistance. These services are offered in Flinders Connect.

Find out more from the careers service website: flinders.edu.au/careers

**WORK RIGHTS FOR INTERNATIONAL STUDENTS**

The Australian Government allows international students to work up to 40 hours per fortnight, and full-time during semester breaks. Work rights are granted automatically when you receive your visa. For more information, visit:

- Top 451 of universities worldwide for biological sciences

“At Flinders, we teach not just for now, but for what is coming. Our students need to be ready for employment in five years’ time. The speed of change in our range of disciplines is massive, so we need to ensure we don’t just connect to industry, we contribute to it.”

Professor John Roddick
Dean of the School of Computer Science, Engineering and Mathematics

WORLD-CLASS RESEARCH

Our courses draw on the world-class research conducted at Flinders, ensuring you are taught the latest thinking across a wide range of fields.

Flinders is home to a vibrant and constantly evolving research community. Our areas of research strength operate across a range of disciplines broadly housed under five themes: biomedical and clinical sciences; culture, policy and society; health and human behaviour; molecular science; and technology, water and environment.

Ninety percent of Flinders University’s research has been ranked world-standard or above in the Australian Federal Government’s most recent Excellence in Research for Australia assessment (2015). Flinders also appoints elite international and Australian researchers as strategic professors to sharpen the University’s research profile and build strength in areas of strategic research significance.

CONNECT
Find a computer on campus or bring your own and connect to our free, secure and fast eduroam wi-fi network.
You can also access print stations in the Hub and Library using a Mac or PC, or by connecting your device using your Unicard.

LEARN
Whether you want a quiet space for individual study, a group study area to collaborate with your peers, or a more formal meeting room with audio-visual facilities for presentations, the Hub provides flexible variety of study spaces to suit your needs.

The Hub provides easy access to the Central Library so you can research, study and relax within close reach of the resources you need. The Central Library serves the whole Flinders community, while specialist libraries act as information hubs for those studying law, legal studies, nursing and health, and our medical programs. You will find more than one million books and journals, extensive electronic collections, and a wide range of services and facilities to support your learning and research interests.

PLAY
Soak up the fresh air in the 2,000-seat terraced amphitheatre, which features a giant super screen and plays host to everything from video-game challenges to moonlight cinema and Adelaide Fringe events.

You can also relax in the Hub’s Club Lounge, where you can hang out with friends and watch TV, play Xbox or just let the rest of the University hurry by.

FLINDERS UNIVERSITY STUDENT ASSOCIATION (FUSA)
Run for students by students, the Flinders University Student Association (FUSA) develops life and culture on campus. Membership is free.

FUSA represents your rights and interests, and provides a range of services to students looking for support or advice. FUSA can help with academic support, student advocacy and financial guidance. Financial assistance through annual grants and emergency loans are available, and a range of services including casual employment placements and DVD lending are also on offer. For more information, visit: fusa.edu.au

CLUBS AND SOCIETIES
Non-sporting clubs operate under the umbrella of the Flinders University Student Association, as does the student-run magazine Empire Times.

Flinders has a range of clubs and societies to cater to your interests, whether they are related to your degree, religion, culture, political affiliation, or just for fun. Becoming a part of a club is a great way to get involved in campus life, to meet people and to gain valuable organisational experience. If you can’t find a club or society that meets your interest, start your own! For more information, visit:

fusa.edu.au/clubs

THE MUSEUM

Established as a dynamic teaching resource, the Flinders University Art Museum houses an expanding collection of art to excite your senses, inspire the imagination and foster new ways of thinking.

The museum connects with and actively engages students of all ages with its historical and contemporary collections of European Master prints, Aboriginal and Torres Strait Islander art, Australian political posters and post-object collection.

The museum serves both the University and the community through the delivery of exhibitions, public programs and research opportunities. Visit:

flinders.edu.au/artmuseum

THE STUDENT HUB & PLAZA

Designed with input from students and staff, the Student Hub and Plaza is a great place to learn, connect and play.

Your Student Hub and Plaza is the very heart of our Bedford Park campus for study, socialisation, recreation and student services.

The new Student Hub and Plaza is the very heart of our Bedford Park campus for study, socialisation, recreation and student services.

Adelaide is the capital of South Australia – a city of festivals, relaxed living and education excellence.

A HIGH STANDARD OF LIVING

Studying in Adelaide means you are also residing in one of the world’s most liveable cities. We have a relaxed, easy-going lifestyle and Adelaide has been acknowledged as Australia’s safest city. Adelaide is in the Top 5 liveable cities in the world (Global Liveability Study 2016) and one of the world’s Top 10 cities to visit (Lonely Planet 2014). Adelaide is ranked the 28th best city in the world for student living worldwide (QS Best Student Cities 2016).

AUSTRALIA’S MOST AFFORDABLE MAINLAND CAPITAL

Your money will go much further in Adelaide. Statistics show it costs around 20% less to live in Adelaide than Sydney and Melbourne.* This means more money to discover Australia during your study breaks.

*2016 ECONOMIST INTELLIGENCE UNIT

AN AUTHENTIC ‘AUSSIE’ EXPERIENCE

South Australia offers an authentic Australian experience. The state offers a mix of beautiful landscapes, sparkling beaches, rolling hills and a vibrant urban centre. Visit our world famous wine regions, the rugged Flinders Ranges, and popular metropolitan beaches, or see Australian wildlife on Kangaroo Island. All this and more is waiting for you.

STUDENT SUPPORT

Study Adelaide runs a year-long calendar of free and discounted events especially for international students. From tickets to sporting matches and arts events to employment seminars and regional tours, you can discover everything Adelaide has to offer. As soon as you arrive, you’ll be given a free welcome backpack and guide with everything you need to know about living in Adelaide. For more information, visit: studyadelaide.com

FAST FACTS

$ Most Affordable Mainland Capital City

No. 9

Lonely Planet’s Top 10 cities in the world to visit

MOST AFFORDABLE MAINLAND AUSTRALIA CAPITAL CITY

TOP 5 LIVEABLE CITIES OF THE WORLD

ADELAIDE IS AUSTRALIA’S MOST AFFORDABLE MAINLAND CAPITAL. IT COSTS AROUND 20% LESS TO LIVE IN ADELAIDE THAN SYDNEY AND MELBOURNE.*

South Australia has beautiful beaches.
ADELAIDE: A VIBRANT CITY

Enjoy a safe, relaxed lifestyle in our vibrant city.

SAFETY AND SECURITY
Safety and security is another key part of life in Adelaide. It is a relatively safe city by international standards and has been recognised as Australia’s safest city.

On campus, students are able to enjoy the safe environment provided by our 24-hour security service.

GETTING AROUND
Adelaide is well serviced by public transport, which covers the greater metropolitan region with trains, buses and trams. International students in Adelaide receive the same transport concessions as local students, saving you up to $700 per year on transport costs. A free tram and bus service runs in the Adelaide city centre.

Buses run frequently to and from Flinders University and the adjacent Flinders Medical Centre, with various routes running directly from the city and suburbs. As of 2018, a new train extension will connect Flinders to the city, making it even easier to get around.

Adelaide is also a cycling-friendly city, with a large community of cyclists and world-class cycling events. There are plenty of opportunities to buy new and second-hand bikes.

*SAFETY AND SECURITY

FESTIVALS
South Australia is often called the ‘Festival State’, and there are regular cultural and social events including WOMADelaide, the nation’s favourite outdoor world music festival, and the world-renowned Adelaide Festival and Fringes. As well as the music and multicultural events, you’ll also enjoy a number of sporting festivals including cycling’s Tour Down Under and the V8 Supercar Clipsal 500 carnival. There is something for you to enjoy year round whatever your taste! For more information visit: southaustralia.com

FOOD
South Australia has a reputation for being a food centre, with a higher ratio of cafés and restaurants to residents than any other city in Australia.

Our state is well-known for the quality of our produce – from fresh fruit and vegetables through to the finest meat and seafood.

We have a vibrant market culture. The city’s proximity to well known produce regions, such as the Barossa Valley and McLaren Vale, offers residents easy access to a number of farmers markets selling fresh seasonal and regional goods. The range of food available is also a reflection of our multicultural city. Adelaide is well-equipped for vegan and vegetarian students. There is also a range of grocery stores, restaurants, butchers and takeaway food outlets that offer Halal or Kosher food.

SHOPPING
From high-end brands to local retailers, Adelaide has a wide range of choices, making it easy to shop for any taste or budget. Westfield Marion, the biggest shopping mall in Adelaide, is located just 10 minutes from our Bedford Park campus. Rundle Mall, located in the city centre, offers a strip of pedestrianised shopping with department stores and high street brands, while the cafe lined Rundle Street is home to designer labels. Further out of the city there is a host of charming shopping streets: Norwood Parade, Unley Road and King William Road all offer the best of designer and high-street shopping.

“Adelaide is a great place to live. There is always a market or festival for me to enjoy and there are plenty of opportunities to make friends, de-stress and enjoy the beautiful surroundings Adelaide has to offer.”

Victoria Yeo
Bachelor of Clinical Sciences
Singapore

Living in Adelaide is easy. Adelaide is one of Australia’s most liveable cities and a great place to study.

Adelaide is more affordable than Sydney, Melbourne, Perth and Brisbane. It is recommended that individuals budget between $19,830 to $26,288 for annual living costs in Australia. This estimate will increase if individuals are accompanied by partners and children.

Websites to assist you in developing a budget for living costs include:

- education.gov.au/australian-postgraduate-awards

There are many direct flights into Adelaide from all around the world. Flinders University also offers a free meet-and-greet service at the airport for new international students. See page 24 for details.
ACCOMMODATION IN ADELAIDE

Flinders is the only university in Adelaide where you can choose to live on-campus. Experience all the friendship, support and social opportunities that help make Flinders such a great place to live and study.

ON-CAMPUS LIVING

The Flinders campus is safe, affordable and convenient. By living on-campus you will be part of a diverse community of students from across Australia and over 30 countries worldwide.

You have the option of living either at the catered University Hall or independently in the self-catered Deirdre Jordan Village. Both options offer academic and personal support from in-house tutors and coordinators. Public bus services run regularly to the local shopping precinct, beach and city centre.

Temporary accommodation is also available when you first arrive in Adelaide during the December to mid-February period (depending on availability).

More information and current fees can be found at: flinders.edu.au/living

UNIVERSITY HALL

The University Hall is a catered collegiate residence with a strong collegial atmosphere. The hall has accommodation for over 250 students in fully-furnished single rooms, secure storage and car parking and small communal kitchens. You can mix with other students in common areas, sporting areas, the outdoor cinema, gazebos and gardens including a landscaped central courtyard.

Cost: $395 per week for a single room, including 15 professionally prepared meals per week.*

DEIRDRE JORDAN VILLAGE

The Deirdre Jordan Village provides modern accommodation in self-catered fully-equipped units. The village also offers a range of culturally inclusive activities in the community centre for those who wish to develop a strong community atmosphere.

The village has accommodation for over 300 students, living areas (some private), landscaped gardens and outdoor areas with barbecues and secure storage and car parking. Single gender accommodation is also available.

Cost: $250 per student per week, including all utilities.*

For more information, please visit: flinders.edu.au/living

*Limits are based on 2017 rates

LIVING OFF-CAMPUS

With Flinders University's convenient location and so many transport and accommodation options available, living off-campus is easy.

Flinders Living runs a free service that lists the private rental accommodation available off-campus in the local area. They can also provide advice on your rights and responsibilities as a tenant.

For more information about the type, cost and availability of accommodation in Adelaide, please visit:

SERVICES FOR YOU

We approach our services for students in the same way that we approach our academic and research activities – with a commitment to excellence.

We realise that students who are new to Australia may need some extra support to acclimatise and start their studies confidently. We have a range of support services and resources to help you transition to a new environment.

INTERNATIONAL STUDENT SERVICES (ISS)

International Student Services (ISS), located in Flinders’ International Centre, is the first point of contact for international students. It offers a range of programs supporting your enrolment, study and social life, as well as a referral service to facilities on campus and within the local community. ISS organises a general orientation program for new international students, monthly morning teas and tours. Visit: flinders.edu.au/international/services

YOUR ARRIVAL SERVICES

Flinders University is a leading Australian university in terms of arrival support for new students from overseas. Even before you leave your home country, ISS will assist you to plan your arrival with useful information about Flinders and living in Adelaide. They will help you to settle in by connecting you with a range of on-campus support services and staff in your academic area, making your transition to Flinders as smooth as possible.

FREE MEET AND GREET SERVICE

The ISS offers a free meet-and-greet service for new international students. You will be met at Adelaide airport, the railway station or the central bus station and taken directly to your new accommodation. The service is also free for accompanying family members. To book, visit: flinders.edu.au/international/services

GETTING SETTLED

We help you to settle in here at Flinders, from arrival at the airport through to your first day on campus and beyond. There are a range of on-campus services to help you quickly settle into your new life at Flinders.

ORIENTATION

The first few days of university are exciting but can also be daunting, which is why we have a number of orientation sessions and programs to help you get used to the University community. These include the Flinders International Student Orientation (covering enrolment and important government regulations relating to your stay in Australia) and APP (a series of lectures based on academic strategies and skills). Finally, your own faculty or school will also have special induction events that will introduce you to the teaching team and help you to get to know your colleagues in class.

Our commitment to excellent student services goes well beyond helping you to settle in when you arrive. We also have a range of student services available to assist you throughout your studies. Visit: flinders.edu.au/international/services

FLINDERS CONNECT

Flinders Connect provides you with centralised access to frontline University services. With a physical location next to the new Student Hub at Bedford Park, as well as phone and online channels, Flinders Connect is an initial point of contact and first port of call for information and support services queries. The Flinders Connect team can assist you with enquiries relating to enrolments, fees, ID cards, parking permits and a range of other general enquiries.

Flinders Connect face-to-face and phone services are available Monday to Friday, 9am to 5pm. You will also have access to an easy to use online self-service area where you can search for answers on the FAQs database at any time. Visit: flinders.edu.au/flindersconnect

EMPLOYMENT AND CAREERS

Flinders has a dedicated Careers and Employment Liaison Centre on-campus, offering a number of career resources to support you. For more information, please see page 11, or visit: flinders.edu.au/careers

CHILDCARE

The Flinders University Childcare Centre offers childcare for children under school age. Community-based and not-for-profit, the centre has attained the highest level of accreditation. The experienced and qualified staff offer exceptional care and education in a nurturing and stimulating environment. Please note, places are limited and booking is essential. More information is available at: flinders.edu.au/childcare

DISABILITY SUPPORT

Flinders is committed to providing access and equity for students with disabilities and helping everyone fully participate in the academic, cultural and social life at Flinders. Our disability advisers provide a free, confidential service and are the first point of contact for students who may need assistance because of their disability. They are here to help you better access university study, act as advocates on behalf of individuals or groups, and liaise with lecturers to negotiate reasonable adjustments to teaching or assessment methods. Visit: flinders.edu.au/disability-services

HEALTH AND COUNSELLING

The Flinders University health service is a fully equipped and accredited medical centre providing a wide range of medical services. Male and female medical practitioners are available by appointment.

The free and confidential counselling service assists students who may be experiencing difficulties studying due to personal or social problems. Counsellors are available to talk to you about issues relating to study, relationships, family, or specific learning disabilities. Whatever your health and counselling needs, our psychologists and social workers can help you get back on track. Visit: flinders.edu.au/healthcounsel

International students also have access to discounted optometry services on-campus. Visit: flindersvision.com.au

OASIS

Oasis is a multifath, multicultural centre where support is provided by chaplains of all faiths to meet the spiritual and religious needs of the Flinders community. Oasis offers various forms of prayer and meditation, seminars, and study and discussion groups, as well as a drop-in centre for friendship over tea and coffee. Visit: flinders.edu.au/oasis

FAST FACTS

#1 in Australia for student support

NUMBER 3 IN AUSTRALIA for arrival support services

The Student Hub provides a flexible variety of study spaces.
ACADEMIC SUPPORT

Flinders University provides a range of support services to help students to achieve their full academic potential.

ACADEMIC SUPPORT IN CLASS

We pride ourselves on the quality of Flinders University academic staff, their expertise and knowledge. When you are learning in our environment, you are often learning from a world leader in their field.

But the quality of academic staff is not just measured in terms of knowledge. Our academics are approachable and willing to work with you to help you meet and exceed your own expectations.

STUDENT LEARNING CENTRE (SLC)

The SLC provides learning support for Flinders University students, ranging from writing and maths support to assistance with study and time-management skills. More information is available at: flinders.edu.au/slc

LIBRARY

Across our four library sites, you will find more than one million books and journals, extensive electronic collections and a wide range of services and facilities to support your learning and research interests. The main library serves the whole Flinders community while specialist libraries act as information hubs for those studying law, legal studies, nursing and health, and our medical programs. The libraries are more than collections of books – each library has study areas with dedicated internet and email workstations, computers for student work, and printing and photocopying services. The library, with its thousands of journal articles and electronic books, can be accessed online at: flinders.edu.au/library

WORLD-CLASS INFORMATION AND COMMUNICATIONS TECHNOLOGY

Flinders offers one of the fastest, most secure campus wireless networks in the Southern Hemisphere. You will have access to world-class communications technology thanks to our $14 million investment with leading international supplier, Cisco.

The system allows students and staff to connect to a high density, high speed wireless network that will support interactive student experiences, lectures by high definition video, video conferencing, stronger research capability, and enhanced social media relationships.

COMPUTER FACILITIES

Our campus is wired for 21st-century learning. You can work at your own pace anywhere in the University by accessing our many computer labs or by connecting to the University’s extensive wireless network.

FLINDERS LEARNING ONLINE (FLO)

FLO enables you to access course materials and resources, enrol or withdraw from topics, check your email accounts, and keep up-to-date with University-wide announcements. Visit: flo.flinders.edu.au

ENGLISH LANGUAGE SUPPORT PROGRAM

The Student Learning Centre (SLC) offers a free program to support Non-English Speaking Background students who need to improve their English in the academic context. More information is available at: flinders.edu.au/slc

FAST FACTS

88% student satisfaction with learning

$1 million books and journals are housed in the Flinders Library system

130,000 student learning articles and electronic books, can be accessed online at: flinders.edu.au/slc

AWARD-WINNING STUDENTS

Our students are recognised as leaders who drive positive change. The impact of their work is being felt across the globe.

Flinders University student, Dr Emmanuel Ita Bassey, beat hundreds of entrants from major South Australian universities to win South Australian International Student of the Year 2016.

The former clinician, who lost his sight to cataract disease several years ago, has established a visual rehabilitation unit in a tertiary eye hospital in Nigeria to save people travelling up to 2,000km for treatment. As well as being Medical Officer (Visual Rehabilitation) at the hospital, he is Acting Secretary of the Nigerian Computer Association of the Blind.

“Receiving this award is such an amazing honour,” Dr Bassey says.

“When I lost my sight, I couldn’t practise medicine any more and that’s why I’m in Australia to do this disability study.

Now I’ve applied to Flinders to commence a PhD in disability studies in July 2017 to continue helping Nigerians with adult-onset visual impairment and many other disabilities.”

Studying at Flinders as an Australia Awards scholar, Dr Bassey has received a letter of commendation from Flinders University Chancellor and been recognised by the Golden Key International Honours Society for academic excellence.

Vice-President and Pro Vice-Chancellor (International) Sebastian Ranseld says there are hundreds of nominations every year from across South Australia’s educational institutions for the International Awards.

“Emmanuel’s outstanding academic capabilities, and inspiring career goals and personal attributes, made him a very worthy recipient of the International Student of the Year and Academic Excellence awards this year,” Mr Ranseld says.

“Even more importantly, he will use his Flinders University study to further improve the lives of many more Nigerian people living with disabilities to reach their full potential.”

Deputy Vice-Chancellor (Students) Professor Clare Pollock with Dr Emmanuel Ita Bassey and Mrs Helen Bassey at the International Student Awards at Government House.

The different perspectives I was able to experience were the most rewarding to me. I learned how to really enjoy my time, learned so many things from the people I met, and was able to see that I had more options in what I wanted to do with my life.

Avery Cheatham
Butler University, USA

“Go for on-campus housing! You’ll meet a lot of people and it will help you adjust to the Australian culture easier! It was very easy living on campus; I lived with a lot of other [foreign] students which made it easier to make friends and meet the locals.”

Arjen van Lil, Utrecht University, Netherlands

Study Abroad and Student Exchange are short term programs that enable you to study for six to twelve months (one or two semesters) in Adelaide.

Study Abroad and Student Exchange enable you to live in a new city, enhance your career prospects, undertake professional development opportunities, experience a different culture and meet new people without interrupting your studies or career path.

STUDENT EXCHANGE
If you’re studying at one of our partner institutions, you may be eligible for the student exchange program. Contact your home institution for application information.

STUDY ABROAD
If you are not studying at a Flinders University exchange partner or currently enrolled at an overseas university, we offer you the opportunity to study on a fee paying basis. Flinders University offers multiple options to suit your academic, career and lifestyle goals.

You are required to study a minimum of three topics per semester to maintain a full-time study load. You are also able to study four or five topics per semester.

TUITION FEES
- 3 topics: $6,750 AUD
- 4 topics: $9,000 AUD
- 5 topics: $11,250 AUD

To find out more, visit: flinders.edu.au/studentexchange

Flinders University’s links span the globe. We have partnerships in areas of research, teaching and offshore delivery, and offer exchanges with over 100 institutions globally.
OUR COURSES

Flinders University offers over 170 world-class undergraduate courses across 15 study areas. The following pages provide a summary of these courses and their entry requirements. For more detailed information on our courses, visit: flinders.edu.au/courses
ARTS

Bachelor of Arts

> Course length: 3 years full-time
> Intake: Semester 1, Semester 2
> English requirements: IELTS: 6.5 (R/W/L/S)

Prerequisites: None

The Bachelor of Arts and Science is specifically designed for students who recognise that the arts and science have a lot to offer each other. This course provides you with the broadest range of disciplinary and interdisciplinary studies from across the University.

As a student, you have the flexibility to choose majors from both faculties and to tailor a program to your individual interests and career goals. This course brings together the two cultures and provides you with adaptable and analytical skills, including the ability to think creatively and solve problems.

 Majors can be taken from humanities, law, science, mathematics and social and behavioural sciences. This enables you to gain a sound understanding and knowledge of both an arts and science discipline. A variety of work-integrated learning activities provide you with the skills and experiences to prepare you for your career.

STUDY PROGRAM

First year topics may include:
- Academic and Professional Communication • Academic and Professional Numeracy • Plus a number of topics from both your arts and science majors.

CAREER OUTCOMES

Career opportunities available to graduates are varied and will depend on the majors chosen.

FURTHER STUDY

Further study options include Bachelor of Arts (Honours) and Bachelor of Sciences (Honours).

ARTS - ENHANCED PROGRAM FOR HIGH ACHIEVERS

Bachelor of Arts - Enhanced Program for High Achievers

> Course length: 3 years full-time
> Intake: Semester 1
> English requirements: IELTS: 6.5 (R/W/L/S)

Prerequisites: None

The Arts - High Achievers Program provides an environment where you can come together with students who have similar capabilities to develop your interests and share ideas. You may also be able to negotiate early access to honours-level topics with the approval of the relevant director of studies/honours coordinator.

In addition to your choice of majors and minors from the Bachelor of Arts, the High Achievers Program offers you three core topics (one in each year of the program) designed specifically for high achieving students. These topics will introduce you to inquiry and research methodologies, address broad questions affecting the modes and practices of study across arts disciplines. They will also provide you with the opportunity to develop your leadership and collaborative skills, and undertake a project in your final year.

Students will be required to maintain a Grade Point Average (GPA) of 5.0 throughout their studies. Entry into the course is restricted to students commencing at first year level.

Industry Experience: You will be assigned an academic mentor throughout the program and participate in a Work Ready Internship Program, Study Abroad Program and/or Workplace Experience and Career Development topic.

STUDY PROGRAM

The major and minor sequences are the same as for the Bachelor of Arts.

CAREER OUTCOMES

The High Achievers Program provides you with the skills and knowledge required to undertake leadership roles in your chosen career. Arts gives you excellent training in clear rigorous thinking, which is highly valued in diverse professions including public service, education and business. Potential employers include government agencies, tourism businesses, public and private companies, banks, universities, community agencies and a range of arts organisations.

FURTHER STUDY

Students can continue study at honours, Masters and research higher degree levels.

“Flinders has been so much more for me. I didn’t just study here. I engaged with all the students and the teachers to enjoy my time here. They helped me think outside the box and challenged me to get the best out of me.”

Jamila Main
Bachelor of Arts for High Achievers

Jamila was accepted into the Bachelor of Arts for High Achievers at Flinders University. The course offered her a unique educational experience that she later leveraged as a part of her studies in Canada. Her story serves as an inspiration for others who may be looking for similar opportunities to enhance their academic journey.
Accounting is the language of business and there is a great demand for graduates with accounting skills and knowledge, not only in accounting firms, but also in business generally. The Bachelor of Commerce (Accounting) prepares you for a career in accounting and business, including the analysis, interpretation and communication of financial information.

**Industry experience:** You will get an opportunity to undertake an industry placement and/or project which counts toward your degree through our Work Integrated Learning (WIL) program.

**Professional accreditation:** The accounting specialisation satisfies the admission requirements of professional bodies such as Chartered Accountants Australia and New Zealand (CAANZ) or the Institute of Public Accountants (IPA).

**Advanced Leadership:** The Bachelor of Commerce (Advanced Leadership) is designed for high achieving students demonstrating potential to attain leadership skills and work-relevant experience to make them of distinct value to employers. It includes a guaranteed industry placement, research/project topic, student conference and individual mentoring.

**STUDY PROGRAM**
- Course length: 3 years full-time
- English requirements: IELTS: 6.0 (with no skill less than 5.5)
- Intake: Semester 1 & Semester 2

**STUDY PROGRAM**
- Course length: 3 years full-time
- English requirements: IELTS: 6.0 (with no skill less than 5.5)
- Intake: Semester 1 & Semester 2

**Course topics:**
- Accounting Principles
- Economics for Business
- Foundations of Finance
- Law for Business
- Financial Markets

**CAREER OUTCOMES**
- Extensive opportunities exist for Flinders accounting graduates across the globe. They will have a strong multidisciplinary focus giving them a competitive edge in the international marketplace.
- Potential roles include accountant, auditor, business analyst, client service adviser, finance officer, investment consultant, superannuation manager and tax accountant. Employers such as accounting firms, financial management firms, investment advisory organisations and financial planning firms and government departments are all in the market for graduates with commerce degrees. Opportunities also exist for self-employment.

**FURTHER STUDY**
- You may wish to pursue further study by enrolling in a Bachelor of Commerce (Honours), Master of Business Administration or Master of Business.

**BUSINESS, COMMERCE & MANAGEMENT**

**BUSINESS**
- Bachelor of Business
- Master of Business
- Bachelor of Commerce

**FURTHER COURSE INFORMATION**
- flinders.edu.au/courses/undergrad/cockburn

**BUSINESS FINANCE**
- Bachelor of Commerce (Accounting/Finance)
- Bachelor of Commerce (Advanced Leadership and Accounting/Finance)

**CAREER OUTCOMES**
- Potential roles include accountant, auditor, business analyst, client service adviser, finance officer, investment consultant, superannuation manager and tax accountant. Employers such as accounting firms, financial management firms, investment advisory organisations and financial planning firms and government departments are all in the market for graduates with commerce degrees. Opportunities also exist for self-employment.

**FURTHER STUDY**
- You may wish to pursue further study by enrolling in a Bachelor of Commerce (Honours), Master of Business Administration or Master of Business.

**BUSINESS ECONOMICS**
- Bachelor of Commerce (Business Economics)
- Bachelor of Commerce (Advanced Leadership and Business Economics)

**CAREER OUTCOMES**
- Many key business decisions rely on a clear understanding of relevant economic concepts and principles, while business success depends heavily on timely and appropriate responses to changes in the economic environment in which a business operates. The Bachelor of Commerce (Business Economics) will help you develop as an effective manager in a rapidly changing and increasingly competitive world.

**FURTHER STUDY**
- You may wish to pursue further study to enhance your career and employment prospects. Options available include a Bachelor of Commerce (Honours) specialisation or non-specialised Master of Business Administration, Master of Business, Master of Accounting, Master of Accounting and Finance.
The Bachelor of Commerce provides a broad and flexible educational preparation for a range of professional, business related careers in private and public enterprise. It provides students with the opportunity to obtain professional knowledge in key business functions, and considerable scope for studies beyond business to broaden the overall educational experience. The Bachelor of Commerce offers specialisations in Accounting, Finance/Accounting, Business Economics, Finance and Finance/ Economics. Each of these specialisations can also be taken as an Advanced Leadership stream for applicants who meet additional entry requirements.

Industry experience: Subject to the necessary approvals, students will have the opportunity to undertake industry and/or project placements (Work Integrated Learning).

Advanced Leadership: The Bachelor of Commerce (Advanced Leadership) is designed for high achieving students demonstrating potential to attain leadership skills and work-relevant experience to make them of distinct value to employers. It includes a guaranteed industry placement, research/project topic, student conference and individual mentoring.

STUDY PROGRAM
First year core topics may include:
- Accounting Principles • Financial Accounting Processes • Introductory Macroeconomics • Foundations of Finance • Financial Markets • Management, People and Organisations • Law for Business.

As well as core topics, students have a range of other subjects to choose from which gives the choice to focus on a more generalist/commerce studies pathway, or to choose topics in a commerce-related discipline of particular interest (e.g. Accounting, Finance or Finance/Economics).

CAREER OUTCOMES
Career opportunities exist for Flinders commerce students in Australia and internationally. Graduates will have a strong multidisciplinary focus giving them a competitive edge in the international marketplace. Potential roles include client service advisor, commercial analyst, investment consultant, sales analyst and superannuation manager. Graduates hold positions across all sectors of industry and commerce, including international financial firms and the banking sector.

FURTHER STUDY
Further study opportunities include a Bachelor of Commerce (Honours), Master of Business Administration, Master of Business, Master of Accounting or Master of Accounting and Finance.

The Bachelor of Commerce (Finance/Economics) prepares students to be effective financial analysts and executives by exposing them to the Australian economic policy framework and its application to the financial services industry. The course will first introduce you to the microeconomic and macroeconomic environments in a global context, to give you a firm grasp of the rational economic decision making processes.

Industry experience: You will get an opportunity to undertake an industry placement and/or project which counts toward your degree through our Work Integrated Learning (WIL) program.

Advanced Leadership: The Bachelor of Commerce (Advanced Leadership) is designed for high achieving students demonstrating potential to attain leadership skills and work-relevant experience to make them of distinct value to employers. It includes a guaranteed industry placement, research/project topic, student conference and individual mentoring.

STUDY PROGRAM
Topics may include:
- Macroeconomics • Financial Markets • Management of Financial Institutions • International Finance • Financial Management • Investment and Portfolio Management • Corporate Finance

CAREER OUTCOMES
Graduates will have a strong multidisciplinary focus giving them a competitive edge in the international marketplace. Potential roles include client service advisor, commercial analyst, investment consultant, sales analyst and superannuation manager. Graduates hold positions across all sectors of industry and commerce, including international financial firms and the banking sector.

At Flinders we recognise that careers are evolving and the workplace of the future will look very different from the workplace of today. Our Bachelor of Business (Innovation and Enterprise) will prepare you for the jobs of the future and help you deliver enterprising solutions in a world disrupted by technological change.

As part of this degree you will receive invaluable mentorship from leading entrepreneurs, work with innovative businesses and develop your own ideas. You will immerse yourself in live industry projects with the New Venture Institute and engage with and develop your own ideas. You will immerse yourself in live industry projects with the New Venture Institute and engage with leading entrepreneurs, intrapreneur in a business.

Opportunities for further study include: Bachelor of Business (Innovation and Enterprise), Bachelor of Business (Advanced Leadership and Marketing), Bachelor of Business (Management) or Master of Accounting and Finance. You may wish to pursue further study to enhance your career and employment prospects. Options available include a Bachelor of Business (Honours) specialised or non-specialised Master of Business Administration, Master of Business, Master of Accounting or Master of Accounting and Finance.

STUDY PROGRAM
Topics may include:
- International Business Management
- Import-Export Theory and Practice
- International Human Resource Management
- International Marketing
- International Business Context

Some topics are available online.

CAREER OUTCOMES
Our business graduates work throughout the world with the range of opportunities continually expanding. Many of our graduates have gone on to reach very senior positions in both the private and public sectors internationally. Potential roles include international business manager, management trainee, business analyst, management consultant, management assistant, global digital trade facilitator, visa coordinator. Potential employers include private sector businesses, government and not for profit organisations.

CAREER OUTCOMES
Our business graduates work throughout the world with the range of opportunities continually expanding. Many of our graduates have gone on to reach very senior positions in both the private and public sectors internationally. Potential roles include business manager, management trainee, business consultant, recruitment consultant, management assistant or management analyst. Potential employers include private sector businesses, government and not for profit organisations.

STUDY PROGRAM
Topics may include:
- Accounting for Managers
- Marketing Principles
- Management, People and Organisations
- Economics for Business
- Law for Business
- Strategic Management
- Human Resource Strategy
- Change Management

Some topics are available online.

FURTHER STUDY
You may wish to pursue further study to enhance your career prospects. Options available include a Bachelor of Business (Honours) specialised or non-specialised Master of Business Administration, Master of Business, Master of Accounting or Master of Accounting and Finance.

This course builds upon the business disciplines of marketing, finance, economics, human resource management and global sustainability to provide advanced skills and knowledge specific to conducting international trade in both small-medium and large, multi-national organisations. The specialisation seeks to integrate cultural understanding with relevant professional skills.

Industry experience: You will get an opportunity to undertake an industry placement and/or project which counts toward your degree through our Work Integrated Learning (WIL) program.

Advanced Leadership: The Bachelor of Business (Advanced Leadership) is designed for high achieving students demonstrating potential to attain leadership skills and work-relevant experience to make them of distinct value to employers. It includes a guaranteed industry placement, research/project topic, student conference and individual mentoring.

STUDY PROGRAM

The Bachelor of Applied Geographical Information Systems (GIS) will give you the skills to support change and growth in some of the most important areas of modern society. It appeals to students who enjoy computing, graphics and digital mapping, and would like to use these skills to tackle real-world problems. The Bachelor of Applied Geographical Information Systems meets the growing need for specialists who know how to use those highly sophisticated systems. The course has strong support from industry for its program of study and emphasis on developing practical skills that prepare graduates for a smooth transition into the workforce. As part of the degree students also undertake a selected Bachelor of Arts major.

Industry experience: An industry placement will help you develop contacts and work skills.

STUDY PROGRAM
First year topics may include:

- Computer Programming • Introduction to Geographical Information Systems • GIS Field Camp

CAREER OUTCOMES
There is a strong demand for GIS skills across a range of areas, including biodiversity and natural resource management, urban planning, mining and exploration, archaeology, transportation, and infrastructure management. Potential employers include government, regional development centres, agriculture and natural resources management, tourism, transportation, environmental protection, and many others. Graduates also start their own companies.

FURTHER COURSE INFORMATION >>>
flinders.edu.au/courses/undergrad/bagis
CRICOS code: 052031G

Prerequisites: None

Computer science is the study and creation of computational systems as well as specialised areas such as operating systems, networks, databases, graphics, bioinformatics, data security and artificial intelligence.

By studying computer science you will gain a strong theoretical understanding and practical experience in the design of efficient, reliable software to meet industry requirements, as well as the hardware on which that software runs. There is a strong emphasis both on the fundamentals of computing and on practical skills and teamwork. You will be engaged in developing applied skills, solving practical problems and working as a part of a team.

Industry experience: In the final year you can choose to request a 12 week industry placement.

Professional accreditation: This program is accredited by the Australian Computer Society at the Professional level. Courses accredited at this level by the Australian Computer Society are recognised internationally under the Seoul Accord.

CAREER OUTCOMES
Graduates gain positions as computer programmers, software developers, business analysts, in database development and administration, hardware support, project management, sales and marketing, telecommunications, web development and security. Potential employers include public and private agencies. Many graduates also start their own companies.

FURTHER STUDY
Many students choose to continue their tertiary education by enrolling in a Bachelor of Applied Geographical Information Systems (Honours), Graduate Diploma or Masters of Information Technology, Master of Science or PhD (Research).

FURTHER COURSE INFORMATION >>>
flinders.edu.au/courses/undergrad/bctcs
flinders.edu.au/courses/undergrad/bcs
CRICOS code: 064004K, Honours - 074829U

Prerequisites: You are expected to have completed senior secondary mathematical methods/mathematical studies or equivalent.

Digital health systems are becoming ever more prominent in society, not only in hospitals and health care providers, but in personal consumables, such as fitness watches, mobile phone app pedometers, and heart rate monitors.

Digital health systems use information and communications technology (ICT) to address health problems and challenges and to assist healthcare professionals and patients to manage illnesses, reduce health risks, and promote health and wellbeing. Technologies include both hardware and software solutions and services.

The Bachelor of Information Technology (Digital Health Systems) (Honours) draws on Flinders’ strengths in medical science, health science and ICT. You will gain an understanding of the importance of information technology in both the workplace and private health domains and will have the opportunity to learn the theory behind information technology and health and put those skills into practice in the lab.

Industry experience: Industry-oriented project work is a feature of the degree and there is an opportunity to take part in an industry-based 12 week work placement.

Professional accreditation: This program is accredited by the Australian Computer Society at the Professional level. Courses accredited at this level by the Australian Computer Society are recognised internationally under the Seoul Accord.

STUDY PROGRAM
First year topics may include:

- Fundamentals of Computing • Fundamentals of Information and Communication Technology • Computer Programming • Mathematics

CAREER OUTCOMES
Graduates are prepared to use professional skills and knowledge to develop complex computer-based systems in the digital media arena for a wide range of industries and applications from computer games and graphics, animation and information visualisation to advertising, film and television.

Professional accreditation: This program is accredited by the Australian Computer Society at the Professional level. Courses accredited at this level by the Australian Computer Society are recognised internationally under the Seoul Accord.

STUDY PROGRAM
First year topics may include:

- Fundamentals of Computing • Fundamentals of Information and Communication Technology • Computer Programming • Legal and Ethical Aspects of Health Care • Health Practitioner Practice

CAREER OUTCOMES
This degree targets the new employment opportunities emerging in the fields that blend health and ICT. Potential roles include clinical analyst support officer, developer programmer, health information manager, ICT business analyst and software engineer.

FURTHER STUDY
Graduates can pursue further study by enrolling in a Master of Science (Computer Science), Graduate Diploma and Masters of Information Technology, Master or PhD (Research).

FURTHER COURSE INFORMATION >>>
flinders.edu.au/courses/undergrad/bctcsdm
flinders.edu.au/courses/undergrad/bhtdm
CRICOS code: 073346C, Honours - 074831D.

Prerequisites: You are expected to have a knowledge of senior secondary mathematical methods/mathematical studies or equivalent.

This degree prepares you for the growing and dynamic area formed by the convergence of computer science and digital media including animation, computer games, computer graphics and information visualisation. The primary focus is on providing a strong foundation in both the theoretical and the practical aspects of information technology and digital media production, including the use of advanced tools in the area. Students will be prepared to use professional skills and knowledge to develop complex computer-based systems in the digital media arena for a wide range of industries and applications from computer games and graphics, animation and information visualisation to advertising, film and television.

Professional accreditation: This program is accredited by the Australian Computer Society at the Professional level. Courses accredited at this level by the Australian Computer Society are recognised internationally under the Seoul Accord.

STUDY PROGRAM
First year topics may include:

- Fundamentals of Computing • Fundamentals of Information and Communication Technology • Essential Multimedia • Simulation and Serious Game Design • Computer Programming • Professional Skills • Convergence Cultures

CAREER OUTCOMES
Digital media is a fast growing and dynamic area of employment. Potential occupations include digital applications developer, flash developer, games programmer, web designer and digital media strategist. Potential employers include governmental and private organisations, software companies, advertising agencies, television stations, e-commerce businesses, video and sound production companies and internet service providers.

FURTHER STUDY
Graduates can further their digital media qualifications by enrolling in a Master of Science (Computer Science), Master of Science or PhD (Research).

CRICOS code: 073346C, Honours - 074831D.
Prerequisites: None

Wherever your IT interests lie, the Bachelor of Information Technology and Bachelor of Information Technology (Honours) make you ready for a career in this dynamic, rapidly changing industry. They prepare you to be flexible, adaptable to change and able to take charge in changing environments.

These courses have scientific and technical depth but will also give you knowledge and skills in areas such as management and communications. These are skills potential employers value because they need employees who understand why enterprises invest in IT infrastructure and how to successfully provide that infrastructure. These skills will also help you manage your own career.

Industry experience: Industry-oriented project work is a feature of the degrees and there is an opportunity to take part in an industry-based 12 week work placement.

Professional accreditation: This program is accredited by the Australian Computer Society at the Professional level. Courses accredited at this level by the Australian Computer Society are recognised internationally under the Seoul Accord.

STUDY PROGRAM
First year topics may include:
- Fundamentals of Computing
- Fundamentals of Information and Communication Technology
- Computer Programming
- Professional Skills

CAREER OUTCOMES
Our use of IT drives innovation and assists us to solve problems in areas such as medical research, climate change, the environment, and business. It is an area of continual growth and has become integral to everything we do. Graduates find employment in software development, applications development, customer support and services, computer systems support, network management, database administration and website development.

FURTHER STUDY
Many graduates pursue further study by enrolling in a Master of Computer Science (Computer Science), Graduate Diploma and Masters of Information Technology, Master or PhD (Research).
The Bachelor of Creative Arts is recognised as the leading program of its type in South Australia because it is based on Flinders University’s established strengths in the creative arts, as well as our commitment to offer innovative yet practical programs with extensive vocational training. We know what the arts and communications industries want because we are very much a part of them. The proof of our success is the number of graduates who have made a significant contribution to the arts in Australia and overseas.

The course has four distinct streams, each with its own program of study: Creative Writing, Digital Media, Drama and Screen.

The Bachelor of Creative Arts (Creative Writing) is popular with students who enjoy creative writing, and with employers who need skilled communicators with an eye for detail and a creative flair.

Creative Writing graduates have gone on to successfully enter the fields of publishing, journalism, marketing and public relations. They can also be found in these areas within the arts and entertainment industries.

Creative Writing in the first year: Essential Multimedia • Screen Production Techniques • Introduction to the Creative Arts • Convergence Cultures • Media and Society • Production Techniques • Performance Techniques

Career opportunities for graduates exist in areas such as advertising, arts management, communications, education, market research, public relations, radio and television, and IT or web design.

CRICOS code: Creative Writing – 043145E
Digital Media – 058429C
Drama – 048565G
Screen – 043144F

The Bachelor of Media Arts is designed to give you the practical skills and knowledge to work in the creative industries and media. The course enables you to combine practical production topics in digital media and screen production with study of other areas such as creative writing, drama, business, or visual arts. You will acquire both the practical media skills required in an ever increasing number of employment areas and an understanding of how these media skills can be applied in your related area of study.

You will obtain the skills required to produce media in a range of formats and a theoretical understanding of the function of the media industry and its relationship with other industries and areas of life. Media policy, television and factual forms and ethics topics are taught alongside the practical topics.

STUDY PROGRAM

First year topics may include: Academic and Professional Communication • Film Form and Analysis • Media and Society • Convergence Cultures

ARCHAEOLOGY
Bachelor of Archaeology

Prerequisites: None

Archeology at Flinders provides more practical experience than any other archaeology degree offered in Australia. Our Bachelor of Archaeology program is one of the few specialised degrees in Australia that will give you the comprehensive training required to pursue a career in this exciting area. It allows you to specialise in a number of fields, including human evolution, ancient civilizations, Indigenous archaeology, maritime archaeology and historical archaeology. You will also take laboratory and practical sessions that will give you experience in archaeological data analysis and interpretation. Volunteer experience in archeology can even be credited towards your degree through the topic: Archaeology in the Field.

STUDY PROGRAM
First year topics may include: Discovering Archeology • From the Palaeolithic to Pompeii: An Exploration of World Archaeology • Sex, Death and Ritual Production, and Masters or PhD (Research).

CAREER OUTCOMES
This course prepares you for a professional career in archeology or related areas, making you suitable for jobs throughout the globe in research, policy development, consulting, laboratory research, hands-on surveying and excavation. Potential roles include an archaeological consultant, laboratory scientist, conservator, museum or gallery curator, museum education officer, higher education lecturer, tourism officer, archivist and cartographer. Potential employers include independent archaeological consultants, heritage agencies, museums, academic institutions, CSIRO, the public service, wildlife services and sanctuaries.

FURTHER STUDY
Many of our archeology graduates pursue further study. Options include the Graduate Certificate, Graduate Diploma and Masters programs in Archaeology and Heritage Management, Maritime Archaeology, Geospatial Information Science, Screen and Media Production, and Masters or PhD (Research).

FURTHER COURSE INFORMATION

I loved the field schools, which are unique to Flinders. Archaeology is a discipline where you need to get dirt under your fingernails. Flinders University taught me to never take things at face value and gave me the tools to investigate, research, and dig deeper.”

Toni Massey
Archaeology graduate

COMMUNICATIONS AND PROFESSIONAL WRITING
Bachelor of Communications and Professional Writing

Prerequisites: None

The Bachelor of International Tourism is an industry focused award, training graduates for diverse roles across a wide ranging and constantly evolving industry. As a service industry, tourism is rapidly expanding as a reflection of the increasing mobility of the world’s population and a continuing need for refinement and reinvention. Whether graduates work with festivals and events, tour companies, museums, art galleries or visitor information centres, an understanding and appreciation of the arts, culture and history is needed. You will complete a common core component of tourism and business topics as well as choosing from one of the following areas of specialisation: Cultural Tourism, Festival and Event Design and Management or Nature Based Tourism. Our teaching staff have relevant academic standing and contemporary industry experience – a winning combination that creates an excellent learning environment. Industry support for Flinders tourism degrees is also very strong.

CAREER OUTCOMES
The Bachelor of International Tourism is an industry focused degree which trains graduates for employment in a wide range of positions in what is a very diverse international industry. Potential roles include ecotourism officer, events and tourism coordinator, wildlife tourism manager, tourism policy and project officer, museum guide, travel consultant and recreation and trails officer. Our graduates find jobs with tour companies, museums, public attractions, event management consultancies, art galleries, festival organisations, large commercial organisations, exhibition centres, visitors information centres and government.

FURTHER STUDY
Further study opportunities include a Graduate Certificate, Graduate Diploma or Masters in Tourism. Graduates can also apply for the Graduate Certificate, Graduate Diploma or Masters in Screen and Media Production.

Languages Bachelor of Languages

The Bachelor of Languages prepares you for work in the increasingly international workplace of the 21st Century. You will focus your studies on one of the offered target languages: French, Indonesian, Italian, Modern Greek and Spanish. Majors are also available in all languages, including Chinese, Japanese and German. You can also undertake a major or minor in Applied Linguistics, English or Creative Writing, or a minor in Teaching English as a Second Language.

Study Program

In First Year you will take classes in your chosen language and learn about the nature and functions of language, as well as acquiring strategies to reinforce language learning. You may also study two electives from the Bachelor of Arts program. In Second Year you will study a number of cognate topics in addition to your chosen languages providing you with greater cultural awareness and linguistic knowledge. In Third Year you will be given the opportunity either to study abroad or undertake relevant community-based placements locally for credit towards your degree.

Career Outcomes

With the internationalisation of the job market, graduates with a qualification in a foreign language will have greater employment opportunities both in Australia and overseas. Potential roles include language teacher, communications specialist, immigration officer, international student advisor, interpreter, linguistic/multicultural service officer, translator and travel consultant. Potential areas of employment include tourism agencies, foreign language teaching, international trade, finance and commerce, diplomatic and defence agencies, translating services, and international development.

Further Study

Graduates can pursue further study in enrolling in programs such as a Bachelor of Arts (Honours), Bachelor of International Studies (Honours), Graduate Certificate or Graduate Diploma in Language Teaching and a Master of Language Studies.

Further Course Information >> flinders.edu.au/courses/undergrad/blang CRICOS code: 069017K

Theology Bachelor of Theology

Prerequisites: None

The Bachelor of Theology is an opportunity to study one of the oldest worldwide disciplines of intellectual inquiry. At the centre of this undergraduate degree is examining Christian faith, Christian traditions, the basis of its practices and liturgy. The course is structured as an ecumenical program of study with some topics offering the opportunity to focus on particular faiths. This course includes biblical studies, Christian education, church history and missiology. Topics consider the social and cultural contexts of the Christian traditions including languages and literary source documents.

Study Program

First year topics may include: Interpreting the Old Testament • Interpreting the New Testament • Introduction to Christian Thought • Introduction to Christian Leadership

Career Outcomes

Combined with further professional training, this degree can lead to various forms of ministry and prepares you for a variety of roles within a church community or to fill part of your ordination requirements. Potential roles include advocacy support worker, chaplain, community development worker, and community visitor, minister, welfare officer, writer/author/editor and youth worker.

Further Study

Further study options include a Graduate Certificate/Graduate Diploma, Master of Theological Studies, Master of Theology or a PhD (Research).

Further Course Information >> flinders.edu.au/courses/undergrad/bth CRICOS code: 039962F

Early Childhood and Special Education/Disability Studies Bachelor of Education (Early Childhood and Special Education)/Bachelor of Disability Studies

Prerequisites: None

Note: As per Australian Government regulations, courses that have a placement involving contact with children, young people and/or vulnerable adults, will require students to undergo a Child-Related Employment Screening. For this course, this must be done prior to placement in Semester 1. Students will also be required to undertake the Mandatory Notification Course. Refer to flinders.edu.au/ehl/education/professional-experience/preparation-for-placement/obtain.cfm for further details.

The Bachelor of Education (Early Childhood and Special Education)/Bachelor of Disability Studies prepares you to become a teacher of children aged up to eight years of age in a range of community settings. This degree also prepares students for a range of professional roles related to supporting young children with disabilities and/or learning difficulties and their families within the broader community.

Industry experience: Through professional experience placements in early childhood settings and in the disability service sector, you will be able to combine your theory knowledge with your curriculum studies and put them into practice.

Professional accreditation: Graduates can apply for registration with the Teachers Registration Board of South Australia, interstate and some overseas countries (exact requirements may vary). Students completing the double degrees in Education and Disability and Community Inclusion (Disability Studies) are eligible to register as a Developmental Educator with Developmental Educators Australia Inc. See www.deai.com.au for further information.

Study Program

First year topics may include: Teaching and Educational Contexts • Communication and Language • Foundations of Special Education • Social Learning and Development • Play, Learning and Development

Career Outcomes

Although the majority of education graduates go on to employment as a teacher in the public or private sector, some choose to follow other pathways. Graduates include community education officer, developmental educator, education and engagement officer and welfare worker. Potential employers include childcare centres, kindergartens, early learning centres, junior primary schools, and other associated settings.

Further Study

You can continue study after completing your undergraduate degree by pursuing a Bachelor of Education (Honours), Graduate Certificate and Masters in Education specialisations, Masters of Business Administration (Education).

Further Course Information >> flinders.edu.au/courses/undergrad/bedecba CRICOS code: 058431J

Prerequisites: None

Note: As per Australian Government regulations, courses that have a placement involving contact with children, young people and/or vulnerable adults, will require students to undergo a Child-Related Employment Screening. For this course, this must be done prior to placement in Semester 1. Students will also be required to undertake the Mandatory Notification Course. Refer to flinders.edu.au/ehl/education/professional-experience/preparation-for-placement/obtain.cfm for further details.

The Bachelor of Education (Early Childhood) Bachelor of Arts prepares you to become a teacher of children up to eight years of age in a range of community settings. You will choose one Bachelor of Arts major while acquiring knowledge about young children, their families and the community services that provide for their care and education.

Industry experience: Through professional experience placements in early childhood settings, you will be able to combine your theory knowledge with your Bachelor of Arts major and put them into practice.

Professional accreditation: Graduates can apply for registration with the Teachers Registration Board of South Australia, interstate and some overseas countries (exact requirements may vary).

Study Program

First year topics may include: Teaching and Educational Contexts • Play, Learning and Development • Plus Arts major and elective topics • Plus Arts minor topics

Career Outcomes

Although the majority of education graduates go on to employment as a teacher in the public or private sector, some choose to follow other pathways. Graduates include community education officer, developmental educator, education and engagement officer and welfare worker. Potential employers include childcare centres, kindergartens, early learning centres, junior primary schools, and other associated settings.

Further Study

You can continue study after completing your undergraduate degree by pursuing a Bachelor of Education (Honours), Bachelor of Arts (Honours), Graduate Certificate and Masters in Education specialisations, Master of Business Administration (Education).

Further Course Information >> flinders.edu.au/courses/undergrad/bedecba CRICOS code: 058431J
The Bachelor of Education (Primary R-7)/Bachelor of Arts will prepare you to teach the key learning areas in primary schools. You will receive the breadth and depth of knowledge necessary to become a primary school teacher, with specialisations in one major area chosen from the Bachelor of Arts program.

Industry experience: The course gives you the opportunity to undertake professional experience placements in primary schools where you can put your skills and knowledge into practice as a student teacher.

Professional accreditation: Graduates can apply for registration with the Teachers Registration Board of South Australia, interstate and some overseas countries (exact requirements may vary).

First year topics may include:
- Communication and Language
- Human Diversity
- Foundations of Special Education
- Teaching and Educational Contexts
- Perspectives of Disability and Rehabilitation
- Lifespan Development

CAREER OUTCOMES
Our graduates find positions in government and independent primary schools. Your Bachelor of Arts will also make you suitable for positions in a range of government and private industry settings.

FURTHER STUDY
You can continue study after completing your undergraduate degree by pursuing a Bachelor of Education (Honours), Bachelor of Arts (Honours), Graduate Certificate and Masters in Education specialisations, Master Business Administration (Education).

FURTHER COURSE INFORMATION

flinders.edu.au/courses/undergrad/bedba
CRICOS code: 051683A

The Bachelor of Education (Primary R-7)/Bachelor of General Science will provide you with the background and skills necessary to teach in primary schools, from reception to year seven, with confidence and competence. This new course also allows you to specialise in two broad science areas together with science electives. This will enable you to build up knowledge and skills across science disciplines at a much broader level suitable for teaching science within a primary school context.

Industry experience: The course gives you the opportunity to undertake professional experience placements in primary schools where you can put your skills and knowledge into practice as a student teacher.

Professional accreditation: Graduates can apply for registration with the Teachers Registration Board of South Australia, interstate and some overseas countries (exact requirements may vary).

STUDY PROGRAM
First year topics may include:
- Teaching and Educational Contexts
- Plus Arts major and elective topics
- Plus Arts minor topics

CAREER OUTCOMES
Our graduates find positions in government and independent primary schools. Your Bachelor of Science will also make you suitable for positions in a range of government and private industry settings.

FURTHER STUDY
You can continue study after completing your undergraduate degree by pursuing a Bachelor of Education (Honours), Bachelor of Arts (Honours), Graduate Certificate and Masters in Education specialisations, Master Business Administration (Education).

FURTHER COURSE INFORMATION

flinders.edu.au/courses/undergrad/bedbgcs
CRICOS code: 088515A

The Bachelor of Education (Secondary)/Bachelor of Arts provides study in the appropriate disciplines that are taught in middle or secondary schools. On successful completion of this double degree you will be able to teach in middle and secondary school subjects such as general science, English, drama, mathematics, health education, biology, earth sciences, languages other than English, information technology, business education, geography, history, legal studies, psychology and visual arts.

Industry experience: You will be given the opportunity for professional experience as a student teacher in a middle or secondary school environment.

Professional accreditation: Graduates can apply for registration with the Teachers Registration Board of South Australia, interstate and some overseas countries (exact requirements may vary).

STUDY PROGRAM
First year topics may include:
- Teaching and Educational Contexts
- Plus Teaching major/minor topics
- Plus Arts major topics

CAREER OUTCOMES
Our graduates find positions in government and independent primary and secondary schools. Your Bachelor of Science will also make you suitable for positions in a range of government and private industry settings.

FURTHER STUDY
You can continue study after completing your undergraduate degree by pursuing a Bachelor of Education (Honours), Graduate Certificate and Masters in Education specialisations, Master of Business Administration (Education).

**EDUCATION (SECONDARY)/HEALTH SCIENCES**
Bachelor of Education (Secondary)/Bachelor of Health Sciences

- Course length: 4 years full-time
- Intake: Semester 1
- English requirements: IELTS: 7.5 (7.0 in reading and writing), PTE: 65 (see pg 94)
- Professional accreditation

**STUDY PROGRAM**
First year topics may include:
- Health Practitioner Practice
- Middle Schooling Philosophy and Pedagogy
- Health Promotion for Health Professionals

**CAREER OUTCOMES**
Our graduates find positions in government and independent primary and secondary schools. Your Bachelor of Health Sciences will also make you suitable for positions in a range of government, health and private industry settings.

**FURTHER STUDY**
You can continue study after completing your undergraduate degree by pursuing a Bachelor of Education (Honours), Graduate Certificate and Masters in Education specialisations, Master Business Administration (Education).

**EDUCATION (SECONDARY)/SCIENCE**
Bachelor of Education (Secondary)/Bachelor of Science

- Course length: 4 years full-time
- Intake: Semester 1
- English requirements: IELTS: 7.0 (7.0 in reading and writing), PTE: 65 (see pg 94)
- Professional accreditation

**STUDY PROGRAM**
First year topics may include:
- Teaching and Educational Contexts
- Teaching Area topics or Science elective topics

**CAREER OUTCOMES**
Our graduates find positions in government and independent primary and secondary schools. This double degree prepares you to be a scientist in a particular field of endeavour and to adapt the scientific skills to a broad range of careers in addition to the teaching profession.

**FURTHER STUDY**
You can continue study after completing your undergraduate degree by pursuing a Bachelor of Education (Honours), Graduate Certificate and Masters in Education specialisations, Master Business Administration (Education).

**EDUCATION (SECONDARY)/SPECIAL EDUCATION**
Bachelor of Education (Secondary)/Bachelor of Special Education

- Course length: 4 years full-time
- Intake: Semester 1
- English requirements: IELTS: 7.5 (7.0 in reading and writing), PTE: 65 (see pg 94)
- Professional accreditation

**STUDY PROGRAM**
First year topics may include:
- Communication and Language
- Foundations of Special Education
- Teaching and Educational Contexts
- Perspectives of Disability and Rehabilitation
- Lifespan Development

**CAREER OUTCOMES**
This double degree will allow you to become qualified for employment in either general education, special education, or disability services settings as there is an increasing need for teachers qualified to work in highly specialised educational settings internationally. Graduates can also work in the disability services sector as a Developmental Educator.

**FURTHER STUDY**
You can continue study after completing your undergraduate degree by pursuing a Bachelor of Education (Honours), Graduate Certificate and Masters in Education specialisations, Master Business Administration (Education).

**DESIGN AND TECHNOLOGY INNOVATION**

Bachelor of Design and Technology Innovation

- **Course length:** 4 years full-time
- **Intake:** Semester 1 • Semester 2
- **English requirements:** IELTS: 6 (S:6 • W:6)
- **Opportunity for industry experience:** 20 weeks industry placement
- **2018 fee:** AUD$32,200
- **Prerequisites:** None

**Design and Technology Innovation is concerned with problem solving, solving user’s needs through design and is a great profession for both men and women. It aims to solve the problems that people have, using engineering, science and technology, as well as marketing and innovation, focusing on:**

- **Design**
- **Innovation**
- **Technology**

The Bachelor of Design and Technology Innovation equips you with an understanding of both the process of design and the management of innovation, as well as giving you a background in a science or engineering discipline to attach these skills to. You will be able to contribute to design, innovation and technology commercialisation in an organisation, to carry out management tasks in a science or engineering–based enterprise, and to understand a company’s strategic development of competitive products and services.

**Industry experience:** In the final year you can choose to request a 12 week industry placement. With the permission of the Director of Studies, students may replace the Design Studio topic with Workplace Preparation and a Design and Technology Innovation Practicum.

**Professional accreditation:** Graduates of this program are eligible for Associate Membership of the Design Institute of Australia.

**STUDY PROGRAM**

First year topics may include:

- **Design Communication**
- **Professional Skills**
- **Engineering Design**
- **Entrepreneurial Thinking**
- **Science and Technology Development**

**CAREER OUTCOMES**

Graduates of this program are eligible for Associate Membership of the Design Institute of Australia. Graduates may choose to continue their tertiary education by undertaking a Masters in Engineering (Biomedical) or PhD (Research).

**FURTHER COURSE INFORMATION >> flinders.edu.au/courses/undergrad/bdesign CRICOS code: 083438E**

---

**ENGINEERING (BIOMEDICAL)**

Bachelor of Engineering (Biomedical) (Honours)

- **Course length:** 4 years full-time
- **Intake:** Semester 1 • Semester 2
- **English requirements:** IELTS: 6 (S:6 • W:6)
- **Opportunity for industry experience:** 10 weeks industrial placement
- **2018 fee:** AUD$32,200
- **Prerequisites:** You are expected to have completed senior secondary or equivalent mathematical methods/mathematical studies or equivalent. Knowledge of senior secondary physics is assumed.

**Biomedical engineering involves using electronics, mechanics and computer systems to improve health care and health services to enhance the quality of human life. The Bachelor of Engineering (Biomedical) (Honours) equips you with the skills to investigate, plan, design, manufacture and maintain systems and equipment that are used in all aspects of health care. You will gain a solid education in both engineering and medical science. Throughout the course there is a strong emphasis on practical skills and teamwork. You will be able to choose a course of study with either an electronics or mechanics focus. Fourth Year includes an honours thesis.**

**Industry experience:** You will also undertake Flinders University’s nationally recognised 20 week industry placement.

**Professional accreditation:** This program is fully accredited by Engineers Australia at the level of professional engineer. Professional engineering courses accredited by Engineers Australia are recognised internationally under the Washington Accord. Graduates meet the academic requirements for attainment of Chartered Professional Engineer status.

**STUDY PROGRAM**

First year topics may include:

- **Mathematics**
- **How Your Body Works: Human Physiology and Structure**
- **Engineering Physics and Materials**
- **Engineering Mechanics**
- **Electronics**
- **Professional Skills**
- **Engineering Programming**

**CAREER OUTCOMES**

Graduates often work in multidisciplinary teams with health professionals and medical specialists and may find themselves in a variety of areas including the design and production of diagnostic and therapeutic medical equipment in hospitals, devices to assist in home-based health care and rehabilitation, and sensory and control systems. Potential roles include biomedical engineer, medical device assessor, clinical support specialist consultant and field service engineer. Employers include hospital trusts, medical equipment manufacturers, university research departments, other research units and rehabilitation or health charities.

**FURTHER STUDY**

Enhance your career prospects by pursuing further study with a Masters in Engineering (Biomedical) or PhD (Research).

**FURTHER COURSE INFORMATION >> flinders.edu.au/courses/undergrad/bengb CRICOS code: 083439D**
The Bachelor of Engineering (Biomedical) (Honours)/M.Eng (Biomedical) is a double degree combination that allows high achieving students to undertake what is normally a six-year course of study in only five years. You will gain a solid education in both engineering and medical science with a strong emphasis on practical skills and teamwork. In addition to equipping you with the skills to investigate, plan, design, manufacture and maintain systems and equipment that are used in all aspects of health care, this degree includes further medical topics and more advanced topics in biomedical engineering.

**CAREER OUTCOMES**

Graduates often work in multidisciplinary teams with health professionals and medical specialists and may find themselves in a variety of areas including the design and production of diagnostic and therapeutic medical equipment in hospitals, devices to assist in home-based health care and rehabilitation, and sensory and control systems. Potential roles include biomedical engineer, medical device design support specialist consultant, field service engineer, pathology and specialist purchaser, pediatric product educator/biomedical. Employers include hospital trust, medical equipment manufacturers, university research departments, rehabilitation or health charities and other research units.

**FURTHER STUDY**

Graduates can seek further study by pursuing a PhD (Research).

**The Bachelor of Engineering (Civil) (Honours) at Flinders is designed to teach you to develop technical, creative and innovative solutions to civil engineering problems, taking into account social, economic and environmental implications. Students graduate with a broad focus on civil engineering degree that may lead to employment in the construction industry, design consultancies, government agencies, local government and related areas.**

**INDUSTRY EXPERIENCE**

The course lets you participate in Flinders University’s nationally recognised 20 week industry placement program.

**STUDY PROGRAM**

First year topics may include:

- Electronics • Engineering Physics and Materials • Engineering Design • Professional Skills • Mathematics

The first year for most Bachelor of Engineering awards is common allowing students to transfer between courses with no loss of time or credit.

**CAREER OUTCOMES**

Civil engineers are currently in high demand and this degree prepares you for a career as a professional civil engineer in design consultancies, government agencies, the construction industry, mining industry or related areas.

**FURTHER STUDY**

Graduates can pursue further study by undertaking a Master of Engineering or PhD (Research).

**FURTHER COURSE INFORMATION >> flinders.edu.au/courses/undergrad/bengcv**

**CIRCCOS code:** 083443G

---

**The Bachelor of Engineering (Electrical) (Honours) produces well-rounded electrical engineers capable of working across the industry, and the Flinders’ award focuses on its particular strengths and targets two specific niche areas: Renewable Energy Systems, including the development of renewable technologies such as wind farms; and Electrical Drive Systems, including those used on marine vessels (vessels and submarines) and emission-free vehicles. Electrical engineering links directly with mechanical and electronics engineering in fields such as ship building, renewable energy systems, and aerospace generally.**

**INDUSTRY EXPERIENCE**

Through our close relationships with a number of private sector and government organisations you will also undertake Flinders University’s nationally recognised 20 week industry placement.

**STUDY PROGRAM**

First year topics may include:

- Electronics • Engineering Physics and Materials • Engineering Design • Professional Skills • Mathematics

The first year for most Bachelor of Engineering awards is common allowing students to transfer between courses with no loss of time or credit.

**CAREER OUTCOMES**

The Bachelor of Engineering (Electrical) (Honours) produces well-rounded electrical engineers capable of working across the industry, and the Flinders’ award focuses on its particular strengths and targets two specific niche areas: Renewable Energy Systems, including the development of renewable technologies such as wind farms; and Electrical Drive Systems, including those used on marine vessels (vessels and submarines) and emission-free vehicles. Electrical engineering links directly with mechanical and electronics engineering in fields such as ship building, renewable energy systems, and aerospace generally.

**CAREER OUTCOMES**

There is already a substantial shortage of professional electrical engineers worldwide and this demand is increasing. It was the industry demand for professional electrical engineers that contributed to the development of this new award at Flinders. Potential employers include the mining industry, as well as construction companies and government.

**FURTHER STUDY**

Graduates can pursue further study by undertaking a Master of Engineering or PhD (Research).

**FURTHER COURSE INFORMATION >> flinders.edu.au/courses/undergrad/bengelec**

**CIRCCOS code:** 083443G
Robotic engineering is the design, development and application of robots in fields as diverse as manufacturing, mining and medicine. Robotics and robotic technologies are more in demand than ever. Ideal substitutes in potentially hazardous situations, robotic technology can be harnessed to fix satellites in space, perform underwater surveys, help in mining explorations, clean up nuclear waste or operate in security situations. They can also be used in remote control surgery or health care related areas. The Bachelor of Engineering (Robotics) (Honours) teaches you about the science and technology of designing, developing and applying robots in a wide range of fields. You can choose to focus on intelligent robotics or mechatronics and will undertake a major robotics research project in your final year.

Industry experience: You will undertake a 20 week industry placement in third year.

Professional experience: This program is fully accredited by Engineers Australia at the level of professional engineer. Professional engineering courses accredited by Engineers Australia are recognised internationally under the Washington Accord. Graduates meet the academic requirements for attaining chartered professional engineering status.

STUDY PROGRAM
First year topics may include:
- Electronics • Engineering Physics and Materials • Engineering Design • Professional Skills • Mathematics

The first year for most Bachelor of Engineering awards is common allowing students to transfer between courses with no loss of time or credit.

CAREER OUTCOMES
Robotics engineers are in high demand in the automotive, electronic and defence sectors. Potential roles include applications engineer, high speed instrumentation, mechatronic engineer, network engineer, patent examiner, project engineering office, robotics engineer, robotics sensor integration specialist, systems engineer and technical sales executive.

FURTHER STUDY
You can enhance your career prospects by undertaking further study. Options include a Master of Engineering or PhD (Research).

The Bachelor of Engineering (Software) (Honours) is a future-oriented course that enables you to choose either an electronics or computer science focus. It provides you with a solid foundation in the technical and professional knowledge and skills required to pursue a successful career, as well as recognising that in a fast-moving modern world you need to be professionally mobile and flexible. There is a strong emphasis on practical skills and teamwork and you will develop technical skills in programming, database systems, microcomputers and computer networks.

First year topics may include:
- Fundamentals of Computing • Computer Programming • Electronics • Engineering Physics and Materials • Professional Skills • Mathematics

The first year for most Bachelor of Engineering awards is common allowing students to transfer between courses with no loss of time or credit.

CAREER OUTCOMES
This course gives you the all-round skills required to work in a variety of positions including software engineer, software developer, associate consultant, graduate engineer, research and development graduate, and software business entrepreneur.

FURTHER STUDY
You can enhance your career prospects by undertaking further study. Options include a Master of Engineering or PhD (Research).

The Bachelor of Engineering Science is a pathway to a Bachelor of Engineering degree and equips graduates with the foundations for further study in engineering or for a career in an engineering-related field. It is a highly flexible degree enabling you to choose a course of study with a focus on either biomedical, civil, electrical and electronics, mechanical or software engineering. As such, it enables students performing well in this award to transfer to any of the four-year Bachelor of Engineering awards. It has no formal prerequisites, and thus is the ideal course for students who may need further preparatory study before entering a Bachelor of Engineering degree.

Industry experience: There is an opportunity to undertake a 20 week industry placement in third year.

CAREER OUTCOMES
Graduates obtain employment in sectors such as telecommunications, robotics, automotive electronics, smart instrumentation, security and defence. Potential roles include engineering officer, recruitment consultant, high speed instrumentation officer, production technician, project officer, research technician, scientific officer, technical officer, technical sales executive, technical specialist (electronics) and technologist.

FURTHER STUDY
Further study available includes Bachelor of Engineering (Biomedical) (Honours), Engineering (Civil) (Honours), Engineering (Computer and Network Systems) (Honours), Engineering (Electrical) (Honours), Engineering (Electronics) (Honours), Engineering (Mechanical) (Honours), Engineering Robotics (Honours), Engineering (Software) (Honours), Graduate Diploma of Engineering Science, Master of Engineering or PhD (Research).

The Bachelor of Public Administration is a unique degree in Australia, developed in consultation with senior public sector leaders. It will equip you to understand the dynamics of public policy and management by studying how policy shapes the world we live in, and how policy makers, politicians and non-governmental organisations shape the way resources are controlled. The big decisions that affect our lives - global warming, poverty, inequality, economic crises - all start from debates about policy. You will also gain an advanced understanding of how government works, the role of the public sector, policy analysis and the effective use of ideas and resources. 

**Industry experience:** A range of internship opportunities exist within this program, including the specific work placement topic; the South Australian Parliamentary Internship, the Australian Internship Program in Canberra managed by the Australian National University and the South Australian Cabinet Office Internship.

**STUDY PROGRAM**

Core topics include: Introduction to Democracy and Government, Management, People and Organisations, Government, Business and Society.

**CAREER OUTCOMES**

This degree gives you the gateway to the world's largest employer – the public sector. Potential roles include policy analyst, event manager, human resources consultant, ministerial advisor, project officer and social policy researcher. Graduates may enter such fields as policy analysis and advice, public administration, research, corporate communications, foreign affairs, intelligence, journalism, management, the parliamentary sector, and social analysis.

**FURTHER STUDY**

Opportunities for further study include: Bachelor of Arts (Honours), Graduate Program in Public Administration, Master of Public Policy and Management.

**INTERNATIONAL RELATIONS**

Bachelor of International Relations

**Course length:** 3 years full-time

**Intake:** Semester 1 + Semester 2

**English requirements:** IELTS: 6 (5.5-6.0) • PTE: 50* (see pg 94)

**FURTHER COURSE INFORMATION >>**

flinders.edu.au/courses/undergrad/bintr

CRICOS code: 088239E

Prerequisites: None

By studying International Relations at Flinders, you will gain an understanding of the political, social, cultural and strategic relations within the global community and how these translate into policy areas such as security, trade, economic development, tourism, foreign affairs, education, migration, human rights and environmental protection.

The Bachelor of International Relations focuses on the disciplinary strengths of history and international relations. Each discipline brings part of the international scene into sharp focus, whether that be Australia’s relationship with the United States, diplomacy in Asia or the impact of globalisation on the world, issues arising in developing economies and societies, the history of those and other nations, and how that history impacts on the ways these nations interact.

**Industry experience:** Internship opportunities for Bachelor of International Relations students include the unique and unparalleled Washington Internship Program, and an exciting new internship with the U.S. Consulate General in Melbourne, Australia.

**STUDY PROGRAM**

Core topics include: History’s Killing Fields • International Relations: An Introduction • Debating Human Rights • Food Security • Global Inequality • Australian Foreign Policy

Enhance your Bachelor of International Relations degree by combining it with another degree such as the Bachelor of Arts, Business, Criminology, Languages, or Laws and Legal Practice.

**CAREER OUTCOMES**

International Relations is a growth area, with high demand for graduates who can lead, analyse and pre-empt movements within the political arena. As well as specific skills, you will develop enhanced general skills relevant to many jobs. Potential roles include community relations officer, customs intelligence analyst, volunteer engagement officer, international support officer and policy risk analyst. Our graduates are employed in areas including international government and non-government organisations, diplomacy, foreign affairs, defence, intelligence, foreign aid, humanitarian services, politics, education, language services and media.

**FURTHER STUDY**

You can enhance your career prospects by undertaking a Bachelor of International Relations (Honours), Graduate Certificate, Graduate Diploma or Masters program in International Relations, or International Development, Masters or PhD (Research).

CRICOS code: 091862M

Prerequisites: None

Note: As per Australian Government regulations, courses that have a placement involving contact with children, young people and/or vulnerable adults, will require students to annually undergo all three National Criminal History Record Checks prior to placement.

This degree is a multi-faceted program that addresses health, communication, psychological, community development, leisure and educational issues. The course prepares you to work in multidisciplinary teams to support people living with a disability to grow as individuals and achieve their personal goals. Theory and practice are closely interwoven to enable you to become an efficient and effective Developmental Educator. Students undertake a practicum placement with one of the University’s affiliated programs during the course of their study. This course enables you to develop specialist human service skills in areas including developmental education, counselling, rehabilitation, behaviour support, case management, skill development and individual support. It is multidisciplinary in content with contributions from psychology, philosophy, sociology, health, rehabilitation and special education.

**Industry experience:** Students complete a minimum of four supervised placements across a range of disability settings (totalling a minimum of 535 hours), with opportunities for overseas placements.

**Professional accreditation:** Graduates are eligible for full membership with the Developmental Educators Australia Inc. (DEAI).

**STUDY PROGRAM**

First year topics may include: Perspectives of Disability and Rehabilitation • Lifespan Development • Health Issues and Disability • Human Diversity • Interpersonal and Group Skills • Communication and Language • Introduction to Neurological Rehabilitation

**CAREER OUTCOMES**

Graduates can work as Developmental Educators, case managers, disability liaison officers, service coordinators, welfare officers, social and community workers, counsellors, administrative managers and employment placement consultants. Potential employers include disability support services, schools or educational facilities, allied health facilities, government and non-government agencies worldwide.

**FURTHER STUDY**

You can continue study after completing your undergraduate degree by enrolling in a Graduate Certificate or Master of Disability Policy and Practice or PhD (Research).

Prerequisites: None. Knowledge of SACE stage 2 biology or equivalent is assumed

The Bachelor of Exercise Science is a multidisciplinary program that will provide students with the skills and knowledge to practice in a variety of settings such as hospitals, community health units, workplaces, and gyms.

Students are provided with core and foundation knowledge of human structure, function and behaviour then will apply this knowledge to a variety of exercise based scenarios as a means of improving performance across a variety of interdisciplinary health settings.

The program includes a compulsory 140 hour placement/practicum, preparing you with interdisciplinary skills and knowledge of exercise and a healthy lifestyle in the contexts of elite sport, recreational physical activity, community health and well being that prepares you for the workplace.

**Industry experience:** 140 hours of valuable industry-based work experience.

**Professional accreditation:** Students who successfully complete the Bachelor of Exercise Science will be eligible to apply for membership with Exercise and Sport Science Australia as an exercise scientist.

**STUDY PROGRAM**

First year topics may include: Fundamentals of Exercise Science • Human Bioscience • Molecular Basis of Life • Exercise and Muscle Physiology • Nutrition, Physical Activity and Health • Legal and Ethical Aspects of Health Care

**CAREER OUTCOMES**

Careers can include: exercise scientist; exercise consultant; health and injury prevention advisor; wellbeing and lifestyle advisor; sport and exercise science officer; coach; active living project officer; exercise science researcher; workplace health and fitness advisor.

**FURTHER STUDY**

You can continue study after completing your undergraduate degree by pursuing a Master of Exercise Physiology.

The health industry is changing rapidly and becoming increasingly sophisticated. As the system adjusts to cope with restructuring, financial constraints, new public expectations and an ageing population, there is an increasing demand for specialised skills. It is also multidisciplinary, with specialised components provided by relevant disciplines from throughout the University. This course combines health-related topics with specialised studies in one of the following five majors: Disability and Community Rehabilitation, Health Promotion, Health Management, Life Sciences, and Nutrition.

Industry experience: The course gives you a deeper understanding of the environments and functions of various health professions and provides internship opportunities with industry placements in a variety of areas.

STUDY PROGRAM
First year topics may include:
communication and inter-professional practice • legal and ethical aspects of health care • human bioscience

CAREER OUTCOMES
This degree combines health-related topics with specialised studies. It caters for a wide range of careers and equips you with transferable industry relevant skills. The career path is dependent on the specialised area of study chosen. Graduates fill a variety of roles including community program coordinators, research assistants for major hospitals, nutritionists, health promotion officers and customer service managers for health institutions.

FURTHER STUDY
Graduates can pursue further study by undertaking a Bachelor of Health Sciences (Honours), Masters or PhD (Research).

Environmental health is concerned with the effects of environmental factors on the health and wellbeing of people, including indoor and outdoor air quality, waste management, water quality for consumption and recreation, stormwater management and water re-use, contaminated land, infectious disease, and food quality and hygiene. The undergraduate Environmental Health program at Flinders involves studying a Bachelor of Health Sciences and Graduate Diploma in Environmental Health Practice. This pathway provides you with a guaranteed place in the Graduate Diploma in Environmental Health Practice on successful completion of the Bachelor of Health Sciences.

Professional accreditation: The Graduate Diploma in Environmental Health Practice is a nationally accredited and internationally recognised qualification that is designed to provide an entry-level qualification to practice as a gazetted Environmental Health Officer and graduates are eligible for membership of Environmental Health Australia (EHA).

STUDY PROGRAM
Students undertake a Life Sciences major with a specialisation in Environmental and Public Health.

CAREER OUTCOMES
Potential roles include consultant, environmental health officer, quality and safety officer, greenhouse inventory officer, health promotion officer, national pollutant inventory (NPI) officer, project coordinator and waste education officer. Potential employers include government health departments, environmental protection and water catchment management agencies, food manufacturers, mining, environmental and other industries locally and internationally.

CRICOS code: 020920E. Graduate Diploma – External

Our degree is designed to produce graduates who can effectively deliver quality preventative nutritional practice within a wide range of settings including health education, health promotion and public health. We have partnered our commitment to nutrition with scientifically backed information to give you the knowledge and skills required for a qualification in the changing and expanding area of nutrition. The degree also offers several opportunities for graduates to continue studying in a number of health or education related specialisations. After completing two years, students can also apply to enter the third year of the Bachelor of Nutrition and Dietetics. Flinders University has delivered dietetic and nutrition programs for over 40 years and is considered to be at the forefront for innovation and development.

Industry experience: 150 hours of self-directed workplace experience as an elective topic in third year. We have a number of industry stakeholders who would support you to do a workplace nutrition-related project.

Professional accreditation: Graduates can apply for membership and registration as an Associate Nutrionist with the Nutrition Society of Australia. After three years of experience, members of the nutrition Society of Australia can apply to be Registered Nutritionists.

STUDY PROGRAM
First year topics may include:
• fundamentals of biology, molecular basis of life, food systems, nutrition, physical activity and health, general chemistry
• an elective topic of your choice
Second year topics may include:
• human physiology, biochemistry of human disease, nutrition across the lifecycle, food products and preparation, determinants of food choice
• fundamentals of nutrition epidemiology, the role and function of nutrients, sports nutrition, public health and community nutrition, behavioural science, research methods
• an elective for self-directed placement

CAREER OUTCOMES
Potential roles include exercise scientist and nutritionist, nutrition and exercise consultant, health and injury prevention advisor, nutrition and lifestyle advisor, sport and exercise science officer and nutrition and exercise science researcher.

FURTHER STUDY
Graduates will be eligible to apply for entry to the Master of Nutrition and Dietetics or the Master of Exercise Physiology which leads to application for ESSA membership as an Accredited Exercise Physiologist (accreditation of the degree is subject to approval). Opportunities for further study include: Honours, Master of Exercise Physiology, Master of Nutrition and Dietetics, Masters of Public Health, Graduate Medical Program, Master of Teaching (Secondary), Master of Physiotherapy, Master of Occupational Therapy and PhD.

FURTHER COURSE INFORMATION

CRICOS code: 093041K

Graduates can pursue further study by undertaking a Bachelor of Nutrition and Dietetics, Masters of Public Health, Doctor of Medicine, Master of Teaching (Secondary) or PhD.
Medical science is a broad term that covers such areas as biochemistry, molecular biology, microbiology, neurosciences, physiology, nutrition, pharmacology and toxicology. All are vital to our ongoing efforts to develop and evaluate new treatments and strategies for health problems. The Bachelor of Medical Science will equip you to start developing a career in medical research in any of these areas. It also offers a preparation for the graduate entry medical program at Flinders; an appropriate basis for postgraduate studies in radiology, pathology, pharmacology and other fields; and a grounding in medical science followed by more specialised studies. Flinders has a very strong profile in medical science, combining the expertise of scientists working across many areas of the University. Those who can provide input to the degree program. They undertake fundamental, innovative and cross-disciplinary research that unites medical researchers, chemists, physicists, biologists and bioengineers in the task of improving people's quality of life.

**Industry experience:** You may also complete a professional placement topic, which involves a semester of research.

**FURTHER STUDY**

The program prepares the possibility of undertaking a third year specialisation in the areas of: Biochemistry and Molecular Biology • Biomedical Technology • Medical Biotechnology • Microbiology • Nutrition • Pharmacology and Toxicology • Physiology and Neurosciences

**CAREER OUTCOMES**

Potential roles include biochemist, clinical trials coordinator, laboratory scientist, medical technologist, microbiologist, research assistant and respiratory scientist. Graduates may find employment in such fields as medical science, pharmaceutical research, biomedical engineering, diagnostic laboratories, health administration, and health planning and policy. Potential employers include universities, government, industry-funded organisations, the pharmaceutical industry, government regulatory industries, biomedical companies, and diagnostic laboratories.

**FURTHER STUDY**

Graduates can enhance their career prospects by undertaking a Bachelor of Medical Science (Honours) in a chosen area of specialisation, Master of Science or PhD (Research). The Bachelor of Medical Science may be used as a pathway to our graduate-entry medicine program and a number of health professional courses including audiology, nutrition and dietetics, and speech pathology.

**NUTRITION AND DIETETICS**

Bachelor of Nutrition and Dietetics

**Course length:** 4 years full-time

**2018 fee:** AUD$31,200

Opportunity for industry experience

**Prerequisites:** None

Nutrition is the study of the role of food and nutrients in the body. Dietetics is concerned with the prevention and treatment of a variety of food-related diseases. Nutritionists and dietitians interpret scientific knowledge about food in relation to health and disease, then translate it into practical information to help people change eating habits and improve their health. Our teaching staff work closely with the dietetic profession to ensure the curriculum is relevant and applied. Flinders University has delivered programs in nutrition and dietetics for more than 30 years and is considered to be at the forefront of innovation and development in Australia.

**Industry experience:** This program includes a minimum of 21 weeks of work placement in at least three different settings.

**Professional accreditation:** Our undergraduate course is one of only eight in Australia accredited by the Dietitians Association of Australia (DAA), with graduates eligible for professional membership.

**STUDY PROGRAM**

First year topics may include:

- Molecular Basis of Life • Food Systems • Nutrition, Physical Activity and Health • Chemistry

**CAREER OUTCOMES**

Potential roles include clinical dietitian, community health worker, nutritionist, health promotion officer and research project officer. Employment opportunities are plentiful across a variety of settings including hospitals, community health centres, private practice and consultancies, food industries, and research institutions.

**FURTHER STUDY**

You can continue study after completing your undergraduate degree by pursuing a Masters or PhD (Research) in an area of specialisation.

CRICOS code: 028941B

---

**PARAMEDIC SCIENCE**

Bachelor of Paramedic Science

**Course length:** 4 years full-time

**2018 fee:** AUD$39,000

Opportunity for industry experience

**Prerequisites:** None

Note: As per Australian Government regulations, courses that have a placement involving contact with children, young people and/or vulnerable adults, will require students to undergo an Offender History Record Check prior to placement.

The aim of the Bachelor of Paramedic Science is to ensure all graduating paramedics have the skills, knowledge and attitudes to enable them to manage emergency and non-emergency situations in a manner consistent with best practice. This is achieved by the degree having a strong emphasis on clinical skills acquisition and practical education using scenario-based teaching methods. In addition, students perform more than two hundred hours of emergency ambulance placements over the course of their degree to help consolidate their clinical and theoretical understanding in ‘real-life’ situations.

The Bachelor of Paramedic Science is a well-integrated program consisting of core paramedic topics that support the required clinical learning and health science topics that promote a broad understanding of modern health care delivery. A key benefit of university-based paramedic training is continuity of standards. Flinders places significant emphasis on quality improvement, audit and review to ensure it meets industry expectations by teaching current best practice in pre-hospital patient care. To maintain industry relevance, Flinders actively collaborates with the South Australian Ambulance Service (SAAS) and Ambulance Victoria (AV) and relies heavily on input from practising, experienced paramedics.

**Professional accreditation:** This program has been accredited by the Council of Ambulance Authorities.

**STUDY PROGRAM**

First year topics may include:

- Human Biosciences • Health Practitioner Practice • Introduction to Paramedic Practice • Integrated Clinical Physiology for Paramedics • Introduction to Traumatic Emergencies • Introduction to Medical Emergencies

**CAREER OUTCOMES**

Paramedics are a rapidly evolving profession, making our graduates highly sought after. This program will equip you to apply for employment with a range of international organisations including UN, National Health Service Trust ambulance services.

**SPEECH PATHOLOGY**

Bachelor of Speech Pathology

**Course length:** 4 years full-time

**2018 fee:** AUD$39,000

Opportunity for industry experience

**Prerequisites:** None

Note: As per Australian Government regulations, courses that have a placement involving contact with children, young people and/or vulnerable adults, will require students to undergo an Offender History Record Check prior to placement.

Speech pathologists provide professional services for persons across the lifespan whose educational, vocational, personal and social functioning is impaired by disorders of speech, language, voice, swallowing, fluency and hearing. Communication and swallowing disabilities may severely impact people’s quality of life and result from developmental difficulties, social disadvantage, illness or accident. Our award winning teaching staff work closely with the speech pathology profession to ensure that our graduates are equipped to enter this diverse and interesting profession.

**Industry experience:** You will undertake extensive clinical experience, including block placements. Placements may be in Adelaide, country areas of South Australia or the Northern Territory depending on circumstances, overseas.

**Professional accreditation:** Graduates will meet the entry-level standards of Speech Pathology Australia (SPA), the national accrediting body, which will enable them to practise in Australia and many other countries around the world including the UK and Asia.

**STUDY PROGRAM**

Topics may include:

- Anatomy and Physiology • Linguistic Psychology • Professional Studies in Communication and Swallowing • Research Methods • Practicum

**CAREER OUTCOMES**

Roles include early childhood intervention worker, paediatric speech pathologist, rehabilitation consultant, speech pathologist and speech therapist. Speech pathologists are employed in the public and private health sectors with many opportunities existing interstate and internationally.

**FURTHER STUDY**

Eligible students can apply to enter the concurrent Honours research stream. Graduates have gone on to Masters or PhDs by research as well as Masters programs to further develop their professional skills e.g. Audiology, Special Education, Rehabilitation, Clinical Education, Public Health and Disability Studies.

FLINDERS UNIVERSITY OF SOUTH AUSTRALIA

LAW & CRIMINOLOGY

CRIMINOLOGY
Bachelor of Criminology

- Course length: 3 years full-time
- Prerequisites: None

To influence society you need to be able to interpret it. The Bachelor of Criminology provides graduates with the intellectual tools to understand and evaluate the way the legal system works in society and to address those moral and legal issues affecting Australia. Through the Legal Studies major you will develop strong skills in reasoning and argument and learn to locate, read and analyse legal materials as well as conduct research and examine possible reforms in relation to pressing legal issues.

Industry experience: There is opportunity to put your studies into practice by undertaking work placement with public, private and community sector organisations in your third and fourth years of study.

STUDY PROGRAM
First year topics may include:

- Academic and Professional Communication
- Crime and Criminology
- Criminal Justice System and Practice
- Community Justice Policy

CAREER OUTCOMES
Graduates of the Bachelor of Criminology will have both a professional and academic qualification designed to equip them with the knowledge and skills required to gain employment in a diverse range of areas. These include jobs supervising offenders in correctional facilities and prisons; working as statistical or intelligence analysts for police; in the court administration system; working in intelligence, statistical and research areas; in border protection and counter terrorism; and in crime prevention with government.

FURTHER STUDY
Graduates of the Bachelor of Criminology can apply for the Bachelor of Arts (Honours) program. The Bachelor of Laws and Legal Practice (Graduate Entry) enables you to acquire the essential foundational skills needed to practise as a solicitor or barrister.

LAW AND SOCIETY
Bachelor of Law and Society

- Course length: 3 years full-time
- English requirements: IELTS: 6.5 (S6.5 • W6.5 • R6.5 • L6.5)
- Intake: Semester 1 • Semester 2

The Bachelor of Law and Society (Law Pathway) as an alternative entry option for students seeking admission into the Bachelor of Laws and Legal Practice. You must achieve an overall credit (5.0) grade point average over the 36 units of study, including a grade of Pass or higher in all four LLAW topics in your first year of study. Please note there is no mid-year intake for this option.

STUDY PROGRAM
First year topics may include:

- Community Justice Policy and Practice
- Australian Justice System
- Contentious Justice Issues

CAREER OUTCOMES
This course aims to equip you in seeking employment in a range of public and private sector organisations, which demand a combination of legal, philosophical and social science skills, and knowledge of the relationships between justice, law and society. Potential roles include advocacy worker, claims consultant, court officer/registrars, judicial relations officer, policy and research officer, welfare officer and youth justice coordinator. Graduates may find employment in such areas as: correctional services, courts services, court system and justice administration, crime prevention, community agencies, equal opportunity, legal industry, police services, policy development, research, trade unions, workers’ compensation, and so on.

FURTHER STUDY
Graduates can enhance their career prospects by pursuing a Bachelor of Arts (Honours), Bachelor of Laws and Legal Practice (Graduate Entry) and variety of postgraduate coursework and research degrees.

FURTHER COURSE INFORMATION >>>

LAW AND LEGAL PRACTICE
Bachelor of Law and Legal Practice
Bachelor of Law and Legal Practice (Honours)
Bachelor of Laws and Legal Practice (Graduate Entry)
Bachelor of Law and Legal Practice (Graduate Entry)(Honours)

- Course length: 4 years full-time
- Prerequisites and entry requirements:
  - Bachelor of Law and Legal Practice and Bachelor of Laws and Legal Practice (Honours), please see course index.
  - Bachelor of Laws and Legal Practice (Graduate Entry) and Bachelor of Laws and Legal Practice (Graduate Entry)(Honours):
    - Applicants for the Graduate Entry program must hold a recognised undergraduate degree or equivalent from an approved tertiary institution.
    - Please note admission to the Bachelor of Laws and Legal Practice (Graduate Entry) is by quota, based on academic merit and a Pass average or better is required. Admission to the Bachelor of Laws and Legal Practice (Graduate Entry)(Honours) is by quota, based on academic merit and a Credit average or better is required.
- Intake:
  - Semester 1 • Semester 2
  - Honours: Semester 1

The Flinders Bachelor of Laws and Legal Practice qualifies you to work in the real world, right away. A Flinders law degree will open many doors, but we know not all will lead to a courtroom. While some students will become the judges and prosecutors of tomorrow, others will chart their course in business, diplomacy, social justice and human rights. The Bachelor of Laws and Legal Practice enables you to acquire essential foundational legal skills. You will gain knowledge of Australian law and the ability to critically evaluate it with reference to its historical development and context. You will also acquire a range of key skills such as interviewing, drafting, advocacy, negotiation and teamwork to enable you to translate legal rights into practice within real world scenarios. The Honours program also includes an enhanced research training experience, the option for up to two masters level electives and a minor dissertation.

This program also integrates the required practical legal training needed to gain admission as a solicitor or barrister and satisfies the requirements underpinning eligibility to be admitted as a barrister and solicitor in the States of South Australia in only four years. This means that you can become qualified to practice quickly and without having to pay up-front fees for the final part of your training, unlike many other law schools.

STUDY PROGRAM
First year topics may include:

- Legal Research and Writing
- Criminal Law and Legal Method
- Introduction to Public Law
- Contract

CAREER OUTCOMES
A Flinders law degree takes you places. Our graduates work all over the world in locations such as London, New York, Toronto, New Delhi, Dubai, Singapore, Hong Kong and Bermuda. Many law graduates are employed by large firms or by the government and private-sector organisations to assist with the legal complexities of the modern world. Others work within policy development, administration or law reform.

FURTHER STUDY
Graduates of the Bachelor of Laws and Legal Practice can go on to study a Masters or PhD (Research).

FLINDERS UNIVERSITY OF SOUTH AUSTRALIA
BEHAVIOURAL SCIENCE (PSYCHOLOGY)
Bachelor of Behavioural Science (Psychology)

Prerequisites: None

The Bachelor of Behavioural Science (Psychology) is an innovative course accredited major sequence in psychology. This course is designed to provide you with comprehensive knowledge in core areas such as human learning and memory, the brain, child development, ageing, personality, emotions, interpersonal relationships and mental health. First year introduces a range of areas such as social psychology, physiology and intelligence. Later years build on this foundation, with a selection of topics available that address areas such as forensic psychology, clinical psychology and neuropsychology, sleep disorders, body image, social justice and emotions. Students in the program will be provided with a grounding in both theory and practice in areas of basic and applied psychology as well as the skills to critically evaluate psychological literature and to apply psychology knowledge to real-world problems. They will gain practical experience in our 20 dedicated research labs and our specialist clinics that offer psychological services to the local community.

Professional accreditation: This program is accredited by the Australian Psychology Accreditation Council (APAC).

STUDY PROGRAM
The study program comprises a major sequence in Psychology plus a second major sequence in one of 12 disciplines: Artificial Intelligence, Biological Sciences, Criminology, Disability and Developmental Education, Health Studies, Law and Society, Management, Neuroscience, Philosophy, Public Policy, Sociology and Women's Studies.

Topics for the Psychology major include:
- Introductory Psychology • Research Methods • Cognition and Learning • Personality and Social Psychology • Applications of Psychological Science • Human Development • Plus a range of Psychology electives, including Forensic Psychology

CAREER OUTCOMES
The Bachelor of Behavioural Science (Psychology) prepares you for a wide range of careers including youth work, advertising, marketing, policy and research, consumer research, industrial relations, human resources, program coordination and welfare. Potential employers include community health providers, consulting firms, government agencies, hospitals, market research companies, research centres and rehabilitation facilities.

FURTHER STUDY
Graduates are eligible to apply for Bachelor of Behavioural Science (Honours) in psychology or other nationally accredited psychology honours programs, which can lead to further study or training to become a registered psychologist and/or senior research positions. Graduates are also eligible to apply for Honours in their second major sequence.

PSYCHOLOGICAL SCIENCE
Bachelor of Psychological Science

Prerequisites: None

Flinders University’s Bachelor of Psychological Science enables you to undertake a nationally accredited major sequence in psychology. This course is designed to provide you with comprehensive knowledge in core areas such as human learning and memory, the brain, child development, ageing, personality, emotions, interpersonal relationships and mental health. First year introduces a range of areas such as social psychology, physiology and intelligence. Later years build on this foundation, with a selection of topics available that address areas such as forensic psychology, clinical psychology and neuropsychology, sleep disorders, body image, social justice and emotions. Students in the program will be provided with a grounding in both theory and practice in areas of basic and applied psychology as well as the skills to critically evaluate psychological literature and to apply psychology knowledge to real-world problems. They will gain practical experience in our 20 dedicated research labs and our specialist clinics that offer psychological services to the local community.

Professional accreditation: This program is accredited by the Australian Psychology Accreditation Council (APAC).

STUDY PROGRAM
The study program comprises a major sequence in Psychology plus a second major sequence in one of 12 disciplines: Artificial Intelligence, Biological Sciences, Criminology, Disability and Developmental Education, Health Studies, Law and Society, Management, Neuroscience, Philosophy, Public Policy, Sociology and Women's Studies.

Topics for the Psychology major include:
- Introductory Psychology • Research Methods • Cognition and Learning • Personality and Social Psychology • Applications of Psychological Science • Human Development • Plus a range of Psychology electives, including Forensic Psychology

CAREER OUTCOMES
The Bachelor of Psychological Science develops knowledge of the factors influencing human behaviour and experience, and provides skills for the application of this knowledge to issues in the real world. Human Resource Management provides students with the necessary knowledge, understanding and skills to work in business related fields as well as specialist knowledge in HRM (including Organisational Behaviour and Human Resource Management, Planning and Strategy).

Industry experience: Students have the opportunity to undertake work integrated learning opportunities through elective choices.

Professional accreditation: This combined degree meets the accreditation requirements of both the Australian Psychology Accreditation Council (APAC) and the Australian Human Resources Institute (AHRI), this course is one of only two courses in Australia that meet this dual accreditation.

STUDY PROGRAM
Topics may include:
- Introductory Psychology • Research Methods • Management, People and Organisations • Law for Business • Accounting Principles • Organisational Behaviour

CAREER OUTCOMES
The theoretical and practical components of Psychological Science, Human Resources and Business offer graduates a range of career opportunities across the public, private and not for profit sectors locally, nationally and internationally.

FURTHER STUDY
Students have the opportunity to pursue further postgraduate study in research (such as Honours). To achieve further understanding and technical knowledge in business related areas Graduate Certificate and Diploma programs in Business are available as well as the Master of Business and Master of Business Administration. Certain academic and entrance criteria must be met prior to enrolling in these postgraduate programs.

PSYCHOLOGICAL SCIENCE/BUSINESS
(HUMAN RESOURCE MANAGEMENT)
Bachelor of Psychological Science / Bachelor of Business (Human Resource Management)

Prerequisites: None

The Bachelor of Psychological Science develops knowledge of the factors influencing human behaviour and experience, and provides skills for the application of this knowledge to issues in the real world. In the Bachelor of Business (Marketing) students will be equipped with the necessary knowledge, understanding and skills to work in business related fields as well as specialist knowledge in Marketing. Marketing is one of the core activities of all organisations, and is about planning and executing the selling and/or promotion of an organisation’s product or expertise.

Upon completion of this combined degree, graduates will have opportunities in Psychology, Marketing or other business-related careers in the private and not for profit sectors locally, nationally and internationally.

Industry experience: Students have the opportunity to undertake work integrated learning opportunities through elective choices.

Professional accreditation: This combined degree meets the accreditation requirements of the Australian Psychology Accreditation Council (APAC).

STUDY PROGRAM
Topics may include:
- Introductory Psychology • Research Methods • Management, People and Organisations • Law for Business • Accounting Principles • Organisational Behaviour

CAREER OUTCOMES
Studies in marketing will give students the skills and knowledge necessary to build a successful career across areas such as marketing research, promotion and advertising, and strategic marketing management. Psychologists are employed by government and community welfare organisations, hospitals, industry and the Australian Defence Force as well as private practices and private health clinics.

FURTHER STUDY
Students have the opportunity to pursue further postgraduate study in research (such as Honours). To achieve further understanding and technical knowledge in business related areas Graduate Certificate and Diploma programs in Business are available as well as the Master of Business and Master of Business Administration. Certain academic and entrance criteria must be met prior to enrolling in these postgraduate programs.

Flinders University offers international applicants an undergraduate pathway into the University’s internationally renowned medical course. Through this pathway, students can complete a Bachelor of Clinical Sciences combined with the Doctor of Medicine (MD) in six years. The first two years will lay scientific foundations before progressing into the first year of the medical course. This is subject to students fulfilling minimum requirements. For further information see flinders.edu.au/courses/undergrad/bclsmd

**Clinical Sciences/ Doctor of Medicine**

Medicine is one of the most rapidly changing fields of human endeavour. This is both a challenge and a source of satisfaction for medical graduates, who must commit to lifelong learning to stay abreast of new developments in their profession. Research is extending the boundaries of our understanding of health and disease and creating new possibilities for prevention, treatment and care. Community expectations of doctors and the healthcare system are changing, and new ethical debates and social challenges constantly emerge. The Flinders medical program aims to develop those elements of knowledge, understanding and skill central to varied areas of medical practice, producing graduates well prepared to act as hospital interns and with the potential to stay abreast of new developments in their profession. Research, industry experience:

- **You will have the opportunity to undertake clinical placements.
- **Professional accreditation:**

**Careers**

Graduates will be able to operate as practitioners in their own right, collaborating with other health professionals as the need arises, and promoting health through a primary health care approach to midwifery practice. Potential roles include graduate midwife, antenatal education facilitator/midwife, midwifery group practice midwife, community midwife, project officer and private midwife practitioner. Midwives have extensive career opportunities in hospitals and the community.

FURTHER STUDY

Further study opportunities include a Bachelor of Midwifery (Honours), Graduate Certificate, Graduate Diploma and Masters in Midwifery (Honours).

**Further Course Information >>**

flinders.edu.au/courses/undergrad/bmidu

CRICOS code: 039814G

---

**STUDY PROGRAM**

First year topics in the Pre-Registration program include:

- Introduction to the Nursing Profession and Independent Learning
- Contests of Nursing and Primary Health Care

First year topics in the Graduate Entry program include:

- Dimensions of Physical and Mental Health and Pathophysiology and Pharmacology.

Topics in the Post-Registration program include:

- Introduction to the Nursing Profession and Independent Learning and Pathophysiology and Pharmacology.

**CAREER OUTCOMES**

Following the completion of this Degree and successful registration as a nurse in Australia, students are eligible to apply for employment in a wide range of work settings including; community health, aged care, intensive care, emergency department, mental health, paediatrics and cardiac care.

**FURTHER STUDY**

Bachelor of Nursing (Honours), Graduate Certificate in Acute Care Nursing, Graduate Certificate in Primary Health Care Nursing, Bachelor Certificate in Global Health Care, Graduate Diploma in Nursing (Acute Care), Graduate Diploma in Nursing (Primary Health Care), Graduate Diploma in Nursing (Global Health Care), Master of Nursing (Acute Care), Master of Nursing (Primary Health Care), Master of Nursing (Global Health Care), Master of Nursing (Coursework and Research)*.

*Does not meet the requirements for entry into a PhD

**CAREER OUTCOMES**

Nursing encompasses autonomous and collaborative care of individuals of all ages, families, groups and communities, sick or well and in all settings. The Nursing program at Flinders produces graduates who can function in a variety of clinical settings and roles, have well-developed clinical reasoning skills, and understand that professional practice demands life-long learning. You will develop nursing skills and relate all aspects of body function with nursing practice and continue gaining clinical experience in various health care settings. You will also explore complex health issues in nursing such as Indigenous health, nursing in a socio-political context, and mental illness.

The Graduate Entry program is an advanced pathway for candidates who are graduates of a degree in academic areas other than nursing, are looking for a new career direction and would like to become eligible to register with the Nursing and Midwifery Board of Australia as a Registered Nurse.

**Further Course Information >>**

PSYCHOLOGY

Bachelor of Psychological Studies (Graduate Entry)

> Course length: 1 year full-time
> Intake: Semester 1
> 2018 fee: AUD $27,700
> Professional accreditation

Prerequisites: Applicants must hold a recognised undergraduate degree or equivalent in an area other than psychology from an approved tertiary institution. They must also meet the subject prerequisites for second year psychology topics by having completed equivalent entry level psychology topics from Flinders University or from an approved institution, or by completing a qualifying topic. The qualifying topic (QT) is a web-based course that can be completed off-campus and is designed for applicants who have not met the subject pre-requisites of the course.

The Bachelor of Psychological Studies (Graduate Entry) provides the equivalent of a major in Psychology for graduates who hold a degree in another discipline. It is also suitable for graduates who have a psychology major that is not accredited in Australia.

The course develops knowledge of psychological theory and research regarding the factors influencing human behaviour and experience, and provides skills for the application of this knowledge to issues in the real world. The course prepares graduates for possible entry into an Honours program in psychology.

Students undertake a core set of studies covering such fields as learning, motivation, personality, development across the lifespan, social influences, group processes and biological influences in behaviour. They gain practical experience in our 20 dedicated research labs and our specialist clinics that offer psychological services to the local community.

Industry experience: This course is one of the few in Australia that offers practical placements in third year. These placements provide practical experience in psychological settings.

Professional accreditation: This program is accredited by the Australian Psychology Accreditation Council (APAC).

STUDY PROGRAM

Topics may include:
- Psychological Assessment and Measurement
- Research Methods
- Personality and Social Psychology
- Human Development
- A range of Psychology electives, including Forensic Psychology

CAREER OUTCOMES

Graduates are expected to find jobs in areas such as youth work, advertising and marketing, policy and research, consumer research, industrial relations, human resources, program coordination and welfare. Potential employers include community health providers, consulting firms, government agencies, hospitals, market research companies, research centres and rehabilitation facilities.

FURTHER STUDY

Graduates are eligible to apply for the Bachelor of Psychological Science (Honours) or other nationally accredited psychology honours programs, which can lead to further study or training to become a registered psychologist and/or senior research positions.

flinders.edu.au/courses/undergrad/psychstudies
CRICOS code: 085908G

PSYCHOLOGY

Bachelor of Psychology (Honours)

> Course length: 4 years full-time including Honours
> 2018 fee: AUD $27,700
> Professional accreditation

Prerequisites: None

Note: As per Australian Government regulations, courses that have a placement involving contact with children, young people and/or vulnerable adults will require students to undergo an Offender History Record Check prior to placement.

Psychology is the science of the mind and the systematic study of behaviour. Psychologists are interested in how we learn, think and interact with others, what motivates our actions, and the role personality and individual differences play in our behaviour. The Bachelor of Psychology (Honours) is one of the most popular degrees at Flinders and is in high demand. It provides high-level training in both academic and professional areas and is one of a few courses in Australia designed to maximise the proportion of psychology topics that can be studied, while also providing a variety of elective options.

Students gain practical experience in our 20 dedicated research labs and our specialist clinics that offer psychological services to the local community. Also integral to the course is the development of critical thinking and research skills, and an understanding of the ethical responsibilities of researchers and psychology clinicians.

Professional accreditation: This course is accredited by the Australian Psychology Accreditation Council (APAC).

STUDY PROGRAM

Topics may include:
- Introductory Psychology
- Research Methods
- Personality and Social Psychology
- Human Development
- Interviewing and Counselling
- Ethics and Professional Practice
- A range of Psychology electives

CAREER OUTCOMES

The Bachelor of Psychology (Honours) prepares you to work as a professional psychologist in clinical, educational, organisational and academic settings. Potential roles include behaviour consultant, youth development, school psychologist, statistical research analyst, sleep consultant and a job placement consultant. Our graduates find jobs in areas such as youth work, advertising and marketing, policy and research, consumer research, industrial relations, human resources, program co-ordination and welfare both locally and internationally.

FURTHER STUDY

Graduates are eligible to apply for the Master of Psychology (Clinical), PhD (Clinical Psychology), Masters or PhD (Research).

SOCIAL WORK

Bachelor of Social Work

> Course length: 4 years full-time
> Intake: Semester 1 • Semester 2
> 2018 fee: AUD $24,600
> Opportunity for industry experience
> Professional accreditation

Prerequisites: None

Note: As per Australian Government regulations, courses that have a placement involving contact with children, young people and/or vulnerable adults will require students to undergo an Offender History Record Check prior to placement.

This degree program will equip students to work in a wide range of areas related to the provision of health and social welfare services in a modern society. It combines traditional social work skills with the broader issues of social policy and social planning, providing expertise not just in the delivery of social services but also in the planning, development and monitoring of programs, which are appropriate to current social conditions. The program comprises professional studies with an applied orientation. Placements will give you time in an agency under professional supervision to integrate the skills, knowledge and values acquired in both the classroom and the field. Placement options include child protection, community health, hospital social work, research, social planning, aged care, social work with migrant groups, correctional services and more.

Industry experience: You will take two field placements totalling 500 hours each and there are opportunities for overseas placements.

Professional accreditation: Graduates of the program are eligible for membership of the Australian Association of Social Workers.

STUDY PROGRAM

First year topics may include:
- Reasons for Social Work
- Social Planning Theory

CAREER OUTCOMES

The Bachelor of Social Work equips you to work in a wide range of areas related to the provision of welfare services. Potential roles include community services project officer, case manager, advocacy worker, mental health worker, social research officer and youth pathways project officer. Social workers are employed in government departments, hospitals, health and community centres, correctional services and welfare agencies. Social workers may work for government and non-government sectors in largely project and policy based positions.

FURTHER STUDY

Graduates are given one year of credit towards the Master of Social Work. Other related postgraduate courses include the Graduate Certificate in Loss, Grief and Trauma Counselling and Graduate Certificate in Child Well-being and Protection, research degrees such as Master of Arts (Social Work) or PhD (Research).

FURTHER COURSE INFORMATION >>>

CRICOS code: 083493F
A degree in science opens up many job opportunities. Throughout the world there is a growing shortage of specialists who will create the next generation of ideas and products and help us maintain and conserve what we already have. You can choose studies from a range of areas, including:

> Animal Biology
> Aquatic Biology
> Biochemistry and Molecular Biology
> Chemistry
> Cognitive Science
> Computer Science
> Ecology and Evolutionary Biology
> Environmental Geology
> Environmental Hydrology and Water Resources
> Environmental Management
> Geography
> Mathematics
> Microbiology
> Ocean and Climate Sciences
> Physics
> Plant Biology
> Statistics
> Vertebrate Palaeontology

There is also the opportunity to specialise in a range of fields (see separate course entries for these specialisations).

### Study Program

All first year students in the Bachelor of Science undertake topics The Nature of Science and Academic and Professional Communication.

#### Career Outcomes

By taking an honours year you will further develop your professional skills, particularly those relevant to research and development, as well as your technical expertise and knowledge. Graduates find work in medical research, the biotechnology industry, government and private consultancies, universities, science policy and planning and education. Potential roles include analytical chemist, astronaut, biochemist, biologist, biomedical engineer, clinical data analyst, forensic scientist, molecular biologist, researcher, statistician and university lecturer.

### Further Study

Graduates can pursue further study by undertaking a Bachelor of Science (Honours), Master of Science or PhD (Research).

### Science (Honours) - Enhanced Program for High Achievers

**Bachelor of Science (Honours) - Enhanced Program for High Achievers**

**Course Length:** 4 years full-time

**Intake:** Autumn Entry - Semester 1

**English Requirements:** IELTS: 6.0 (Academic); TOEFL: 80 (with writing and speaking 20)

**Entry Requirements:** An ATAR of 98 (or equivalent) is required. This applies to all majors.

**2018 fee:** AUD$29,900

**Prerequisites:** You must have completed at least three of these subjects at senior secondary level or equivalent: Biology, Mathematical Studies, Specialist Mathematics, Chemistry, Physics or Geology.

This four-year degree with honours provides an enhanced program of studies for students of exceptional academic ability. The course is designed to provide the strongest possible foundation for your future, and with flexibility so you can tailor your study program to your interests and ambitions. As well as understanding science, you will learn to appreciate its role in society and will develop crucial transferable skills in problem solving, communication, teamwork and computing through your involvement with research teams and groupwork. Our aim is to produce graduates who are equipped not just to find a job in their chosen field but also to create a real career path that will enable them to explore new opportunities in science, and their own interests. Students who complete a specialisation or a major in accordance with the Bachelor of Science course rule may have this reflected on their transcript (see separate entries for more information). You will also have the chance to join established research teams and be mentored by research staff and postgraduate students from your first year.

### Study Program

In first year you will choose a range of subjects to prepare you for the area(s) of science in which you will specialise in later years and receive an introduction to research methodologies and techniques. A relevant research project is also undertaken in each year level.

#### Career Outcomes

The program will provide the strongest possible foundation for a science-based career in a wide range of careers, such as medical research, the biotechnology industry, government and private consultancies, universities, science policy and education. Potential roles include analytical chemist, astronaut, biochemist, biologist, biomedical engineer, clinical data analyst, forensic scientist, molecular biologist, researcher, statistician and university lecturer.

### Further Study

Graduates can continue their studies with a postgraduate qualification by enrolling in a Master of Science or PhD (Research).

### Further Course Information

### Science (Biodiversity and Conservation)

**Bachelor of Science (Biodiversity and Conservation)**

**Course Length:** 4 years with honours

**Intake:** Autumn Entry - Semester 1

**English Requirements:** IELTS: 6.0 (Academic); TOEFL: 80 (with writing and speaking 20)

**Entry Requirements:** An ATAR of 98 (or equivalent) is required. This applies to all majors.

**2018 fee:** AUD$29,900

**Prerequisites:** None

The course is designed to provide the strongest possible foundation for your future, and with flexibility so you can tailor your study program to your interests and ambitions. As well as understanding science, you will learn to appreciate its role in society and will develop crucial transferable skills in problem solving, communication, teamwork and computing through your involvement with research teams and groupwork. Our aim is to produce graduates who are equipped not just to find a job in their chosen field but also to create a real career path that will enable them to explore new opportunities in science, and their own interests. Students who complete a specialisation or a major in accordance with the Bachelor of Science course rule may have this reflected on their transcript (see separate entries for more information). ### Science (Animal Behaviour)

**Bachelor of Science (Animal Behaviour)**

**Course Length:** 4 years full-time

**Intake:** Autumn Entry - Semester 1

**English Requirements:** IELTS: 6.0 (Academic); TOEFL: 80 (with writing and speaking 20)

**Entry Requirements:** An ATAR of 98 (or equivalent) is required. This applies to all majors.

**2018 fee:** AUD$29,900

**Prerequisites:** None

The Animal Behaviour course provides students with a broad-based foundation in animal behaviour. The program will examine animal behaviour in captive and wild animals, and will promote an understanding of the role of animal behaviour for assessing animal welfare, survival, and evolution. The program also aims to develop a range of transferable research, analytical and communication skills including the capacity to retrieve and present information about animal behaviour effectively, critically analyse and evaluate information relevant to animal behaviour and appreciate the multidisciplinary aspects of studies in animal behaviour.

### Study Program

First year topics may include:

- Evolution of Biological Diversity • Molecular Basis of Life • Introduction to Animal Behaviour • The Nature of Science • Biostatistics

### Career Outcomes

Graduates obtain knowledge and skills transferable to various workplaces including private and public global organisations. Roles include national parks ranger, wildlife carer, tour guide, conservation biologist and research scientist (after Honours and PhD). Potential employers include universities, zoos, government departments, research centres, tourism companies and consultancy firms.

### Further Study

Graduates can enhance their career prospects by undertaking further study and enrolling in a Master of Science or PhD (Research).

---

The world has never been more attuned to environmental issues or the need to train and employ specialists who can help us reduce our impact and plan wisely for the future. Conservation has moved into the mainstream debate and biodiversity is high on the global agenda for governments, organisations and individuals. It is a broad field that offers the opportunity to combine skills in conservation biology with complementary skills in areas such as computing, chemistry and/or geographic analysis.

These courses are built around a knowledge of the core sciences that are crucial to understanding the world’s amazing diversity. They also build on Flinders University’s long-standing expertise in biology and ecology, with a particular focus on conservation and the diversity of native species that live, or have lived, in Australia. Fieldwork and practical training is a feature of the degree, along with projects involving teamwork and the development of communication and professional skills.

### Study Program

First year topics may include:

- Introduction to Biodiversity and Conservation • Evolution of Biological Diversity • Molecular Basis of Life • The Nature of Science • Biostatistics

### Career Outcomes

Graduate roles include environmental consultants, conservation officers, ecologists and environmental health officers. Work is available in national parks, museums, education bodies, research and development authorities, mine site rehabilitation and environmental monitoring.

### Further Study

Further study is available for graduates to pursue a Master of Science or PhD (Research) at Flinders.
SCIENCE (BIOTECHNOLOGY)
Bachelor of Science (Biotechnology)  Bachelor of Science (Honours) (Biotechnology)

Prerequisites: None

Biotechnology is changing the world around us and is considered the growth technology of the 21st Century - with job opportunities to match. It is an exciting field of science that combines aspects of medicine and biology.

This program prepares you to work as a professional in one of the most exciting areas of modern science by combining theory and specialised practical scientific training with the study of related business, legal, ethical and social issues. Certainly the possible applications are almost endless – from the diagnosis and treatment of human diseases and improved production of therapeutic agents to the development of enhanced crop species, transgenic organisms for new drugs, biosensors for environmental pollutants and improved waste treatment processes.

This course draws on the resources of two faculties: Health Sciences as well as Science and Engineering. Our staff have expertise in all the major areas of biotechnology: medical, industrial, bioinformatics, environmental, food, and agricultural biotechnology.

Industry experience: Laboratory research placements are offered where you can work with scientists in industry and research.

STUDY PROGRAM
First year topics may include:
- Introduction to Biotechnology • Evolution of Biodiversity
- Molecular Basis of Life • The Nature of Science • Biostatistics

CAREER OUTCOMES
Employment opportunities are in biotechnology, bioinformatics, agriculture, environmental, food, and biomedical research.

FURTHER STUDY
You may wish to pursue further study to enhance your career opportunities. Options include Master of Biotechnology and PhD (Research).

FURTHER COURSE INFORMATION
flinders.edu.au/courses/undergrad/bstcb

SCIENCE (CHEMICAL SCIENCES)
Bachelor of Science (Chemical Sciences)  Bachelor of Science (Honours) (Chemical Sciences)

Prerequisites: You are expected to have completed senior secondary Chemistry and Specialist Mathematics / Mathematical Methods or equivalent. Senior secondary Physics is assumed.

Chemistry is involved in some way with almost everything we do or use and has improved our standard of living beyond all recognition. It has provided the drugs, antibiotics and anaesthetics that have relived pain and suffering; the polymers and plastics in our homes, cars and workplaces; the synthetic fibres of clothes; the batteries that power our homes, cars and workplaces; the batteries that power our portable technologies – the list is virtually endless. Chemists study molecular transformations and how they take place, enabling us to understand the world. The chemical sciences program covers the broad spectrum of chemistry at first and second years, while allowing for increased specialisation at third year.

STUDY PROGRAM
First year topics may include:
- Chemical Structure and Bonding • Modern Chemistry • The Nature of Science • Mathematics

CAREER OUTCOMES
Employment opportunities are in the wine, food, pharmaceutical, paint, mining, petrochemical, petroleum and automotive industries, and in research and analytical laboratories.

FURTHER STUDY
Further study options include Master of Science (Chemistry), Master of Science (Research) and PhD (Research).

FURTHER COURSE INFORMATION
flinders.edu.au/courses/undergrad/bscsc
flinders.edu.au/courses/undergrad/bssch

SCIENCE (CHEMICAL SCIENCES)/M.ENG (MATERIALS)
Bachelor of Science (Honours) (Chemical Sciences)/ Master of Engineering (Materials)

Prerequisites: You are expected to have completed senior secondary Chemistry and Specialist Mathematics / Mathematical Methods or equivalent. Senior secondary Physics is assumed.

Chemistry is involved in some way with almost everything we do or use and has improved our standard of living beyond all recognition. CAREER OUTCOMES
Employment opportunities are in the wine, food, pharmaceutical, paint, mining, petrochemical, petroleum and automotive industries, and in research and analytical laboratories.

FURTHER STUDY
Further study options include Master of Science (Chemistry), Master of Science (Research) and PhD (Research).

FURTHER COURSE INFORMATION
flinders.edu.au/courses/undergrad/bssclmem

SCIENCE (CLEAN TECHNOLOGY)
Bachelor of Science (Clean Technology)  Bachelor of Science (Honours) (Clean Technology)

Prerequisites: You are expected to have completed senior secondary Chemistry and Specialist Mathematics / Mathematical Methods or equivalent.

The Clean Technology specialisation addresses an emerging trend in industry to develop and use practices that are ‘green’ and sustainable. Clean technology activities are those that use or produce renewable materials and energy sources, reduce use of natural resources (or improve efficiency) and limit or stop pollution and toxic waste. This specialisation prepares you to play a key role in the reshaping of industries to make them both financially and environmentally sustainable.

STUDY PROGRAM
First year topics may include:
- Modern Chemistry • The Nature of Science • Clean Technology • Mathematics • Chemical Structure and Bonding

CAREER OUTCOMES
Graduates will be qualified for jobs in traditional science-based industries and government laboratories, and as clean technology emerges and matures will be positioned for jobs in the applied area. Graduates may find employment in the power, energy, solar, environmental, forestry and agricultural, nanotechnology, biotechnology, and industrial industries.

FURTHER STUDY
You may wish to pursue further study to enhance your career and employment prospects. Options include Master of Science (Research) or PhD (Research).

FURTHER COURSE INFORMATION
flinders.edu.au/courses/undergrad/bsscl
flinders.edu.au/courses/undergrad/bsscmem

CRICOS codes: 077386C, Honours: 077395A.
## SCIENCE (COASTS AND OCEANS)

Bachelor of Science (Coasts and Oceans)  
Bachelor of Science (Honours) (Coasts and Oceans)

### STUDY PROGRAM

First year topics may include:  
Earth and Environmental Sciences • Marine Sciences • Introduction to Geographical Information Systems • The Nature of Science

### CAREER OUTCOMES

Employment opportunities exist for government (national, state and local government) within institutions such as the Commonwealth Scientific and Industrial Research Organisation (CSIRO), state government agencies including the Bureau of Meteorology (BoM), the Department of Water, Natural Resources and the Environment (DEWNR), the South Australian Research and Development Institute (SARDI), the Environmental Protection Agency (EPA), and Local Government. Roles include: scientist, natural resource management officer, coastal projects officer, policy development project officer.

### FURTHER STUDY

Further study options Master of Science (Research) and PhD (Research).

### FURTHER COURSE INFORMATION

[flinders.edu.au/courses/undergrad/basco](flinders.edu.au/courses/undergrad/basco)  
CRICOS code: 089664B. Honours – 089671C

### Prerequisites: None

Study in this area provides you with a sound basis for understanding a variety of coastal, marine and ocean systems. The program of study examines the physical processes shaping coastal and marine environments. You will be introduced to the use of coasts and oceans as resources and a variety of management and policy interventions. You will have the opportunity to participate in project work, field exercises, and investigate practical, real-world challenges. There is also scope for interdisciplinary studies which combine this area with others such as biology, and hydrology, to broaden employment possibilities.

---

## SCIENCE (ENERGY AND ADVANCED MATERIALS)

Bachelor of Science (Energy and Advanced Materials)  
Bachelor of Science (Honours) (Energy and Advanced Materials)

### STUDY PROGRAM

First year topics may include:  
Mathematics • Fundamentals of Physics • Engineering Physics and Materials • The Nature of Science

### CAREER OUTCOMES

Diverse employment opportunities exist in a range of areas such as optics and photonics, telecommunications, micro-electronics, nano-electronics, instrumentation development, acoustics and geophysics.

### FURTHER STUDY

Further study options include Master of Science (Physics), Master of Science (Research) and PhD (Research).

### FURTHER COURSE INFORMATION

[flinders.edu.au/courses/undergrad/bseca](flinders.edu.au/courses/undergrad/bseca)  
CRICOS code: 089665A. Honours – 089672B

### Prerequisites: Successful completion of senior secondary Physics and Mathematical Studies or the equivalent is assumed

The program of studies aims to provide students with an extended foundation in new cutting edge materials together with the ability to acquire extensive subject knowledge. Materials are core to many modern day goods and devices. This course will examine the next generation of materials and their future applications. The course will explore exciting new concepts such as flexible solar cells, medical technologies such as implants, and lighter, stronger and more sustainable building products.

---

## SCIENCE (ENVIRONMENTAL SCIENCE)

Bachelor of Science (Environmental Science)  
Bachelor of Science (Honours) (Environmental Science)

### STUDY PROGRAM

First year topics may include:  
Evolution of Biological Diversity • Earth and Environmental Evolution • Earth and Environmental  
Geology • Marine Sciences • Introduction to Geographical Information System • The Nature of Science

### CAREER OUTCOMES

Some potential occupations for graduates include environment protection officer, environmental policy officer, environmental education officer, environmental care officer, and environmental consultant.

### FURTHER STUDY

Further study options Master of Science (Research) and PhD (Research).

### FURTHER COURSE INFORMATION

[flinders.edu.au/courses/undergrad/bsces](flinders.edu.au/courses/undergrad/bsces)  
CRICOS code: 096355J. Honours – 074777F

### Prerequisites: None

Environmental science is a multidisciplinary science examining how natural processes and their changes impact human society and how human activities interact with and modify environments. This course will focus on understanding, monitoring, and improving the environments. It enables students to expand knowledge, obtain skills, and learn critical thinking about environmental issues and problems.

---

## SCIENCE (FORENSIC AND ANALYTICAL SCIENCE)

Bachelor of Science (Forensic and Analytical Science)  
Bachelor of Science (Honours) (Forensic and Analytical Science)

### STUDY PROGRAM

First year topics may include:  
Evolution of Biological Diversity • Molecular Basis of Life • Chemical Structure and Bonding • Modern Chemistry • Introduction to Forensic Science • Biostatistics • The Nature of Science

### CAREER OUTCOMES

Potential roles include analytical chemist, biochemist, business analyst, forensic chemist, laboratory chemist, production biochemist, quality assurance officer, and technical officer. Our graduates have taken up positions in the chemical, pharmaceutical, food, marine chemical investigations, and forensic industries in forensic, analytical, winery and environmental laboratories, and government agencies.

### FURTHER STUDY

Many students have continued with tertiary study, enrolling in the Bachelor of Science (Honours) or Master of Science or a PhD (Research).

### FURTHER COURSE INFORMATION

[flinders.edu.au/courses/undergrad/bscfs](flinders.edu.au/courses/undergrad/bscfs)  
CRICOS code: 023581F. Honours – 074777E

### Prerequisites: Senior secondary chemistry is required.

The Forensic and Analytical Science specialisation—available in the Bachelor of Science programs—is available in two streams: Forensic and Analytical Chemistry and Forensic Biology. Forensic and Analytical Chemistry combines the practice of analytical chemistry with the application to forensic investigation. Forensic Biology uses aspects of life sciences to examine biological material in a forensic context. You will benefit from our links with industry and our expertise in forensic and analytical science. Forensic science staff at Flinders have strong links with Forensic Science South Australia, the State’s pathology and scientific evidence service, South Australian Police (SAPOL) and other researchers around the world. Our research facilities are among Australia’s best, making Flinders an ideal location for teaching and research both in the laboratory and in the field. Honours provides you with additional skills and knowledge to pursue further scientific research or a career in a science-related field.
The Bachelor of Science (Geography) is one of the few degrees to encompass very different ways of knowing, from the biophysical and social sciences to the humanities. Graduates are uniquely equipped to understand and address critical problems facing the world. The program provides you with a broad foundation in geography—the study of place, space and the environment. Geographers investigate the character of places, the distribution of phenomena across space, biophysical processes and features, and dynamic relationships between humans, their cultures, and environments. Geographers ask questions about how societies and environments are connected to one another, how and why they change; and how and why their characteristics vary across time and space at different scales. Geography answers questions spanning the local to the global, in the past, present and future. The Honours year offers you a training opportunity in advanced research, writing, professional and organisational skill development, and provides you with an opportunity to complete a research project related to your undergraduate degree and area of interest. The skills you obtain during Honours will be of great benefit to you after completion, whether you progress to a higher degree, choose to pursue further study in another area or move into employment.

STUDY PROGRAM

The degree comprises a thoughtfully structured three year program of study offering core topics in geography and cognate areas. Students admitted to the four year Bachelor of Science (Honours) (Geography) follow the same study plan as those admitted to the Bachelor of Science (Geography) for the first three years. You will be trained to recognise, evaluate and synthesise various views, arguments and sources of knowledge pertinent to solving environmental and social problems.

CAREER OUTCOMES

Geography graduates have a powerful mix of skills to solve a range of problems. Geographers are skilled in a range of research techniques, which can include fieldwork, survey design, statistical analysis, spatial data analysis (including Geographic Information Systems), and other forms of qualitative and quantitative analysis. Geography graduates are proficient at retrieving, synthesising and communicating information, as well as managing data and drawing on different sources of knowledge. They think critically and creatively, and work effectively both in teams and on their own initiative. Those skills and attributes make Geography graduates highly employable in a great variety of fields across both government and non-government sectors in Australia and overseas.

FURTHER STUDY

Graduates of the honours degree who meet requirements will be able to pursue a Master of Science or a PhD (Research).

FURTHER COURSE INFORMATION

http://flinders.edu.au/courses/undergrad/bsscgeh

CRICOS code: 093522D. Honours – 093523C

Hydrology is the study of water movement across the globe, within catchments and urban areas, and below the ground, and is an essential discipline for managing freshwater to meet human and environmental needs. This course delves into the science of water movement in the atmosphere, surface systems and aquifers, and considers such cross-disciplinary aspects as water quality, ecological water requirements, field and computer-based methods of investigation, and management practices. It enables students to develop critical analysis and interpretation skills in hydrological problems, with practical links to real-world issues associated with human and environmental dependencies.

STUDY PROGRAM

First year topics may include: Earth and Environmental Sciences • Introduction to Geographical Information Systems • Mathematics • The Nature of Science

CAREER OUTCOMES

Employment opportunities are with the CSIRO, the Environmental Protection Agency (EPA), Water Catchment Boards, Natural Resource Management organisations, Private Environmental Consulting firms, and Government agencies charged with the management of water, land, ecosystems and development.

FURTHER STUDY

Further study options include the Postgraduate Programs (Graduate Certificate, Graduate Diploma, Master) in Science (Groundwater Hydrology). Many graduates continue study by undertaking a Master of Science or PhD (Research) in their area of interest.

FURTHER COURSE INFORMATION

http://flinders.edu.au/courses/undergrad/bscchy

http://flinders.edu.au/courses/undergrad/bsscgh

CRICOS code: 089666M. Honours – 089673A

Marine biology is the study of the living world in the sea, from simple molecules to the complex interactions between species. The course combines technical depth with great flexibility, allowing you to tailor your progress, skills and knowledge to suit your interests. Great emphasis is placed on teamwork, project design, sampling protocols, in-depth analysis, and written and oral communication including discussion of key marine and coastal related topics. You will also have the opportunity to undertake a research project in a specialisation of your choice. You will get hands-on experience in field trips, conduct practical exercises on organisms, collect real data from the environment and undertake research.

STUDY PROGRAM

First year topics may include:

Evolution of Biological Diversity • Molecular Basis of Life • Introduction to Marine Biology • Marine Sciences • The Nature of Science • Biostatistics

CAREER OUTCOMES

The range of specialty areas and career opportunities are expansive. There are marine biologists who study the basic biochemistry of marine organisms, or the growth or behaviour of individual plants or animals. Some adopt an even larger perspective and study how entire marine ecosystems function. Potential roles include aquatic ecologist, coastal scientific officer, environmental assessment officer, environmental management officer, fisheries information analyst, marine biologist, marine scientist and oceans science project officer. Graduates may find employment in areas such as government, coastal and marine industries, environmental groups, fisheries, marine conservation and resource monitoring, research and development organisations, science policy, planning and decision making, tourism, and water authorities.

FURTHER STUDY

Many graduates continue study by undertaking a Master of Science or PhD (Research) in their area of interest.

CRICOS code: 033068G. Honours – 074778D

FURTHER COURSE INFORMATION

http://flinders.edu.au/courses/undergrad/bsscgeh

CRICOS code: 093522D. Honours – 093523C
**SCIENCE & ENVIRONMENT**

**SCIENCE (MARINE BIOLOGY AND AQUACULTURE)**
Bachelor of Science (Marine Biology and Aquaculture)
Bachelor of Science (Honours) (Marine Biology and Aquaculture)

**STUDY PROGRAM**
First year topics may include:
- Evolution of Biological Diversity
- Marine Sciences
- Chemistry
- The Nature of Science
- Biostatistics

**CAREER OUTCOMES**
Potential occupations for graduates include:
- Aquaculture development officer
- Marine biologist
- Fisheries officer
- Marine policy officer
- Research assistant, reef guide, predator prevention officer, and development officer
- Marine biologist
- Fisheries and ecological consultant

**FURTHER STUDY**
Further study options include Master of Science (Research) and PhD (Research).

**FURTHER COURSE INFORMATION >>>
flinders.edu.au/courses/undergrad/bscmmnaq
flinders.edu.au/courses/undergrad/bscmmnqh

CRICOS code: 089667K. Honours = 089674M

Prerequisites: Knowledge of senior secondary mathematics and/or physics to Year 11 is desirable.

The Bachelor of Science (Marine Biology and Aquaculture) enables you to combine studies in aquaculture production technologies and business skills with scientific study of the diversity of life in the sea. You will gain a broad understanding of the biology of marine organisms, their relationship with the physical, chemical marine environment and their potential responses to change. The course also helps you to acquire extensive knowledge in marine biodiversity, ecology, genetics, conservation, fisheries and related areas.

**STUDY PROGRAM**
Topics may include:
- Molecular Biology
- Biochemistry
- Virology
- Immunology
- Genetics
- Evolution and Biodiversity
- Experimental Design and Statistics for Biology

**CAREER OUTCOMES**
Employment opportunities are in medical research organisations, biotechnology companies, universities and government agencies. Graduates with a molecular biosciences specialisation usually work in a laboratory setting but they may also become involved in field-based projects.

**FURTHER STUDY**
Further study options include Master of Science (Research) and PhD (Research).

**SCIENCE (MOLECULAR BIOSCIENCE)**
Bachelor of Science (Molecular Bioscience)
Bachelor of Science (Honours) (Molecular Bioscience)

**STUDY PROGRAM**
First year topics may include:
- Evolution of Biological Diversity
- Molecular Basis of Life
- Fundamentals of Nanotechnology
- The Nature of Science
- Chemical Structure and Bonding
- Modern Chemistry
- Molecular Biology
- Biochemistry
- Virology
- Disease and Immunity
- Immunology
- Genetics
- Evolution and Biodiversity
- Experimental Design and Statistics for Biology

**CAREER OUTCOMES**
Graduates of the Nanotechnology specialisation within the Bachelor of Science, will have many opportunities at the boundaries of traditional science due to the cross-disciplinary nature of their degree. Whatever the environment, commercial or research, these employment opportunities will be at the cutting edge of technology. Potential occupations include nanofabrication technologist, nanomaterial scientist, nanomaterials business manager, nanosystems scientist, production supervisor, research officer and technical officer. There are many opportunities for graduates who wish to work in a commercial environment.

**FURTHER STUDY**
Graduates can enhance their career prospects by undertaking a Graduate Diploma Nanotechnology (students who have completed the four-year undergraduate Nanotechnology course at Flinders cannot be admitted to the Graduate Diploma), Master of Nanotechnology, Master of Science or PhD (Research).

**FURTHER COURSE INFORMATION >>>
flinders.edu.au/courses/undergrad/bscmm
flinders.edu.au/courses/undergrad/bscmmh

CRICOS code: 089669G. Honours = 089674K

Prerequisites: None

Molecular biosciences covers the disciplines of molecular biology, biochemistry, molecular genetics and biotechnology. In essence it involves the study of genes and proteins and how they determine the development and functioning of cells, tissues and organs in bacteria, fungi, plants and animals. It also provides the tools to investigate abnormal development and disease. It has applications in medicine, agriculture, forensic science and the study of evolutionary relationships. It can be used to cure human diseases such as cancer and malaria, and plant diseases such as bacterial and fungal blights. Molecular bioscience uses the knowledge of biology to generate technology with economic and environmental benefit. In this course you will learn how to isolate, analyse and modify DNA and proteins.

**SCIENCE (NANOTECHNOLOGY)**
Bachelor of Science (Nanotechnology)
Bachelor of Science (Honours) (Nanotechnology)

**STUDY PROGRAM**
First year topics may include:
- Molecular Basis of Life
- Fundamentals of Nanotechnology
- Chemical Structure and Bonding
- Modern Chemistry
- Molecular Basis of Life
- Fundamentals of Nanotechnology
- The Nature of Science
- Chemical Structure and Bonding
- Modern Chemistry
- Molecular Biology
- Biochemistry
- Virology
- Disease and Immunology
- Immunology
- Genetics
- Evolution and Biodiversity
- Experimental Design and Statistics for Biology

**CAREER OUTCOMES**
Graduates of the Nanotechnology specialisation, within the Bachelor of Science, will be empowered to transfer their skills to any technical vocation or further study.

Recent projects have included electron scattering measurements, studies of a new theory of gravity, the modelling of nuclear interactions, and the development of smart surfaces for solar cells and molecular electronics. Physics can also be combined with other branches of science such as mathematics, chemistry, earth sciences or biology.

Professional accreditation: This program has been designed to be accredited by the Australian Institute of Physics (AP).

**STUDY PROGRAM**
First year topics may include:
- Mathematics
- Physics
- Chemistry
- The Nature of Science

**CAREER OUTCOMES**
Diverse employment opportunities exist in a range of areas such as optics and photonics, telecommunications, micro-electronics, nano-electronics, instrumentation development, acoustics, geophysics and meteorology.

**FURTHER STUDY**
Further study options include Master of Science (Physics), Master of Science (Research) and PhD (Research).

**FURTHER COURSE INFORMATION >>>
flinders.edu.au/courses/undergrad/bscp
flinders.edu.au/courses/undergrad/bscph

CRICOS code: 089669G. Honours = 089674G

Prerequisites: Successful completion of senior secondary Physics and Mathematical Studies or the equivalent is assumed.

Physics is the enabling science behind many modern technologies and devices that influence our daily lives. With a knowledge and understanding of the fundamental laws of nature, those who have a degree in physics will be empowered to transfer their skills to any technical vocation or further study.

### GENERAL NOTES

2018 Tuition Fee is for a standard load of 36 units per year. The quoted fee is a base fee that will be subject to an annual increase that is at least the rate of inflation, but no more than 9%, for each of the subsequent years of the program. The University’s Student Services and Amenities fee for international students is included in the tuition fee. The fee covers the cost of teaching and student support services.

(P.T): Part-time

International students cannot undertake external or part-time study whilst in Australia on a student visa.
ENTRY REQUIREMENT NOTES

Pearson English Test
50% Overall score of 50 with 50 in writing and speaking
58% Overall score of 58 with 58 in writing, speaking, listening and reading
5B– Overall score of 58 with 58 in writing and speaking, and 50 in listening and reading
65% Overall score of 65 with 58 in writing, speaking, listening and reading
65% Overall score of 65 with 65 in writing, speaking, listening and reading
73% Overall score of 73 with 73 in writing, speaking, listening and reading

A Level
Results are calculated on the aggregate score from 3 A (H2) Level subjects for 3 A (H2) Level subjects and 2 AS (H1-Lewis/subjects) where A=5, B=4, C=3, D=2, E=1 for A Level subjects, and A=2.5, B=2.0, C=1.5, D=1.0, E=0.5 for AS Level subjects. General Paper and local language subjects are excluded from the calculation.

IB International Baccalaureate students must achieve the Diploma with a minimum overall score of 24. Students must complete 8 subjects, one from each of six subject groups as well as 3 subjects at a higher level. The Diploma results are on a scale of 1 to 7 (with 7 being the highest). A minimum pass grade for SL subjects is 4; whilst HL subjects is 3.

ATAR
The Australian Tertiary Admission Rank (ATAR) is a number ranging between 99.95 and zero which reports a student’s entry to the University. An ATAR is a number ranging from 99.95 and zero which reports a student’s rank position relative to all other students.

The Australian Tertiary Admission Rank (ATAR) is calculated using the best 4 subjects, excluding local Indian Senior Secondary Schooling results are calculated using the best 6 subjects. The Diploma results are on a scale of 1 to 7 (with 7 being the highest). A minimum pass grade for SL subjects is 4; whilst HL subjects is 3.

Indonesian
Indonesian Secondary School Certificate of Completion (Sekolah Menengah Atas, previously STTB). A pass is an average of 6.0 out of 10 with at least 4.26 in each subject (previously 3.0). Grades from the student’s final year of study are shown separately on their school report.

Malaysia STPM
STPM calculation A or A=5pts; B=4; C=3; D=2; E=1. Add the pts scored for best five subjects attempted at one examination, excluding General Paper.

Malaysia UEC
UEC scores are obtained by calculating the best five subjects as follows: A1=1;A2=2;B3=3,B4= 4,B5=5,B6=6;C7=7;C8=8. Language studies and the topic General Paper are excluded in the calculation.

Gakasan
Certified evidence of the official Gakasan result issued by provincial level Academy of Education Recruitment and Examination (国家升学历考试院) in both Chinese and English translations identifying the stream students have taken in the examination.

INTERNATIONAL STUDENT POLICY

The International Student policy and procedures statement details the specific provisions which apply to international students undertaking a Flinders University course, except where that course is offered by another institution on behalf of the University. In such instances, the other institution’s policies and procedures will apply. The statement can be found at flinders.edu.au/ppmanual/student/international-students.cfm.

It is important that students read and understand these provisions prior to accepting their offer at Flinders University. Specific provisions include;

• The Universities commitment to working within the Education Services for Overseas Students (ESOS) Act and National Code (2007)
• The University’s commitment to working within the Code of Practice in the Provision of Education to International Students
• English language proficiency requirements
• Admissions policies for international undergraduate, postgraduate, Study Abroad and Exchange students including basis of admission, and assessment of qualifications
• Tuition fees, the payment of tuition fees, and refund policies
• Duration of study, deferrals, suspension, and cancellation of student’s enrolment policies

APPLYING TO FLINDERS

The following pages provide a summary of the application process. For more detailed information, visit our website: international.flinders.edu.au
**ENTRY REQUIREMENTS**

To gain direct general admission to an undergraduate course at Flinders, you must have successfully completed a recognised secondary education qualification, or recognised academic pathway program and satisfy our English language proficiency requirements.

**ACADEMIC ENTRY REQUIREMENTS**

Some of the countries where secondary education may be recognised are:

- China
- Hong Kong
- India
- Indonesia
- USA
- Kenya
- Malaysia
- Nepal
- Singapore
- South Korea
- United Kingdom
- Vietnam
- West African countries

Please see the course index at the back of this guide for academic entry requirements for these countries.

If the country that your qualification comes from is not listed, more international secondary schooling qualifications are listed at: flinders.edu.au/international/ ugenrequirements

**ENGLISH LANGUAGE ENTRY REQUIREMENTS**

For applicants whose first language is not English you will need to:

- achieved the required test score for your course as listed in the course index at the back of this publication. Test results must be no more than two years old on the proposed date of commencement of the course; or

- successfully completed an approved secondary or tertiary qualification, taught in the English language in a country where Flinders recognises English as the official language or the main language spoken (for up to an overall IELTS of 6.5 band scores) with evidence no more than five years old on the proposed date of commencement of the course; or

- successfully completed a pre-course English program from an approved ELICOS provider (evidence of completion must be no more than two years old on the proposed date of commencement of the course).

Other evidence of English language proficiency may be considered.

For more information visit: flinders.edu.au/englishrequirements

**PATHWAYS TO FLINDERS**

Don’t meet our academic or English language entry requirements? There are other pathways to Flinders.

**ENGLISH LANGUAGE ONLY PATHWAYS**

In addition to Flinders ISC, other approved English language (ELICOS) providers include:

- Intensive English Language Institute (IELI), located on campus at Flinders ieli.sa.edu.au
- Eynesbury College
  eynesbury.navitas.com
- English College of Adelaide
  eca-jca.edu.au
- South Australian College of English (SACE) sacecoll.sa.edu.au

Once you have met the required level of English by completing tuition with one of our approved ELICOS providers, you can gain direct entry into Flinders without having to sit an IELTS or TOEFL test.

For more information, please visit: flinders.edu.au/international/pathways

**FLINDERS INTERNATIONAL STUDY CENTRE**

Conveniently located on campus, Flinders International Study Centre (ISC) offers academic English preparation (AEP), foundation and diploma programs for students who seek to qualify for Flinders undergraduate courses.

Courses at Flinders ISC are designed to develop your academic understanding, study skills and English language level so that you have a good knowledge of your chosen subject when you start your degree.

Above all, Flinders ISC courses will give you the confidence you need to progress in your studies as well as your chosen career.

Flinders International Study Centre:
isc.flinders.edu.au

**ENGLISH LANGUAGE ENTRY REQUIREMENTS**

For applicants who do not meet our academic or English language requirements and need to improve their proficiency can do so through our approved pathway providers.

**FLINDERS INTERNATIONAL STUDY CENTRE**

Conveniently located on campus, Flinders International Study Centre (ISC) offers academic English preparation (AEP), foundation and diploma programs for students who seek to qualify for Flinders undergraduate courses.

Courses at Flinders ISC are designed to develop your academic understanding, study skills and English language level so that you have a good knowledge of your chosen subject when you start your degree.

Above all, Flinders ISC courses will give you the confidence you need to progress in your studies as well as your chosen career.

Other evidence of English language proficiency may be considered.

For more information visit: flinders.edu.au/englishrequirements
Flinders International Study Centre (ISC) provides academic English, foundation and diploma programs for students who do not meet the academic or English language requirements to Flinders and wish to qualify for, and enrol directly in, our undergraduate courses.

Flinders ISC offers an authentic university experience, including the opportunity to live on campus. Graduates of Flinders ISC are fully prepared to be successful students at Flinders University. Flinders ISC staff are highly skilled in dealing with the needs and requirements of international students. They will provide you with a supportive environment in which you can develop your independent learning skills and will help you to organise your studies.

**Foundation Program**
CRICOS Code: Standard - 070229D
Extended - 070229M
The Foundation Program is a comprehensive academic program which prepares students for university-level learning. Students are fully supported throughout their studies to ensure they are ready for the rigours of the tertiary environment. The successful completion of the Foundation Program allows students to progress to the Flinders International Study Centre diplomas or to first-year undergraduate degree programs at Flinders University upon meeting the entry criteria.

**Diploma of Commerce**
CRICOS Code: 077794B
The Diploma of Commerce is a complete program combining detailed academic preparation with educational enrichment to ensure that students are fully prepared for all aspects of learning at Flinders University. Successful completion of the diploma at Flinders International Study Centre allows students to progress to a range of Flinders University business and commerce degrees with up to 12 months credit.

**Diploma of Science**
CRICOS Code: 081454E
The Diploma of Science is a complete program combining detailed academic preparation with educational enrichment to ensure that students are fully prepared for all aspects of learning at Flinders University. It is designed specifically for students who do not satisfy the direct entry requirements for engineering courses at Flinders University. It is equivalent to first year university level. Successful completion guarantees articulation into the following Flinders University degrees with up to 12 months credit.

- Bachelor of Engineering (Civil)
- Bachelor of Engineering (Computer Systems)
- Bachelor of Engineering (Electrical)
- Bachelor of Engineering (Electronic)
- Bachelor of Engineering (Mechanical)
- Bachelor of Engineering (Robotics)

**Pre-Masters Business Program at Flinders International Study Centre**
CRICOS Code: Accelerated - 085891A
CRICOS Code: Standard - 085892M
Specifically designed for international students, the Pre-Masters Business Program is an advanced course of English language and academic preparation. The course will fully prepare you for joining the Master of Business, Master of Accounting or Master of Accounting and Finance at Flinders University.

For more information, please visit: isc.flinders.edu.au/our-courses/pre-masters-program

**Academic English Preparation**
CRICOS Code: 085947A
The AEP will develop your English language and key academic skills to help you achieve success in your future studies. Our teachers are highly qualified and experienced professionals within the English as a Second Language (ESL) field. Successful completion of the appropriate AEP modules means you do not need to take any additional English language testing before starting your program.

*Delivered by Study Group Australia Pty Limited trading as Flinders International Study Centre on behalf of Flinders University.*
Admission to Flinders University is a simple four-step process.

1. YOUR APPLICATION

Submit your application, making sure you include all the required documents as attachments.

Once your application is received by the International Centre, you will be sent an acknowledgement of your application being received and we will advise you if any further information or documentation is required.

2. YOUR OFFER OF ADMISSION

Your offer of admission is usually sent to you by email. If you do not have an email address we will post the offer letter directly to you or email your agent. We will endeavour to send your offer letter within 10-14 working days, however there may be delays where you have applied for a course with strict quotas or additional entry requirements, or where credit/exemption is sought for previous study.

Included in the offer of admission is a weblink to ‘Your Offer Letter Explained’. At this stage you will be required to accept the offer by completing the acceptance form and any associated declarations. You will also be required to pay the relevant tuition fees for the first semester and visa-length Overseas Student Health Cover (OSHC) as detailed in your offer of admission.

3. CONFIRMATION OF ENROLMENT

We will issue the Confirmation of Enrolment (CoE) upon receipt of the signed acceptance, review of the declaration(s), and payment of fees and OSHC. With the CoE you can apply for your student visa. Please check your visa requirements at: border.gov.au

4. ARRIVAL AND ORIENTATION

Pre-arrival information to assist you prior to your departure for Adelaide is also available in the International Student Handbook at: flinders.edu.au/international/services

**TERMINOLOGY**

You may have come across some terms in this guide that are unfamiliar to you. This list of terminology will help you to better understand what we mean. You may also find it handy when visiting our website.

**ACADEMIC ENGLISH PREPARATION (AEP)** Program aimed at improving your English language and academic skills prior to commencing study at Flinders University.

**ACADEMIC STAFF**
All teaching and research staff, including professors (the most senior), associate professors or readers, senior lecturers, lecturers, associate lecturers and tutors.

**ACADEMIC YEAR**
Begins in late February or early March and ends in late November.

**AUSTRALIAN CENTRAL STANDARD TIME (ACST)**
Time zone for Adelaide and South Australia.

**AWARD**
A degree, certificate, diploma, masters or PhD of the University granted at the completion of a course of study.

**BACHELOR DEGREE**
Normally the basic (first) undergraduate degree.

**CENTRAL BUSINESS DISTRICT (CBD)**
The commercial and business centre of a city.

**CONFIRMATION OF ENROLLMENT (COE)**
A COE is a document provided by the University to an international student who studies in Australia on a student visa.

**ENGLISH LANGUAGE INTENSIVE COURSES FOR OVERSEAS STUDENTS (ELICOS)**
Programs for students who require English language training before commencing formal studies in Australia.

**EXCELLENCE IN RESEARCH FOR AUSTRALIA (ERA)**
Australia’s national research evaluation framework.

**EXTERNAL STUDENT**
A person undertaking all of their study by correspondence on either a full-time or a part-time basis, and who is enrolled as an external student.

**FLINDERS LEARNING ONLINE (FLO)**
Flinders University’s core online learning and teaching application.

**FLINDERS UNIVERSITY STUDENT ASSOCIATION (FUSA)**
The on-campus student organisation that exists for the purpose of representing students’ rights and interests.

**FOUNDATION PROGRAM**
Flinders International Study Centre (ISC) offers academic English preparation (AEP), foundation and diploma programs for students who seek to qualify for Flinders undergraduate courses.

**HONOURS DEGREE**
Awarded to undergraduate students who choose to complete an additional year of study. In the case of four-year degree programs, honours may be awarded to students who perform particularly well.

**INTERNATIONAL ENGLISH LANGUAGE TESTING SYSTEM (IELTS)**
Measures the language proficiency of people who want to study or work where English is used as a language of communication.

**INTERNATIONAL NETWORK UNIVERSITIES (INU)**
A global consortium comprised of higher education institutions that actively seek international partnerships and experiences, create innovative programming and delivery methods, and embrace the internationalisation movement.

**INTERNATIONAL STUDENT BAROMETER (ISB)**
The global benchmark for the international student experience conducted by iGraduate.

**INTERNATIONAL STUDENT SERVICES (ISS)**
The first point of contact for international students and offers a range of programs supporting your enrolment, study and social life, as well as a referral service to facilities on campus and within the local community.

**INTENSIVES**
Where a topic is studied over a short period of time (eg week or weekend) with the same number of contact hours as a semester length topic.

**INTERNATIONAL STUDENT SERVICES (ISS)**
International Student Services (ISS) is the first point of contact for international students as well as the measure of student satisfaction.

**MAJOR SEQUENCE**
A sequence of topics that must be taken in all three years of a degree.

**MINOR SEQUENCE**
A small number of topics in one area of study.

**NEW VENTURE INSTITUTE (NVI)**
New Venture Institute is the centre of innovation and entrepreneurship at Flinders University. Through programs and activities they aim to inspire, connect and educate future generations of entrepreneurs and innovators.

**PEARSONS TEST OF ENGLISH (PTE)**
Pearson Test of English is an English language test for students wishing to enrol in English-speaking universities.

**POSTGRADUATE COURSES**
Students must normally have an undergraduate degree to begin studying any postgraduate course; this is sometimes known as graduate studies.

**PREREQUISITE**
A topic that must be completed before a higher-level topic can be studied; it is the student’s responsibility to ensure that topic prerequisites have been met.

**PRE-MASTERS PROGRAM**
A qualifying program for students who do not meet the entry requirements for a postgraduate masters degree.

**SEMESTER**
The academic year is divided into two semesters – usually late February to mid June, and late July to November.

**STUDENT LEARNING CENTRE (SLC)**
The Student Learning Centre (SLC) is a multidisciplinary academic support service for Flinders University students.

**TEST OF ENGLISH AS A FOREIGN LANGUAGE (TOEFL)**
A standardised test to measure the English language ability of non-native speakers wishing to enrol in English-speaking universities.

**TOPIC**
A subject that is studied as part of a degree program.

**TOPIC CODES**
Typically consist of a four-character alpha code followed by a four-digit code. These eight characters form the total topic code, eg EDUC1120 Teaching and Educational Contexts. These should be quoted whenever you are making an enquiry about enroling in a topic.

**UNDERGRADUATE DEGREE**
A first degree.

**UNIT**
The measure of weighting given to a topic as specified in the syllabus for that topic. Each topic is given a weighting in units, roughly proportional to its length. Most full-time students complete 36 units a year to gain the 108 units needed to qualify for their degree if they are undertaking a three-year bachelor degree.

**WORK INTEGRATED LEARNING (WIL)**
A program designed to give students the opportunity to link theory and practice with valuable workplace experience while studying.
