School Students Guide to University

Flinders
University

Acknowledgement of Country

Flinders University acknowledges the Traditional Owners and Custodians of the lands and waters on which its campuses are located. These are the Traditional Lands of the Arrernte, Dagoman, First Nations of the South East, First Peoples of the River Murray and Mallee region, Jawoyn, Kurna, Larrakia, Ngadjuri, Ngarrindjeri, Ramindjeri, Warumungu, Wardaman and Yolngu people.

We honour their Elders past, present and emerging.

Uncle Mickey Kumatpi Marrutya O'Brien during a smoking ceremony at Yungkurinthe Inparrila.

Why

Study at

Flinders?

Flinders University is here to help you every step of the way, from exploring your study options and personalising pathway advice, to providing support throughout your studies and offering unique opportunities to assist you in becoming career-ready.

Ranked in Top 2% of universities in the world

(THE World University Rankings 2024 as a percentage of the total number of universities in the world according to the International Association of Universities)

Ranked No. 1 in SA for Learning Resources

(The Good Universities Guide 2025, public SA-founded universities only (undergraduate))

Study Areas

Defence and National Security

Get future-ready for a career in an exciting industry. Australia’s defence industry covers an incredible range of career paths, with skilled workers in high demand. At Flinders, we offer the practical skills and knowledge for a career in defence, with topics such as business, science, engineering and information technology, in roles ranging from engineering to business administration, research, network administration and more.

Humanities and Social Sciences

The workplaces of tomorrow may be very different from those we see today. But one thing is unlikely to change; employers around the world will be searching for independently minded people with valuable, transferable skills. Study what you love with a humanities and social sciences degree from Flinders, and gain the knowledge and skills you’ll require to thrive in your career.

Nursing and Midwifery

Study for a career that can change lives across the globe. Nursing and midwifery are rewarding and fast-paced professions. Flinders is nurturing a passionate team of future nurses and midwives to not only be exceptional, but to do exceptional things. Taught by experienced teachers and with almost 1000 hours of work placement built into both the undergraduate nursing and midwifery degrees, studying at Flinders will prepare you for an amazing career.

Business

Open up your career options. We have a large range of courses that will help you succeed in any industry - private, public or your own. With courses including marketing, sports management, human resource management, accounting and more, you’ll be taught by business experts and gain practical skills with placements. Our degrees set you up for strong salary prospects and great career opportunities, no matter what your aspirations are.

Education

Create a better tomorrow. Education is a career for those who see potential in others and want to develop it. As an educator, you can inspire new ways of thinking and make a positive impact on individuals, communities and society. At Flinders, you’ll have the opportunity to experience day-to-day life as an educator; planning lessons, building relationships with your students and, ultimately, putting your passion to work.

International Relations and Political Science

You can shape the world. Our degrees will give you the tools to drive political, social and economic change. You will learn how policies are developed and implemented, preparing you for amazing careers in government, private, and not-for-profit organisations. You will also have access to internship opportunities in the United States Congress in Washington, the European Space Policy Institute in Vienna, or with the South Australian State Government.

Psychology

Build a people-focused career. Your degree could be the start of your journey to becoming a practicing psychologist, or lead you towards a career in areas such as education, politics, business, sport, health or research. In many of our psychology degrees, you’ll have the opportunity to choose electives to enhance your career outcomes and improve your employability.

Computer Science and Information Technology

Information technology drives innovation. Solve problems in diverse fields such as medical research, climate change, environment, business and creative industries. Tailor your studies to suit your interests, from building systems that have human-like intelligence, to creating cutting edge products and services, driving innovation for Industry 4.0 or developing the apps that will transform the future.

Environment

A sustainable future is in your hands. If you’re passionate about finding out how human activities interact and modify environments, an environmental degree from Flinders can lead you to an exciting and meaningful career. Gain the skills and practical experience to address challenges such as - climate change, biodiversity, deforestation, air and water pollution and species extinction.

Languages and Culture

Translate your love of culture into a rewarding and diverse career. With a suite of languages in French, Indonesian, Italian, Modern Greek and Spanish, Flinders’ languages and culture degrees prepare you to explore how the ways we communicate enable us to express ourselves, create new things, make sense of our surroundings and connect with each other. Gain the knowledge, skills and connections to create the global career you have always dreamed of.

Science

You could change the ways we interact with the world around us. From addressing environmental challenges and technological changes, to helping us better understand the building blocks of the universe, your scientific career could make a difference. Our science degrees can be tailored to suit your needs and aspirations. Discover the breadth of what science has to offer and graduate with the skills and knowledge to take your place in an ever-changing world.

Creative Arts

Do you connect to the world in a creative way? Use your creativity to inspire, entertain and educate. Flinders has an incredible breadth of creative arts, industries and media courses, partnerships with leading arts organisations, and state-of-the art studio spaces and facilities. You’ll be taught by practicing creative artists who are award-winning authors, playwrights, actors, cinematographers, creative entrepreneurs and leaders in the arts industry.

Engineering

Build solutions for real-world problems. From robotics to renewable energy, shipbuilding and defence, civil engineering or creating new medical technologies, engineers are in demand. Designed in close collaboration with industry, our degrees give you specialist knowledge and an integrated 'toolkit' of skills that will set you on the path to an amazing and rewarding career.

Law

Expect more of law. Law creates the framework for how we interact with the world, and solve the issues that impact us within it. Flinders Law combines the highest level of traditional legal training with a future-focused curriculum that delves into social justice challenges. At Flinders you’ll receive incredible support and gain practical experience with more than three professional placements, allowing you to build networks with industry years before you graduate.

Social Work

Social work is for those who aspire to change the world for the better, because they believe in social justice. Your career path might involve working in child protection or with older individuals, becoming a disability advocate, or specialising as a drug and alcohol counsellor. Careers in social work are about the wellbeing of individuals, groups and communities and addressing inequality and injustices. Our social work degrees provide hands-on study and real-world placements to ensure you are prepared for a challenging, rewarding career.

Criminology

True crime. Real Impact. Study criminology and experience a future-focused and socially responsible degree designed to equip you with the practical, real-world skills you need to examine criminal behaviour, understand what drives it, and make an impact on society. Combined with industry experience and SA’s largest criminology team, you will be equipped for employment in cybercrime, intelligence and more.

Health

Begin a life-changing career. At Flinders, you’ll gain the skills to make a difference to people’s lives and address the future health needs of Australia and the world. From treating patients in health clinics, providing preventative self-care, influencing health care policy in government agencies or undertaking life-changing research, your career opportunities are limitless.

Medicine

Our international post-graduate medical program is developed and taught in collaboration with clinical partners, with curriculum informed by the latest health and medical research, and evidence-based clinical practice, delivered by world-class medical scientists and clinicians. Explore your study options at our rural and remote campuses across the Northern Territory and South Australia.

Sport

A career in sport isn’t just a job, it’s a lifestyle. Our sports-focused degrees will see you graduate ready to thrive in a sport-related career. Study alongside industry and gain vital real-world experience. From the business of sport to the science that helps athletes perform at their best, choose a degree that reflects your passion for healthy living, physical activity and the sporting world.

There's more to Flinders than our friendly reputation

It's true that we value our people, and our students agree that we offer the best student experience and support in SA.

But the Flinders experience is about having the space and flexibility to choose your path, and the confidence to build your own future. Our industry-driven degrees and support services will help you on your way to a satisfying career and beyond.

There's no limit to what you can achieve with a Flinders degree, because our internationally recognised professors, state-of-the-art facilities and research that makes a difference are here to inspire you to be the best you can. Explore your passions, experiment bravely and make your mark.

FUSA

Flinders University Student Association (FUSA) is the student organisation that represents the rights and interests of students – you! FUSA runs both social and advocacy services for students, including academic advocacy, financial advocacy and other support, as well as housing the Student Council and looking after all of the non-sporting Clubs and Societies on campus. FUSA are responsible for the social events on-campus, including O'Week events, picnics in the Plaza, free brunches, and various other campus activations.

Clubs

Whether you want to try something new, stay involved with an old hobby or find a community, clubs and associations are a great way to connect with like-minded people while you're studying. They allow you to expand your social circle, develop your professional skills, or simply catch up with friends. With over 80 different clubs, including academic associations, social or special interest clubs, whatever your interests, Flinders is bound to have a club for you.

Sports Clubs

We have over 20 different affiliated sporting clubs. Our clubs cater for all levels of ability or interest by offering recreational, instructional or competitive settings. Joining a sporting club here on campus is a great way to add to your University experience and meet new people along the way, all whilst being physically active. Sporting clubs include soccer, basketball, Ultimate Frisbee, fencing, korfbal, netball, Muay Thai, Underwater (SCUBA), and squash.

Study Abroad

Living and studying overseas presents you with the unique opportunity to immerse yourself in the local culture while continuing your tertiary study at one of Flinders University's 70+ overseas partner universities.

We provide students with global learning opportunities, such as semester exchange, short-term study programs and internships. Global study programs are designed to allow students to take their Flinders study overseas and earn academic credit toward their Flinders program. Why wait until you graduate to see the world? Let our program offer you the educational adventure of a lifetime.

flinders.edu.au/studyabroad

Student Learning Support Service

The Student Learning Support Service (SLSS) helps students achieve academic success through the development and implementation of innovative, proactive, and 'just-in-time' study support programs, resources, and interventions.

The Learning Lounge is a safe study space for students on campus (located in the Central Library), staffed by learning advisors on weekdays. Learning advisors provide guidance on matters including academic writing, understanding assignment requirements, referencing, numeracy, and other general study skills. Studiosity is an online 24/7 service for students to receive writing feedback on assignment drafts, as well as a live chat function for support with English, maths, science and general study skills.

Health, Counselling and Disability Services

Managing your health while studying is important. We have facilities and services available to help you look after your physical and mental health. Flinders provides confidential and professional health, counselling and disability services to all currently enrolled Flinders University students. We can also assist students with equal opportunity concerns.

The Health Service is a fully equipped Medical Centre located at the Bedford Park campus. It provides emergency and routine medical care and is staffed by both male and female medical practitioners. All consultations are confidential and there is also a free counselling service.

Flexible Study Options

Many Flinders courses offer you flexible study options, including part-time and online options. Flinders online courses provide a convenient and flexible way to achieve your study and career ambitions. You'll receive the same quality education and qualifications as on-campus students with dedicated support available throughout your entire degree.

Students on-campus also have flexibility with online lectures, choosing your own timetable and face-to-face, as well as online support services available.

flinders.edu.au/online

Careers

The Careers and Employability Service helps give you the edge in your career.

The Centre provides a diverse range of services and programs to help students:

- Plan their career
- Broaden their skills and experience
- Connect with employers and industry professionals
- Find job opportunities
- Prepare for employment

Work Integrated Learning

At Flinders we are committed to the success of our students. Our graduates are highly sought after by graduate employers and our work integrated learning (WIL) programs combine academic and career related activities designed to enhance learning. Flinders students are able to make industry connections and enhance their skills and experience through workplace and internship programs in Australia and overseas. WIL can be in the form of:

- Work placements such as; clinical placements, internships, field education, vocational and professional practice
- Projects with industry and community organisations.

Yungkurinthe

Yungkurinthe Student Engagement are experienced in supporting Aboriginal and Torres Strait Islander people to successfully transition to university and meet the challenges of university life. Staff work directly with students to provide one-on-one support on a range of matters, from applying to university to support while studying.

Our Campus Locations

Flinders City Campus

Whether you are enjoying the leafy surrounds of the Bedford Park campus, immersed in the CBD at our city campus at Festival Plaza, contemplating the industries of the future at Tonsley campus, or located at any of our rural and remote locations, Flinders prides itself on offering students a great on-campus experience.

There's also the option to study online, giving you the flexibility to learn whenever and wherever you're located.

Flinders City Campus

Spanning eight levels, with multiple state-of-the-art teaching spaces, this campus is designed for innovative and adaptable learning, catering to an extensive range of study programs. Every floor has dedicated spaces for students to come together, learn from industry experts and be inspired by a world of learning possibilities.

Students at Flinders City Campus can study a range of courses:*

Accounting | Business | Creative Arts & Media | Computer Science & Information Technology | Criminology | Disability | Education | Engineering | Finance | Health Sciences | International Relations & Political Science | Law | Psychology | Social Work | Sport | Urban and Regional Planning.

*Course availability is subject to change.

Bedford Park

Located just 12km south of the centre of Adelaide, the Bedford Park campus is Flinders' main campus and encompasses our health-focused Sturt location. It's a spacious, elevated site with panoramic views to the coast and over the city. Our Student Hub offers 24/7 study spaces and access to all student services in one convenient location.

Tonsley

The Tonsley campus centrally locates computer science, engineering and mathematics students. It is home to the Medical Device Research Institute, Centre for Nanoscale Science and Technology, Tonsley Innovative Manufacturing Hub and some of Adelaide's biggest businesses and industries.

Accommodation Options

At Flinders Living, we understand that moving away from home or starting at a new university can be both exciting and a little daunting, which is why we do everything we can to support our students to settle in quickly.

Our staff and student leadership teams aim to make University Hall and Deirdre Jordan Village great places to live, learn and grow.

Flinders Living

What are my accommodation options?

There are a variety of accommodation options available at Flinders Living to suit your needs. Accommodation is available in our self-contained units in Deirdre Jordan Village or in University Hall, our catered hall of residence.

Why live on-campus at Flinders University?

- Be a part of living and learning environments that celebrate diversity and show respect and consideration for others.
- Walking distance to classes at Bedford Park and Sturt campuses, with easy access to public transport and Flinders loop buses to Tonsley.
- Free membership of Flinders Sport and Fitness and easy access to music facilities, library and computer labs.
- A safe and secure environment with access to University Security and student welfare support, 24-hours a day.
- Affordable living with all utilities and free Wi-Fi access included.

University Hall

University Hall is our catered, collegiate hall of residence. We recommend students who are transitioning into higher education soon after high school choose the more collegiate and supportive environment of the Hall for their first year experience, before considering moving to the Village for a more independent lifestyle in subsequent years. You will be provided with easy access to academic and wellbeing guidance through a team of student leaders living on site. In addition, the elected House Committee strengthens the sense of community through the organisation of many intercollegiate sporting competitions and a wide range of social and cultural events.

Overview

- Single rooms fully furnished (single bed, mattress and mattress protector, desk, wardrobe, heating and fan).
- Shared common areas and kitchenettes.
- Catered from Monday to Friday for breakfast, lunch and dinner.
- Free on-site communal laundry and enclosed drying areas.

Deirdre Jordan Village

Deirdre Jordan Village features 80 fully equipped, self-contained units accommodating 309 students. This enables you to enjoy an independent lifestyle within a vibrant and supportive community. The Village features outdoor recreation spaces, including three barbecue areas and a modern community centre with a large common room, seminar rooms, a music room and decking with sea views. Each of these self-contained units include a common living and dining area, full kitchen, bathroom, and bedrooms for 2-6 students.

Overview

- Single rooms fully furnished (single bed, mattress and mattress protector, desk, wardrobe, heating and fan) in self contained units with shared communal living spaces in each unit.

Self catered

- Each unit has a full size kitchen with oven, microwave, fridge, freezer, toaster and kettle.
- Free on-site laundry and enclosed drying areas plus washing machines in all 2 and 3 bedroom units.

Fees

2025 indicative weekly room rates are (depending on exact room):

Uni Hall: \$468 per week

Deirdre Jordan Village: \$290 per week

Applications

Applications for Flinders Living are made online.

Apply by closure date in November. Housing offers are normally made over December/January. You will need to submit the application form, a personal statement about yourself and a non-refundable application fee.

More information on fees and application: flinders.edu.au/living

City Campus

If you are enrolled at the City Campus, you may wish to consider living with our preferred city accommodation provider - The Switch.

Example of single room in University Hall

The Switch

Year 12 entry to a Flinders Degree

Flinders University offers a range of pathways for you to apply for entry to your preferred degree.

You will be considered for an offer based on your most competitive selection rank, which may be your Australian Tertiary Admissions Rank (ATAR) plus any applicable adjustment factors, an admission test result or TAFE/ VET qualification. Alternatively, you may be considered via one of Flinders’ multiple entry pathways.

Year 12 entry

Flinders University offers a range of pathways for you to apply for entry to your preferred degree. You will be considered for an offer based on your most competitive selection rank, which may be your Australian Tertiary Admissions Rank (ATAR) plus any applicable adjustment factors, an admission test result (STAT) or TAFE/ VET qualification. Alternatively, you may be considered via one of Flinders’ multiple entry pathways.

The majority of Year 12 applicants enter university via the traditional competitive entry method, where offers are made to eligible applicants with the highest Selection Rank until all places in the degree are filled. Your Selection Rank (SR) is based on your ATAR plus any adjustments for which you are eligible.

Selection Ranks

The 2025 selection rank shown for each degree indicates the lowest rank for which an offer was made for each degree (including any adjustments). It is provided only as a guide for 2026 entry as it may change from year to year.

Guaranteed entry selection rank

If you achieve a Selection Rank equal to or above the published Guaranteed Entry Selection Rank, you will be guaranteed a place at Flinders. All you need to do is ensure you have listed your preferred Flinders degree as your first preference and you will be offered a guaranteed place provided you meet any other course pre-requisites. We offer guaranteed entry for most courses at Flinders.

Adjustment Factors

Previously known as bonus points, adjustment factors contribute to your Australian Tertiary Admission Rank (ATAR) when applying for Flinders University degrees.

The two schemes detailed below are administered by the South Australian Tertiary Admissions Centre (SATAC).

Universities equity scheme (5 points)

The University Equity Scheme provides points in one of two ways: school based or individual. Eligible students will receive five points.

School-based

If your school is recognised by SATAC as an eligible school, these points will be automatically applied. Check to see if your school is eligible at flinders.edu.au/adjustmentfactors

Individual

If your school is not automatically recognised under SATAC’s Universities Equity Scheme you may apply for these points at the time of your SATAC application if you meet any of the criteria below:

- You or your parents are in receipt of a Commonwealth means-tested income support payment, or
- You or your parents are the holders of a Health Care or Pensioner Concession Card, or
- You are the holder of a School Card (under the Government of South Australia’s School Card scheme).

Universities Language, Literacy and Mathematics Scheme (2 or 4 points)

This scheme encourages students to strengthen their preparation for undergraduate studies by undertaking selected subjects in Year 12.

In this Scheme, applicants will be awarded two points per subject (up to a maximum of four points), for successfully completing a SACE subject in any of these four categories:

- 20 credits of a LOTE in the Languages Learning Area.
- 2ESH20 English or 2ELS20 English Literary Studies.
- 2MHS20 Mathematical Methods.
- 2MSC20 Specialist Mathematics.

These adjustment factors will apply for all Flinders undergraduate degrees with the exception of the Universities Language, Literacy and Mathematics Scheme, which will not apply to 214941 Bachelor of Clinical Sciences/Doctor of Medicine.

Year 12 Pathways

As a Year 12 student you are able to apply for Flinders courses using your ATAR/Selection Rank. However, there are a number of other pathways also available to you, which means you don’t just need to rely on your ATAR only to get into Flinders. We use your highest selection rank (i.e. your most competitive score) when making offers.

Year 12 grade entry

You are able to gain a place at Flinders University by using your three best Year 12 grades. All applicants who have studied Year 12 in South Australia or the Northern Territory are eligible to apply. To be considered through this pathway, you must not have completed more than two years of full time (or equivalent) study at a university or other higher education institution.

How do I apply?

Check out the courses and grade bands available (on page 16) and ensure that your preferred Flinders course is listed as your highest preference when you apply through the South Australian Tertiary Admissions Centre (SATAC). You don’t need to do anything extra.

If you meet the Year 12 grade results listed, you have a guaranteed place at Flinders.

Combined degree options for the courses listed are also included.

Remember:

- Subjects need to be 20-credit Stage 2 Tertiary Admission Subjects (TAS) or equivalent.
- Final moderated South Australian Certificate of Education (SACE) or equivalent grades will be used. Scaled scores are not used, therefore all 20-credit TAS subjects are weighted evenly.
- Entry is based on the letter grade (including plus or minus).
- For degree entry, you must complete the SACE and need to achieve a minimum Australian Tertiary Admission Rank (ATAR) of 50. For Diploma level course entry SACE completion only applies.
- Minimum ATAR is before any adjustment factors are applied.
- You must meet any additional entry criteria including prerequisite subjects, assessments such as the teaching capabilities statement or portfolio/audition requirements.

UniTEST

uniTEST is an aptitude test that has been developed to assess the kinds of generic reasoning and thinking skills that underpin studies at higher education and which are needed for students to be successful at this level.

As a Year 12 student, the Flinders uniTEST Pathway is available to enhance your chances to gain a place in your preferred Flinders degree. If you take the test and don’t do so well, don’t worry, we will still consider your application on your other selection ranks. Your UniTEST results are applicable to all Flinders undergraduate degrees (excluding Bachelor of Clinical Sciences/Doctor of Medicine).

Flinders University will select applicants based on both their Year 12 results (60% weighting toward the ATAR selection and uniTEST results (40%). Flinders will also consider applicants based on their uniTEST results (100%) as a standalone entry score (subject to SAVE completion and any course pre-requisite or specific admissions requirements).

Students cannot be disadvantaged by participating in uniTEST. Flinders University will only consider your highest selection rank when offering a place. For example, if a student’s ATAR selection rank (inclusive of any adjustment factors) is higher than the combined uniTEST/ATAR selection rank, this will be given priority.

Key points:

- uniTEST is FREE!
- Only for current Year 12 students.
- uniTEST is done online at your school over a maximum of 2.5 hours (there are limited opportunities to undertake uniTEST at Flinders in November).
- uniTEST is a 95-item multiple choice test designed to evaluate abilities and aptitude of Quantitative, Critical and Verbal Reasoning.
- No preparation is required (sample questions can be viewed online).
- Results are released in December and are valid for 2 years.

Year 12 entry to a Flinders Degree

Other pathways also available to Year 12 students

Your ATAR does not expire. It is valid until you have attempted more than 2 years of full-time equivalent higher education study (e.g. bachelor degree level study at a university).

AIF/Research Project B

If you perform well in the AIF/Research Project B subject, you could be considered for entry into selected Flinders degrees on the basis of your grade. The AIF/Research Project provides a valuable opportunity for SACE students to develop and demonstrate skills essential for learning and living in a changing world. You develop vital planning, research, synthesis, evaluation, and project management skills, which we recognise as being important in equipping you for success in higher education study.

If you have strong results in the AIF/Research Project B subject, you will be considered for entry into Flinders on your Year 12 results (60% weighting toward the ATAR score), and AIF/ Research Project B performance (40%).

If the combined score does not result in an enhanced selection rank, you will compete in the normal way.

You do not need to apply to be considered for this pathway. Your new selection rank will be calculated and considered in your SATAC application automatically.

Indigenous Admission Scheme

The Indigenous Admission Scheme provides an alternative entry pathway for Aboriginal and Torres Strait Islander people into Flinders University. To apply and to find out more, phone (08) 8201 3033 or download the application form via the link below.

flinders.edu.au/study/pathways/indigenous-admissions-scheme

School recommendation program

Your performance in the final year of secondary education is not always a true indicator of your ability to succeed at university. We will consider your school's recommendation about your academic performance and potential for university study for admission to a wide range of Flinders courses. For consideration, submit an application form direct to Flinders University in addition to your SATAC application.

Elite athlete admission scheme

As a sportsperson, you're used to putting in the hard yards, focusing your mind and pushing yourself beyond the ordinary to achieve the extraordinary. In other words, you have what it takes to succeed at uni. Our dedicated Elite Athletes Admissions Scheme provides a pathway to university study for elite sportspeople. If you've officially represented your school or state at a national level competition, we'll consider your school's recommendation about your academic potential when you apply.

TAFE/VET study

Many students decide to come to university after completing a TAFE/VET qualification. We reserve places in most of our degree courses for TAFE/VET graduates. Even if you did not finish high school (Year 12), your TAFE/VET qualification may allow you to enter university.

If you've completed a TAFE/VET Certificate 3 or higher, you're eligible to apply for undergraduate courses at Flinders. A TAFE/VET Certificate 4 or higher-level qualification offers you guaranteed entry into a range of courses and may be converted into credit towards your chosen degree.

Your study at TAFE/VET does not need to be related to your selected area of study at university. However, you will be ranked on the level of your TAFE/VET qualification – the higher your qualification, the more competitive you will be in obtaining admission to Flinders, and the course of your choice.

Extension Studies

Ready to take your studies to the next level? The Extension Studies Program is your chance to dip your toes into university life while still in high school! This exciting opportunity lets high-achieving South Australian students explore university-level subjects, all while complementing and extending their SACE studies.

It's perfect for students who are up for a challenge and ready to take on a more independent style of learning studying alongside university students. This program does require some serious commitment, and you will need the support of your school and parent/caregiver to complete. You will enrol in one university subject each semester during your Year 12 year so it's a manageable way to get a taste of what's ahead.

There are many topics available as part of the program and students may choose to study a maximum of one topic per semester. Topics can be from different study areas and it's important to consider the class commitments and the delivery location to ensure these will fit with your school timetable. Topics are available from study areas including:

- Business
- Computer Science and Information Technology
- Criminology
- Engineering
- Languages
- History
- Health
- International Relations and Political Sciences
- Law
- Medicine
- Psychology

The best part? Successfully completing two university topics through this program will guarantee you entry into many degrees at Flinders University, giving you a head start on your future! Plus, each topic you complete will earn you 10 credits towards your SACE and can count towards your future university degree, if the degree structure allows.

When it comes to your ATAR, the Extension Studies program gives you an edge. These university topics can count towards the 30-credit Flexible Option on your ATAR calculation, with grades converted like this:

- High Distinction = 10
- Distinction = 9.9
- Credit = 9
- Pass = 7.9

For example, if you complete two topics, you could earn:

- Topic One: High Distinction (10 points)
- Topic Two: Credit (9 points)
- Combined score towards ATAR: 19 points

It's a great way to get ahead, earn credits, and set yourself up for success in both your SACE and university studies. Be sure to chat with your school's SACE Coordinator for extra support and guidance.

Ready to take on the challenge and get ahead of the curve? This is the way to do it!

Flinders University will offer half fee scholarships to support students to undertake Extension Studies topics. This will require the student's school or parents/caregivers to fund half of the tuition fee for each topic. The University will cover the Student Services and Amenities Fee.

To find out more including the full list of topics available and how to apply visit: flinders.edu.au/extension

Post-school Pathways

We know that not everyone takes the traditional path to University that's why we have a range of admission pathways so you can reach your career goals.

Foundation Studies

The Foundation Studies program has been designed to introduce you to university study in a supportive learning environment. Open to people from all backgrounds, Foundation Studies provides a pathway to gain entry to most degrees at Flinders and offers guaranteed entry into some degrees. This program is not available to students enrolled in Year 12 studies (South Australian Certificate of Education (SACE) or equivalent) or to students enrolled below Year 12 studies; or to those who were eligible to be enrolled in Year 12 studies in the year they wish to commence this program.

Intensive 5 weeks full-time

The 5-week intensive course allows you to fast-track your university entry with 2 hours in class (online or on campus) during business hours, plus 4 hours of independent study each day.

Standard 4 months or 7 months

Flinders Foundation Studies offers a 4-month and a 7-month course that gives you plenty of time to study around your lifestyle. On completion, you'll be ready to start your new degree at Flinders. flinders.edu.au/foundation

Foundation Studies Options

Fast-tracked 5-week intensive option

Online or on campus
Classes during business hours
Start in February or July
Start your degree in July or the following year in February

Standard 7-month option

Free*
Online or on campus
Evening classes
Start in February
Start your degree in the following year's February intake

TAFE SA dual offers

You can apply for a TAFE SA* diploma or advanced diploma that is linked to a Flinders degree. You'll receive an offer to both TAFE SA and Flinders University and on successful completion of the TAFE course, you'll have secured an offer for a Flinders degree. TAFE SA dual offers are available for a range of Flinders degrees.

*TAFE SA RTO Code: 41026

Tafelink

Flinders offers guaranteed entry to selected degrees for applicants who have completed a TAFE/VET certificate IV or higher level qualification, as long as degree prerequisites are met. Importantly, your TAFE/VET qualification does not need to be related to your selected area of study at Flinders.

Skills for Tertiary Admissions Test (STAT)

The STAT is a two hour test consisting of 70 multiple choice questions. It's designed to assess a range of abilities and competencies considered important for successful university study. You must be 18 as of 1 February the year you intend to begin university study to be eligible. Apply to sit the test via ACER.org.au, in addition to your SATAC application. STAT scores can be used for entry into most Flinders courses.

Applying for University

How do I qualify for university?

There are multiple ways to qualify for university entry at Flinders:

- Complete Year 12: South Australian Certificate of Education (SACE), International Baccalaureate (IB), or interstate/overseas equivalent.
- Have the appropriate combination of Tertiary Admissions Subjects (TAS).
- Complete a bridging program (i.e. Foundation Studies).
- Complete the Skills for Tertiary Admissions Test.

To make sure you are completing the correct combination of subjects, please check the SATAC publication ‘SATAC Tertiary Entrance SACE & NTCET 2024 | 2025 | 2026.’ This can be downloaded from satac.edu.au

Some of the courses you are interested in may have prerequisite subjects – a subject which you are required to successfully complete in order to be eligible for entry.

Some courses also have assumed knowledge – a subject area in which your lecturer will assume you have studied previously.

Finally, some will have additional entry requirements such as tests and auditions, or they may require a portfolio of work. Details about what is needed and when these requirements have to be satisfied are listed in university publications and the SATAC University Guide.

How do I apply for university?

All students – both Australian and International – studying Year 12 in Australia must apply online through SATAC at satac.edu.au

SATAC applications open in early August. You can choose six preferences in the SATAC Uni system. Ensure you submit your application by the late September deadline.

If you lodge an application after this date, but by the December deadline, you will be given equal consideration provided you pay a late fee. You can amend your application as many times as you like, up until early January.

For more details on application dates, please refer to the SATAC Guide or website.

How should I order my preferences?

Check you are eligible for the courses you list:

- Do you have the prerequisite subjects or assumed knowledge if required?
- Will you meet any other selection requirements?

Will you meet any other selection requirements?

You may enter up to six course preferences that you would like to study. You should list these in the order in which you would like to study them, with the one you would like most listed first.

If you cannot be offered a place in your first preference, you will then be considered for your second preference and so on.

It is also important to consider a backup plan. Ensure you include our recommended pathway courses in your preferences.

The recommended pathways for each degree are listed in this guide and are also available at flinders.edu.au/pathways

Call us when you receive your results and the friendly staff at Flinders will offer you personalised advice to maximise your chances of receiving an offer to your first preference.

How will I be selected?

In most instances, the number of eligible applicants exceeds the number of places available. Eligible applicants must therefore be ranked in order of merit. The university will fill the places with the highest qualified applicants.

Your chances of being selected into a university degree may depend upon these factors:

- The number of places available.
- How many other eligible applicants there are.
- How competitive your Selection Rank (or other method of entry) and other criteria (if relevant) are in relation to the other eligible applicants.
- Your eligibility for guaranteed entry.
- Your performance in Flinders uniTEST.

What is a guaranteed entry selection rank?

Students who achieve a Selection Rank equal to or above the published Guaranteed Entry Selection Rank and meet any course prerequisites will be guaranteed a place at Flinders. All you need to do is ensure you have listed Flinders courses first in your preferences and you will be offered a place in the highest Flinders course preference for which you are eligible. A list of course Guaranteed Entry Selection Ranks can be found at: flinders.edu.au/selectionranks

How do I calculate my adjusted selection rank?

Adjustment factor points are added to your university aggregate, not your ATAR. Once you have received your results, contact Flinders for your adjusted Selection Rank.

How will I find out if I am offered a place at university?

The first offer main offer round is in mid-January. You can check your offer online on the SATAC website. You must respond to your offer and follow any instructions detailed in your offer email. Remember, there are numerous offer rounds so if you don’t receive your first preference, speak to us about your options.

How can I defer my place at university?

It is possible to defer your place in most Flinders courses. This means your place will be kept for you to begin studying the following year. Check to see if your preferred course is deferrable, and see further instructions at flinders.edu.au/defer

What does it cost to study at university?

Students who are Australian Citizens, or New Zealand Special Category Visa (SVC) holders who meet long-term residency requirements, or holders of Permanent Humanitarian Visas, are eligible for a Higher Education Contribution Scheme (HECS-HELP) loan, and do not have to pay their student contribution amount upfront. This means you pay nothing towards your course fees while you study, and then pay back your student contribution amount in small instalments when you are working.

However, some students choose to pay their student contribution amount upfront. Permanent Residents and non-protected SVC New Zealand citizens must pay their student contribution amount upfront.

International students pay the full cost of their tuition, and they are not able to defer this payment.

Full details of the HECS-HELP scheme, your eligibility and repayment options are available at the Study Assist website: studyassist.gov.au.

Other costs that all students need to plan for include books, equipment, possibly field trips, and the cost of accommodation, transport and general living expenses.

How can I find out more information?

flinders.edu.au/study

satac.edu.au

studyassist.gov.au

studyadelaide.com (international students)

Personalise your degree

The Bachelor of Letters is designed to provide you with an avenue to pursue your passions and gain skills that will make you more employable by undertaking a second study area in addition to your primary Flinders degree. Apply directly to Flinders once receiving your primary course offer.

Available specialisations are:

- Creative Writing
- History
- Mathematics
- TESOL

The Diploma of Language can be studied alongside most other degrees at Flinders, allowing you to learn a new language, or extend your previous studies in:

- French
- Indonesian
- Italian
- Modern Greek
- Spanish

Flexible study options

Many Flinders courses offer you flexible study options, including part-time and online options. Flinders online courses provide a convenient and flexible way to achieve your study and career ambitions. You’ll receive the same quality education and qualifications as on-campus students, with dedicated support available throughout your entire degree. Students on-campus also have flexibility with online lectures, choosing your own timetable and face-to-face, as well as online support services available.

Study abroad

Make the most of your time at uni and check out the amazing range of exchange opportunities available. With over 80 world class partner institutions to choose from around the world, studying abroad is a great way to expand your horizons with us.

Scholarships at Flinders

With over 450 scholarships worth \$2.4M in total and ranging from \$1,000 – \$20,000, Flinders can help you make the most of your university experience.

The Flinders University scholarships program includes a generous range of scholarships available for new and continuing students in undergraduate courses.

In particular, Flinders University provides scholarships to students from low socio-economic backgrounds, students from rural and regional areas and Indigenous students. Flinders University also has strong links with TAFE SA and other educational bodies, and offers specific scholarships to support transition from TAFE and VET programs into higher education.

Which scholarships can I apply for?

Search for scholarships applicable to you by using the filter options in our scholarships search engine at: [Current students > Scholarships > Search for scholarships](#)

Make sure that you check the full eligibility rules before applying.

How do I apply?

1. Access student system

You can apply online once you have enrolled in your Flinders course: Log in to your Flinders dashboard (Okta) using your FAN and password Click the Student System button Select the ‘My Scholarships’ tab

2. Apply for the scholarship

Apply for all the Flinders undergraduate scholarships applicable to you.

3. Submit your application

Ensure that you upload all necessary supporting documentation before submitting your application. All scholarship applicants are notified of the outcome of their application via their Flinders University email address. Go to [Current students > Scholarships > How to apply](#)

When do applications for undergraduate scholarships close?

Most undergraduate scholarships are open for application from December and close in the period from January through to March. Some scholarships open and close later in the year, so check individual scholarship details on the Flinders website. Go to [Current students > Scholarships > Search for scholarships](#)

Can I defer my scholarship?

Undergraduate scholarships are not deferrable.

Can international students apply for scholarships?

The scholarships featured in this guide are for domestic students only. Some scholarships are available for international students, usually requiring an application before arrival in Australia. For information about international student scholarships, select ‘Scholarships specifically for International students’ in our online search engine at [Current students > Scholarships](#).

Are there other scholarships, external to Flinders University?

Yes, check the full range of scholarships listed on the Flinders website. Some scholarships require an application to an external organisation. You may also wish to use external databases such as gooduniversitiesguide.com.au/scholarships to search for further scholarships.

Can I apply for more than one scholarship?

You would normally only receive a maximum of one scholarship, however you are encouraged to apply for all scholarships or groups of scholarships for which you are eligible.

How do I demonstrate financial hardship?

A number of scholarships require evidence of financial hardship. Your recent Centrelink statement will be required to prove financial hardship. If you are not in receipt of Centrelink payments, you will need to complete a Financial Hardship Form and submit it to Student Finance Services. The Financial Hardship Form is available at [Current students > Scholarships > Forms](#)

Can I receive my scholarship for part-time study?

This depends on the scholarship rules, which you will need to check carefully. In cases where part-time scholarships are allowed, you may need to demonstrate exceptional circumstances which indicate why you cannot study full-time. This may include full-time caring commitments for children under school age, medical reasons or a disability.

Am I a rural or regional student?

Flinders University considers a student rural or regional by comparing your home address against the Australian Standard Geographical Classification (ASGC) of regional and remote locations. You can view the map via: doctorconnect.gov.au

Will my scholarship affect my Centrelink payments?

Merit-based and equity scholarships, including the awards listed in this guide, are exempt from Centrelink’s income assessment up to \$10,094 (2025). Any amount from scholarship(s) payments over \$10,094 pa is considered personal income and may affect your fortnightly Centrelink payment(s).

Make sure that you report any scholarship that you receive to Centrelink. For more details, visit: servicesaustralia.gov.au

Will I be eligible for a Start-up payment or Relocation Scholarship from Centrelink?

Students in receipt of Youth Allowance, Austudy or ABSTUDY are eligible for an income-based Start-up Loan to assist with the costs of study. Loan payments are made in semester instalments alongside Centrelink support, and are repayable in the same way as HECS-HELP.

Relocation scholarships are non-repayable grants made available for students who must live away from their family home to study and are in receipt of Centrelink payments. For more details, visit: studyassist.gov.au

Do I need to pay tax on my scholarship?

Scholarships for full-time undergraduate study are usually not taxable. If you are a part-time student or are receiving multiple scholarships, then you should check with the Australian Taxation Office (ATO). Phone 13 28 61 or visit: ato.gov.au

Vice Chancellor Domestic Academic Excellence Scholarship	For high achieving students achieving an ATAR of 99.5+ and commencing undergraduate study.	\$12000 per year for 4 years
Flinders City Campus Business Scholarship	For commencing students studying business courses at the City Campus.	\$7500
Flinders University Student Access Scholarship	To provide financial support for student from low SES backgrounds who are commencing their first year of undergraduate study.	\$5000

Getting to Flinders

While Flinders’ main campus is spacious and stunning, getting there and getting around is easy.

Walk, ride or drive to Flinders (Bedford Park)

Flinders Bedford Park is easily accessible by foot or bike, with designated walking paths linking the Sturt precinct, main precinct and the Medical Centre, and many shared pedestrian and cycling paths leading onto campus.

If you are cycling, Bedford Park has eight sets of bike rails around campus, plus three lockable bike storages. There are also plenty of showers and change rooms across campus to help you freshen up once you’ve arrived.

If you choose to drive to campus, Flinders has affordable, safe and secure car parks available across campus, including a sustainable car park featuring around 4,200 solar panels. There are many permit and casual parking options available on campus to suit your needs.

Jump on a bus or train

Bedford Park is just 22 minutes from the CBD by train, and Flinders Railway Station, featuring an elevated, enclosed platform gives you easy access to our Bedford Park, Tonsley and City Campus.

The main trainline to Flinders is the city to Flinders service. For those who live to the south of Bedford Park, the Seaford to city service can be caught and the following connecting services taken:

- 681 bus a short walk from Seacliff railway station
- 300U bus a short walk from Oaklands railway station

Opened in June 2022, the electrified Gawler Rail Line provides services from the northern suburbs to the CBD, with express services expected to take around 48 minutes from Gawler to the CBD.

If you prefer to travel by bus, you have plenty of options. The main buses that service Bedford Park campus are:

- 101 Arndale Centre Interchange to Flinders University
- 300 Suburban Connector Glenelg, Henley Beach and Grange via Arndale Centre Interchange
- 601 Old Reynella Interchange, Aberfoyle Hub and Blackwood Interchange to Marion Centre Interchange
- 681 Hallett Cove Beach Station to Flinders University
- 719 Flinders University to city
- G10 Marion Centre Interchange, Bedford Park, Colonel Light Gardens and city to Blair Athol
- G40 Golden Grove Village Interchange and Tea Tree Plaza Interchange to Flinders University

Getting around campus

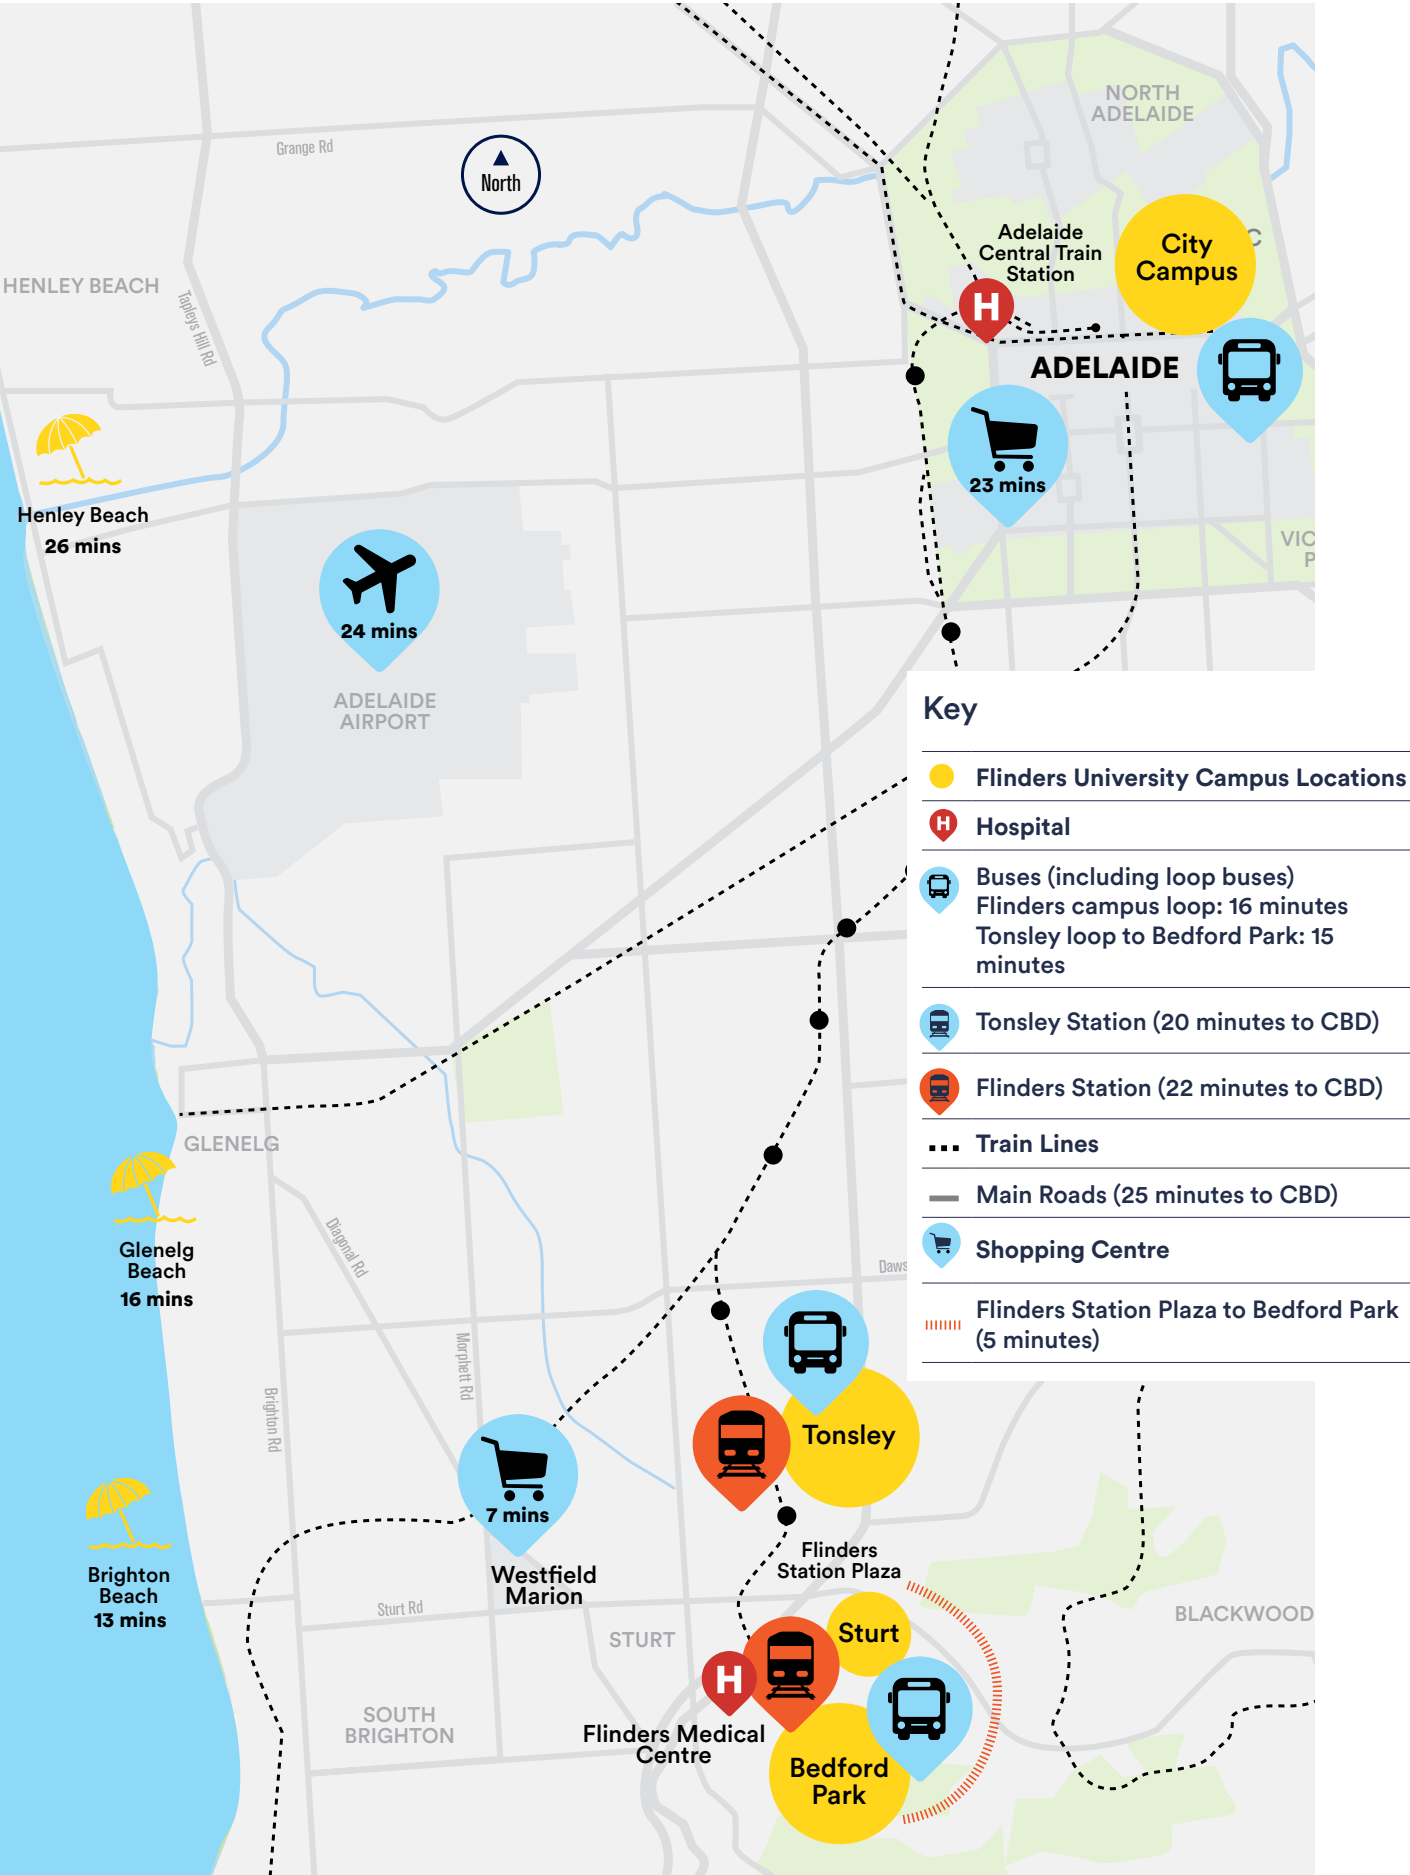

There are a variety of transport options to help you make your way around campus.

The University loop bus is a free service that links the main campus, Sturt and the Flinders Medical Centre (FMC) bus interchange. Buses normally arrive every 20 minutes from 8.15am to 6pm during semester time (including exams). An evening service connects Flinders to nearby suburbs every 45 minutes from 6am to 9.45pm.

A free Tonsley loop bus also runs between Tonsley and Bedford Park every half hour from 7.00am to 6.00pm, Monday to Friday.

A free access cab is available for transporting students and staff within University grounds. It can carry one wheelchair and three passengers at a time and meets SA Transport Board requirements.
