Flinders inspires you to achieve more

You will meet incredible minds to stimulate and inspire you – teachers of international repute armed with up-to-the-minute knowledge, drawing on research that not only meets the world standard, but exceeds it.

Our teaching is designed to take you from learning to earning. Get plugged into industry trends, and take part in professional placement opportunities and practical experience that make you work-ready upon graduation.

You will take this journey in stimulating learning spaces, sharing your ideas with like-minded individuals who challenge and inspire you to achieve more. It is the perfect environment in which to become the best you can be.
As a Flinders international student, you’ll receive a world-class education that will equip you to achieve all you aspire to, wherever in the world that may be. From day one, Flinders University encourages you to explore new ideas and discover what inspires you.

We’re constantly creating an environment rich with possibilities, where your ambitions are supported and sustained. Relevant, real-world research drives what you learn in the classroom, and our strong industry links give you the experience that can accelerate your career. Flinders lecturers and academics are leaders in their fields, dedicated to helping you reach your potential.

Flinders has a diverse community of students from more than 90 countries, and values the global perspective that you and your peers bring. That global focal point is further reinforced by our strong links with universities and research institutions worldwide.

When you choose Flinders, you’re choosing outstanding student support networks, modern study resources, and lecturers who genuinely care about your learning. We give you the confidence to grow, learn and have an extraordinary university experience.

We look forward to welcoming you to Australia and Flinders University, where you can achieve the extraordinary.
Flinders has forged strong relationships with numerous industry partners locally and internationally. This means that what you learn is relevant to the real world and makes you job-ready. Our degrees are connected to industry, with many professionally accredited by independent industry bodies. You will gain specialised skills and knowledge in your chosen area while developing portable qualities like independent thinking, communication, collaboration, ethics and creativity – qualities shared by innovators, entrepreneurs, pioneers, creators and trailblazers.

Whether you would like to excel in a profession, pursue research that makes a difference, or forge an entirely new path, Flinders gives you the confidence to achieve your ambitions. It all starts with a Flinders degree.

A university degree provides you with more job options. But a Flinders degree prepares you for a satisfying career.

flinders.edu.au/international

**Geared for careers**

Work-Integrated Learning

Work-Integrated Learning (WIL) enables you to gain work experience while you study. Flinders aims to provide each and every student with access to a WIL opportunity during their studies through placements, practicums, field studies, and simulated workplace settings and assessment activities.

Careers & Employability Service

The Careers and Employability Service helps give you the edge in your career. CareerHub, our online employment portal, helps you prepare for and find the job you want. It’s your one stop shop, offering personalised job opportunities, and access to employer events and career-related resources.

Mentoring

The Flinders Ignite Mentoring Program allows you to choose your own career mentor to assist you in getting ready for the transition from study to employment. The program enables you to expand your professional networks, develop your skills and prepare for your future career.

Working in Australia

The Australian Government allows international students to work up to 40 hours per fortnight, and full-time during semester breaks. Work rights are granted automatically when you receive your visa.

"As well as help with my résumé, cover letters and networking opportunities, it’s been great to hear some first-hand experiences from the workplace."

Greg Wolszczak
Bachelor of Laws and Legal Practice student
Ignite Mentoring Program participant

"The best thing about studying at Flinders is gaining real life experience, and implementing those experiences wherever you may work."

Vinh Tran
Bachelor of Business
Vietnam

**No.2**

Rated no. 2 in Australia for work experience

International Student Barometer 2016
A DYNAMIC LEARNING EXPERIENCE EMPOWERING YOU TO THINK BIG.
FLINDERS UNIVERSITY OFFERS STUDENTS THE OPPORTUNITY TO EMBED INNOVATION AND ENTERPRISE TOPICS WITHIN THEIR DEGREE.

Around 70 per cent of young Australian graduates are starting their careers in roles that will substantially change or be obsolete in the next 10 to 15 years*. At Flinders, we prepare you for the careers of tomorrow, providing you with the ‘personal enterprise’ skills to be ready for the five career changes and 17 different jobs* you are likely to have over your lifetime.

We recognise that careers are evolving and the workplace of the future will look very different from today’s. That’s why we’re constantly fine-tuning our degrees to empower you to create the jobs of the future.

The innovation and enterprise suite is powered by Fox School of Business at Temple University, a US top-ten university for entrepreneurship** and cutting-edge online teaching. Each topic is embedded with the philosophy of the Flinders New Venture Institute, our entrepreneurial arm. Innovation and enterprise topics can be undertaken with any degree at any time to unlock your career potential.

By providing you with the skills necessary to enhance your creativity, understand and embrace innovation, and think like an entrepreneur, we’ll prepare you for graduate success. You’ll gain an understanding of the forces of disruption, using new technology and business models to succeed in the industries of today, and challenge the industries of tomorrow.

Expand your learning experience and excel in a future that will be automated, globalised and collaborative by adding innovation and enterprise expertise to your skillset.

Postgraduate courses are immersive, intensive, and aimed at creating leadership in innovation. As nested degrees, each leads you to the next level, or you can enter at masters level directly.

TOPICS
• Innovative and Creative Thinking: Recognising opportunities
• Collaboration, Co-Creation and the Crowd: Leveraging & Managing our Ecosystem for Innovation
• Innovation for Social Impact: Doing Good While Doing Well GE
• From Intuition to Insight: Validating Desirability, Feasibility and Viability
• From Innovation to Impact: Creating a Roadmap from Opportunity to Action
• People First: Embedding Innovation into the Organisational DNA
• Going Live! Entrepreneurial Strategies, Resources and Activities
• Strategic Innovation: Optimising the Innovation Portfolio

* The New Work Smarts, Foundation for Young Australians, 2017.
Flinders has forged strong relationships with industry partners locally and internationally.

Some of the many important industry and project-based partnerships Flinders has formed include:

Business
Australian Fashion Labels
Australian Fashion Labels is a top fashion apparel company based in Adelaide, with over 3,000 stockists worldwide and international offices in Los Angeles and Shanghai. Flinders Business students can undertake work placements and gain hands-on experience in public relations, social media, international marketing and accounting.

Creative Arts & Digital Media
CDW Studios
CDW Studios offers courses in collaboration with CDW Studios, providing training in visual effects and entertainment design. Students learn from leading industry professionals who have worked with companies such as Disney, Blizzard Entertainment, Rising Sun Pictures, WETA, Wizards of the Coast and Lego. Flinders and CDW Studios’ School of Visual Effects and Entertainment Design was named the Best Digital Illustration School in The Rookies’ Best Creative Media and Entertainment Schools report for 2017.

Information Technology
Cisco Australia
Cisco, a worldwide leader in networking and the provider of the state-of-the-art network infrastructure at Flinders, will support high quality research in innovative health technologies. Flinders and Cisco have also established a Cisco Academy at Tonsley that trains students for the jobs of the future. Work in the area has the potential to radically change how people interact with health services, and how they manage and maintain their health throughout life.

Health, Medicine & Nursing
SA Health
Flinders works in partnership with the South Australian Department of Health and Ageing to provide clinical training placements to our medicine, nursing and health sciences students in hospitals and health services across South Australia. Those placements ensure our students are well-equipped to apply the theory they learn to patients and communities in a variety of health service settings.

Flinders University and CDW Studios ranked no. 1 in the world for digital media
The Rookies, Best Creative Media and Entertainment Schools report 2017

Connected with industry
World-class research

Flinders is home to a vibrant and constantly evolving research community, with research strengths in the following broad categories:
- engineering and technology
- health and medical
- people and society
- science, environment and natural resources
- defence.

Our research spans areas such as:
- autonomous vehicles
- clean technology
- energetic materials
- health and medical
- labour and industry transformation studies
- marine and maritime research
- medical devices
- nanotechnology and analytical chemistry
- people and society
- psychology and neuroscience
- water and the environment.

Flinders also appoints elite international and Australian researchers as strategic professors to sharpen the University’s research profile and build strength in areas of strategic research significance.

Through specialisation and collaboration, our research has a positive impact, not just on your learning, but on the world around us.

Through research and research-led teaching, we build and develop the knowledge and capabilities that improve lives and enhance society.

World-class rankings

Flinders is ranked among the top universities worldwide in the following subject areas:
- QS world university rankings by subject 2018
  - top 100 for nursing
  - top 200 for education and training
  - top 200 for psychology
  - top 200 for sociology
  - top 200 for English language and literature
  - top 250 for medicine
  - top 300 for agriculture and forestry
  - top 300 for law and legal studies
  - top 315 for life sciences and medicine
  - top 337 for arts and humanities

- Times Higher Education world university rankings by subject 2018
  - top 200 for clinical, pre-clinical and health
  - top 200 for engineering and technology
  - top 300 for arts and humanities
  - top 300 for social science.

9th highest medical research funding

Flinders’ research funding of $24.6m from the National Health and Medical Research Council was the 9th highest in Australia for 2018.
Vibrant Adelaide

Adelaide is the capital of South Australia – a modern, metropolitan city of festivals, relaxed living and education excellence.

Studying in Adelaide means you are also residing in one of the world’s most liveable cities.

We have a relaxed, easygoing lifestyle and Adelaide has been acknowledged as Australia’s safest city.*

Adelaide also has one of the most diverse mix of students out of any Australian city.

*Suncorp Bank Family Friendly City Report 2013

An authentic ‘Aussie’ experience

South Australia offers an authentic Australian experience. The state offers a mix of beautiful landscapes, sparkling beaches, rolling hills and a vibrant urban centre. Visit our world-famous wine regions, the rugged Flinders Ranges, and popular metropolitan beaches, or see Australian wildlife on Kangaroo Island.

Getting around

Adelaide is well serviced by public transport, and international students receive the same transport concessions as local students, saving you up to $700 per year on transport costs. A free tram and bus service runs in the Adelaide city centre. Buses run frequently to and from Flinders University and the adjacent Flinders Medical Centre, with various routes running directly from the city and suburbs. Soon, a new train extension will connect Flinders directly to the city, making it even easier to get around.

Adelaide is also cycling-friendly, with a large community of cyclists and dedicated bike lanes.

Festivals

South Australia is known as the ‘Festival State’, and there are regular cultural and sporting events including:

• WOMADelaide
• Adelaide Festival
• Adelaide Fringe
• Tour Down Under
• V8 Supercar Adelaide 500.

Food

South Australia is a food centre, with a higher ratio of cafés and restaurants to residents than any other city in Australia. Our state is well-known for quality produce – from fresh fruit and vegetables through to the finest meat and seafood. The city is close to well-known produce regions, such as the Barossa Valley and McLaren Vale, offering easy access to farmers markets. Adelaide is a multicultural city well-catered to vegan, vegetarian, Halal and Kosher requirements.

Most affordable state capital city in Australia for students

QS Best Student Cities 2017

Shopping

Adelaide has a wide range of retail outlets, making it easy to shop for any taste or budget. Westfield Marion, the biggest shopping mall in Adelaide, is located just 10 minutes from our Bedford Park campus. Rundle Mall, located in the city centre, offers a strip of department stores and high street brands, while the café-lined Rundle Street is home to designer labels. There is also a wide range of options further out of the city.

Our locations

Flinders University offers you an authentic on-campus student experience in a beautiful natural environment.

flinders.edu.au/campus

Bedford Park
Located just 12km south of the centre of Adelaide, the Bedford Park campus is Flinders’ main campus. It’s a spacious, elevated site with panoramic views to the coast and over the city. Our Student Hub offers 24/7 study spaces and access to all student services in one convenient location.

With its natural beauty and bright, lush spaces to invigorate you as you go about your day, Flinders’ Bedford Park campus offers a uniquely inspiring study experience.

Tonsley
Tonsley is located centrally between Flinders University’s Bedford Park campus and Adelaide city. It is connected to the city by train, offering convenient access 15 minutes from the city’s CBD. And Tonsley is a five-minute car ride, a 15-minute ride on the Flinders loop bus, or a 30-minute walk from the Bedford Park campus.

With more than 150 staff and 2,000 students – and a 2,000 square metre pool for heavy engineering equipment – Tonsley centrally locates the University’s teaching and research in computer science, engineering and mathematics, the New Venture Institute, Flinders Partners, Medical Device Research Institute, and Centre for Nanoscale Science and Technology alongside local and international businesses, including industrial manufacturing company Siemens.

Tonsley embodies world’s best practice in education, teaching and research. It’s a place where innovation, collaboration and entrepreneurial spirit combine to create the products and processes of the 21st century and beyond.

Victoria Square
Victoria Square is our city location. Situated in the centre of Adelaide’s business district, it encourages close collaboration with surrounding industry and the opportunity to develop industry links. It is an alternative location where we provide information to students and teach a selection of our courses and topics. These include:

• accounting
• business and business administration
• public policy and public administration
• social work
• law
• health and aged care administration
• languages.

Get involved
Getting involved in campus life will help you make the most out of your time at university.

Flinders Living
Flinders is the only university in Adelaide that gives you the opportunity to live on campus. Flinders Living offers accommodation for over 550 students, and also runs a free service listing the private rental accommodation available off-campus in the local area.
We are here to help you get started, with a range of services that support you to quickly settle into your new life at Flinders.

**Services**

**Flinders Connect**
Flinders Connect is the front door to student services at Flinders. You can seek help from our team of knowledgeable staff via phone, face-to-face or online. You can also access Flinders Connect for specialist assistance in careers, IT and a range of support services.

**International Student Services**
For international students, including onshore international students, International Student Services (ISS) is the first point of contact and offers a range of programs and services. There are programs supporting your enrolment, study and social life, as well as a referral service to facilities on campus and within the local community. ISS organises a general orientation program for new international students, monthly morning teas and tours.

**Arrival services**
Flinders University is a leading Australian university in arrival support for new students from overseas. Before you leave home, ISS will assist you to plan your arrival in Adelaide. They will connect you with on-campus support services and staff in your academic area, making your transition to Flinders as smooth as possible.

**Meet & greet**
ISS offers a free meet-and-greet service for new international students. You will be met at Adelaide Airport, the railway station or the central bus station and taken directly to your new accommodation. The service is also free for accompanying family members. A booking is required.

**Orientation**
The first few days of university are exciting but can also be daunting, which is why we have a number of orientation sessions and programs to help you get used to the University community. We also have a range of student services available to assist you throughout your studies.

**Childcare**
The Flinders University Childcare Centre offers childcare for children under school age. The centre has attained the highest level of accreditation, with experienced and qualified staff offering exceptional care and education in a nurturing and stimulating environment. Places are limited and booking is essential.

**Health, counselling & disability services**
When you enrol at Flinders, you will have access to confidential and professional health, counselling and disability services including GPs and nurses for emergency and routine medical care. We can also assist you with equal opportunity concerns.

**Oasis**
Oasis is a multi-faith, multicultural centre where support is provided by chaplains of all faiths to meet the spiritual and religious needs of the Flinders community. Oasis offers various forms of prayer and meditation, seminars, and study and discussion groups, as well as a drop-in centre for friendship over tea and coffee.

**Free meet-and-greet service**
Free meet-and-greet service from Adelaide Airport, railway station or central bus station.

**Academic support**
Flinders University provides a range of support services to help you achieve your full academic potential.

**Computers, printing & wi-fi**
Work at your own pace anywhere in the University by accessing our many computer labs or by connecting your own device to our printers or the extensive wireless network - one of the fastest, most secure campus wireless networks in the Southern Hemisphere.

**Flinders Learning Online**
Flinders Learning Online (FLO) enables you to access course materials and resources, enrol or withdraw from topics, check your email accounts, and keep up-to-date with University-wide announcements.

**Student support**
Study Adelaide runs a year-long calendar of free and discounted events especially for international students. As soon as you arrive, you will be given a free welcome backpack and guide with everything you need to know about living in Adelaide. Find out more at: studyadelaide.com

**English language support**
SLC also offers a free program to support non-English speaking background students who need to improve their English in the academic context.

**Student Learning Centre**
The Student Learning Centre provides learning support for Flinders University students, ranging from writing and mathematics support to assistance with study and time-management skills.

**Library**
Across our four library sites, you will find more than one million books and journals, extensive electronic collections, and a wide range of services and facilities to support your learning and research interests. The Central Library serves the whole Flinders community while specialist libraries act as information hubs for those studying law, legal studies, nursing and health, and our medical programs.
Accommodation

On-campus living
The Flinders campus is safe, affordable and convenient. Join a diverse community of students from across Australia and over 30 countries worldwide. You have the option of living either at the catered University Hall or independently in the self-catered Deirdre Jordan Village. Both options offer academic and personal support from in-house tutors and coordinators.

University Hall
The University Hall is a catered residence with a strong collegial atmosphere. The hall has accommodation for over 200 students in fully-furnished single rooms, secure storage and car parking, and small communal kitchens. You can mix with other students in common areas, sporting areas, the outdoor cinema, gazebos and gardens, including a landscaped central courtyard.

Cost
$398 per week for a single room including 15 professionally prepared meals per week.*

Deirdre Jordan Village
The Deirdre Jordan Village provides modern accommodation in self-catered, fully equipped units. It offers a range of culturally inclusive activities in the community centre. The village has accommodation for over 350 students, living areas (some private), landscaped gardens and outdoor areas with barbecues, and secure storage and car parking. Single gender accommodation is also available.

Cost
Village standard unit: $250 per student per week for a single room including all utilities.*
Village annexe unit: $198 per student per week for a single room including all utilities.*
*costs are based on 2018 rates

“Go for on-campus housing! You’ll meet a lot of people and it will help you adjust to the Australian culture easier. It was very easy living on campus; I lived with a lot of other [foreign] students, which made it easier to make friends and meet the locals.”
Arjen van Lil
Utrecht University, Netherlands

Living off campus

With Flinders University’s convenient location and so many transport and accommodation options available, living off campus is easy.

Flinders Living runs a free service that lists the private rental accommodation available off campus in the local area. They can also provide information on your rights and responsibilities as a tenant. Check the Flinders Living website for more details.

Flinders Living provides a free, up-to-date accommodation service which lists private accommodation available on the rental market. flinders.edu.au/living/short-term-private/private-accommodation-service.cfm

Postgraduate study

Take your qualifications to the next level with postgraduate study at Flinders.

If you want to further your career or change career direction, we have a range of postgraduate courses to help you reach your full potential.

Plugged into industry trends, professional placements and practical experiences, our teaching and research higher degree options are designed to take you from learning to earning.

Postgraduate coursework and a range of research higher degrees options are available. flinders.edu.au/study/postgrad

Coursework
Coursework is where you usually attend lectures and tutorials, with assessment and possibly some practical work throughout the course.

Research with a coursework component
You can undertake a research masters degree where coursework is only a minor part of the research program.

Research
Research degrees are awarded primarily on the basis of a thesis resulting from a unique research project.

Flinders offers a range of research degrees at the masters and doctoral levels.

flinders.edu.au/study/postgrad

Scholarships
International postgraduate students applying to study at Flinders may be eligible to apply for a number of university and government-funded scholarships to assist with the cost of living and studying in a foreign country.

flinders.edu.au/scholarships

Pathways
Flinders University has a range of pathways to help you enter a research higher degree. Interested students can apply directly after their honours year, or upon completion of a coursework masters with an 18-unit thesis component.

We have also developed a special pathway with our exclusively offered Graduate Diploma in Research Methods. See page 77 for more information on the postgraduate research methods program.

Office of Graduate Research
The Office of Graduate Research (OGR) supports research higher degree students from the commencement of their degree to their final thesis submission.

The office connects prospective students with trained high-quality supervisors, offers international travel and research opportunities, and is constantly improving and streamlining administrative processes and policies to enhance the research higher degree experience.

OGR provides tailored comprehensive advice to candidates as they progress through their PhD. It manages the Register of Research Higher Degree Supervisors, cotutelle degrees and the research higher degree policies and procedures.

flinders.edu.au/graduate-research

Cotutelles
Cotutelle doctoral degrees allow research higher degree students the opportunity to experience an extended overseas research stay for one third of their candidature, and obtain a joint PhD in the process. This enhanced program offers invaluable international networking opportunities, prized professional and personal development experience in an overseas research environment, and support of two principal supervisors to enrich your PhD candidature.

The Office of Graduate Research offers tailored advice and support throughout the application process.

Research Higher Degree Professional Development Program
Our Research Higher Degree Professional Development Program is available free to all students. The program helps build confidence and motivation through a series of workshops, seminars and lectures to equip you with the necessary professional and research skills upon graduation. More information can be found at the Office of Graduate Research website.

Take your qualifications to the next level with postgraduate study at Flinders.

If you want to further your career or change career direction, we have a range of postgraduate courses to help you reach your full potential.

Plugged into industry trends, professional placements and practical experiences, our teaching and research higher degree options are designed to take you from learning to earning.

Postgraduate coursework and a range of research higher degrees options are available. flinders.edu.au/study/postgrad

Coursework
Coursework is where you usually attend lectures and tutorials, with assessment and possibly some practical work throughout the course.

Research with a coursework component
You can undertake a research masters degree where coursework is only a minor part of the research program.

Research
Research degrees are awarded primarily on the basis of a thesis resulting from a unique research project.

Flinders offers a range of research degrees at the masters and doctoral levels.

flinders.edu.au/study/postgrad

Scholarships
International postgraduate students applying to study at Flinders may be eligible to apply for a number of university and government-funded scholarships to assist with the cost of living and studying in a foreign country.

flinders.edu.au/scholarships

Pathways
Flinders University has a range of pathways to help you enter a research higher degree. Interested students can apply directly after their honours year, or upon completion of a coursework masters with an 18-unit thesis component.

We have also developed a special pathway with our exclusively offered Graduate Diploma in Research Methods. See page 77 for more information on the postgraduate research methods program.

Top 300

Flinders University is ranked among the top 300 universities worldwide for arts and humanities according to the Times Higher Education world university rankings by subject 2018.
**BUSINESS, COMMERCE & MANAGEMENT:** building the business of tomorrow

**Be future-focused**

Stay ahead of change and uncertainty, and gain the innovation and personal enterprises skills you need to embrace dramatic shifts in the global job market—study innovation and enterprises.

Co-developed with Flinders’ New Venture Institute, business leaders, and the prestigious Temple University’s Fox School of Business in the US, you will learn to embrace innovation, think creatively and develop an entrepreneurial mindset. You will gain first-hand insights into the latest trends on topics ranging from transformational change to digital marketing. Stand out from the crowd and design your future.

**Be career-ready**

You can build real-world skills during Work-Integrated Learning (WIL) placements and projects at a host of local and global organisations. As part of your course you will also have the opportunity to build professional networks through mentorship programs and industry placements.

**Be your own boss**

Develop the skills to be a job maker. Learn how to manage a business and many continue to our innovation programs and the Venture accelerator program and many continue to be part of the Thriving start-up ecosystem while studying at Flinders.

**AUD$10,000+ scholarships**

Over AUD$10,000 partial fee postgraduate business scholarships available for high-achieving international students

---

**Accounting**

**MASTERS OF ACCOUNTING**

**CRICOS CODE:** 06433M

**COURSE LENGTH:** 2 years full-time

**INTAKE:** Semester 1, Semester 2

**2019 FEE:** AU$34,000

**ENGLISH REQUIREMENTS:**

- **IELTS:** 6.5 (S6, W6, R6, L6)
- **PTE:** 58* (see pg 87)

**OPPORTUNITY FOR INDUSTRY EXPERIENCE:**

- Professional accreditation

Students from non-accounting backgrounds can pursue a career in this area with a Master of Accounting. If you have completed a non-accounting degree, this course provides you with a study program that fulfills the requirements to commence a professional accounting career. Flinders Business provides excellent teaching, small classes and the opportunity to network and develop professional acquaintances through interaction in these programs.

**STUDY PROGRAM**

The degree offers the right balance of practice and theory to prepare you for a successful career as an accounting or business professional. Topics cover areas such as accounting fundamentals, information systems and accounting processes, quantitative methods, economics for business, management and cost accounting, principles of commercial law, financial accounting issues, financial management, corporate accounting, auditing and assurances, and business research methods. A topic in academic skills for business is specifically aimed at postgraduate students from non-English speaking backgrounds.

**PRACTICAL EXPERIENCE**

You may have the opportunity to undertake a study placement and/or industry project.

**ACCREDITATION**

The Master of Accounting meets the admission requirements of Certified Practising Accountants Australia (CPA Australia), Chartered Accountants Australia and New Zealand (CAANZ) and the Institute of Public Accountants (IPA).

**ENTRY REQUIREMENTS**

Applicants must normally hold a bachelor degree or equivalent from an approved tertiary institution.

**CAREER OPPORTUNITIES**

Potential occupations include: auditor, budget accountant, bursar, cost accountant, management accountant, forensic accountant.

**Accounting and Finance**

**MASTERS OF ACCOUNTING AND FINANCE**

**CRICOS CODE:** 08648G

**COURSE LENGTH:** 2 years full-time

**INTAKE:** Semester 1, Semester 2

**2019 FEE:** AU$34,000

**ENGLISH REQUIREMENTS:**

- **IELTS:** 6.5 (S6, W6, R6, L6)
- **PTE:** 58* (see pg 87)

**OPPORTUNITY FOR INDUSTRY EXPERIENCE:**

- Professional accreditation

Develop specialised knowledge and skills in accounting and finance disciplines. This course offers the right balance of practice and theory to prepare you for a successful career as an accounting or business professional and to cultivate practices for research in a business context. You will learn from experienced teachers and gain an understanding of the many issues affecting accounting and finance practice. The role of accounting and finance professionals in contemporary society will be explored with reference to ethics, globalisation and sustainability issues.

**STUDY PROGRAM**

The program includes core and advanced topics in areas such as accounting fundamentals, financial management, financial accounting issues, management and cost accounting, decision and risk management, investments and portfolio management, and new venture finance. A topic in academic skills for business is specifically aimed at postgraduate students from non-English speaking backgrounds.

**PRACTICAL EXPERIENCE**

You may have the opportunity to undertake an industry placement prior to taking this topic.

**PRINCIPAL EXPERIENCE**

You will have the option to undertake an industry placement, which will give you an insight into real-world business and make you stand out to employers. (Note: Taking this topic may preclude entry into the CPA. Please speak to a student advisor prior to taking this topic.)

**ACCREDITATION**

The program is accredited with CPA Australia, Chartered Accountants Australia and New Zealand (CAANZ) and the Institute of Public Accountants (IPA). Australian qualifications are recognised in most countries, but international students are advised to discuss their proposed Master of Accounting and Marketing study with the professional registration authority and relevant professional associations in their home country before commencing studies.

**ENTRY REQUIREMENTS**

Applicants must have completed a bachelor degree or equivalent qualification in any discipline (other than an accounting degree accredited in Australia) from an approved tertiary institution. Applicants with an Australian-accredited degree in accounting are not eligible for admission into the Master of Accounting and Finance.

**CAREER OPPORTUNITIES**

Potential occupations include: budget accountant, business analyst, auditor, finance manager, fund manager, investment analyst.

**MASTERS OF ACCOUNTING AND MARKETING**

**CRICOS CODE:** 08600C

**COURSE LENGTH:** 2 years full-time

**INTAKE:** Semester 1, Semester 2

**2019 FEE:** AU$34,000

**ENGLISH REQUIREMENTS:**

- **IELTS:** 6.5 (S6, W6, R6, L6)
- **PTE:** 58* (see pg 87)

**OPPORTUNITY FOR INDUSTRY EXPERIENCE:**

- Professional accreditation

Take a pathway into business, accounting and marketing with this vocationally oriented specialist postgraduate degree. It provides a blend of practice and theory, and combines specific accounting skills and a critical overview of topical marketing concepts and theories. These combined skills and knowledge will assist in enhancing careers in accounting and marketing by providing a broad understanding of these areas and ability to resolve the marketing and accounting issues common in business.

**STUDY PROGRAM**

The program aims to provide you with the appropriate knowledge, skills and attributes for a successful career as an accounting and marketing professional, and to cultivate practices for research in a business context. It covers essential accounting and marketing topics that are industry relevant and match contemporary business thinking. You will have the opportunity to acquire in-depth knowledge in both fields and build your career in a business profession.

**PRACTICAL EXPERIENCE**

You may have the opportunity to undertake an industry placement and/or industry project.

**ACCREDITATION**

The Master of Accounting and Marketing meets the requirements of CPA Australia, Chartered Accountants Australia and New Zealand (CAANZ) and the Institute of Public Accountants (IPA). Australian qualifications are recognised in most countries, but international students are advised to discuss their proposed Master of Accounting and Marketing study with the professional registration authority and relevant professional associations in their home country before commencing studies.

I chose Flinders University for three reasons. Firstly, it has a good reputation, especially in my country. Secondly, there are lots of international students, which is good for me to extend my relationships. Finally, Flinders University has amazing facilities. Adelaide is the best city for studying, it's great for people with a family, like me, and it is much cheaper than other Australian cities.

Chaffinch

With his passion, creativity and persistence, commerce graduate Aaron Zhou saw his study at Flinders as an opportunity to grow a new business venture.

Established in 2008, Australia Moriah Wine imports bottles of original Australian wine to China, and is partnered with some of Australia’s – and indeed the world’s – finest wineries. No doubt, Aaron’s time spent in South Australia and its culture of winemaking excellence contributed to his decision to introduce these wines to people back at home.

For their geographical culture, grape planting and picking, winemaking style and taste, we finally signed seven excellent wineries to be our strategic partners. They are: Lou Miranda, Turkey Flat, Turners Crossing, Gotham, Hanguing Rock, Signature, and Morish.

It was while studying commerce at Flinders that Aaron was inspired to start the business, with his experience at the University planting the seeds for his successful collaboration. "It expanded my horizons and gave me a solid foundation in commerce. Also, I learned to be independent, confident and tolerant. Before graduation, my group did a research project about investment, which taught me the importance of practice and teamwork.”

Moriah has gone from strength to strength. "In 2010, after establishing our mainland headquarters in Chengdu, the company set up operations centres in Beijing and Guangzhou, and set up bonded warehouses in Shanghai to be responsible for the business of the whole country," Aaron said. "Moriah is now the biggest supplier of Australian wine in southwest China."

Aaron’s commerce degree continues to influence his success. "It gave me a better understanding of business running and management, and I still apply the knowledge at work," he said.

Aaron’s story is testament to the spirit of innovation and entrepreneurship at the heart of Flinders University’s business courses and teaching. Having successfully turned his degree and study experience into a thriving international partnership that benefits both South Australia and his Chinese customers, Aaron had this advice to share with students: “The university life is a process which can lead you to self-understanding and personal development, so cherish it and enjoy it.”

COMPUTING & MATHEMATICS: drive innovation

“I chose Flinders University because it has a good reputation and a high standard of education and courses. My friends in China who were recent graduates of Flinders strongly recommended that I study here as I wanted to develop my knowledge and skills, rather than just receive a piece of paper. My course doesn’t just require me to learn from textbooks – it also creates opportunities for me to make connections with real relevant businesses and organisations, as well as many internship opportunities.”

Wensun Zhou (Vincent)  
Master of Information Technology graduate  
Business Process Analyst, Department of Education and Child Development

$120m innovation precinct

Plug into our $120m hub of innovation and entrepreneurship at Tonsley
The pair are working on Play It Again, a project that seeks to document, preserve and use old computers and original software, in a bid to preserve key artefacts from our recent past.

"Without the project, there is a real risk that the heritage of early Australian computer and game design will be permanently deleted. And with computers such an integral part of culture, the loss of early Australian computer history would be a major blow," Associate Professor Swalwell said.

"Lots of our undergraduate students are really interested in the old software and devices we have; they love being able to come in and use the old computers, even just as a comparison with what they use now on a daily basis," Dr de Vries said.

Early home computers were frequently used to create and play simple games. Many of the games that were available in Australia were created locally, meaning the nation’s video game history is substantially different from the rest of the world.

The Play It Again project involves rescuing both video games and the first generation home computers they were played on before all are lost to rubbish tips and bit rot. Associate Professor Swalwell and Dr de Vries work with technicians in a Tonsley lab cluttered with restored Microbes, Commodore 64s and other relics of the first wave of the digital revolution.

Dr de Vries handles the technical side of saving the data, the devices and the software while Associate Professor Swalwell examines the legacy of the games and computers through a cultural lens.

"It’s really important to have the old computers themselves – you have to be able to save both the data and software which is on the computers. Without that software there’s no way to access the data," Dr de Vries said.

"This project brings the digital experience of the 1970s and ‘80s back to life."

Dr Denise de Vries
Lecturer in Computer Science
Associate Professor Melanie Swalwell
ARC Future Fellow
CREATIVE ARTS & MEDIA: your creativity will drive tomorrow’s industries

Screen and Media Production

MASTER OF SCREEN AND MEDIA PRODUCTION

CRICOS CODE 071845M
1.5 Years: 085904A
2 years full time
COURSE LENGTH 2 years full time
INTERMEDIATE: 1.5 years full time
ADVANCED: 1 year full time
INTAKE Semester 1
ADMISSIONS CODE 0609305
ENGLISH REQUIREMENTS IELTS: 6 (S6, W6)
PTE: 50* (see pg 87)

Develop screen and media production and post-production skills, research and writing skills in screen studies, and a practical understanding of professional activities in a related field of study. In addition, masters provides you with in-depth knowledge of a specific area of screen production, obtained through a combination of coursework and research, vocational knowledge and skills in the field of screen studies, and increased specialisation relating to documentary film-making, digital media and screen studies.

STUDY PROGRAM
The program provides skills in documentary production practices, including project research, scriptwriting, production and post-production techniques. You will gain knowledge and skills to undertake research into documentary subjects, write scripts for documentaries and apply technical skills in the production of documentaries. You will also collaborate with peers on basic screen production projects and understand how one or more related fields of study may be applied to screen productions. Topics cover areas such as production, post-production, research and writing, non-fiction form and ethics, and 3D animation and the screen.

PRACTICAL EXPERIENCE
Students have the opportunity to undertake a practicum.

ENTRY REQUIREMENTS
Masters: Applicants must normally hold an approved bachelor degree in any discipline. Intermediate and advanced entry levels are available for those with an approved undergraduate or postgraduate qualification in screen and media. Check the website for details.

CAREER OPPORTUNITIES
Potential occupations include: presenter, broadcaster, monitor, filmmaker, content strategist, media advisor, multimedia researcher, production coordinator, video journalist.

EXPLORE YOUR OPTIONS
Flinders also offers postgraduate creative arts and media programs in the following areas:

Creative Arts
• Master of Arts (Creative Arts) (Research)

Opportunities for Industry Experience
Explore theoretical and practical elements of the global tourism industry in a range of areas. The courses provide you with a broad understanding of tourism both in Australia and internationally. They enable you to benefit from our strong links to employers through industry-focused study and research.

Study Program
The program is designed so that you can focus on areas of your interest or undertake broad-based study. Specialist areas include tourism management and marketing, special interest tourism; cultural tourism, heritage tourism, tourism and the media, tourism and interpretation, and festival and event design and management. Develop an increased level of theoretical knowledge, and the skills necessary to address emerging trends and employment needs within the sector. Topics cover areas such as tourism management, site interpretation and research skills.

Delivery Mode
Some topics are taught in intensive delivery mode. Note there is no mid-year entry for these courses.

Practical Experience
Students may undertake an industry-based practicum and research.

Entry Requirements
Masters: Applicants must normally hold a bachelor degree or equivalent qualification in tourism, hospitality or a related discipline from an approved tertiary institution with a GPA of 5.0 in upper level topics, or a Graduate Diploma in Tourism, or equivalent qualification from an approved tertiary institution, or an honours degree in tourism or a closely related discipline from an approved tertiary institution.

Career Opportunities
Potential employers include: convention/exhibition centres; regional tourism authorities; local, state, and federal agencies; museums, zoos and botanic gardens.

Materials engineering is an interdisciplinary field that studies composition, structure, processing, properties and performance of materials used for products. Materials enable engineers to design and manufacture ideas into devices and structures with the best performance. Our leading researchers, well-equipped laboratories and materials-characterisation facilities provide an excellent environment for advanced research activities in materials engineering.

**STUDY PROGRAM**

This program offers a unique combination of advanced areas such as materials selection in design, metal forming, nanomaterials, polymers, biomaterials, corrosion, fatigue and fracture, characterisation techniques, organic synthesis, and materials for civil, electrical and optical applications. Subject to receiving a credit average, you will also be able to undertake research project topics that will enable you to develop your research skills by developing solutions to large and complex problems.

**PRACTICAL EXPERIENCE**

The course is designed to present practical aspects of materials engineering, and also includes a research project for you to work on advanced relevant areas. You will have the opportunity to develop practical skills in Flinders’ well-equipped laboratories.

**ACCREDITATION**

This program is provisionally accredited by Engineers Australia at the level of professional engineer. Professional engineering courses accredited by Engineers Australia are recognised internationally under the Washington Accord. Graduates will meet the academic requirements for attaining chartered professional engineering status.

**ENTRY REQUIREMENTS**

Applicants must normally hold Flinders University’s Graduate Diploma in Engineering Science (specialisations M1-M2), a relevant Bachelor of Engineering, or Bachelor of Engineering Technology, Bachelor of Engineering Science; or an equivalent overseas qualification with an average grade of credit (5.0) or greater. Students without such a qualification should apply for the Graduate Diploma in Engineering Science.

**CAREER OPPORTUNITIES**

Potential occupations include: metallurgist, process engineer, corrosion engineer, polymer engineer, ceramicist, quality control engineer.

**FURTHER STUDY**

The course provides the foundation for further postgraduate work at the PhD level, and continuing professional development and education. Masters may be a pathway to a PhD for students without an honours degree.

Cutting-edge medical devices aren’t created by the stereotypical lone engineer working in isolation in a research laboratory – at least not at Flinders. The University is bringing the best minds together to create tomorrow’s biomedical solutions today through the Medical Device Partnering Program (MDPP).

Established in 2008 by Professor Karen Reynolds, the MDPP aims to form links between researchers, industry and companies coming to utilise the service. “Bringing together researchers, industry and local organisations, but there has in recent times been a steady increase in interstate and international interest in the service. The Partnering Program has been funded by the South Australian Government since its inception.”

Professor Reynolds said, “Our projects run for around 250 hours. While this might not seem like a long time, it gives the team long enough to learn whether they can work productively together and also see whether there are opportunities in the near future to continue the working relationships.”

The unique program has led to many new products hitting the market, ranging from Australia’s first electronic spinal brace for spinal deformity to a PROKING Medical device that removes the need for multiple X-rays when fixing bone fractures to INNOVOS Healthcare’s U Stand Frame (a lightweight, portable frame to help patients move from a sit-to-stand position).

“Working closely with end-users and clinicians we are able to respond to industry-driven problems, fast-forwarding the R&D process.”

Combine the art and skill of engineering with the power of computer technology. Software engineering develops programs and products that meet the demands of the modern economy. Software engineering is a dynamic engineering discipline that is concerned with all aspects of software use, from design and development to maintenance and management.

**STUDY PROGRAM**

You will complete core topics including a research project and have the choice of a number of option topics that will provide you with knowledge in a specialised program of study. The degree includes an option for an 18-unit thesis, allowing transition to a PhD for high-performing students. Topics cover areas such as software engineering, computer programming, electronics, microprocessors, database and conceptual modelling, web-based systems development, automation and industrial control, analysis of engineering systems, mathematics, sensors and actuators, enterprise information security and cloud systems, interactive computer systems, and computer networks and operating systems.

**ENTRY REQUIREMENTS**

Applicants must normally hold one of the following appropriate qualifications: an engineering degree; a science degree; an Australian TAFE diploma or advanced diploma (ADF Level 5) in an appropriate field plus seven years relevant work experience; an equivalent overseas qualification. In addition, whatever qualification is held, students are expected to be able to demonstrate previous study or recognised prior learning in communication and planning skills, mathematics (equivalent to first year university mathematics), and science (equivalent to university undergraduate topics in chemistry and physics). Some basic knowledge of other relevant sciences will be assumed.

Software engineering assumes previous study in programming and computing fundamentals. Refer to our website for all prerequisites and entry requirements.

**CAREER OPPORTUNITIES**

Graduates will be equipped to work as software designers in areas as diverse as smart cards, mobile commerce and communications, simulators, medical and imaging equipment, internet computing and defence systems.

**FURTHER STUDY**

Graduates of these programs may be eligible to apply for a PhD by research.}

High-tech and advanced manufacturing companies and researchers in South Australia will be able to use a new innovation hub at Flinders’ Tonsley location to progress their product and business development.

Funded by a $490,000 State Government grant, as part of the Australian Government’s Innovative Manufacturing Cooperative Research Centre, the Tonsley Manufacturing Innovation Hub (TMI Hub) aims to accelerate the adoption of advanced digital technologies by local businesses and support the creation of highly skilled jobs for the future.

The new digital technologies hub will train businesses, students and others in the implementation of ‘Industry 4.0’ technologies and business models that will “revolutionise the way manufacturers connect with customers and suppliers through digital internet-based technologies”, says Professor John Spoehr, director of the Australian Industrial Transformation Institute at Flinders University.

“The adoption of digital technologies in South Australia is giving rise to a new generation of manufacturers and highly skilled jobs,” Professor Spoehr says.

“We welcome the opportunity to partner with the State Government and the Innovative Manufacturing CRC to establish a truly world-class facility at Flinders University at Tonsley.”

The TMI Hub will provide practical training and real-world research opportunities for students, researchers and businesses wanting to learn more about automation, advanced robotics and the Internet of Things.

Facilities at the Flinders Tonsley location include the new generation of industrial robots – Baxter, Sawyer and UR5 – underwater vehicle development and testing capacity, a Faraday cage, a large hexapod robot for biomechanical testing, and a variety of digital manufacturing and rapid prototyping machines.

Professor Spoehr says the latest State Government funding will go towards the purchase of the Festo Cyber Physical Factory, a state-of-the-art 4.0 automation and robotics training and capability building platform.

Flinders University will contribute $790,000 towards operational costs associated with the initiative – which includes employment of a dedicated industry engagement manager.

“The Tonsley Manufacturing Innovation Hub will play a leading role in Industry 4.0 training, education and capability building in South Australia,” says Professor Spoehr.

The welcome mat will go out at the new Tonsley Manufacturing Innovation Hub in early 2018.

INTAKE
Semester 1, Semester 2

2019 FEE
AUD$11,000

ENGLISH
IELTS: 6 (S6, W6)
PTE: 50* (see pg 87)

OPPORTUNITY FOR INDUSTRY EXPERIENCE
A Graduate Certificate in Public Policy, Graduate Certificate in Public Sector Management, and a Graduate Diploma in Public Policy and Management are also available.

If you are a current or aspiring public sector manager or policy maker, the postgraduate program in public administration provides opportunities for you to enhance your understanding, knowledge and skills in this area. Graduate certificates and diplomas are available to enhance mid-career professional development and training. Candidates with suitable qualifications may commence at graduate diploma or masters levels.

STUDY PROGRAM
The program includes a mixture of compulsory and elective topics, as well as individual research. Topics cover areas such as contemporary cases in public policy, theoretical perspectives on contemporary public policy, ethics in public administration, and governance and public policy. You can include electives in areas such as international development, international relations, international business, environmental management, social work, Asian governance, applied population studies, public health and educational administration.

DELIVERY MODE
Most topics are available on campus and online.

PRACTICAL EXPERIENCE
Graduate diploma and masters students have the opportunity to undertake an internship.

ENTRY REQUIREMENTS
Applicants must normally hold an approved undergraduate degree or equivalent. Students who have completed the Graduate Certificate in Public Policy or Public Sector Management or Graduate Diploma in Public Administration (or other qualifications deemed equivalent) receive credit when progressing to the graduate diploma or masters degree. Alternatively, graduate diploma or masters students may choose to exit with a graduate certificate or graduate diploma after completing sufficient units.

CAREER OPPORTUNITIES
Potential occupations include: community development worker, operational officer, administrative officer, policy researcher, tax inspector, tourism officer.

INTAKE

2019 FEE

AUD $34,000

ENGLISH

PTES: 50 (see pg 87)

REQUIREMENTS

A Graduate Certificate in Disability Studies is also available.

Become an effective and respected professional in disability. The program aims to broaden the professional opportunities for graduates within an evolving policy and practice context. You will develop knowledge to assist people living with disabilities to participate in all aspects of their everyday life. This could include supporting people with disability in their educational, economic, recreational and social participation, and to be recognised as valued members of their local communities.

STUDY PROGRAM

Masters provides advanced policy and practice knowledge and skills that can be applied across the disability, allied health and human services professions. Content covers knowledge around assisting people with lifelong and acquired disabilities. Options include focusing on mental health, autism, intellectual disability and acquired brain injury, as well as policy and program development and evaluation.

PRACTICAL EXPERIENCE

Masters students have an option of completing a practical topic.

Before commencing a placement, students need to attain the Department for Communities and Social Inclusion’s child, vulnerable, aged and disability clearances. They must also have successfully completed a first aid certificate.

ACCREDITATION

Masters graduates have access to full membership of the Developmental Educators Australia Inc, and status in the National Disability Insurance Scheme (NDIS) and other professional sectors as a developmental educator.

ENTRY REQUIREMENTS

Masters: Applicants must normally hold an approved bachelor degree in disability, or four years of post-graduation professional work experience in the health sector. Applicants must normally hold an approved bachelor degree or equivalent and four years of post-graduation professional work experience in the health sector. Applicants must normally hold an approved bachelor degree or equivalent and four years of post-graduation professional work experience in the health sector. Applicants must normally hold an approved bachelor degree or equivalent and four years of post-graduation professional work experience in the health sector. Applicants must normally hold an approved bachelor degree or equivalent and four years of post-graduation professional work experience in the health sector. Applicants must normally hold an approved bachelor degree or equivalent and four years of post-graduation professional work experience in the health sector. Applicants must normally hold an approved bachelor degree or equivalent and four years of post-graduation professional work experience in the health sector.
Nutrition and Dietetics

MASTER OF NUTRITION AND DIETETICS

CRICOS CODE 00985M

COURSE LENGTH 2 years full-time

INTAKE Semester 1

2019 FEE AUD$3,240

ENGLISH IELTS: 7.5 (R/L/S/W), 6.5 (P)

OPPORTUNITY FOR INDUSTRY EXPERIENCE

Professional Accreditation

Undertake advanced studies in nutrition and dietetics, the pathophysiology of nutrition related illnesses, health promotion, communication skills, and clinical, community and public health nutrition skills. The course aims to train nutritionists and dietitians who are able to integrate and apply their knowledge, skills and attributes to the promotion of health and the prevention and treatment of illness by optimizing the nutrition of individuals and communities.

STUDY PROGRAM

There are two pathways within the degree: coursework and research. Eligibility for the research pathway is dependent on prior studies. Your study program will include lectures, tutorials, field placements, site visits, health, food practices, and student seminars and presentations. Topics cover areas such as the nutrition care process, food service and professional practice, research methods and critical thinking in human nutrition, communication and nutrition counselling, and clinical nutrition and dietetics.

PRACTICAL EXPERIENCE

This course includes clinical placements that aim to provide you with the practical experience required for the workplace.

As per Australian Government regulations, courses that have a placement involving contact with children, young people and/or vulnerable adults will require students to undergo a criminal history check prior to placement.

ACCREDITATION

The course is accredited by the Dietitians Association of Australia. It is also recognised by the Occupational Therapy Council of Australia. The course is accredited by the Australian Government regulations, courses that have a placement involving contact with children, young people and/or vulnerable adults will require students to undergo a criminal history check prior to placement.

LABOUR MARKET OUTLOOK

Fat and obesity, an increasing public health concern, requires a professional workforce that can assist in the treatment and management of obesity. The course is designed to prepare students with the necessary skills to work in this area.

CAREER OPPORTUNITIES

Potential employers include: hospitals, community health centres, aged care facilities, mental health services, rehabilitation centres, sports clubs and fitness centres.

Flinders University student Dr Emmanuel Ita Bassey beat hundreds of entrants from major South Australian universities to win South Australian International Student of the Year 2016.

The former clinician, who lost his sight to cataract disease several years ago, has established a visual rehabilitation unit in a tertiary eye hospital in Nigeria to save people travelling up to 2,000km for treatment. As well as being medical officer (visual rehabilitation) at the hospital, he is acting secretary of the Nigerian Computer Association of the Blind.

"Receiving this award is such an amazing honour," Dr Bassey says.

"When I lost my sight, I couldn’t practise medicine anymore, and that’s why I’m in Australia to do this disability study."

"Now I've applied to Flinders to commence a PhD in disability studies in July 2017 to continue helping Nigerians with adult-onset visual impairment and many other disabilities.”

Our students are recognised as leaders who drive positive change. The impact of their work is being felt across the globe.

Studying at Flinders as an Australia Awards scholar, Dr Bassey has received a letter of commendation from Flinders University's Chancellor and been recognised by the Golden Key International Honours Society for academic excellence.

"Emmanuel’s outstanding academic capabilities, and inspiring career goals and personal attributes, made him a very worthy recipient of the International Student of the Year and Academic Excellence awards," Mr Raneskold says.

"Even more importantly, he will use his Flinders University study to further improve the lives of many more Nigerian people living with disabilities to reach their full potential.”

**COURSE LENGTH**

3.5 years full-time

**INTAKE**

Semester 1, Semester 2

**2019 FEE**

AUD$32,000

**ENGLISH REQUIREMENTS**

IELTS: 7.0 (S6.5, W6.5, R6.5, L6.5)

PTE: 65* (see pg 87)

Focus on professional legal skills and critical perspectives on the function of law in society. You will develop high level communication, presentation and teamwork skills in preparation for practising law, or for future leadership roles in a range of educational and professional settings.

**STUDY PROGRAM**

The program enables you to acquire essential foundational legal skills. You will gain knowledge of Australian law and the ability to evaluate it critically. You will acquire a range of key skills such as interviewing, drafting, advocacy, negotiation and teamwork to enable you to translate legal rights into practice within real-world scenarios. Honours includes an enhanced research training experience, the option for up to two masters-level electives and a minor dissertation. Topics cover areas such as legal research and writing, criminal law and legal method, introduction to public law, and contracts.

**PRACTICAL EXPERIENCE**

Study the practical legal topics required to be admitted to legal practice, undertake Work Integrated Learning placements for practical legal topics, and get hands-on experience through Flinders’ Legal Advice Clinic.

**ACCREDITATION**

Successful completion satisfies the academic and practical requirements underpinning eligibility to be admitted as a barrister and solicitor in South Australia.

**ENTRY REQUIREMENTS**

Applicants for the graduate-entry degrees must hold a recognised undergraduate degree or equivalent from an approved tertiary institution. Admission to the Bachelor of Laws and Legal Practice (Graduate Entry) is by quota, based on academic merit. A pass average or greater is required. Admission to the Bachelor of Laws and Legal Practice (Graduate Entry) (Honours) is by quota, based on academic merit. A credit average or greater is required.

**CAREER OPPORTUNITIES**

Potential occupations include: lawyer, federal prosecutor, graduate analyst, graduate policy officer, graduate solicitor.

**FURTHER STUDY**

Options include: Master of Laws (Research), Master of Laws (International Laws and International Relations), PhD.

MEDICINE: the science & art of treating disease & maintaining health

**Doctor of Medicine**

**DOCTOR OF MEDICINE (MD)**

- **CRICOS CODE**: 07975G
- **COURSE LENGTH**: 4 years full-time
- **INTAKE**: Semester 1
- **2019 FEE**: AUD$70,500
- **ENGLISH REQUIREMENTS**: IELTS: 7 (S7, W7, R7, L7) or PTE: 65 (see pg 87)

Graduate entry to the MD provides an alternative to the traditional pathway from secondary school to an undergraduate medical course. The four-year program enables you to graduate with a medical qualification that is comparable to a six-year undergraduate program. The medical program aims to develop the elements of knowledge, understanding and skill central to varied areas of medical practice, producing graduates well prepared to act as hospital interns and with the potential to follow a full range of medical specialties in subsequent training.

**STUDY PROGRAM**

Throughout the course there are three broad topics or themes: doctor and patient, knowledge of health and illness, and health professions and society. The program focuses on student-centred learning with longitudinal development of the knowledge, skills, and personal and professional attributes required of a doctor. Topics cover areas such as interaction between doctor and patient, knowledge of health and illness, health professions and society, socially responsible health practice, clinical research foundations, and advanced studies.

**PRACTICAL EXPERIENCE**

The degree offers a hands-on approach, blending community and hospital training that offers you exposure to the broad spectrum of health care from the primary to the tertiary level. Topics introduce you to clinical practice and performance, and you will undertake practicals and clinical placements throughout the degree. As per Australian Government regulations, courses that have a placement involving contact with children, young people and/or vulnerable adults will require students to undergo a criminal history check, and to comply with policies on immunisation and blood borne viruses prior to placement.

**ACCREDITATION**

All medical students will be registered with the Australian Health Practitioner Regulation Agency, which has responsibility for ensuring that all persons permitted to practise medicine in Australia should be fit and proper persons to maintain professional standards.

**ENTRY REQUIREMENTS**

Applicants must:
- hold an approved undergraduate degree or equivalent qualification from an approved tertiary institution
- hold a valid Graduate Medical Schools Admission Test (GAMSAT) or North American Medical College Admissions Test (MCAT)
- attend an interview.

The course has a specific application deadline. For more information please contact the International Centre at: international@flinders.edu.au

**CAREER OPPORTUNITIES**

Potential occupations after internship include: general practitioner, hospital medical officer, medical specialist, general practitioner in urban, rural and remote settings.

Upon graduation, you must complete a year as a hospital intern to qualify for medical registration with the Medical Board of Australia. After internship and a possible further year in a training position, you can then apply to undertake specialist training with a medical college. In addition to clinical practice in a wide range of medical specialties, medical graduates may work in research, public health or community aid around the world, or in health administration.

**FURTHER STUDY**

Options include: a variety of masters programs in health, especially public health and clinical education, PhD.

Nursing (Coursework and Research)

MASTER OF NURSING (COURSEWORK AND RESEARCH)

CRICOS CODE 088952B

COURSE LENGTH 1.5 years full-time

INTAKE

Semester 1, Semester 2

2019 FEE AUD$36,900

ENGLISH REQUIREMENTS

IELTS: 6.5 (B, S, W, L)

PTE: 58 (see pg 87)

Undertake advanced studies in nursing practice and research to contribute to the present and future development of healthcare services and the nursing profession. In addition to developing specialist nursing skills and competencies, you will have the opportunity to conduct research in an area of interest with the support of individualised supervision. You will become competent at reviewing, critiquing and synthesising literature to support your research, and will develop skills for completion and submission of research grant proposals for ethical approval and funding applications.

STUDY PROGRAM

You will be introduced to the drivers for research within industry and the broader community, learn to identify and apply appropriate research paradigms and methods, and develop sound project management skills. Core topics cover areas such as approaches to research designs, introduction to research, developing a literature review, and writing research proposals for ethical and funding requirements. You will also select a number of option topics and undertake a research project/thesis.

ENTRY REQUIREMENTS

Applicants must normally hold an approved bachelor degree or equivalent qualification and must be registered nurses. Applicants for this pathway will be required to provide a brief statement (research proposal) regarding the area of research they would like to undertake. Research proposals are subject to course coordinator approval and the University’s ability to provide suitable research supervision to students depending on their proposed research topic.

CAREER OPPORTUNITIES

Potential occupations include: clinical nursing specialist, healthcare researcher, educator, manager, policy leader.

FURTHER STUDY

Successful completion of the program through submission of an 18-unit minor thesis prepares you for higher degree research studies (PhD) and/or research in the clinical setting.

Primary Health Care Nursing

MASTER OF NURSING (PRIMARY HEALTH CARE)

CRICOS CODE 088949G

COURSE LENGTH 1.5 years full-time

INTAKE Semester 1, Semester 2

2019 FEE AUD$36,900

ENGLISH REQUIREMENTS

IELTS: 6.5 (B, S, W, L)

PTE: 58* (see pg 87)

A Graduate Diploma in Nursing (Primary Health Care) is also available.

Specifically designed for international students, this program enables you to study with domestic students and undertake observational professional experience placement (PEP) opportunities previously unavailable to international students. It aims to facilitate the development of specialised knowledge in working with individuals, groups, families and communities within a broad primary healthcare framework.

STUDY PROGRAM

The program helps you develop specialised knowledge, skills and attributes for application in a range of primary health care nursing environments. Topics cover areas such as primary health care constructs and contexts; social context of health and ageing; introduction to working with infants, children and families; health management for infants, children and young people; diabetes management; community and primary health care nursing; and an observational professional experience placement.

PRACTICAL EXPERIENCE

You will have the opportunity to undertake an observational professional experience placement (PEP) in a South Australian primary healthcare setting. This will enable you to contextualise care in Australia and exchange information about nursing practices in your country of origin.

ENTRY REQUIREMENTS

Applicants must normally hold an approved degree or equivalent qualification and must be a registered nurse in a country other than Australia. Applicants must also provide a supporting statement nominating their area of clinical preference in primary health care nursing for university-sourced observational professional experience placement. The course will not lead to registration with the Nursing and Midwifery Board of Australia.

CAREER OPPORTUNITIES

Potential occupations include: case coordinator, clinical nurse specialist, health promotion nurse, community health nurse, injury management officer, mental health nurse.

FURTHER STUDY

Please note that this program does not meet the requirements for admission into a PhD.

PSYCHOLOGY: the science of the mind & the study of behaviour

Flinders is ranked among the top 200 universities worldwide for psychology according to the QS world university rankings by subject 2018.

"After 15 years in the physical sciences, I wanted a change. I love learning about people and what makes us who we are and, as a scientist, psychology (the science of the mind) seemed like a great fit. Graduate entry into psychology opened an efficient pathway for me to change career. The coursework has been stretching yet fascinating, and the opportunity to design and lead my own research projects has been especially exciting. As a scientist who deeply cares about people, I feel I have found my place."

Ben McLean
Clinical Psychology PhD candidate

**OPPORTUNITY FOR INDUSTRY EXPERIENCE**

**PROFESSIONAL ACCREDITATION**

Graduates of psychology honours programs who wish to qualify as registered psychologists can undertake the Master of Psychology (Clinical). The course aims to prepare you for professional work in a wide variety of settings, ranging across community mental health, hospital and health care facilities, community welfare, and correctional service settings. It provides you with theoretical knowledge, research and clinical skills leading to professional registration. Experience is provided in both adult and child domains of clinical psychology.

**STUDY PROGRAM**

The study program is made up of coursework, supervised practicals and a research project. Topics cover areas such as counselling and professional issues, clinical child psychology, cognitive behaviour therapy, psychological assessment, abnormal psychology and psychopharmacology, and research methods.

**PRACTICAL EXPERIENCE**

You will complete clinical placements as part of the program.

**ACCREDITATION**

The course meets the requirements for general registration as a psychologist with the Psychology Board of Australia and membership of the Australian Psychological Society.

**ENTRY REQUIREMENTS**

Applicants must normally hold an honours degree at high 2A level or greater in psychology. The course has a specific application deadline. For more information please contact the International Centre at: internationalapply@flinders.edu.au

**CAREER OPPORTUNITIES**

Graduates are eligible for registration as psychologists, and qualified to work in a range of mental health settings. People with existing careers in human services such as nursing, teaching, the public service, social work and human resources undertake the course to better understand human behaviour and to add depth to their knowledge and work skills.

A Graduate Certificate and Graduate Diploma in Biotechnology are also available.

Distilling expertise in the biological sciences and medicine, the biotechnology postgraduate program at Flinders is designed to provide you with advanced theoretical scientific knowledge and strong research training plus an understanding of industry and business issues required for modern biotechnology. Flinders University is one of the pioneers of biotechnology education in Australia and places a strong emphasis on research training.

**STUDY PROGRAM**

Theoretical scientific knowledge is complemented by practical laboratory and business training. The law, ethics, society and the environment have great relevance in biotechnology and all are examined. Core topics cover areas such as DNA to genome; protein to proteome; molecular biotechnology; legal, ethical and social aspects of bioscience; and professional skills for biotechnology. Application topics cover industrial and pharmaceutical biotechnology; environmental biotechnology; and plant and food biotechnology.

**PRACTICAL EXPERIENCE**

You will receive practical laboratory training as well as business training in financial, marketing and management skills. The masters has a 10-month research project that provides an opportunity to complete skill-based topics. You can select from a large range of topics to build your career.

**ENTRY REQUIREMENTS**

Applicants must normally hold an approved bachelor degree or equivalent qualification.

**CAREER OPPORTUNITIES**

Potential occupations include: bioanalytical chemist, biodiscovery, research scientist, business development manager, medical scientist, biotechnologist.

**FURTHER STUDY**

Graduates of the masters who complete with a distinction average in the course and a distinction in the research topic are eligible to apply for PhD candidature.

A Graduate Certificate and Graduate Diploma in Environmental Management are also available.

Human-environment interactions pose some of the biggest challenges of the 21st century (climate change, deforestation, water resource availability, energy consumption, urban expansion, population growth and food security). Understanding contemporary environmental challenges and solving environmental problems requires both knowledge of ecological and physical processes, and insight into the cultural, demographic, economic, geographical and political aspects of human-environment connections. The postgraduate environmental management program combines social science with the study of physical geography, earth science and biology to provide the breadth of knowledge required of environmental managers.

**STUDY PROGRAM**

The program is international in scope, but case study material draws strongly on the experience of Australia and other countries within the Asia-Pacific region. All three courses combine important theoretical knowledge with the opportunity to complete skill-based topics. You can select from a large range of topics to build a study program that suits your interests and current or future employment requirements.

**ENTRY REQUIREMENTS**

Applicants must normally hold an approved bachelor degree or equivalent qualification.

**CAREER OPPORTUNITIES**

Potential occupations include: policy officer, research officer, planning officer, on-ground manager, environmental consultant.

**FURTHER STUDY**

Graduates of the masters who complete with a distinction average in the course and a distinction in the research topic are eligible to apply for PhD candidature.

- 50* Overall score of 50 with 50 in writing and speaking
- 58* Overall score of 58 with 58 in writing, speaking, listening and reading
- 65* Overall score of 65 with 58 in writing, speaking, listening and reading
- 65* Overall score of 65 with 65 in writing, speaking, listening and reading
- 73* Overall score of 73 with 73 in writing, speaking, listening and reading

**International student policy**

It is important that students read and understand these provisions prior to accepting their offer at Flinders University. Specific provisions include:

- the University’s commitment to working within the Education Services for Overseas Students (ESOS) Act and National Code (2018)
- English language proficiency requirements
- admissions policies for international undergraduate, postgraduate, Study Abroad and Exchange students including basis of admission and assessment of qualifications
- tuition fees, the payment of tuition fees and refund policies
- duration of study, deferrals, suspension, and cancellation of student’s enrolment policies.

The International Student Policy and Procedures Statement details the specific provisions that apply to international students undertaking a Flinders University course, except where that course is offered by another institution on behalf of the University. In such instances, the other institution’s policies and procedures will apply. The statement can be found at: flinders.edu.au/ppmanual/student/international-students.cfm
Applying to Flinders

The following pages provide a summary of the application process. For more detailed information, visit our website: flinders.edu.au/international/apply
To enrol at Flinders as a postgraduate student you must meet the following academic and English language proficiency requirements for admission:

### Academic entry requirements
For graduate certificates, graduate diplomas and masters programs:
- For most degrees you must have satisfactorily completed a degree considered comparable to an Australian bachelors degree.
- Some degrees may require work experience to meet the entry requirements. A reference or statement from your employer will be required.

For masters by research and doctor of philosophy (PhD):
- For admission to a research higher degree program, you normally need an Honours Class 1 or 2A degree or equivalent, although other qualifications may be considered.
- Direct entry into a PhD is also dependent on the strength of your research background and you may be required to undertake a qualifying program if your research profile is not considered sufficient.

Some specific courses have additional entry requirements. These can be found at: flinders.edu.au/postgrad/apply

### English language entry requirements
For applicants whose first language is not English you will need to have:
- achieved the required test score for your course as listed in the course index at the back of this publication. Test results must be no more than two years old on the proposed date of commencement of the course; or
- successfully completed an approved secondary or tertiary qualification, taught in the English language in a country where Flinders recognises English as the official language or the main language spoken (for up to an overall IELTS of 6.5 band scores) with evidence no more than five years old on the proposed date of commencement of the course; or
- successfully completed a pre-course English program from an approved ELICOS provider (evidence of completion must be no more than two years old on the proposed date of commencement of the course).

Other evidence of English language proficiency may be considered.

For more information visit: flinders.edu.au/international/apply/entry-requirements/english-language-requirements

### Don’t meet our academic or English language entry requirements? There are other pathways to Flinders.

### Pathways to higher degree research
We offer a Graduate Diploma in Research Methods as a pathway to a research higher degree.

For more information, please see page 77 of this guide, or visit: flinders.edu.au/graduate-research/pathways

### Pre-masters business program at Flinders International Study Centre
CRICOS Code: Accelerated - 085891A
CRICOS Code: Standard - 085892M

Specifically designed for international students, the Pre Masters Business Program is an advanced course of English language and academic preparation. The course will fully prepare you for joining the Master of Business, Master of Accounting or Master of Accounting and Finance degree at Flinders University.

For more information, please visit: isc.flinders.edu.au/our-courses/pre-masters-program
Admission process

Admission to Flinders University is a simple four-step process.

**1 Your application**

Submit your application, making sure you include all the required documents as attachments. Once your application is received by Flinders University International Centre, we will send an acknowledgement of your application being received and we will advise you if any further information or documentation is required.

**2 Your offer of admission**

Your offer of admission is usually sent to you by email. If you do not have an email address we will post the offer letter directly to you or email your agent. We will endeavour to send your offer letter within 10-14 working days, however there may be delays where you have applied for a course with strict quotas or additional entry requirements, or where credit/exemption is sought for previous study.

Included in the offer of admission is a weblink to “Your Offer Letter Explained”. At this stage you will be required to accept the offer by completing the acceptance form and any associated declarations. You will also be required to pay the relevant tuition fees for the first semester and visa-length Overseas Student Health Cover (OSHC) as detailed in your offer of admission.

**3 Confirmation of enrolment**

We will issue the Confirmation of Enrolment (COE) upon receipt of the signed acceptance, review of the declaration, and payment of fees and OSHC.

With the COE you can apply for your student visa. Please check your visa requirements at: homeaffairs.gov.au

**4 Arrival & orientation**

Pre-arrival information to assist you prior to your departure for Adelaide is also available in the International Student Handbook at: flinders.edu.au/international/explore/international-student-services

Start your application

Looking to apply for a course at Flinders? Follow our step-by-step guide to help you through the application process.

If you require support submitting your application please contact us via our website or contact an agent in your country.

flinders.edu.au/international/apply/find-agent

**STEP 1**

Select your course or program

Flinders University offers a wide range of postgraduate and research programs. When choosing your course there is a list for you to consider. What type of course should you do, what qualification will you get at the end and what are your career goals? Take the time to research which course best suits your ambitions.

**STEP 2**

Check entry requirements

Decide which course you would like to apply for? You will need to check that you meet our entry requirements. If you do not meet these requirements there are still options available to you. Why not consider enrolling in one of our pathway or preparatory programs? Please visit our website for further information.

flinders.edu.au/international/apply

**STEP 3**

Complete and submit an application form

- Selected a course?
- Met our entry requirements?
- Checked credit transfer eligibility?

You are now ready to complete our application form. You can apply online simply by clicking the ‘apply’ button at: flinders.edu.au/international/apply/how-to-apply

Application fees

An application fee of AUD$150 is required upon submission of the online application. If you need assistance completing the online application form you may wish to contact the International Centre or one of our authorised agents who will be happy to help you. The University does not charge an application fee if you submit online via an agent. See our website for details: flinders.edu.au/international

Prospective and current students should not use the online application system when applying for:

- a research higher degree
- a packaged program
- an internal transfer
- a deferral.

Please email internationalapply@flinders.edu.au or come to the International Centre for details on how to apply for these options.

**Note: external courses**

International students cannot undertake external courses while in Australia on a student visa.

Research degrees

Whether you want to explore a topic that interests you in depth, create new knowledge or become an expert in your field, higher degree research at Flinders will help you to make a difference. Work with highly qualified and recognised supervisors, connect with industry, government and the community, and contribute to the global research conversation. Higher degree research transforms lives, opening you up to new opportunities and making an impact with new discoveries.

Learn about the range of higher degree research available at Flinders University and find a research supervisor.

flinders.edu.au/study/apply/research-degree/how-to-apply

When to apply

Applications can be made at any time during the year to available course intakes. Admission to some programs is very competitive as places are limited.

Some courses have specific application deadlines. Please refer to the relevant course pages or contact the International Centre for more information.
You may have come across some terms in this guide that are unfamiliar to you. This list of terminology will help you to better understand what we mean. You may also find it handy when visiting our website.

**Academic English preparation (AEP)**
Program aimed at improving your English language and academic skills prior to commencing study at Flinders University.

**Academic staff**
All teaching and research staff, including professors (the most senior), associate professors or readers, senior lecturers, lecturers, associate lecturers and tutors.

**Academic year**
 Begins in late February or early March and ends in late November.

**Australian central standard time (ACST)**
Time zone for Adelaide and South Australia.

**Award**
A degree, certificate, diploma, masters or PhD of the University granted at the completion of a course of study.

**Bachelor degree**
Normally the basic (first) undergraduate degree.

**Central business district (CBD)**

**Confirmation of enrolment (COE)**
A COE is a document provided by the University to an international student who studies in Australia on a student visa. It confirms that an international student is eligible to enrol in a course. You do not need a COE if you are a local student, or an international student studying in Australia on an AusAID Scholarship, or on a temporary residence or permanent residence visa.

**Core topics**
Compulsory subjects that form the basis of a study program.

**Course**
A program of study leading to a degree or diploma.

**Course coordinator**
The staff member who is responsible for a particular course. The course coordinator is your main contact person at the University. The course coordinator will advise you on matters like enrolment, topic selection, study program, and problems with study. The course coordinator contacts with Enrolment Services in authorising your enrolment in topics, amendment of enrolment and withdrawal from topics for your course.

**Credit**
Credit is sometimes given for relevant topics or units previously studied, for which a student is given an exemption.

**CRICOS**
The Commonwealth Register of Institutions and Courses for Overseas Students (CRICOS) is an Australian government register that lists all Australian education providers offering courses to people studying in Australia on student visas and the courses offered.

**Diploma**
A formal qualification usually requiring the equivalent of two years of full-time study. At Flinders, the diploma can be studied as a qualifying program for students who do not meet the entry requirements for a bachelor degree.

**Elective topics**
Topics that can be chosen to support core topics — often called optional topics in science degrees.

**English Language Intensive Courses for Overseas Students (ELICOS)**
Programs for students who require English language training before commencing formal studies in Australia.

**Excellence in Research for Australia (ERA)**
Australia’s national research evaluation framework. Excellence in Research for Australia identifies and promotes excellence across the full spectrum of research activity in Australia’s higher education institutions.

**External student**
A person undertaking all of their study by correspondence on either a full-time or a part-time basis, and who is enrolled as an external student.

**Flinders Learning Online (FLO)**
Flinders University’s core online learning and teaching application.

**Flinders University Student Association (FUSA)**
The on-campus student organisation that exists for the purpose of representing students’ rights and interests.

**Flinders International Study Centre (ISC)**
Flinders International Study Centre (ISC) offers academic English preparation (AEP), foundation and diploma programs for students who seek to qualify for Flinders undergraduate courses.

**Foundation Program**
The Foundation Program is a comprehensive academic program that prepares students for university-level learning.

**Graduate**
A person who has received his or her degree.

**Graduation**
A ceremony at which degrees are conferred and diplomas awarded, and is usually held in April and December.

**Honours degree**
Awarded to undergraduate students who choose to complete an additional year of study. In the case of four-year degree programs, honours may be awarded to students who perform particularly well.

**International English Language Testing System (IELTS)**
Measures the language proficiency of people who want to study or work where English is used as a language of communication.

**Innovative Research Universities (IRU)**
Innovative Research Universities (IRU) is a network of six comprehensive universities across Australia committed to inclusive excellence in teaching and research.

**International Network Universities (INU)**
A global consortium comprised of higher education institutions that actively seek international partnerships and experiences, create innovative programming and delivery methods, and embrace the internationalisation movement.

**International Student Barometer (ISB)**
The global benchmark for the international experience of entrepreneurs and innovators.

**International Student Barometer (ISB)**
A tool that measures the language proficiency of people who want to study or work where English is used as a language of communication.

**Major sequence**
A sequence of topics that must be taken in all three years of a degree.

**Minor sequence**
A small number of topics in one area of study.

**New Venture Institute (NVI)**
New Venture Institute is the centre of innovation and entrepreneurship at Flinders University. Through programs and activities they aim to inspire, connect and educate future generations of entrepreneurs and innovators.

**Pearson Test of English (PTE)**
Pearson Test of English is an English language test for students wishing to enrol in English-speaking universities.

**Postgraduate courses**
Students must normally have an undergraduate degree to begin studying any postgraduate course; this is sometimes known as graduate studies.

**Pre-requisite**
A topic that must be completed before a higher level topic can be studied; it is the student’s responsibility to ensure that topic prerequisites have been met.

**Pre-masters program**
A qualifying program for students who do not meet the entry requirements for a postgraduate masters degree.

**Semester**
The academic year is divided into two semesters — usually late February to mid June, and late July to November.

**Student Learning Centre (SLC)**
The Student Learning Centre (SLC) is a multidisciplinary academic support service for Flinders University students.

**Test of English as a Foreign Language (TOEFL)**
A standardised test to measure the English language ability of non-native speakers wishing to enrol in English speaking universities.

**Work-Integrated Learning (WIL)**
A program designed to give students the opportunity to link theory and practice with valuable workplace experience while studying.
