

Bold Ideas, Brighter Future

Our 2019 sustainability update

Our 2019 update has harnessed the collective ideas from across our University community and documents a renewed and enhanced focus on sustainability that will support delivery of our 2025 Agenda.

We've used the results of our consultation to formulate an action plan and map our path to 2025.

Our vision and our commitment is detailed in our Sustainability Plan. Each and every year from this point forward, we'll produce an update to:

- Detail our priorities
- Report on our progress
- Showcase our impact, and;
- Celebrate our achievements.

You've told us the key areas that are most important to you. Together, we can work towards making improvements and make Flinders, and our world, a much better place.

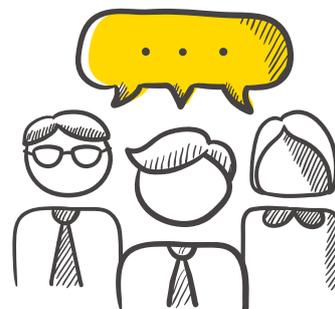

Join us. I strongly encourage you to get involved in any of these key areas and help us to make a positive difference.

Professor Colin Stirling
President and Vice-Chancellor

Top 10 insights from your feedback

- 1** Provide more information on how the Flinders community can make sustainable choices
- 2** Provide a forum for passionate sustainability advocates to have a say
- 3** Find a better way to reduce, reuse or recycle more materials on our campuses
- 4** Support the Flinders community to engage in campus sustainability issues through funding and other support
- 5** Eliminate single use plastics used for food and beverages
- 6** Keep investing in renewable energy generation on campus
- 7** Increase the community gardens on our campuses and grow more edible species
- 8** Enhance the Lake and turn it into a sustainability demonstration site
- 9** Continue to capitalise on efficiency opportunities in energy and water management
- 10** Improve public transport options and support diversity in getting to, from and around our campuses

Priority actions for 2019-20 for each of our themes

Theme	Action	Locations
 Research	<i>Provide support for projects that contribute towards a campus Living Laboratory</i>	University Wide
	<i>Develop metrics to measure sustainability research outcomes and impacts</i>	University Wide
 Learning	<i>Develop processes for incorporation of sustainability knowledge and values into curriculum</i>	University Wide
	<i>Support outdoor classrooms to encourage teaching within campus environments</i>	University Wide
 Energy & Emissions	<i>Develop a framework for transition to carbon positivity</i>	University Wide
	<i>Further expand renewable generation (including energy storage)</i>	Bedford Park Regional Campuses
	<i>Upgrade and centralise air conditioning in the library</i>	Bedford Park
 Water	<i>Enhance the Lake and reduce the use of mains water</i>	Bedford Park
	<i>Increase the use of recycled water in buildings and on campuses (where appropriate schemes are available)</i>	Bedford Park Tonsley
 Transport	<i>Begin replacement of fleet vehicles with low carbon alternatives and provide associated infrastructure (e.g. electric vehicle charging points)</i>	University Wide
	<i>Introduce new mobility options (such as electric bikes and scooters) and provide charging infrastructure</i>	Bedford Park Tonsley
	<i>Improve pedestrian paths and provide water fountains and rest spots</i>	Bedford Park
 Resource Recovery	<i>Initiate a waste and recycling review</i>	University Wide
	<i>Install additional recycling infrastructure and equipment</i>	University Wide
	<i>Divert organic waste for on-campus use as fertiliser</i>	Bedford Park
 Buildings & Landscapes	<i>Undertake a biodiversity assessment to provide a baseline for maintaining flora and fauna diversity</i>	Bedford Park
	<i>Incorporate Environmentally Sensitive Design principles in any new Flinders developments</i>	University Wide
 Food	<i>Further expand the market garden and formalise links with McHughs building</i>	Bedford Park
	<i>Transform Social Sciences North courtyard into a food bowl</i>	Bedford Park
	<i>Roll out the food program to other buildings or campuses</i>	University Wide
 Social & Community	<i>Map the University contribution towards UN Sustainable Development Goals</i>	University Wide
	<i>Introduce sustainable procurement requirements into major contracts</i>	University Wide
